Co-operation Is Theme At Maritime Electric Co. Dinner

Labor - management co-ordination was the theme of the annual Maritime Electric Company dinner when approximately 175 employees and their wives, and friends of the company gathered last night at the Charlottetown Hotel.

After introducing the head table Ronald A. Parker, assistant secretary of the company, called on John VanMarion, production superintendent, to propose a toast to the employees.

Mr. VanMarion referred with appreciation to the relations between all employees and management from the time he became superintendent in 1947.

In response Jack Brown, president I.B.E.W. noted the progress that has been made in friendly relations between labor and management.

Mr. Parker then called on George Schleyer, one of the original officers of the union, to propose a toast to the company. He remarked that the loyalty of the employees was outstanding in that hours of work were secondary, service to the public being the first consideration.

Mr. Alastair D. Cameron general manager, in response to the toast reviewed the accomplishments of the labor-management team during the past year and expressed the hope that, with the same co-operation, work would be achieved during 1958.

A film was shown in conjunction with National Electrical Week. Entertainment was provided by a young group called the Downeasters. Later dancing was enjoyed to music furnished by the Mariners' orchestra.

Y. P. C. Club Hears Address By Mr. Heath Macquarrie

Canada, the Maritime Region, and Prince Edward Island will best be served by re-election of the Progressive - Conservative Party on March 31, Mr. Heath Macquarrie, guest speaker stated in an address delivered last night to the YPC Confederation Club at a special meeting held at the Y. M. C. A.

Mr. Macquarrie, who, with the Hon. J. Angus MacLean, Minister of Fisheries, represented Queens in the last Canadian Parliament, spoke on the history and development of the political party. Mr. Walter R. Shaw, provincial leader also spoke briefly. Hon Mr. MacLean was also scheduled to speak, but was called away on urgent business shortly after the meeting began.

The meeting was chaired by the president of the Club, Edwin A. MacRae. The duties of secretary were carried out by the vice president, Mr. Gerald Driscoll, in the absence of the secretary, Mr. Arthur MacInnis, who is out of the Province.

Business transacted included the appointment of two delegates to the forthcoming convention: Mr. George Rogers and Mr. Jack Ready; and the selection of ten club members to act as ushers at the convention.

At the conclusion of Mr. Macquarrie's address, the group were entertained by the youthful six-piece band known as "The Eighth Notes".

Describing political parties as "the lubricant of democracy", Mr. Macquarrie said that such groups had existed even prior to the Middle Ages, and in their early development exhibited either religious or dynastic affiliations, or grew up around some outstanding leader.

"In democracies where the ballot has replaced the bullet, political parties are of tremendous importance," he said.

The former Queens member saw political parties as arising from a number of social and practical reasons. Among these he enumerated: the universal desire of humanity to be in sympathy with or identified with a certain group or leader such as Churchill, a human liking for competition, such as illustrated by the present curling championships; the spirit of pugnacity; and the determination of habit.

Stressing the necessity of a strong central government Mr. Macquarrie declared that only the Progressive Conservative party could truly be termed national, since it was the only party 'with representation from every Province and every national group".

Mr. Macquarrie was introduced by Lloyd G. MacPhail, New Haven, and thanked by the president, Mr. MacRae.

Mr. Shaw urged the young people present to weld themselves into a fighting team." With unity and team spirit we can win this election," he said.

Claim 7 Reds Seized Plane

SEOUL, Korea (AP) — A commercial airliner that flew to North Korea Sunday with 34 persons aboard probably was seized in flight by at least seven Communist agents, South Korean police said Tuesday.

As police who examined the passenger list speculated about which passengers took over the airliner, a North Korean reporter indicated a fight had taken place aboard the plane.

The reporter, covering a United Nations truce commission meeting at Panmunjom, told South Korean correspondents that some of the persons aboard were "wounded and are receiving medical treatment."

Police discounted speculation that the primary objective of Communist agents was to kidnap some of the passengers or the two American pilots. They said the agents wanted primarily to escape to Communist territory.

Babysitter Rescues Three Then Perishes With Fourth

EASTON, Me. (AP)—A young Canadian baby-sitter tossed three children to safety, then perished with a fourth charge in a blaze that levelled a home at Easton Center Tuesday.

