

HEAR T-RENDING CALAMITY.

FIVE CHILDREN OF ONE FAMILY BURNED TO DEATH IN THEIR BEDS.

The Ravenna, (Ohio) Democrat, April 2, gives the following details of this terrible case, a brief telegram of which was published in the Sun, at that time. The Democrat says: Upon Tuesday night, last week, the dwelling house of Michael Blitzer, a blacksmith living at Sunfield Center was burned to the ground, and in it five children. The calamity is one of heart-rending detail, and has thrown the parents into the most despairing grief, as well as filled the community with profound sorrow. The following are the particulars that have reached us: The dwelling occupied by Mr. Blitzer was a rather small two-story house. The lower apartments were occupied as a sitting room, kitchen, and pantry, the upper rooms being occupied by the family for bedrooms. The family of Mr. Blitzer consisted of himself, wife, six children, and an apprentice. The eldest of the children was a girl about twelve years old, the youngest an infant of a few months. A little boy two years old was at Mr. Blitzer's parents, the other children being at home on the fatal night. Mr. and Mrs. Blitzer, with the babe, occupied one room, the four children and the apprentice sleeping in another. About eleven o'clock Mrs. Blitzer arose, lit a candle, and descended to the pantry for some milk for the babe, which she gave it, and then replaced it in the cradle it occupied by the bedside. Later in the night, about twelve o'clock, as is supposed, the apprentice was awakened by the eldest child, who aroused him by shaking him. The girl did not speak, as the room was then filled with smoke to the point of suffocation, and the apprentice found himself so nearly suffocated that he could not speak. He rushed at once to the room of Mr. Blitzer, and aroused him by shaking him. Mr. Blitzer, awakened his wife, and rushed down stairs, followed by her, neither, for the moment, thinking of the babe. Throwing open an outside door, a draft was created, and the whole premises sprang into a blaze. The apprentice returned to the other chamber, but the smoke and heat had so increased, that he at once sought to descend, but found it impossible and jumped from the window of the room to the ground. After getting outside Mr. Blitzer made several frantic attempts to re-enter the house to rescue his children, but failed in the effort. The house soon fell, burying in the ruins the remains of the five children. It is supposed that the children were suffocated to death with the smoke before the flames could reach them. The girl who awakened the apprentice, it is thought, sank down upon the floor, dying at that bedside at once, as her remains were found in a position indicating such a fact. The presence of mind of the little creature, which enabled her to awaken the apprentice, thus without doubt saved the lives of her parents, though she was at the time in the very agonies of death, was an incident of the most touching heroism, well worthy of precious memory. The origin of the fire is a matter of theory, and the one generally accepted is, that Mrs. Blitzer in going into the pantry with the candle, unconsciously set something on fire—papers upon the shelves, perhaps—from which the conflagration ensued. The charred remains of the five victims were buried in one grave, on Thursday, the solemn ceremonies being attended by a large concourse, and the greatest sympathy manifested for the crushed and distracted parents. Everything belonging to the family was, of course, destroyed, including every article of clothing possessed by them, and \$50 in money which was on a garment upon Mr. B. Upon the house and its contents there was an insurance covering quite a small portion of its value. The people of the neighborhood generously subscribed to a fund for the sufferers amounting to \$500 or \$600.

CONDITION OF EUROPE.—The London Spectator sums up the present condition of Europe, which is what Mr. Carlyle would describe as "growing electric," in an article from which we make the following extract:—"Napoleon cannot bear to be always baffled; the American complication is over; the French are in the dangerous mood which the idea that their influence is waning always inspires; England is paralyzed by internal dissensions, and indisposed in any event to interfere with France; Germany is exalted till it will bear no menace; the East is stirring and heaving with excitement; all things point to the greatest of earthly calamities—a general European war. We have still three months, for Napoleon must give the signal, and the exhibition does not close till August, but if he lives, and unforeseen events do not arrive, Germany will yet be welded into a harder unity by blows from the outside. Already the rumor of menace is doing Count Von Bismarck's work, the federal draft is passing as rapidly as if the North German Parliament were filled with soldiers, and when it is proclaimed, the King of Prussia is Emperor of Germany, with a military dictatorship for three years.

Governor in Council has been pleased to make the following appointments vis:— Joseph Ball, Esq., to be Surveyor General of this Island in connection with the Office of Commissioner of Crown and Public Lands. GODLESS SCHOOLS.

The Buffalo Express, speaking of the effect of education without religion, details the following:—"SOMETHING RADICALLY WRONG. For some days past, one of the ablest of our judges has been engaged in trying a series of criminal cases which although not singular in their details, can hardly fail to startle the public when it is known that nine in every ten of the criminals have been young men, in many instances mere boys. Nothing is to be gained by blinding ourselves to the real state of the case, and the solemn truth is before us that our penitentiaries and State prisons are rapidly being filled with young men under the age of twenty-five. Only yesterday, Judge Daniels passed sentence on three young men of nineteen, one of twenty, and one of twenty-three years of age, the terms of imprisonment, in these five instances, aggregating nearly eleven years. During the morning, a young man was convicted of a deadly assault upon a friend and in the afternoon a boy belonging to one of our public schools, told a story which will have a terrible import to those parents who reflect that the same avenues to crime are open to their sons, and the same villains lie in wait for them. There is something radically wrong in the condition of society, when such things as these are of daily occurrence. We merely state the facts. Our readers must make the application. Upon which a New York paper remarks: We remember of neighbourhood schools in this State, in our very tender years. Forty, and even thirty years ago, what were called 'District Schools,' supported by the parents using them, were subject to the religious teachings believed in by the parents that supported it. In one, one catechism of religion was taught. In another, another one. The hardy boys and girls of that day would travel miles to attend the school approved by their parents. The wholesome teachings of a God and of commandments given by Him, and of a heaven to be gained by virtue and a hell to be avoided by sinning vice, were realities. And, under that old system of instruction, in which the teacher was the deputy of the Christian parent—not of a State, that has no religion—it was a rare and horrible thing for a boy, or a young man to be charged with crime! Now, however, under a schooling on the New-England anti-Christian plan, 'one of our ablest judges,' says the Buffalo Express, 'has been engaged in trying a series of criminal cases, in which' nine out of every ten have been young men, in many instances mere boys.' All of them growing up under that 'free school law' of 1850, that was to prevent all this.

