

THE DAILY EXAMINER.

JUNE 5, 1890.

The Bridge and Railway.

EVERY true friend of the bridge over the Hillsborough, and every honest advocate of a railway to Belfast and Murray Harbor, must see that these works must stand or fall together.

A few days ago THE EXAMINER pointed out that the construction of the bridge and railway by the Federal Government could not be obtained while the Province sends to Parliament a "solid six" to oppose the policy of the Government in building and aiding railway enterprises.

But there is another way of looking at Mr. Davies' speech, on the railway to Belfast and Murray Harbor. Here is what Mr. Davies says:—

"The hon. gentleman knows, for he has been in the Province, that the Island is divided in two parts by a large river, and that the portion lying south of the river, embracing what is known as the Belfast and Murray Harbor districts, comprising fifteen or sixteen townships, with a population one-fifth that of the whole Island, has no railway communication whatever. It has been suggested by some surveyors that, for a very small cost, a small feeder could be built, running from one of the stations on the road through these two districts of Belfast and Murray Harbor, touching somewhere near the great village of Montague, and going down from Belfast towards this Wood Island breakwater."

Now, we ask, is not this a rather strange way of helping the Hillsborough Bridge? Could any better plan be devised to put the Bridge out of the question forever? Supposing Mr. Davies is sincere in his advocacy of the Railway, and the Grits are returned, and then carry out his views (all extremely improbable) the people of Lots 48, 49, 50 and the greater part of Lots 57 and 58 might bid good bye forever to all chance of a bridge or railway.

Again we say that the only hope of getting these facilities lies in supporting the Liberal-Conservative Party, whose leaders are, on principle, favorable to the development of every part of the country by railway enterprises.

At It Again.

Wiggins is out with another horrible prediction. He says that Italy may be shaken to its very centre by earthquakes the present summer. The earthquake in Armenia a few days ago was caused by the same force that shook up Queen Charlotte Island. The planets were in nearly the same position in A. D. 76, when Pompeii was overwhelmed by ashes and lava from the crater of Vesuvius. Mr. Wiggins some time back foretold a coming eruption of Vesuvius, and claims that the eruption of Mount Etna, which is so near Vesuvius, proves his explanation was correct, namely, that the earthquake force manifested at Queen Charlotte would pass eastward through the Mediterranean.

Personal.

Rev. E. Bell, of West Cape, is visiting his friends in the city. Rev. S. Weston-Jones, late of Charlotte-town, is expected in St. John to-day, en route to England by the Demara. Mrs. Jones will reside here with her father, T. W. Daniel, during her husband's absence. St. John Sun. We are indebted to Mr. A. McKay, formerly of Emerald Junction, for copies of late Seattle papers.

The Rifle.

At a meeting held on the 4th inst., for the purpose of selecting the team for the inter-maritime rifle match, to be shot on Kensington Range, on Thursday, next, between teams of eight from New Brunswick, Nova Scotia and Prince Edward Island, the following were chosen to compose the latter team: Capt. Crockett, Capt. Weeks, Capt. Longworth, Capt. Hooper, Sergt. J. M. Davison, Staff-Sergt. Allan, Q. M. S. Longworth, Sapper Anderson, with Lt.-Col. Doherty, captain of the team, and Capt. Stewart as adjutants. The Nova Scotia and New Brunswick teams will arrive here on Wednesday evening next. The home team will practice together as a team on Saturday, Monday and Tuesday afternoons. From the personnel of this team we expect to see the prize trophy kept on the Island.

K. D. C. Cures Indigestion

P. E. Island Hospital.

ANNUAL REPORT FOR THE YEAR ENDING 29TH MAY 1890.

The Trustees are grateful for being in a position to report that the institution has been sustained another year through the benevolence of its numerous patrons in almost all parts of the Island, and thus under the good providence of God the Hospital has been to some extent enabled to carry out the good intentions and designs of its founders.

The damage and injuries sustained by the building and furniture from the fire of the 1st March 1890 have been thoroughly and substantially repaired, some alterations having at the same time been made in the kitchen and back hall. The building is thus very much improved, and is in all respects convenient and suitable. The repairs, alterations and replacing of furniture destroyed, cost the sum of \$706.72 and the amount received for insurance indemnity was \$704.88.