The dead were identified as Rowena Jones, 23, of Fielding, N.B., and seven - months - old Patsy Helen Robbins.

Dropped into a snowbank from a second-floor window were three other Robbins children — Cherry, 5, Deborah 3½ and Tony, 1.

Their father, Burnham Robbins, about 35, escaped from the blaze after a vain attempt to rescue Patsy.

Investigating officials said he tripped on stairs, dropped the baby and in the thick smoke choking the stairway was unable to find her again.

Deputy Sheriffs Henry Rackliff and Earl Fraser said Miss Jones perished when she apparently went back into the blazing second-floor apartment above a garage to get her suitcase.

She was baby-sitting for Mrs. Robbins, who was at work.

The bodies of Miss Jones and Patsy were recovered from the wooden building's ruins.

Fire Chief Lewis Benn said the fire was out of control by the time he and his men could make a three-mile run from Easton. Easton Center is about 10 miles east of Presque Isle and two miles from the New Brunswick border.

Contracts Let For Six New Federal Gov't Ships

KINGSTON, Ont. (CP) — Contracts were let Tuesday for $12,320,000 worth of new government ships in a stepped-up program to provide jobs, Transport Minister George Hees announced Tuesday night.

The minister said it is expected work on these six vessels—all for his department—will get under way shortly.

He also told a Progressive Conservative party meeting that another $600,000 will be spent in converting two wartime landing craft for cargo work in Arctic supply.

Mr. Hees' announcements were contained in a text of his speech issued to the press in advance of delivery.

The new ships:

1. A lightship for the lower St. Lawrence River to be built at the Kingston shipyards at a cost of about $770,000.

2. A work ship for the lower St. Lawrence to be built by the Russell Hipwell Company of Owen Sound, Ont., at an estimated cost of $950,000.

TO OPERATE IN EAST

3. An ice-breaking buoy and supply ship costing about $2,500,000 to be built by Marine Industries of Sorel, Que. The vessel, with special search and rescue facilities, will serve in the Gulf of St. Lawrence and Maritimes waters.

4. An ice-breaking buoy and supply ship, primarily for service in Newfoundland and Atlantic waters, to be built by Canadian Vickers of Montreal at an estimated cost of $2,800,000.

5. A reinforced buoy and supply ship for the Bay of Fundy and other Maritime waters costing about $2,250,000 and to be built by the Saint John Drydock Company at Saint John, N.B.

6. An ice-breaking buoy and supply ship with search and rescue facilities, to be built on the West Coast at a cost of about $3,000,000. The vessel, for service in British Columbia waters, will have its hull constructed at the Yarrow shipyard in Victoria and the other work dóne by Burrard shipyards in North Vancouver.

The two conversion jobs on wartime vessels, which will eventually be used to haul bulk petroleum and dry cargo in the Arctic, will go at more than $300,000 apiece to Ferguson Industries Ltd. of Pictou, N.S., and George T. Davie Company of Lauzon, Que.

PLAN EARLY START

The minister said work on these two is to commence "as soon as possible, in order to assist winter employment."

Mr. Hees, who earlier announced the accelerated ship program in general terms, said in the case of four of the new vessels it is expected the engines will be built by the Canadian Locomotive Company of Kingston. For two of these engines—diesel electric — the electrical equipment would come from Hamilton.

Plead Guilty To Armed Robbery

TORONTO (CP) — Clifford William Smith, 40, pleaded guilty to the armed robbery of a downtown branch of the Toronto-Dominion Bank Jan. 31 and told the magistrate "punishment as far as jail is concerned doesn't stop anyone."

"You get immune to that," he said as he admitted to a criminal record dating to 1937. Smith said Elmer Howes, who also pleaded guilty, had no knowledge before hand of the bank holdup attempt.

"He was more or less victimized," Smith said. The two were remanded to Feb. 21 for sentence.

Smith appeared pale and shaky, the result of a gunshot wound which he suffered in the holdup. When arrested he still carried in his neck the bullet fired at the bandits' fleeing car by RCMP constable Robert Nichols.
