NEWS BY TELEGRAPH.

THE PRESBYTERIAN ASSEMBLY.
OTTAWA, June 13.

At the morning sitting of the Presbyterian Assembly, committees for the following purposes were appointed: Reception of ministers, addresses to the Queen and Governor-General, licensing of students, applications for leave to retire from the ministry, and Manitoba records. The Perth organ difficulty was again taken up, and a motion, made by Rev. Mr. Laing, to the effect that after the committee to whom the matter was referred come to a finding, the parties should be notified, so as to avail themselves of the right, if they saw fit, to be heard before the Assembly, was adopted.

The annual report of the directors of the Brantford Ladies' College was presented, showing that 84 students had been in attendance during the year. The report was received, and the following directors for the ensuing year nominated by the Assembly: Messrs. Alex. Robertson, Wm. Watt, T. McLean, R. Henry, Adam Spence, Wm. Grant, C. B. Heyed, W. McIntosh, J. Sutherland, R. Russell, Dr. Wm. Nichol and Dr. Cochrane.

The question of the formation of the new Presbyteries of Huron, Bruce, Stratford and Saugeen, was then taken up and referred to a committee to report upon. Complaint was made by some of the Synods against the provisions of the Ontario Act, relating to burials, and a resolution sustaining the Synods, which had taken action in the matter, was passed.

A report left over from last year, on the subject of the ordination of Roman Catholic priests, was under consideration at one o'clock, when the Assembly rose for recess.

RAILWAY ACCIDENT.
RIMOUSKI, June 13.

Yesterday morning, as the down accommodation train was running between here and Bic, the engine driver noticed a man walking on the track. He repeatedly whistled, but the man took no notice, and before the train could be stopped, the engine struck him, and when picked up he was identified to be a deaf man named Fabien Fournier from Bic, aged 60 years. He was brought here and died an hour afterwards.

FOREIGN.
PARIS, June 13.

The principal guarantees proposed by the Government bill for the return of the Chambers to Paris are the maintenance of a special legion of gendarmes; the authorization of summary proceeding for the dispersion of crowds within a certain distance of the Chambers, and the prohibition of bearing petitions to the Chambers by processions.

The Minister of Justice has communicated to the Senatorial Committee the Government's bill providing guarantees for the maintenance of order, etc., in case of the return of the Chambers to Paris. Notwithstanding the Government presented the bill, the Committee decided by a vote to adhere to their decision to report against the return of the Legislature to Paris.

BERLIN, June 13.

Civic.
To the Editor of the Examiner.

SIR,—I notice in your issue of the 10th a letter from a City Councillor on city matters particularly on a speech (published in a previous number) of the junior member for the City, which—unexplained as stated by "City Councillor"—is calculated to do much harm as it is calculated to increase a feeling which most unfortunately appears to have got a footing, viz., of hostility to the citizens on the part of our country friends. This as "City Councillor" put it, is most unnatural. Their relation ought to be of quite an opposite character and of the best kind. The one produces supplies for our market; the others are the purchasers and consumers. I think much more might be said on which "City Councillor" wrote; for I think I noticed in one of your papers, probably the one to which "City Councillor" alluded, to a speech from the Premier himself in which he states in reference to the continuation of the bill called the Tax curse, that next year he intends to introduce an act to apply to the City as well as the country districts. Taxing all alike. "No citizen" will, I imagine, object to this, if it be necessary, as Mr. Sullivan states, to continue the tax at all. But certainly the City ought not to be taxed at all unless, indeed, as Mr. McLeod put it, it got its full share of the Provincial revenue. In this, Mr. McLeod was quite right. But when he stated that Charlottetown only got \$7,000 a year, how Mr. McLeod could make such an admission I cannot imagine, unless the Grits have been more generous or, indeed, became more honest to the city than their predecessors. In my time the city got nothing from the Provincial revenue, although numbering, possibly, an eighth of the population from which the revenue is raised, and from which the subsidy is paid to this Province by the terms of Confederation. But, although our number may only be an eighth, we, possibly, being larger consumers, raise quite a fourth. Where Mr. McLeod got his figures from, I cannot tell. As I said before, in my time, and I believe it is still the same,—the city got nothing but the paltry grant of \$650, in accordance with an arrangement made with the then existing Government by myself and others—then of the City Council—in reply to our application to the Government to repeal the section of the charter of the city which prevented the City Council from assessing the Government property equally with the property of citizens—it being admitted that, as the Government property was equally protected with the property of citizens by that unnecessarily expensive institution,—the Fire Department,—that the Government ought to contribute to upholding that Department, and hence arose that grant of \$650 from the Provincial funds to the Fire Department of the city. I notice that your correspondent "City Councillor" in his letter states that the Government of the day made a bad bargain on the occasion alluded to. He must have meant that the Government made a hard bargain, which they certainly did, with the Committee of the Council; for, at that time, the Government would have had to pay on the public property, if taxed equally with citizens, probably quite three times the amount; and now a much larger amount. When you look at the annual value of the property held by the Government, viz.: the Province Building, the Law Courts, the Prince of Wales College, Normal School, the Jail, the Lunatic Asylum and other public buildings, these, if assessed as the citizens' own dwellings are assessed, would yield, under present law, nearly \$3,000.

Possibly the statement of City Councillor that the Government made a bad bargain with the Committee of Council, on the occasion referred to, was a misprint or a blunder of your type-setter; for, at 10 or 12 cents to the dollar on the assessed value of the buildings enumerated above, it would exceed the sum stated by me. I would remark that, in years gone by, the Provincial Government did contribute towards the improvements of the city—small grants to the building of the Market House, Engine House, purchase of Engines and other small sums; but no amount of any account, except £2,000, a memento of the day when the present Minister of Marine was member for the City and Premier; but this and all other sums put together would fall far short of the share of the citizens, if they ever got a share in proportion to numbers. But, as stated above, they were entitled to a much larger amount for the reasons stated that they were, and are, much larger consumers of the goods from which revenue is raised.

I am, dear Sir, Yours,
AN OLD COUNCILLOR.

June 16, 1879.

P. S.—Your correspondent "City Councillor" I noticed, expressed a wish that Mr. McLeod should, in his place in Parliament, by his own word, endeavor to remove the impression that his speech alluded to was calculated to make on the country people that the city was drawing yearly from the public funds \$7,000 for it is calculated to increase the sectional feeling against the city. He cannot now do so in Parliament; but he could so in your paper over his own signature, which will just be as good.

Yours, etc.,
A. O. C.

AROMATIC MONTSERRAT QUININE CORDIAL

which is a combination of Pure Quinine, with Lime Fruit Juice, cordialised by the addition of Aromatics, but

ENTIRELY FREE FROM ALCOHOL.

Upon the medicinal virtues of Lime Juice and Quinine it is unnecessary to dilate. The combination of two agents of such universally acknowledged value, in at once a palatable and innocuous form, has been a desideratum long sought, but only now successfully accomplished; for although the Tonic qualities of Quinine have been popularised in the form of QUININE WINE, it is well known these combinations have been attended with serious evils consequent upon the Alcoholic Stimulants they all contain, at once prejudicial to health and demoralising in their tendency.

Aromatic Montserrat Quinine Cordial is guaranteed to contain one grain of Quinine in each wineglassful, and to be entirely free from alcohol, being prepared solely from the Montserrat Lime Fruit Juice combined with Aromatics.
