

Kinsmen Picnic Yesterday At Stanhope Beach

Another mommoth picnic put on by the Charlottetown Kinsmen Club was held at Stanhope Beach yesterday afternoon. This was "Boys' Day" and three chartered buses carried the 225 boys out to the shore for a delightful picnic. The same competent staff of supervisors from the City Squares was on hand and did a real job of conducting the sports events on the program and other supervisory work. Starter for the day was Dr. Duffy who ran off the events in his usual efficient manner.

After the customary swim, races, etc., the boys were served lots of sandwiches, ice cream, fruit and both chocolate and plain milk, by the Kinsmen and Kinswomen. After the presentation of prizes for the sports events there was impromptu entertainment by the Misses Giddings, and Rupert, which was much enjoyed by the boys. It was quite apparent on the departure of the loaded buses for home that a swell time had been enjoyed by all.

5th Queens Liberal Meeting Postponed

The annual meeting of the Fifth District of Queen's Liberal Association scheduled to be held at the Clover Club last night was postponed when only a small group of party representatives showed up. It was decided by those present to hold it at a future date to be set by the executive.

Mr. Simeon Paoli, president of the Association, presided and made the suggestion that the meeting be postponed for two weeks as he considered the election of a new slate of officers too important to be handled with so few present. Mr. Lester O'Donnell stated that he thought every poll chairman should be told to attend with the customary five delegates.

Heard during the brief discussion relative to the postponement were Messrs. Benjamin Rogers, Jr., and Mr. P. R. McCormack. Hon. A. W. Matheson, Minister of Health and Welfare, and Mr. B. Earle MacDonald, M.L.A., were present.

No Protest Of N. Y. Man As MacNeil Chief

ST. ANN'S, N. S., Aug. 6—(CP)—There was no sign of the crumach tonight on the eve of the annual Gaelic Mod here—only the lonely wall of the pliboch.

So far, no Scot has protested that Robert Lister MacNeil of New York is a "pretender" to the chieftainship of the Clan MacNeil. The MacNeils of nearby communities said they would recently when Robert was invited to open the gathering. Their champion was Colin MacNeil of Vernon River, P.E.I., a 52-year-old railroad sectionman.

Robert had no comment for reporters tonight, preferring to let the matter rest. There was no sign of Colin, whose father, Rodgerick, was killed in the Isle of Barra in 1900 when all insignias of chieftainship were conferred upon him in Kismul Castle.

The dispute stems from a complicated genealogical setup, further complicated by the old Scottish law of tanistry, which permits a laird to transfer his title to one of his choosing.

The dissenting MacNeils comprise 90 per cent of their clansmen in Nova Scotia and settle the lochs and glens of Piper's Cove, Castle Bay, Barra Glen and Iona.

Majority of MacNeils in the Maritimes claim Robert is a member of the junior branch of the family while Colin, whose brother Wallace was head of the senior, belongs to the senior.

Two Conservatives In N. B. Retire

HAMPTON, N. B., Aug. 6—(CP)—Two veteran Progressive Conservative politicians retired from the hustings today at the party nominating convention here for Kings County. Hugh Mackay, 64, of Redway and Montreal, who retired as party leader last year, and John Woods, 76, of Bloomfield Station, both refused nomination to contest the Sept. 22 general election.

Both held seats in the last Legislature. Kings County being the only riding in New Brunswick represented entirely by members of the party in provincial and federal houses.

Mr. Mackay, president of W. C. Pitfield and Co. Ltd., and many other financial houses and lumber companies and partner in Hugh Mackay and Company, was first elected to the Legislature at the general election in 1939. He served as party leader from then until last year. Mr. Woods, a farmer and a county councillor since 1927, was elected to the provincial house in 1944.

Island Enjoying Big Boom In Visitors This Summer

This Island Province is rapidly becoming recognized as the Florida of the North, where tourists and holiday seekers may enjoy in the summer months, a few rare weeks of care-free, healthful and invigorating pleasure, as an annual event, essential to welfare and happiness.

