Poetry.

HE WANTS A WIFE.

BY MRS. S. NICHOLS.

He wants a wife, and she must be
A model of propriety ;
A brilliant pattern—wise, discreet,
A centre where all virtues meet :
Good-tempered, just, and always kind—
As warm of heart as pure in mind ;
Devoted, tender, gentle, fair ;
Accomplishments and culture rare ;
Low-voiced, refined, with every grace—
An angel half, in form and face ;
A sweet, harmonious, charming thing,
At his command to weep or sing,
He wants a wife !—we'll advertise it :—
Consents to wed—his friends advise it !

He wants a wife, with modest look,
Whose heart is like a costly book,
Which he is proud and glad to own—
Which can be read by him alone :
He wants her slender, too, and tall,
And fair as woman since the Fall ;
Her eyes—it matters not their hue—
He worships black—adores the blue ;
Her hair must, with her loving eyes,
Agree in shade, or compromise,
He wants her sensible and mild—
In form a woman—heart a child :
He wants a wife to love him blindly,
A partner he can govern kindly.

He wants a wife for neatness noted—
For taste unquestionably quoted ;
With wholesome pride a very little—
Of-self conceit no jot nor tittle ;
A harmless, guiltless vanity
He'll not object to, if it be
A soft desire that he should praise her—
Indeed, in his esteem 'twould raise her ;
He wants her to have youth and health ;
He wants her to have beauty, wealth,
He wants a careful, prudent wife,
To share the nameless ills of life—
No will but his may ever answer—
A downright "yes"—not "if I can, sir !"

He wants a wife to nurse his joys—
To school his girls and spoil his boys ;
To make and mend their clothes, when able ;
To sit as mistress at HIS table ;
To boil his coff e, brew his tea,
To every household comfort see,
To hand his slippers, make his bed,
To softly bathe his aching head ;
To be as fond, as she is weak,
And in all things his pleasure seek,
He wants a wife ! (poor, modest man,)
Built on this grand and perfect plan ;
He'll take her, then, for worse or better—
Let us devoutly hope—he'll get her !

DISCOVERIES.

The Philadelphia *Ledger* makes the following interesting remarks on the discoveries of the last half century. Our cotemporary says:—"There has been no period since the commencement of the world, in which so many important discoveries tending to the benefit of mankind, were made as in the last half century. Some of the most wonderful results of human intellect have been witnessed in the last fifty years. Some of the grandest conceptions of genius have been perfected It is remarkable how the mind of the world has run into scientific investigation and what achievements it has effected in that short period. Before the year 1800 there was not a single steamboat in existence, and the application of steam to machinery was unknown. Fulton launched the first steamboat in 1807. Now there are three thousand steamboats traversing the waters of America, and the time saved in travel is equal to seventy per cent. The rivers of every country in the world nearly, are traversed by steamboats. In 1800 there was not a single railroad in the world. In the United States alone, there are now 8,797 miles of railroad, costing $286 000,000 to build, and about 22,000 miles in England and America. The locomotive will now travel in as many hours a distance which in 1800 it took as many days to accomplish. In 1800 it took weeks to convey intelligence between Philadelphia and New Orleans. Now it can be accomplished in minutes, through the electric telegraph, which had only its beginning in 1846. Voltaism was discovered in March 1800; the electromagnet in 1821. Electrotyping was only discovered a few years ago. Hoe's printing press, capable of printing 10,000 copies an hour, is a very recent discovery, but of the most important character. Gas-light was unknown in in 1800; now every city and town of any pretence is lighted with it, and we have the announcement of a still greater discovery, by which light, heath, and motive power may be all produced from water, with scarcely any cost. Daguerre communicated to the world his beautiful invention in 1839. Gun-cotton and chloroform are discoveries but a few years old. Astronomy has added a number of planets in the solar system. Agricultural chemistry has enlarged the domain of knowledg in that important branch of scientific research, and mechanics have increased the facilities of production, and the means of accomplishing an amount of labor which far transcends the ability of united manual effort to accomplish. The triumphs achieved in this last branch of discovery and invention are enough to mark the last half century as that which has most contributed to augment personal comforts, enlarge the enjoyments, and add to the blessings of man. What will the next half century accomplish? We may look for still greater discoveries; for the intellect of man is awake, exploring every mine of knowledge, and searching for useful information in every department of art and industry.

