IN MEMORIAM

SORRIE — In memory of our dear father William Sorrie, who died at Albion on Dec. 8, 1943.
Tonight the stars are gleaming,
On a lonely silent grave;
Where one we loved lies sleeping,
One we loved but could not save.
May heavens winds blow softly,
On that sweet and hallowed spot;
Where one we loved lies sleeping,
Who will never be forgot.
Though his smile is gone forever,
And his hand we cannot touch.
Still we have so many memories,
Of the one we loved so much.
Ever remembered by Velma and Jeanette.

QUIGLEY — In loving memory of Frank W. Quigley, who passed away on Dec. 9th, 1950.
Always remembered by Tena.

MACKINNON—In loving memory of Mrs. Mary H. MacKinnon of Whim Road, who passed away, December 7th, 1948.
"Though years have passed,
Loving memory lingers on."
Ever remembered by sister Annie and Family.

JOHNSTON—In fond and loving memory of Pte. Aeneas D. Johnston, killed in action Dec. 8th, 1943.
Yes, others lost loved ones,
That I know,
But he was our Daddy,
And we loved him so.
Always remembered by daughter Gertrude.

CHANDLER — In loving memory of my dear dad, Fred Chandler, who passed away Dec. 8, 1952

We do not need a special day.
To bring him to our minds
The days we do not think of him
Are very hard to find.
If all the world was ours to give
We'd give it all and more
To see the face we missed so much
Come smiling through the door.
Ever remembered by his son Bruce.

MACLEOD — In loving memory of W.C. MacLeod Kensington who passed away Dec. 8, 1945.

A happy home we once enjoyed,
How sweet the memory still,
But death has left a loneliness
This world can never fill.
Ever remembered by his Wife and Family.

CARD OF THANKS

I wish to extend my sincere thanks to Dr. Beer, Dr. Auld, nurses and staff of the Prince County Hospital, also to the clergymen and many friends who sent flowers, cards, treats, while I was ill.
Mrs. Lorne Silliker, Malpeque.

N.S. Speeds Entry Of Refugees

HALIFAX (CP)—The Nova Scotia government has taken steps to speed up entry of Hungarian refugees into Canada through Nova Scotia ports.

Premier Stanfield announced Tuesday he has arranged for quick medical examination of refugees in co-operation with the Halifax Medical Society, the Canadian Medical Association and the Halifax city health department. The action followed a request from Prime Minister St. Laurent.

About 1,100 refugees are scheduled to arrive in Halifax by ship before Christmas. The first group of 350 is expected on the liner New York Dec. 12.

The premier said: "Further action and organization will be undertaken as information from the immigration authorities indicates the need."

The provincial government has donated $5,000 to the Canadian Hungarian Relief Fund, Mr. Stanfield said.

START HELI-SERVICE

NEW YORK (AP) — Helicopter passenger service linking Manhattan and the three major metropolitan area airports was started Wednesday. Four passengers paid $5 each on the first flight between Laguardia Airport and Manhattan's new heliport near the Hudson River. Helicopter taxi service also connects with Idlewild Airport and the Newak, N.J. airport.

Announce Railway Plans To Handle Heavier Freight

Moncton, N.B— Steadily mounting movement of freight within the Atlantic provinces surpassing even the heaviest demands of the war years is pointing to an all-time record of rail traffic in the Atlantic Region of Canadian National Railways this winter season, according to R.G. Hayes, vice-president and general manager of the Atlantic Region. "Preparations to meet the tremendous demand upon our rail services are widespread throughout the region," Mr. Hayes said. "The motive power roster is being increased by Charlottetown 79 locomotives, 50 steam and 29 diesel and facilities general are being improved and readied for greater capacity.

The present motive power on the Atlantic Region consists of 129 steam units and 164 diesels and by the end of December 50 additional steam locomotives and 11 diesel road switchers will have been added to the C.N.R.'s roster in this region early in 1957 the complement will be still further increased by delivery of 16 new diesels. Improvements to the CNR's railway yards throughout the region have been made and are in the process of being made. A yard extension finished at Edmundston has added four long tracks. The Saint John yards are being expanded to eliminate congestion for through traffic at Moncton and at Truro receiving and departure tracks have been extended.