We observed in P. E. Island papers that Major Pollard, of the Queen's County Volunteers, a clever officer, and one who may be said to be the father of the Volunteer organization in Charlottetown, has been dismissed the service, on account of some difficulty with the Commander-in-Chief, growing out of a quarrel with Capt. Smith, I. F. O. Major Pollard is not unknown to the riflemen of this Province, for it will be remembered that he bore off the prize at the Intercolonial rifle match at Truro in 1863. He is justly considered one of the most efficient Volunteer officers in the Lower Provinces, and has rendered good service to the organization in P. E. Island.—Pending the quarrel between him and Capt. Smith, he desired a court of enquiry into certain charges preferred against him. This was not only denied him, but on remonstrating, he was peremptorily dismissed the service. Harshness of this kind is not calculated to render the local service in P. E. Island very popular. Last year, when an officer with a salary of £300 a year—inspecting Field Officer—was created in connection with the Volunteer movement, the claims of Major Pollard were passed by, and the appointment given to an utter stranger.—H. Reporter.

The Montreal Gazette of the 13th contains a lengthy letter from Hon. T. D. McGee, describing Rome and his interview with his Holiness the Pope. He says his Holiness looked well, and seemed to have a good acquaintance with Canadian affairs. He also spoke with great satisfaction of the determined stand the Bishops in Ireland and America had taken against the Feueian movement.

WILD GOOSE SHOOTING EXTRAORDINARY.—Wild Geese have been unusually numerous around this Island, for the past few weeks. Some thousands must have been shot by our Island sportsmen. We are informed that Messrs. B. Beazrat and Peter McNutt shot two hundred in Richmond Bay—forty-five in one day. An Indian sixty, and another forty, in the same Bay. Judge Peters and son, at Savage Harbor, fifty. We have heard of several Indians killing thirty and forty.—H.

THE GRAND AMATEUR CONCERT, which came off at the Temperance Hall, on Monday last, under the leadership of Mr. Earle, was quite a success. The weather was very unfavourable, notwithstanding, the house was pretty well filled. The comic songs, sung by Mr. Kelly, were very much appreciated. The choruses and solos were splendid; also the Julian Walzes, composed by Mr. Earle, were played in admirable style by Earle, Galbraith, Lowden and Slato. The Amateurs deserve great credit.—Com.

Holloway's Pills and Ointment.—Unparalleled Popularity.—The wonderful cures effected by these unequalled remedies in all parts of the world have won for them their present favor. Both Pills and Ointment are composed of ingredients which purify at the same time their strength. No one can deny that health depends upon pure blood and natural action of the animal organs. Both objects are effected without risk or danger by Holloway's medicaments, which are as innocuous as they are potent. Internal disorders and external blemishes succumb to their power. These remedies, so applicable for the relief of the commonest complaints, are no less adequate to deal safely with the most formidable and dangerous diseases which can afflict mankind.

For Throat Diseases and Affections of the chest, "Brown's Bronchial Troches," or Cough Lozenges; are of great value. In Coughs, Irritation of the Throat caused by cold, or Unusual Exertion of the vocal organs, in speaking in public, or singing, they produce the most beneficial results. The Troches have proved their efficacy.

Brown's Vermifuge Comfits, or Worm Lozenges contain no form of mercury to which many worm remedies owe their efficacy. The ingredients are well calculated for the purposes they are intended to accomplish, having been used with success by eminent medical men in Europe. April 10 1m

THE PEOPLE'S FRIEND.

Perry Davis' Vegetable Pain Killer

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pain be severe bathe the bowels and back with the medicine, clear. Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. Ayer's Sarsaparilla!

Is a concentrated extract of the choice root, so combined with other substances of still greater alternative power as to afford an effective antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has proved, of immense service to this large class of our afflicted fellow-citizens. How completely by experiment on many of the worst cases has been proven by the following complaints:— Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Fustules, Blisters, Eruptions, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ringworm, &c. Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health. Female Diseases are caused by Scrofula in the blood, and are often soon cured by this EXTRACT OF SARSAPARILLA. Do not reject this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minutest particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it. AYER'S CATHARTIC PILLS, for the cure of Constipation, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Pains or Morbid Inaction of the Bowels, Flatulency, Neuralgia, and of a Dinner Pill, are unequalled. They are sugar coated, so that the most sensitive can take them with pleasure, and they are the best Aperient in the world for all the purposes of a family physic. Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere. W. R. WATSON General Agent for P. E. Island. Mar. 13—Sm
