

## Indonesian Red Chief Flees By Sub

By TONY ESCODA  
KUALA LUMPUR, Malaysia (AP)—The Indonesian Communist party's chief, D. N. Aidit, has escaped a military dragnet and fled by submarine to China, a Hong Kong newspaper said Tuesday.

The report of Aidit's flight came out as Radio Jakarta announced capture of the front man of the abortive "Sept. 30 movement" in Indonesia, Lt. Col. Untung. Untung was a battalion commander in President Sukarno's Palace Guard Regiment.

Aidit, 43, is a brilliant executive who, as the leader of a party claiming 3,000,000 members, had been close to Sukarno for the last six or seven years. He vanished from Jakarta when the army, a counter-balance on the conservative side, crushed Untung's leftist coup.

The anti-Communist Hong Kong newspaper Tin Yat Po quoted reliable sources as saying Aidit escaped via the fishing port of Tuban, on the north Java coast 360 miles east of the Indonesian capital of Jakarta.

One phase of its story, however, was at odds with Radio Jakarta's announcement of Untung's capture. It said Untung got away on the sub with Aidit.

**LEADER CAPTURED**  
The army-controlled Jakarta station said another rebel leader, Col. Latif, was captured in Jakarta. Of five battalions that supported Untung, Radio Jakarta said, 90 per cent have either been captured or given up.

In Kuala Lumpur, Malaysia's radio station said thousands of Communists were taking to the hills in central Java to escape the army's dragnet.  
A broadcast from south Sumatra reported action there also.  
A week of mourning for six army generals tortured and slain by the rebels ended Tuesday. Mass rallies in both Jakarta and Medan were reported to have marked the occasion by demanding the crushing of the Communist party and its affiliates.

There was no mention of any response by Sukarno, who has proclaimed a non-revenge policy, to the army's continued campaign against the Communists. Though the reason could not be definitely established, political analysts here speculated the 64-year-old president had given in to army rule.

## Canadian Firm Loses Decision In U.S. Court

WASHINGTON (AP)—The U.S. Supreme Court declined Monday to review and thus let stand a decision that a Canadian insurance firm must make payments in the United States on a policy issued in Havana to Alicia Varas, a Cuban.

The decision was given by the Pennsylvania Superior Court and was appealed to the Supreme Court by the Crown Life Insurance Company, with home office in Toronto.

Crown has a branch in Haverford, Pa., where Miss Varas made demand on a company agent for a payment of the cash surrender value, \$8,965, of her insurance policy. She now resides in Miami, Fla.

Crown's appeal to the Supreme Court said its property in Havana might be confiscated by the Cuban government if it is required to make such payments.

The Canadian government said serious economic consequences for the Canadian insurance industry as a whole could result if the Pennsylvania Superior Court decision is allowed to stand. Crown said it was ready to pay the \$8,965 to Alicia Varas in pesos in Cuba, in accordance with Cuban law. Ten major Canadian life insurance companies might be affected by the Pennsylvania decision, the Canadian government said, and estimated a total cash surrender liability of more than \$1,000,000,000 was involved.

## U.S. Steel Seeks Return Of Tax Money

NEW YORK (AP)—The United States Steel Corporation filed suit Tuesday in Federal Court to recover from the U.S. government \$27,770,044 which it said it overpaid in taxes.

The suit was described as the largest refund action ever instituted in the southern district of New York.

The complaint said U.S. Steel paid \$214,923,585 in income taxes and excess profits taxes for 1950. Subsequently, the corporation said, the government assessed it additional taxes totaling \$12,893,270 and interest of \$11,039,931 which the firm said it paid.

The suit seeks to recover the additional assessment and the interest, and parts of the original large tax payment. The corporation also seeks interest to date on the amounts sought.

**REAP MUCH WINE**  
Australia has more than 65,000 acres of wine vineyards and produces about 35,000,000 gallons of wine yearly.