Train services have been revised and schedules stepped up to keep pace with the demand . A regular fast freight train will be operated this winter between Lake St. John in Quebec and Moncton. Starting on December 18 export traffic for Halifax and Saint John will connect at Moncton with manifest trains which will operate between the three cities during the winter. Special train arrangements have also been made to handle all import and domestic traffic for points west of Moncton.

Experienced workers have been added to the staffs at Edmundston, Napadogan and Truro. A freight traffic expeditor and extra yard office staff are being employed at Moncton at Halifax additional switchers and yardmasters have been assigned to provide export service twenty-four hours a day, seven days a week and at Saint John a traffic supervisor has been appointed to give special attention to import and export traffic through that port. Arrangements have been made to get empty cars out of the Atlantic ports regularly during the winter. This applies principally to grain cars and during the season trainloads of empties will operate daily as required out of Halifax. At the present time 50 carloads of grain are moving into Halifax daily and this traffic expected to be equally as heavy to Saint John. The tempo of the shipments of grain to the Atlantic ports will increase as the winter season progesses.

In order to bear the brunt of this surge of traffic the maintenance program in the Atlantic Region has been stepped up. This year more than 200 miles of new rail were laid on main and branch lines compared with 90 miles in 1955. There were more than 500,000 creosote-treated cross bridge and switch ties laid on main lines in the region. 450,000 cubic yards of crushed rockballast were used to keep up the roadbed.

Nehru Says That 18-Nation Control Committee Is Dead

NEW DELHI, India (Reuters)—Prime Minister Nehru told Parliament Tuesday that before the Anglo - French attack on Egypt could have succeeded "there would have been a third world war."

Egypt and Hungary, he added, had made it clear that any "return to colonialism" would fail, and that "communism or socialism cannot ultimately be imposed by force."

Nehru said he welcomed the Anglo - French withdrawal from Egypt, but was "amazed" that Foreign Secretary Selwyn Lloyd should suggest the 18-power proposals as a basis for solution of Suez Canal problems.

These proposals, made at a London conference last summer, recommended that an international body run the Suez Canal following its nationalization by Egypt. India recommended instead that Egypt continue to operate the canal, aided by an international advisory body.

PROPOSALS DEAD

The 18-nation proposals, Nehru declared, "were as dead as cold mutton and rejected before the fighting began."

Nehru announced that India's contingent in the United Nations emergency force would remain in Egypt only as long as it was agreeable to the Egyptian government. The international force was not going to Egypt as a continuation of the Anglo-French force.

"We go there because Egypt agreed on our going there. We remain so long as the government of Egypt is agreeable.

"We are not going to seize hold of the Suez Canal but to keep more or less to the border."

The council of states (upper house) approved the government's foreign policy and defeated an opposition amendment criticizing the government for not taking a sufficiently strong stand on Hungary from the beginning.

To Study Nfld. Tax Structure

ST. JOHN'S, Nfld. (CP)—Premier Smallwood announced Tuesday his government has obtained the services of J. Harvey Perry, director of the Canadian Tax Foundation, to help Newfoundland develop a "sound and efficient system of budgeting on revenues and expenditures."

The premier said Mr. Perry will "make a careful study of the public finances of Newfoundland and of our whole budgeting system."

This would include studies of expenditures, sources of revenue, public debt, and development and growth of assets. Mr. Perry would also be asked to make a "sound and prudent" forecast of annual revenue for the next year or two and "some estimates" of annual revenue during the next four or five years.

The government will be "far more able" to plan expenditures if it has a better idea of its income, the premier said.

Mr. Smallwood said Mr. Perry's findings will help the government make the "best possible use" of increased financial assistance probably "millions of dollars"—under revisions in the terms of union with Canada to be recommended by a royal commission next year.

He said there is a question whether such funds would best be spent yearly or as interest and sinking fund on "a large capital sum" to enable the earlier building of badly needed public works.

U. S. Auto Output Hits 1956 Record

DETROIT (AP)—Auto Production will hit a 1956 record of 170,398 units this week in U.S. factories, Ward's automotive reports said Friday.

The previous high for the year was set last week when 159,976 cars were produced. The program is only six per cent below the all-time record of 180,754 set Nov. 7-12, 1955.

Canadian motor vehicle output was estimated at 10,090 cars and 2,342 trucks compared with the previous week's 9,405 cars and 2,128 trucks the week before. Ward's said 6,422 cars and 886 trucks were built in Canada in the same week of 1955.
