

Local and Other Items.

CITY COUNCIL.—Special meeting to-night to consider the sewer bill and other matters of importance.

POLICE COURT.—Two drunks from the rural districts was disposed of at the Police Court this forenoon. One was fined \$3 or 20 days and the other \$4 or 20 days.

CORRECTION.—An error occurred in Beer Bros advertisement yesterday. Their great 25 cent sale is being held to-day and tomorrow, (Wednesday), not Saturday as published.

HOME FROM QUEBEC.—The following Artillerymen who have been taking a course of instruction in the Royal School of Artillery, Quebec, returned home yesterday afternoon. Surg. Duncan and Capt. Reilly and Sigsworth, No. 5 Co., Montague; Bombadier James, No. 2 Co., Charlottetown; Bombadier Flannigan, No 4 Co., Georgetown.

THE BLACK KNIGHT'S VIEW.—The other Sunday, while the Rev. J. H. Hector, the Black Knight, was addressing a meeting in Belfast, he said he was glad the ladies were cycling. "Why so?" asked a bystander. "Because," replied the preacher, "it is the only invention ever known whereby two women could pass each other without the one looking back to see what the other had on."

IMPORTANT MINERAL DISCOVERY.—Another big mineral discovery has been made in Cape Breton. This time it is at Waganthook, Victoria county. The deposits are alluvial, and yesterday A. C. Ross took up 1,000 acres under the provisions of the mining act passed at the last session of the legislature. Mr. Ross had some fine specimens of washings which are said to have come from the new district.

FAITHFUL TO THE END.—A Windsor, Ont., despatch says: The burial of Miss

THE KLONDIKE RUSH.

Manager White Tells of the Preparations Made for it.

Manager White, of the Canadian Pacific Railway has returned to Winnipeg, from his trip of inspection to the Pacific Coast. To a Winnipeg reporter, Mr. White said that his mission to Vancouver was to inspect the new docks in progress of construction there, and to look into other matters affecting the arrangements under way to handle the traffic to the Yukon. The docks at Vancouver are being enlarged, for, besides shipments for Australian, Japan and China boats, there is the new service to the Yukon ports. Then the handling of supplies for the new railway to Teslin Lake and for all the people leaving for the north requires greater dockage room.

The rush to the Klondike was one of the amazing sights that Mr. White witnessed. Every boat bound northward was loaded and on some of the steamers the accommodation was distressing. One company has twelve river boats under construction; the C. P. R. has also twelve, but four are being built in Toronto, four in Seattle and four in Vancouver. These will ply on the Stikine river, Teslin Lake and Yukon river. Navigation will open on the Stikine about May 1. In Mr. Whyte's estimation the trade that has arisen through the struggle to get to the Yukon, will amount this year to at least \$100,000,000. The Old Country travel has not started yet. As it is, Vancouver and Victoria are crowded with people, mostly from the United States.

A peculiar feature of the situation in the United States is the number of clergymen who are advocating war. Some of them use language that is not only unchristian, but almost inhuman. They even express desires that Spaniards should be cut off, both on this earth and from the chance of salvation. Their prayers are surely of the kind that availeth not.

Do not miss it.

Margaret Mears, who died at the residence of her nephew, in Detroit, on Sunday, took place this afternoon at St. John's cemetery, Sandwich. Her remains were laid beside those of Adam Hogarth, to whom she was engaged to be married sixty years ago, but who died on the eve of the wedding. She remained faithful to the end and always wore the engagement ring he had given her.

EARLY SHIPMENTS.—The Pictou Advocate says: The Acadia Coal Company have commenced shipping coal at their wharf at Pictou Landing. On Monday, March 28th, a schooner took a cargo for P. E. Island, and on the 30th, Capt. Jas Foster filled his craft, for Miramichi. Mr. Dever, the agent of the company says this is the first time in his recollection that coal has been shipped there in March. It is indeed, unusually early.

A NARROW ESCAPE.—The town of Lockport N. S., narrowly escaped another severe scorching on Sunday. At an early hour on that morning the door of an unoccupied building belonging to Henry Hamilton, was discovered ajar, and on investigation a most deliberate attempt at incendiarism was discovered. A barrel containing old papers, some pieces of wood, etc., had been carefully prepared and saturated with coal oil and ignited, but for some reason, after charring the contents, the fire-bag became alarmed and suddenly departed before having time to properly arrange affairs to his satisfaction. A conflagration in this locality would have been attended with most disastrous consequences.

We are now moving into the brick building formerly occupied by Miller Bros where we have a nice show of goods. We want all our old customers to come along and bring us many more as they can.—W P Colwill. 2w d w

Ladies' Blouses, Ladies' Hats, Ladies' Gloves. There are good points about our new blouses and gloves that only need to be thoroughly known to make every woman in the city want them. Prowse Bros, the Wonderful Cheap Men.

New Glasgow Notes.

The annual meeting of the shareholders of New Glasgow cheese factory was held on the 22nd inst. The business transactions of the year were satisfactory and reflected credit on the directors. Mr. J. Wesley Heseltine, who has so successfully conducted the factory since its organization was present and gave ready and intelligent answers to questions put to him by several of the farmers present, respecting the manufacturing of cheese; the breeds of cattle best suited for dairying purposes in this Province, etc., after which a hearty vote of thanks was tendered him, not only for the valuable information given, but for the earnest partaker by him during the past three years in making the industry in this place a success. Mr. Heseltine made a suitable reply.

Several of the village boys are down with the "Klondike fever." We think however that when the season for "Prairie Chickens" returns, our jolly sportsman will again be on his rounds.

Messrs B. B. Stevenson and J. T. McLeod at their respective establishments will continue to wield the shears to the satisfaction of the patronizing public.

W. D. McCoubrey has not forgotten how to build "that nobby set of harness" yet either.

Either Messrs Houston and McDonald, or Messrs Hill and Stevenson's show room contains a nice line of carriages for the season's trade.

Our tonsorial artist, R. W. Stevenson, has a steadily increasing trade. He gives satisfaction either in a hair-cut or a shave.

The greater includes the less. Hood's Sarsaparilla cures scrofula, and may be depended upon to cure boils and pimples.

W. P. Colwill has opened up a nice Crockery and China store in the building formerly occupied by Miller Bros. 2w d w