THE FRENCH WOMEN IN THE TIME OF LEWIS XV.—They rose from bed towards evening, put on their hoops: they had sometimes good reason for wearing hoops; they daubed themselves with rouge and patches, in those days there was no space left for a brush; and put on their loose robes with flowing trains. After having wasted three or four hours in powdering their hair and laughing at their husbands, they went out to listen to some fashionable preacher, or to behold some *a la mode* On all sides was heard, '*Ah, zevalier, que c'est joli!*' ('Ah, my lord, how charming!') The letter z was used at every chance; in lisping the mouth made such a pretty smiling pout Afterwards they would go to some sad tragedy, as *The Execution of Damiens*, for instance; and they would exclaim (Madame de Preandeau is our witness), while they were quartering the criminal, by dragging his limbs apart with horses, '*Ah, les pauvre zevaux, que ze les plains!*' ('The poor horses how I pity them!'—*Men and Women in France during the last Century.*

Some of the stories told by Mr. St. John, in his "Village Life in Egypt," recall the grim story of some French antiquaries, who, having crawled and wriggled their way into the heart of one of the pyramids and having set about to return, were stopped by the stoutest of their number, who crawled first, sticking fast in the passage. He could neither advance nor retreat, nor could they help him, and they finally decided that the only means of saving the lives of the rest of the party was to cut the unfortunate man into quarters. And this they had resolved to do; but the horrible idea, when imparted, acted so violently upon the poor fat man, that he made a desperate effort and got through!

Miss Strickland states, in her third volume of the "Lives of the Queens of Scotland," that Mary Stuart was accustomed when sitting in council with her ministers, to employ her hands with her needle—a little table of sandal-wood, with her work-basket and implements of industry, being always placed in her chair of State. Miss Strickland thinks every rightly-constituted mind must appreciate this characteristic trait of feminine propriety in a young female sovereign, whom duty compelled to take the presiding place in a male assembly.

To 'elevate the mind' is in plain terms, *to lift it out of the dirt*;—and this ennobling process is the peculiar province of *poetry*, whose gift it is ever to be empowered to elevate mentality, which nothing else can do in this world. This constitutes the true value of poetry, I may apply the word 'value' to that which is invaluable.

A CARD.

MRS. WINSLOW TO THE LADIES.

MRS. WINSLOW, an old an experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for childern teething. It will immediately relieve them from pain, allay all spasmodic action, soften the gums, reduce inflammation, and is sure to regulate the Bowels. Depend upon it Mothers, it will give rest to yourselves and relief and health to you, children.

Price, 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup during the past six years, several thousand the last year. We believe, it the best medicine in the world for child en teething or for the cure of Dysentry and Diarrhea in Children, whether it arises from teething or any other cause. It gives universal satisfaction—never never heard a complaint from any one using it, never sold a medicine so universally successful in relieving pain and effecting cures—relief is *absolutely sure.*

WONDER OF THE WORLD.

Gravel Cured of five years standing.

Messrs. CURTIS & PERKINS, Bangor, Me.

Gentlemen.—I have been entire y cured of the Gravel, by the us of your *Cramp and Pain Killer.* I commenced taking the Cramp and Pain Killer in the Spring of 1847. I had been a great sufferer for ten years previous; some four or five years of the time I suffered beyond all my powers to describe.

During this time, I have had medical aid, and tried various specifics, but found very little relief until I obtained your Cramp and Pain Killer. In one month after I commenced using it, I began to grow better. I continued to use it for a year, all the time improving until I was entirely cured.

We, the undersigned, are well acquainted with the above case, and certify to the above statement of facts.

CHARLES CLIFFORD,
HANNAH CLIFFORD,
STANTON ELLIS.

Doctor Toby, a regular practising Physician, of East Machias, writes us under date of March 20, 1847:

"Please send me half a gallon of your Cramp and Pain Killer—it is the best medicine to cure what it is represented to, that I ever used."

