

THE DAILY EXAMINER.

MAY 4, 1893.

Notes and Comments.

The people of Orwell and vicinity continue to complain bitterly concerning the scandalous manner in which they are being treated in the matter of steamboat accommodation.

In connection with the investigation being made by the Engineering and Mining Journal, of New York, in regard to the amount of foreign capital invested in the United States, the report of the Union Pacific Railroad is of material interest.

The Montreal Herald summarizes the first and chief object of the coming gilt convention as follows: "To establish between all members of the party the most cordial understanding as to the details of the policy of the party."

A large number of residents of Ulster belonging to the Presbyterian and Unitarian denominations repudiate the resolution in opposition to Irish Home Rule which was sent to Lord Salisbury in the name of, and as representing the opinions of, the Protestants of Ulster.

The reports of French Canadians returning this spring from the United States are becoming more interesting day by day. During the present month some twenty one families are reported at the St. Hyacinthe, Que., custom house as having returned from the New England States, and the collector at that place estimates the correct number at a much higher figure than that given above.

The Boston Herald says: "The debt of Canada is so large and her means of paying it so small that it is not putting it too strong to call her a bankrupt country. And yet her financial institutions have the same assurance to refuse to accept our currency at its face value."

The Montreal Gazette points out that the adverse turn of the balance of trade against the United States continues to be shown by these figures of the bureau of statistics: The total export of breadstuffs for the month of March were \$13,886,000; for the corresponding month of 1892 they were \$23,072,000—a falling off for the month of \$9,186,000.

The views imparted to illustrate Rev. Mr. Brewer's lecture on "Diogenes" this evening are well worth seeing. "Diogenes in his tub" is taken from a celebrated painting. No lover of the beautiful should miss it.

FOUR MEN DROWNED.

Muncey Irving and Three Others

Drowned at Cape Traverse This Morning.

A sad accident happened off Bell's Point, Cape Traverse, this morning. Muncey Irving and three of his fishermen went out to move a boat that had drifted onto the rocks, and after getting to the boat and hoisting the sail the boat in some way filled and sank, taking all on board with it.

The Poisoning Case.

The interest in the poisoning case continues unabated. There has been a great demand for THE EXAMINER ever since the case began. The sales during the past few days have been the greatest in the history of the paper, even eclipsing the highest mark made during the M'Intosh and Weeks-Sutherland trials.

This morning officer Campbell left for St. John, N. B., with the stomach and other internal organs of the poisoned girl for the purpose of analysis by Mr. Best, of that city, who will be remembered in connection with the Weeks-Sutherland case.

Unprecedented Drought.

According to a recent despatch from London the weather is the paramount subject in popular interest throughout Europe. Tuesday completed two full months since rain has fallen in Paris or London, save a little shower one afternoon, which yielded a quarter of an inch of water in some parts of the latter city.

Nobody dares guess what this weary cruel drought is costing England daily, but it must be some portentous sum. It holds out for another week the loss will reach gigantic proportions. London had during the past six days for an aggregate of rainfall less than one-fifth of an inch.

A Complaint.

Sir.—I came from Halliday's Wharf today in Batt's tug. There were over forty passengers, a few of whom were compelled to stand on deck in the cold. It is my wonder that strong words of indignation were used by the passengers? O, well Bay has been clear of ice for over ten days, and an attempt has been made by the Government to give the people of Belfast the accommodation which our great representatives promised us.

General Telegraphic News.

PORT ARTHUR, Ont., May 2.—Six cases of smallpox have been discovered among the immigrants who three weeks ago were located west of Fort William on account of the disease having broken out among them. One child died yesterday morning, and there are also a number of suspected cases. Dr. S. Mellie has been quartered with his patients.

AUGUSTA, Me., May 2.—The Grand Trunk Railway paid into the state treasury to day \$182,799, being the amount of back taxes, the payment of which the railroad resisted several years. A suit resulted in a verdict for the state in the Supreme Court.

TORONTO, May 2.—Commissioner Sutton, to the World's Fair from Norway, is here. He says the business men of Norway prefer to trade with the Canadians rather than with Americans because of the high tariff prevailing in the United States. Some time ago Norwegian merchants made an order for some Canadian farm produce. So encouraging were the results of the experiment that several large orders for Canadian meal, split peas, fluid beef, whiskey and other lines have been placed.

MONTREAL, May 2.—R. S. White, M. P. for Cardwell, who has just returned from his constituency, was interviewed this evening as to Dalton McCarthy's alleged success at the Orangeville meeting. Mr. White states that the member for North Simcoe is making the slowest possible headway in Ontario, and in fact has met with no encouragement whatever in Cardwell County.

TORONTO, Ont., May 2.—During the debate in the legislature to day, as to the feasibility of adopting a law prohibiting the retail sale of liquor throughout the province, Hon. G. W. Ross, Minister of Education, stated that it was the intention of the government to secure a plebiscite on the liquor question. He also gave notice of a bill to that effect.

The Campania Arrives.

The new ocean greyhound the Campania, of the Cunard Line, arrived in New York on Saturday afternoon, making the fastest maiden passage across the ocean. She passed the bar 5-24, which makes the time of the voyage 6 days, 8 hours and 34 minutes. She traversed 2,869 knots. Her fastest day's run was on Thursday, when she made 503 knots. Her other daily runs were 475, 467, 483, 426, 450, and 95 from noon Saturday, until she reached Sandy Hook.