While everyone is willing to talk about the weather, and stress the restful qualities of the cool nights after a day of brilliant sunshine and recreational activity, the average visitor really becomes exuberant and enthusiastic in his praise for the all-out effort of the Island people to make their holiday a memorable one.

Interesting records are kept at the Travel Bureau at Charlottetown and Summerside, in which impressions are briefly mentioned by visitors. A visitor from Tennessee wrote "I want to come back again", several referred to "the extreme friendliness of the people", a man from Dorchester, Mass., said "the best looking country I have ever seen"; while a resident of Montclair, N. J., wrote of the "beautiful fertile farms". A much travelled Philadelphia resident said, "Your scenery is tops, I would like to live here." From New York came the tribute "A visit to your Island is a doctor's prescription to a doctor, while a Californian said, "I would like to see these natural colours in a good movie."

More than one record of impression stated, "you have an excellent Travel Bureau", and strange to say the several references to good roads, splendid highways, etc., originated in Nova Scotia.

Overflow Accommodation
At Summerside the local resort operators report their cabins filled to capacity but with ample accommodation available at private homes to meet any emergency. While last year was considered to be a peak one in the tourist business, this year will equal if not surpass it. The average registrations at the Bureau last year was 65-70 per day, while this year's average for the first six days of August was approximately 90. Mrs. Robert Dewar, who operates the Bureau said, "It was busier at this office for the past several days than it has ever been since the office had been opened. We arranged accommodation for one party from as far north as Alaska."

At Montague the cabins and hotels are under capacity pressure, and Mr. Lane who operates a cabin area there added, "Every month this year eclipsed the corresponding month of the previous year at the various cabins and hotels in this area including Lower Montague."

126 cars passed over the Montague Bridge between 4 and 5 p.m. last Sunday when a check-up was made at what is generally accepted as the slackest hour over the route.

Georgetown and vicinity report all cabins filled since early in June, with American and Upper Canadian tourists predominating. One American tourist said that he had been in every State in the Union, except two, and that the Island scenery was comparable to any of them.

American Visitors
Generally speaking there are more American tourists in the Province than last year. A slight variation in the discount in American funds, which has caused some comment, may easily be overcome by asking the local banker what the rate is daily, and quoting him as authority for the same. The unfailing courtesy and outstanding knowledge of the tourist situation and possibilities, on the part of the Charlottetown Bureau staff under Mr. Fraser, is a constant source of satisfaction to those who seek information. Mr. Jack Morris, Miss Audrey MacLeod, Miss Yvonne Ferguson, Mr. Stanley MacNair and Miss Helen Massey, form a group who cooperate to an extraordinary degree in arranging a pleasing and satisfactory holiday for all sorts of people.

The difficulties encountered at Cabou due to congestion of traffic, is a source of much annoyance and disappointment, according to many tourists. All too frequently they are reluctantly compelled to go across country to Tormentine late at night or abandon the Island idea altogether, when no accommodation is available on the last boat.

Cabin operators assert that an otherwise enjoyable holiday is spoiled in many cases when a return to the mainland cannot be depended upon according to the schedule they have planned. "It would appear," said one operator of a large cabin area, "that the tourist business will have to mark

Close Cooperation
The question of accommodation, while not acute, has revealed a high degree of co-operation between tourist resort operators. Mr. Wendell Mutch, who operates a large cabin area at Southport, and Mr. Wallace Rodd who has a similar holding at Winsloe, both expressed the belief that the situation was well in hand. "We have had an overflow June", said Mr. Mutch, "but our connections are well established with other cabin operators, and little difficulty is experienced in placing visitors."

Mr. Rodd had had a similar experience but added, "We are able to pass the excess applicants along to splendid farm homes in this vicinity where the accommodation is highly satisfactory, and the experience welcomed by many city dwellers from afar who are delighted to be located

Revere Ware is definitely what to keep your Revere Ware in full view—no hiding it away in a pot cupboard. It's beautiful and something of which you'll be justly proud. Come see—you'll be simply entranced with the Revere Ware Copper-clad Stainless Steel Utensils in the China Departments of Both Holman Stores.
