THE GRAND CHAMPION, Dr. (honorary) R.J. Baker, B.A.,
M.A., LL.D.

Like in everything else, R.J. Baker with his sincerity in hand, came out on top. With his 34,500 points he more than tripled some department chairmen. We are indeed fortunate to have such an obviously gifted, skillful and competent man at the helm, guiding our infant ship, H.M.S.U.P.E.I. through the financially troubled waters surrounding higher education. He, single handed, with efficiency and economy has made the best possible use of limited resources for new and improved campus buildings and equipment. He has brought fresh vitality to university education here through increasing sophistication in courses of instruction, teaching methods and research. Not only did R.J., as the students affectionately refer to him, have the suave tenacity, foresight and sincerity to bring this fledgling university from a fourth rate nothing university to where it is today, but he was able to look after himself while doing it. Yes, all this at a salary K.C. Irving would hardly envy.

In recognition of his unselfish service to the common man on the street and the students and staff of U.P.E.I. we would like to propose the following as a token of our appreciation;

- a.) That we bestow on him a fifty thousand dollar home for the nominal rent of two-hundred dollars a month (utilities and upkeep included of course).
- b.) That we as citizens of P.E.I. provide him with carpets and for his tar-paper shack, as he would probably try and save us some fuel costs in the wintertime and thus his feet would get uncofortably cold walking the floor thinking of spending the university's meager resources most efficiently.
- c.) That we buy a car for him to use.

d.) That we provide him a generous, expense, entertainment, and travel account so he can raise the name of the university to greater national and international heights. Just think how high he has raised UPEI's name already. This would be the real investment
MR. CONGENIALITY, G. Dennis Clough, B. Com., C.A.

As everyone at U.P.E.I. will agree, students find dealing with the business office a sheer delight. At other universities you find students using foul language consistently at the business office and to describe the business office. Perhaps it is Dennis's easy going manner which permeates from him that keeps the students pacified and satisfied so well. Anyway there was unanimous agreement of his projected worth to the university this coming year. He got an average vote of 23,400.

THE MOST IMPROVED, Michael F. Hennessey, B.A., B. Ed.

Unlike a small minority of faculty and students of previous years, our select committee valued Mike over Louise Gay by a two to one margin (20,350 to 10,100). The committee's view was that since Mr. Hennessey contributed so much to the mutual understanding of students, faculty and public as well as being paramount in the university's recent upsurge in academic standards and enrollment, he was worth their confidence. Nobody had a bad thing to say about Mike and it was assumed those students that did weren't around anyway. His exemplary behavior at a conference a few years ago was brought up. Everyone cheered and a toast of tomato juice was then proposed "to Mike, a awful fine fellow".
