

Closing Exercises At O'Leary RHS Are Held

"Learn to get along with other people and to take your place in your community." With these words of challenge, Gordon L. Bennett, M.Sc., of Prince of Wales College, delivered the address to the 1966 Graduating Class of O'Leary Regional High School recently.

Mr. Bennett emphasized the need in modern society for individuals of strong character and principle. He noted that throughout the years, scientists and philosophers have had great convictions and he urged the graduates to have sincere convictions and the courage to live up to them.

The evening's program included also the report of the principal, Mr. E. S. Jelley, B.A., B.Ed. Mr. Jelley stressed the high school's necessity for a more extensive library. A good library, fulfilling the needs of the students in their various courses, is essential if a high school is to function competently.

The valedictory for 1966 was delivered by Miss Linda Cosrain, a member of the Commercial Graduating Class. Musical selections during the program included a trio and choruses by the students; the Girls' Choral Club and the graduates.

The following is the list of prizes and awards:

GRADE XII
Governor General's medal awarded to the student placing highest in the school examinations, merited by Elizabeth Platts.

The prize for highest standing in Grade XII awarded to Elizabeth Platts.

The prize for second highest standing in Grade XII awarded to Shirley Lidstone.

The prize for third highest standing in Grade XII awarded to Glen MacWilliam and Linda Thomas.

The prize for fourth highest standing in Grade XII awarded to Shirley Lidstone.

The prize awarded to the son or daughter of a veteran standing highest in his or her grade awarded to Glen MacWilliam and Linda Thomas.

The prize for improvement in Grade XII awarded to Linda Thomas.

The prize for highest standing in Grade XII French awarded to Elizabeth Platts.

The prize for highest standing in Grade XII physics awarded to Glen MacWilliam.

The prize for general proficiency in Grade XII awarded to Eileen Matheson.

The prize for highest standing in Grade XII mathematics awarded to Elizabeth Platts.

The prize for the student showing greatest improvement in high school awarded to Judy Coughlin.

The prize for a deserving student in Grade XII awarded to Joyce Gallant.

The Student Council Plaque for the boy best combining academic and athletic ability awarded to Glen MacWilliam.

The Board of Trustees Plaque for the girl best combining academic and athletic ability awarded to Eileen Matheson.

CNR Passenger Revenue May Break Even In 1971

New Manager At Moncton

LE Patrinquin has been named manager of The Canadian Imperial Bank of Commerce, St. George St. branch, in Moncton, N.B. Mr. Patrinquin is married to the former Pearl Young of Charlottetown. He has been with the bank since his graduation from Moncton High School in 1960. He served in various capacities throughout the Maritime provinces, including terms as accountant at Saint John, assistant manager at Summerside and director of the credit department in the regional offices in Halifax.

OTTAWA (CP)—After a seemingly endless string of deficits, the CNR is on its way to making money in its passenger service, President Donald Gordon told the Commons transport committee Tuesday.

Barring the unforeseen, the break-even point will come in 1971, and we're not going to stop there. The 66-year-old head of the government-owned railway said.

The railway lost \$36,500,000 on its passenger service in 1965 and was anticipating a \$39,500,000 loss in 1966. The gap between revenues and expenses would be closed five years later.

The CNR and the CPR shared only 10 per cent of the remaining trips so there was plenty of room for both in the passenger field.

It's an experiment, he said. The distillery had increased operations at its Waterloo plant and had suddenly found itself with increased supplies of grain residue. It was decided this would be a good time to try the cattle operation. The only other way would have been to spend \$3,000,000 for a dryer to process the grain for dry cattle feed.

WANTS DEFICIT ENDED
In a brief filed with the committee, Mr. Gordon declared it is CNR's policy to eliminate deficits, not to do away with rail passenger service.

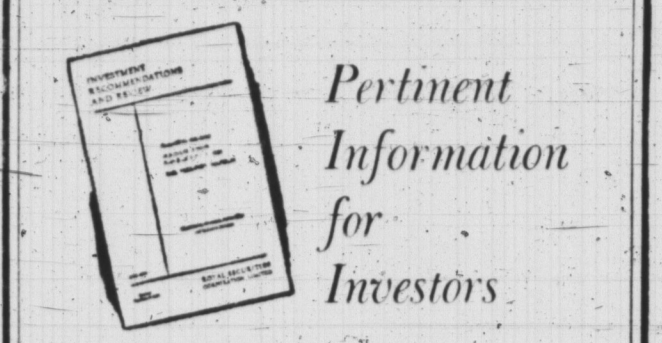

The railway could make money and fulfil a role in inter-city transportation in heavily populated areas of Canada and other areas where there were indications that enough passengers would use trains to produce revenue to meet cost.

After the farm tour, the delegates drove back to Toronto. They are to head for home today, although Mr. Polyansky is staying for a few extra days for a look at farm operations in Saskatchewan and Alberta.

Impaired Driver Fined

Heath William Bowley, Parkdale, charged with impaired driving, was convicted and was fined \$15 and costs or five days when he appeared before Magistrate A.J. Haslam, Q.C., in city police court yesterday.

Joyce Ramsay, Kensington, Elizabeth Francis, Smallwood, city, and Allan David Flynn, city, were each fined \$5 and costs or three days for failing to stop at a stop sign.

Pertinent Information for Investors

Our July issue of *Investment Recommendations and Review* contains informative comment on the twin problem of inflation and overemployment which is affecting stock prices in most centres of the world in spite of high production. A wide list of current offerings is also included.

Russian Parliamentary Group Sees Specialized Beef Farm

Kitchener, Ont. (CP)—Russia's visiting parliamentarians paid their last visit to a Canadian farm Tuesday before winding up a 10-day tour that has taken them from Montreal to Vancouver Island.

Last agriculture stop for the group was Hopewell Farms near here, operated by the Joseph E. Seagrams and Sons Ltd. distillery in Kitchener's twin city of Waterloo.

W.H. Timmis, distillery vice-president in charge of the farm, welcomed the delegation and leader Dmitri Polyansky, Soviet deputy premier.

The group toured the cattle pens where some 2,200 steers were standing in bright sun, occasionally moving up to piped troughs to drink a cloudy liquid.

Mr. Timmis explained the experimental operation, feeding the beef cattle on a solution made from grain used by the distillery and with its alcohol all removed.

Each steer drinks about 30 gallons of the grain residue solution a day, Mr. Timmis replied. There was enough solid food in this amount of solution to bring a weight gain of 1 1/2 to two pounds a day for each steer.

That's a good gain, the deputy premier remarked, nodding his head.

Mr. Timmis said such a weight gain is necessary, combined with luck on the price of beef when it comes time to sell, for the operation to show a profit.

But when Mr. Polyansky asked him what the income is from the beef operation, Mr. Timmis said everything depended on price and the thing is to buy low and sell high.

Mr. Polyansky countered with a grin.

COULD SHOW PROFIT—Mr. Timmis said if the cattle

After the farm tour, the delegates drove back to Toronto. They are to head for home today, although Mr. Polyansky is staying for a few extra days for a look at farm operations in Saskatchewan and Alberta.