The Doctor first made use of it in his own case, for a severe sprain in the shoulder, caused by the upsetting of a stage, and found immediate relief, and has since used it in his practice.

Read the following. It speaks for itself,

RHEUMATISM CURED.

I certify, that I was afflicted with a violent Rheumatic pain in the small of my back, which entirely disabled me, so that I could not get up without the greatest pain and effort; nor could I walk without a cane, and but very little with. I applied Doctor Johnson's Anodyne Liniment, or Liquid Opodeldoc, and several other remedies, without any relief. After suffering in this way about a week, I purchased a bottle of *Cramp and Pain Killer*, prepared by CURTIS & PERKINS, Bangor, and after *three applications* was entirely relieved and free from pain, and am now entirely well. I also cured a friend of mine, who had been suffering for a long time with a lame side, with the same bottle. I believe it the best medicine in the world, and am happy to add my testimony in its favour.

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,

FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and

CONSUMPTION.

DO NOT NEGLECT IT.

Consumption can be and has been cured,

in thousands of cases, by this only certain remedy,

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT,

and no remedy has ever before been discovered that will certainly

Cure Consumption.

The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, have been cured by this wounderful remedy, and are now as well and hearty as ever. It is a compound of medications which are peculiarly adapted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by expectoration, producing a delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men and the inventions of kind and sorrowing friends and Nurses, have failed to give the smallest relief to the *Consumptive sufferer.*

THOUSANDS OF CONSUMPTIVE

persons have been deceived repeatedly in buying medicines which were said to be *infallible* cures, but which have proved only palliatives, but this medicine is not only a palliative but *a cure for ulcerated lungs.* It contains no deleterious Drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as *Spitting of blood, Coughs, pain in the side and chest, night-sweats,* &c. &c.

About 1000 certificates of almost *miraculous* cures, performed by this medicine, from some of the first Doctors, Clergymen and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [we will show them to any person, calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.

Caution—This medicine is put up in a large bottle and you must find the name of Judson & Co., Proprietors, New York, on the splendid Wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9 John St. New York.

To Owners of and Dealers in Horses.

CARLTON'S FOUNDER OINTMENT,

For the cure of Founder, Split Hoof, Hoof-bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c. on horses.

CARLTON'S RING-BONE CURE.

For the cure of Ring-bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time, cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretive glands, and therefore has the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them.

Remember and ask for CARLTON'S CONDITION POWDERS, and take *no others.*

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES,

and for the cure of all diseases of man or beast that require *external* application, and for *contracted cords* and *muscles*, strengthen *weak limbs*, and is also used for *sprains, bruises, saddle galls, swelled legs,* sores of all kinds on horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety-nine cases out of one hundred of any of the above complaints. They have been used by Farmers, livery-men, stage proprietors and others with the most marked and decided success.

Caution.—None can be genuine *unless* you find the name of J. Carlton Comstock, on the Wrapper of each article.

COMSTOCK'S VERMIFUGE.

This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both Adults and Children. It cannot harm the most delicate infant or strongest Adult, and never fails to completely root out and destroy all kinds of Worms. The cost, 25 cents per bottle, puts it within reach of all, and all parents who are without it, are wantonly exposing the lives of their children to those fell destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the Wrapper of each bottle.

To the Old and Young!! Ho! ye Red Heads and Grey!!!

PHENOMENON IN CHEMISTRY!!!!

EAST INDIA HAIR DYE.

COLORS THE HAIR, AND WILL NOT THE SKIN.

This dye may be applied to the hair over night, the first night turning the lightest RED or GREY HAIR to a dark brown, and by repeating a second night, to a bright jet black. Any person may, therefore, with the least possible trouble *keep* his hair any dark shade or perfect black; with a positive assurance that the dye, if applied to the skin *will not* colour it. By an occasional application, a person turning grey will never be known to have a grey hair. Directions complete with the article. There is no colouring in this statement, as one can easily test.

These facts are warranted by the gentleman who manufactures it who is the celebrated Chemist, Dr. COMSTOCK, author of Comstock's Chemistry, Philosophy and other works, and School Books, well known and widely celebrated by the public.

