

St. Dunstan's University Graduates

York Rifle Club

The York Rifle Club held their annual prize shoot on Tuesday night and Wednesday afternoon, April 27th and 28th, ending a very successful winter's sport.

Rifle shoots from Charlottetown, West Covehead, Covehead, Milton, Bedford took part in the match.

W. L. (Bill) Crockett of York, made the highest score 99, thereby capturing the club trophy.

On Wednesday evening members and guests gathered at the hall, where a splendid supper was served by the ladies, after which the president, Mr. R. A. Vessey proceeded to award the prizes.

On behalf of the club the president expressed sincere thanks to Brigadier W. W. Reid, and Lt.-Col. W. J. McDonald for their help, also to Hardy's Store at York.

Remarks were made by the following, congratulating the winners, also the club on its success: Brigadier Reid, Lt.-Col. McDonald, G. J. Rogers, W. A. (Art) Gaudet, Eric Coles.

A hearty vote of thanks was tendered the ladies for the excellent supper served.

Two special prizes were donated by Hardy's Store, York, for the lady and gentleman having the highest score in the prize shoot, this being their first year in competition. The ladies' prize was won by Miss Marlene Dixon with a score of 89.

The gentleman's by Merrill MacDonald with a score of 90.

A special aggregate shoot was held during the winter composed of the 6 shoots previous to the prize shoot. The members were divided into eleven classes, a silver spoon was awarded to the winner of each class.

Detroit Tiger Manager Not Surprised By Start

NEW YORK (AP)—Detroit's lively start in the new baseball season has taken everybody by surprise except Tiger manager Freddie Hutchinson and his coaching staff.

Most observers believe the Tigers have been playing over their heads but Hutchinson doesn't agree. He thinks his club is at least 50 per cent improved over last year and declares it will get even better.

"The Tigers have won nine out of 14 and are leadership contenders at this stage in the season," Hutchinson spoke glowingly Monday of his pitching staff, the defensive improvement of the club and the fine showing of his rookie regulars Bill Tuttle, Al Kaline and Frank Bolling.

"I've said all along we've got the nucleus of a real good pitching staff but few would agree with me," he declared. "In righthanders Steve Gromek and Ned Garver and lefthanders Billy Hoefl and Ted Gray we've got as good a big four as there is in the American League."

Sauer And Musial Challenge Jackson For Batting Lead

NEW YORK (AP)—Veteran outfielders Hank Sauer of Chicago Cubs and Stan Musial of St. Louis Cardinals are challenging pace-setting Ransom (Randy) Jackson of the Cubs for National League batting supremacy.

Jackson, who led by a healthy margin a week ago, saw his average drop to .425. Sauer, meanwhile, moved into contention at .412, followed by Musial, a six-time batting champion, at .400.

Bill Glynn of Cleveland Indians still tops the American League with a .406 mark, but Detroit rookie Bill Tuttle is right at his heels at .404. Billy Goodman of Boston is third with .370. The figures include Sunday's games.

Jackson, after swinging at a .500 clip last week, went 4-for-16 and dipped .76 points. Teammate Sauer, on the other hand, collected nine hits in 17 trips and gained .69 points. Musial, with 12-for-22 during the week, boosted his average .84 points.

COACH GETS CREDIT

Hutchinson credited pitching coach Schoolboy Rowe, the former great Tiger righthander, with helping the hurlers.

"Rowe has done a remarkable job with our pitchers," Fred said. "He's been stressing the importance of control and the results have shown how right he is. Steve Gromek has walked just three batters in 36 innings. Garver has walked five in 26 innings."

The hitting of Tuttle and the all-round performance of Kaline have taken Detroit fans by storm. The 24-year-old Tuttle batted only .276 at Buffalo last year but currently is hitting a torrid .404. Kaline, a 19-year-old bonus baby, never played in a professional game until last September.

Winnipeg Sports Writer Quarrels With Bombers

WINNIPEG, (CP)—A joint meeting of Winnipeg sports writers and the executive of the Winnipeg Blue Bombers has been called for this week in connection with a threat to bar a sports writer from the Winnipeg stadium press box.

Al Vickery, president of the Winnipeg Football Writers and Broadcasters Association, said the club threatened to bar Bob Moir of the Winnipeg Free Press following the Bombers' objection to the publication of a story on player negotiations.

Moir reported that Bombers were said to be negotiating with Chuck

Conerly, quarterback of New York Giants in the National Football League. Bomber officials objected to the report although they refused to deny it.

Vickery said Bomber officials advised the Writers' Association, which submits a pass list for the press box, not to include Moir's name. They said Moir would also be barred from the fieldhouse, training quarters, press conferences and discussions with coach Al Sherman.

FACTS ABOUT DOMINION ROYAL NYLON LIFEWALL TUBES

- 1 LIFEWALL tubes represent the most radical single development in all tire history. They are, even alone, almost as strong as conventional tires!
- 2 In special demonstrations, LIFEWALL tubes have been driven over the road—minus tires! This has proved their astonishing, life-protecting strength.
- 3 Each LIFEWALL tube contains two full layers of Nylon cords... tremendously tough and strong... giving you double tire strength and positive blowout prevention on every wheel!
- 4 The scientific combination of Butyl rubber and woven nylon is an example of Nylon used to its best possible advantage in tube or tire construction. It's an exclusive Dominion Royal feature that allows the Nylon LIFEWALL Tube to float free, turn away impact without harm.
- 5 You can have LIFEWALL tubes in any tire, old or new. See your Dominion Royal Tire Dealer today.

A CENTURY OF SERVICE TO HOME AND INDUSTRY

This is one of many blowout tests never attempted before. Above, you see a Dominion Royal Master Tire, containing a LIFEWALL tube, striking a 5-inch steel spike at full speed! The results showed that both tire and tube were completely unharmed... not a sign of penetration or damage. However, other tires in the test (not containing LIFEWALL tubes), instantly ruptured, blew out, threw cars out of control.