Through the kind liberality of one of the attending physicians, the Trustees have been enabled to build a good ice house at a cost of \$70 contributed by this friend; and about 20 loads of ice were laid in last winter, the free contribution of Messrs. Myrick & Co., and Messrs. A. White & Son.

The number of patients admitted during the year amounts to 107, of which 47 were operation cases. The number of outdoor patients for the year was 39, of whom 15 were operative cases. The religious denominations were represented as follows: Presbyterian, 45; Methodist, 28; Episcopal, 14; Baptist, 13; Roman Catholic, 6; Lutheran, 1. Total, 107.

Miss McDonald, the Matron, has fully maintained her good reputation for ability and diligence in the discharge of her duties. The Trustees very much regret to say that they have this day received a letter from her intimating her intention of resigning her situation on the 11th of October next, and expressing deep gratitude for the kindness she has invariably received from the Trustees, adding her prayers and best wishes for the future prosperity of the Hospital. The assistant nurses and domestics have also given every satisfaction in the discharge of their duties.

The Secretary-Treasurer's account now submitted shows a balance on hand of \$153.54—a sum much less than our balance last year. The trustees beg to call the attention of all who take an interest in the institution to this fact. The paying patients for the past year have been considerably less than one-half, all the rest having been received and treated gratuitously. The institution has thus genuine and legitimate claims on the benevolence and charity of the public in the cities and in the country at large.

The trustees are grateful to the medical staff for their diligent and gratuitous attendance during the past year.

Chas. Palmer, chairman, R. Johnson, M. D., A. B. MacKenzie, Wm. Weeks, H. J. Cundall, A. Kennedy, John Gillis, W. A. Weeks.

LETTERS TO THE EDITOR.

A Day Behind the Fair.

SIR,—The cold weather which has prevailed during the most of the month of May has undoubtedly retarded vegetation, and grass is making but little progress. The dry winds, have, however, brought the soil into good condition for working, and the cold weather has enabled both men and horses to work longer hours and with greater results. A great part of the crop is already in the ground, and there is every prospect that it will be all put in in good time and in a satisfactory manner.

It is said that the "new blood" in our House of Assembly is beginning to consider the importance of having our lands tilled and duly seeded this season, and that, whatever may befall the less fortunate sections of the Province, these gentlemen are determined that the interests of Belfast are not to be forgotten. It is, we understand, the intention of the "new blood" to call a mass meeting of the inhabitants of this district about the middle of June, whereas the following resolution will be moved by Mr. H. C. McDonald and seconded by Mr. Frederick Peters:

Whereas, Owing to the length and severity of the winter season in Prince Edward Island, an abundant supply of oats, wheat, barley, hay, potatoes and other produce, are absolutely necessary for the sustenance of man and beast;

And whereas, It is desirable and necessary that considerable quantities of the aforesaid produce should also be available in the autumn, to be converted into money wherewith to purchase necessary articles of food and clothing which are not produced at home, and also to be expended in improving the dwellings of the people, and paying for religious and other institutions for themselves and their children;

Therefore resolved, That in the opinion of this meeting, competent ploughmen should at once be employed to prepare the fertile lands of Pownal, Uigg, Point Prim and Wood Islands for the reception of seed, and to properly and judiciously manure the same, and that the said lands should be duly planted with roots or seeds suited to their condition and the needs of their owners.

Now, as it is most desirable that the "new blood" should receive all the credit for the cultivation of the lands of the districts, and the judicious seeding of the same, I hope that no clothopper will dare to suggest that this resolution requires amendment, and that the "new blood" are a little late in taking action.

May 29, 1890.

BYSTANDER.

Is He a Fraud?

SIR,—In your issue of to-day Dr. Ashley announces by advertisement that he is "an Oddfellow, Freemason and an 'In Camp.'" The mere assertion of the "King of Dentists" is insufficient. We have often had occasion to expose in our official organ tramps who impose upon the order and are capable of defrauding the Brotherhood. Mr. Ashley will be required to "prove" himself an Oddfellow. His unsupported statement will not be accepted, as it is open to the gravest doubt. Is it a case in which one "dons the livery of heaven to serve the devil in?"

June 4.

THEO. L. CHAPPELLE.

K. D. C. for the Stomach.

MARRIED.

On May 27th, at the residence of the bride's father, Fitzroy St., Charlottetown, by the Rev. W. W. Brewer, Frederick Evans to Laura Elizabeth, eldest daughter of Mr. James Harper.