Deafness.

Use Dr. LARZETTE'S ACOUSTIC OIL, for the cure of Deafness Also, all those disagreable noises, like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching deafness. Many persons who have been deaf for ten, fifteen or twenty years, and were subject to use ear trumpets, have after using one or two bottles, thrown aside these trumpets, being made perfectly well. It has cured cases of ten, fifteen, and even thirty years standing of deafness.

HAY'S LINIMENT FOR THE PILES.

The worst attacks of the Piles are effectually and permanently cured in a short time by the use of the genuine Hay's Liniment. Hundreds of our first citizens throughout the country have used this liniment with complete success.

Caution—Never buy it unless you find the name of Comstock & Co., upon the wrapper, proprietors of the genuine article.

Caution—All of the abovenamed articles are sold only in New York, by Comstock & Brother, No. 9 John Street, five doors from Broadway.

Sold in Charlottetown, P. E. Island, by T. DESBRISAY, W. R. WATSON, JAMES GILLIGAN, M. W. SKINNER Druggists. In Pictou, at the Drug Stores; also by one Storekeeper in every Town on the Island. Enquire for Comstock's Almanac for 1851, which will be given to all *gratis.*

IS HERE YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 70, Saint Mary's Street, Weymouth, dated May 15, 1851.

To Professor HOLLOWAY,

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your Advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly aleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING

Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31, 1851.

To Professor HOLLOWAY.

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works; accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated; yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England Chemist, 13, Market Street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a Letter from Mr. Frederick Turner, of Penshurst, Kent, dated December 13, 1850.

To Professor HOLLOWAY,

DEAR SIR,—My wife had suffered from Bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was, I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDRICK TURNER.

A WONDERFUL CURE OF A DANGEROUS SWELLING OF THE KNEE.

Copy of a letter from John Forfar, an Agriculturist, residing at Newborough, near Hexham, dated May 15, 1850.

To Professor HOLLOWAY,

SIR,—I was afflicted with a swelling on each side of the leg, rather above the knee, for nearly two years, which increased to a great size. I had the advice of three eminent Surgeons here, and was an inmate of the Newcastle infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment, I determined to try them, and in less than a month, I was completely cured. What is more remarkable I was engaged twelve hours a day in the Hay Harvest, and although I have followed my laborious occupation throughout the winter, I have had no return whatever of my complaint.

(Signed) JOHN FORFAR.

AN INFLAMMATION IN THE SIDE PERFECTLY CURED.

Copy of a Letter from Mr. Francis Arnot, of Breahouse, Lothian Road, Edinbro', dated April 29th, 1851.

To Professor HOLLOWAY,

SIR,—For more than twenty years my wife has been subject, from time to time to attacks of inflammation in the side, for which she was bled and blistered to a great extent; still the pain could not be removed. About four years ago she saw in the papers, the wonderful cures effected by your Pills and Ointment, and thought she would give them a trial. To her great astonishment and delight she got immediate relief from their use, and after persevering for three weeks, the pain in her side was completely cured, and she has enjoyed the best of health for the last four years.

(Signed) FRANCIS ARNOT.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Chiego-foot	Fistulas	Sore throats

REVIEWS OF THE WORK.

"MANHOOD, by J. L. CURTIS—We agree with the Author, that so far from works of this class being objectionable in the hands of youth, or difficulties being opposed, every facility should be given to their circulation; and to strengthen our opinion, we need but refer to the recent distressing events at our Military and Scholastic Academies at Carshalton and Woolwich."—*Naval and Military Gazette, Feb* 1, 1851.

"We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful—whether such person hold the relation of a parent, preceptor, or a clergyman.—*Sun, Evening Paper.*

"CURTIS ON MANHOOD.—Fortunate for a country would it be, did its youth put into practice, the philanthropic and scientific maxims here laid down—one cause of matrimonial misery might then be banished from our land, and the race of the enervate, be succeeded by a renewal of the hardy, vigorous spirits of the olden time."—*Chronicle.*
