The *Patriot* says the Committee of the Board of Education, appointed to visit the city schools, speak in very flattering terms of the Queen's County Grammar School, St. Dunstan's District School, and the Boy, Orphan, and St. Joseph's Schools. With regard to some of the other schools, the committee did not find the standard of Education so high as it should be, while in several cases, the accommodation was miserably defective.

Y. M. C. A. LITERARY CLASS.

On Wednesday evening last, the question, "Should primary Education be made compulsory?" was opened by H. Lawson, Esq. After eliciting a lively discussion was decided in the affirmative. Question for debate on Wednesday evening next "Are the Revolutionists of Cuba justified in rebelling against the Government?"

W. LAWSON COTTON, Sec'y.

There are several kinds of worms which trouble horses; the pin worms, (pointed at both ends,) are the most common and most dangerous. Sheridan's Cavalry Condition Powders will in a few days eject the worms, and the horse will begin to thrive.

Factories and machine shops should not be allowed to run a day without Johnson's Anodyne Liniment.—In case of sudden accident, an immediate use of it may save weeks of suffering, and perhaps a limb, or even life.

Holloway's Pills.—Unusually hot weather in the summer months is often productive of unpleasant consequences to many. The liver, the stomach, and bowels, in such cases, are more or less affected, so that the natives of England are, at this season liable to some of the disorders which rage in warm climates. It should be universally known that Holloway's Pills possess most powerful curative powers. They cool and purify the blood, and render the system less liable to any sort of irregularity; or when disease has taken possession of the system, they abate its force, and at last totally expect it. Dysentry, biliousness acidity of the stomach, sick headache, and debility soon disappear before a course of these admirable Pills.

CLOTHING STORE.

THE Subscriber takes this opportuninty of returning his sincere thanks to the numerous friends and customers who have so liberally patronized him for the last ten years, and begs to intimate that he is still to be found at his old stand,
Kent Street,
where he will be happy to wait upon those who may favor him with their patronage. He trusts that by punctuality and attention to business to merit a continuance of public confidence. As regards cutting, he may say that having learned that branch of his business from one of the best cutters in British North America, Mr Henry Found, and having since had every facility for studying the latest improvements in the art, he can guarantee to cut garments as well as those who make more pretensions. He may safely add, that he is the only tailor in Prince Edward Island who ever learned Mathamatics, as certificates, while a student in the old Central Academy, under Messrs. Kenny and Humphreys—still in his possession—will show. Consequently, so far as Mathamatics is concerned, he can apply that science to cutting, which is more than those who never studied Euclid can do.
