

### Important Improvements On The 1953 Pontiacs

The 1953 Pontiacs — a completely new line of automobiles — were introduced to Canadian motorists today by General Motors Products of Canada Ltd.

Twenty-nine body styles in five series with important improvements incorporated in body design, styling and color, riding qualities, ease of steering and greatly increased all-around vision are offered throughout the 1953 Pontiac range.

This year, Power Steering is offered as an option at extra cost on Pontiac models equipped with automatic transmissions. Available too, is a choice of eight or six-cylinder engines, the latter with substantially increased power.

Again this year, two automatic transmissions are offered — an improved Powerglide or the dual-range Hydra-Matic Drive, depending on the series — as optional extras.

Three of the series — Pathfinder, Pathfinder Deluxe and Laurentian — are mounted on 115-inch wheelbase and offer collectively three four-door sedans, three two-door sedans, two club coupes, two sport coupes, and a business coupe.

The Chieftain Special and Chieftain Deluxe series, have been lengthened to 122-inch wheelbase, and offer a choice of six or eight-cylinder engines with all models.

#### NEW FEATURES

Features of the new bodies, which are immediately distinguishable from previous models, include a one-piece curved windshield, roomier interiors, high rear deck contour, greater trunk

space, new rear fender design, completely revised styling of sheet metal and trim, and new luxurious interior designs.

Pathfinder Deluxe Series (except club coupe), Laurentian Series, and both Chieftain Series carry large, one-piece wrap-around rear windows on all closed models, while the width of the rear window in the Pathfinder series and the Pathfinder Deluxe club coupe has been increased by approximately four inches.

A new front end suspension system designed for easier steering and steadier ride, is offered on both Chieftain Series. In addition to leveling out the roughest roads, Pontiac's new front end suspension greatly improves steering and handling on curves and corners — a feature to be appreciated by those who do considerable driving in large cities or over winding roads.

Front ventipanes are now crank operated and there is a new instrument panel with improved functional styling and new positioning of controls and dials for better visibility and simplified operation.

Control knobs are narrow plastic with stainless steel inserts. Improved green anti-glare lighting illuminates the operating controls, which may be dimmed by rotating the headlamp switch.

In the new Pontiacs, there are many other appearance changes which begin at the front bumper and extend the length of the car. The new bumper styling gives an impression of massive strength. There is a completely re-designed more massive radiator grille, the elements of which carry out the styling theme of the car.

THE 1953 PONTIAC brings Canadians a completely new line of automobiles with 29 body styles in five series. New styling inside and out, new colors, improved riding qualities, greater vision and roomier interiors are among the highlights. Available are eight and six cylinder engines, the latter with substantially increased power.

### Seal Diaries For 100 Years

LONDON, Jan. 4—(Reuters)—The secret diaries of British diplomat Sir Arthur Peel, who died last October at the age of 91, will soon be placed in a sealed box—to remain there for 100 years.

His widow said today that she had read only the first volume of her husband's memoirs. In it he forecast the First World War 14 years before it happened.

The diaries contain many secrets of behind-the-scenes history ranging over 50 years. They deal with life in the Imperial Russia of Czar Alexander III, the United States of President Benjamin Harrison and the Post-1918 Bulgaria of King Boris III.

### BONUS CATCH

Lowestoft, England—(CP)—A schoolboy angler in this Suffolk district landed 401 fish in one swoop. He hooked a turbot, and the fish was no sooner in the basket than 400 young turbot appeared.

### Historic Scottish Chair In Canada

OTTAWA, Jan. 5—(CP)—Attempts may be made to have an antique chair, reportedly used by James VI at his 1567 coronation as King of Scotland, returned to Scotland from Laurier House, home of the late Prime Minister MacKenzie King.

Mr. King, a collector of antiques, bought the chair in Scotland in 1927 for the coronation of the late King George VI.

display in Laurier House, willed to the Canadian people by Mr. King, who died in 1950.

It is not known what action the Canadian Government would take on a request, if it were made, to have the chair returned.

The straight-backed ornate chair is placed near a prie-dieu used by Mary, Queen of Scots, the mother of King James VI. Alongside also, are a chair and a prayer stool used by Mr. King at the 1937 coronation.

Edouard Handy, curator of Laurier House and formerly Mr. King's private secretary, said Laurier House guides always are careful to say the chair was reputed to be the coronation chair of King James VI. No specific proof that it had been used for such a purpose could be obtained.

### NIGHT PERFORMANCES

London—(CP)—City zoos will be open to the public at nights during the Coronation season next summer. Premises will be adorned by bright lights, including artificial moonlight to lure nocturnal birds and animals into public view.

## The K & R Store Stock Reduction Sale

We are being forced to vacate the 111 Richmond Street Store. We are forced to reduce our stock. EVERYTHING MUST GO. TERMS CASH.

So to our many friends and customers if you want goods at almost cost price, possibly less, write in or come and get your size while they last at

THE K. AND R. STORE  
111 Richmond St., Charlottetown  
SALE STARTS JANUARY 2, 1953

### DAILY CRYPTOQUOTE—Here's how to work it:

AXYDLBAAXR  
is LONGFELLOW

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation
