What is CASTORIA. Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil.

Castoria. "Castoria is the best remedy for children of which I am acquainted. I hope to-day to see for distant cities and orders will make me the friend of a million children, and I use Castoria in all the various cases of colic, worms, and other troubles of the bowels, which are so distressing to the young, and which are so often the cause of their death."

Castoria. "Our physicians in the children's department have spoken highly of this preparation in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular Castoria, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

USE POND'S EXTRACT. Have the early frosts or too late a lingering by the garden gate again aroused that RHEUMATISM so peacefully slumbering the summer long? Well, if it's very bad you must change your diet and perhaps take some distasteful drug—the doctor will tell you what—but first rub thoroughly the part afflicted with POND'S EXTRACT, then wrap it warmly with flannel, and the rheumatism may wholly disappear. It will certainly be much relieved. Now that you have the POND'S EXTRACT try it for any of the many things it buff whorper mentions. It's a wonderful curative. But don't accept substitutes. now, 'Pippa Passes,' and I assure you, Mrs. Walker, that I don't even know what the title means. You must think me a dreadful fool." "But surely he is not so incomprehensible as all that?" she said as an attempt at encouragement.

"He is very bad. There are some things you know which are fine. That ride of the three Dutchmen, and 'Herve Riel' and others, they are all right. But there was a piece we read last week, takes a good deal to do that, for she rides very straight. 'Setebos and Setebos and Setebos.' That was the line."

"No, it is a gentleman's name. Three gentlemen, I thought at first, but my aunt says one. Then he goes on, 'Think of the dwellth in the light of the moon.' It was a very trying piece."

"You must not think of leaving your aunt," she said. "Think how lonely she would be without you."

"Well, yes, I had thought of that. But you must remember that my aunt is to all intents hardly middle aged and a very eligible person. I don't think that her dislike to mankind extends to individuals. She might form new ties, and then I should be a third wheel in the coach. It was all very well as long as I was only a boy, when my first husband was alive."

"If you do you will nine times in ten, have a fever to starve. A cold is a shock received by the myriads of nerves that bristle near the surface of a human body. This shock is transmitted to the nerve centres, and then back to the stomach, forcing a great amount of blood to those membranes, creating a more or less severe irritation and consequent rise in the temperature, followed by a chill. Excess of food in the stomach still more increases the temperature, and, worst of all, helps clog secretions or natural outlets of the body. It is high time we broke away from an old notion which, like a millstone, has done more harm than good. For example, in years past how many poor fever sufferers, burning with internal fire and thirst, were hurried to an untimely grave because they refused to take a little water, or a bit of cold water and drank to a pump of cold water and drank his fill, determined not to leave till the well ran dry, he slackened the fever, recovered, and doctors learned a lesson. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy only until some friend suggests another 'safer' cure, as Mark Twain so humorously describes. When slight hoarseness or tightening of the nose membranes warn of a skin eruption or chill from wet, act promptly; a delay is dangerous. With children, it may mean croup and strangulation with adults, catarrh, bronchitis, perhaps pneumonia. If neglected, nothing can prevent the spreading, red nose, and we may lose a person with a cold. Scores of mothers would as soon go to bed without matches in the house, as without that old-fashioned remedy, Johnson's Anodyne Liniment, near at hand for croup, whooping cough, or a bit of cold. It is a mild, nutritious diet, a gentle physic to open the secretions, and a bottle of that old Anodyne from your druggist, will conquer any cold. Johnson's Anodyne Liniment was originated by an old family physician more than seventy years ago.

A Pave Breath is a Sailed Charm. Many a beautiful form and face loses its charm in an impure breath. Catarrh does not choose its victims, the innocent babe, the beautiful and wretched maiden, and the many lover alike fall victims to this offensive and foul plague. Hawker's Catarrh Cure will positively cure the most aggravated cases of Catarrh, restoring to the breath its pristine sweetness and removing all its disagreeable and unhealthy symptoms. Sold everywhere, only 25c.

The Children's Favorite—Hawker's Tolu and Wild Cherry Balm. Your druggist is honest if when you ask him for a bottle of Scott's Emulsion he gives you just what you ask for. He knows this is the best form in which to take cod liver oil.

A Railway Manager says: "In reply to your request to let my children object to taking Scott's Emulsion, I say No! on the contrary, they are fond of it and it keeps their pictures of health."

The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative and the father or mother be constipated or bilious, the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

MATEFUL PLEASING RELIEF AFTER MANY DAYS.

How a Queens County Man Found Permanent Healing.

His Own Experience Tells Fully and Freely some Truths which all Readers of this Paper Should Know.

Here and there, in almost every town of our province, are "chronic" cases over which doctors disagree; cases that become worse year after year. It is to reach such the gentleman to whom these lines refer, and whose portrait is here given, has written the story of his case.

Mr. Branscomb's home is in Chipman, Queens Co., N. B. It was there that a representative of the Groder company called upon him, Sept. 1st, of the present year. His greeting was most cordial. He gladly acknowledged his thanks, giving expression to the following statement:

"It is five years since I first became afflicted with a form of indigestion. Last winter it became more severe, developing into chronic diarrhoea. I cannot tell you how much I suffered for SIX LONG WEEKS. It seemed as though relief could not be found. You will remember how I told you of my condition. I asked your advice about taking a bottle of GRODER'S SYRUP. You told me that the medicine was a laxative and might not meet my needs. I delayed buying for a few hours until I began to hope that it would help me. Even my clothes seemed a burden because of bloating of stomach. It was with difficulty that I kept about sufficiently to attend to my business. But I am a well man now from the use of your remedy. In three days after I bought GRODER'S SYRUP the terrible pain and distress across my stomach were removed. My bowels rapidly assumed a natural, healthy condition. Now I eat and drink as well as I ever could. I have gained constantly in flesh since March last. I am perfectly cured."

It seems a duty for me to state my case fully, that others who suffer as I did may know where to find a cure."

Truly yours, E. A. BRANSCOMB,
