

Keep in mind that Scott's Emulsion contains the hypophosphites.

These alone make it of great value for all affections of the nervous system.

It also contains glycerine, a most valuable, soothing and healing agent. Then there is the cod-liver oil, acknowledged by all physicians as the best remedy for poor blood and loss in weight.

These three great remedial agents blended into a creamy Emulsion, make a remarkable tissue builder.

FOR THE WOMEN

Handkerchief Pocketbook.

It has been a mystery and a conundrum to the average man for some little time how women did without pockets, and also a wonder to the aforesaid man why women did not lose more of these flimsy creations called handkerchiefs, then they did, for it was a marvel to them how the women managed handkerchiefs, pocketbooks and bundles, held up their skirts; carried oftentimes an umbrella, and only had one pair of hands for this rather complicated performance.

For some time past the women have endeavored to solve the problem of doing more than one thing at a time, and have utilized their pocketbooks for the purpose of carrying their handkerchiefs, to the great detriment of the former, and the very untidy condition of the latter.

Some enterprising manufacturer has conceived the idea of a pocket-handkerchief-pocketbook (these words need not be pronounced very often, else there might be some trouble), and an article meant for this double purpose is now on the market. It is made with the last compartment open at one end, to admit of the handkerchief, or the gloves or both being rolled up into a ball, bulging out the purse and wrinkling the handkerchief so that it is messy looking. As the sides of the purse were apt to be torn down under the old style, women will hail the innovation with delight.

Lady Aberdeen's Ball.

The Countess of Aberdeen's ball last week, at Haddo House, was a great success. The return from Canada of Lord and Lady Aberdeen, after five years' absence, has been greatly welcomed in the neighborhood. The ball signaled the coming out of Lord and Lady Aberdeen's only daughter, Lady Marjorie Gordon, who was presented last season, but until this case was prevented from joining in the most brilliant events by mourning for her aunt the late Hon. Lady White Ridley. An event of interest in the family was the recent celebration by the Dowager Countess of Aberdeen, the Earl's mother, of her eighty fifth birthday. This lady, who continues well and hearty, has many most interesting recollections of the early days of the Queen's reign obtained from her father-in-law, the fourth Earl of Aberdeen, the distinguished statesman. A great grief to the Countess Dowager was the disappearance of her elder son over thirty years ago. He pursued a career of romantic adventure, dropping his title, and was later discovered to have been accidentally drowned while serving as a sailor, on a voyage from Boston to Melbourne. Lord Haddo, the eldest son of Lord and Lady Aberdeen, will attain his majority next January.

Better Roads.

Of Lady Aberdeen's untiring efforts for the good of the Canadian people during her stay in the Dominion we all know. Lady Minto is also doing her best for the country, but in another way. Her Excellency is, it seems, an enthusiastic cyclist, but the roads in Ontario and Quebec leave much to be desired. She thinks, and rightly, that the education and progress of a country depend upon its means of communication, and that leaving these defective is making a beginning at the wrong end. If Lady

Unequal Eyes.

Do you see equally well with both eyes? If not, both may be defective. One certainly is. Have them properly examined. We prescribe glasses only when absolutely necessary and guarantee satisfaction. Consultation free. G. F. Hutcherson, OPTICIAN AND JEWELER, Charlottetown.

Minto, through her fondness for out-of-door life and sports, organises a crusade for better roads, and awakens the people to a knowledge of their carelessness, she will leave as great and beneficial a monument to the country as any of her predecessors did.

Tourists' Purchases.

What is France's loss will be probably England's gain. Those American women who are so rightly indignant with the French notion of justice and decency with regard to the Dreyfus case, have many of them declared they will never buy their clothes in Paris again, therefore the London modistes should profit by the decision. The American Customs must be making a large revenue out of the extensive purchases made by American ladies in Europe. On furs the duty is exceedingly high. When a woman leaves America for Europe she has to declare her seal coat, have it entered measured, and fully described. Should she, during her European wanderings, have it altered in any way not exactly tallying with the description, she finds it taken as a new garment and duty charged accordingly. No wonder women do not admire the new tariff laws!

The Happy Heart.

BY JOHN IRMIE, TORONTO, CAN.

The happy heart is a fount of joy, A bubbling spring of pleasure, 'Tis a source of constant sweet employ, A never-failing treasure! Ready to smile with the flowers of Spring, Or sing with the Birds of air; In Nature's praise aye willing to sing, Finds happiness ev'rywhere

The happy heart is so full of love, That it speaks to every tone, And the eyes of love, like stars above, Have a glory all their own! Like a beacon-light in Grief's dark night, We long for the happy heart, To shed o'er our pathway, calm and bright, A light that may not depart.

The happy heart is a gift from Heaven, Above all treasures of gold, Alike to the rich or poor 'tis given— It cannot be bought or sold! The happy heart is the home of love, A solace for every woe; Let us cherish this gift from above, As we seek our peace below.

No Cure for... Bright's Disease

In its advanced stages—The Reason Why—Danger Prevented by the Timely Use of Dr. A. W. Chase's Kidney-Liver Pills.

To understand Bright's Disease is to know that in its advanced stages it is past the reach of human aid. The cells of the kidneys undergo a wasting change, which leaves them dead so far as performing their functions is concerned. Just think of having the kidneys dead. Think of the poisons left in the system when these organs could no longer perform their duties as filters of the blood.

It would be difficult to conceive of anything more dreadful, and yet this is the goal to which every case of neglected kidney disease must lead. When the back aches, when urinating is difficult or too frequent, when there are deposits in the urine after standing for 24 hours, there is no time to lose in procuring Dr. Chase's Kidney-Liver Pills.

It is not claimed that they will cure Bright's Disease in its last stages. They are an absolute cure for kidney disease, and so long as the kidneys are not entirely wasted away they will give new strength and vigor and enable them to resume their duties of filtering the blood. Dr. Chase's Kidney-Liver Pills will stop backache and headache in short order by removing the cause, and will positively prevent Bright's Disease. One pill a dose, 25c. a box. At all dealers, or Edmanson, Bates & Co., Toronto.

OLD MAN'S EVIDENCE

Mr. H. S. Barnes, of Rat Portage, speaks in no Uncertain Terms of Dodd's Kidney Pills

Rat Portage, Sept 18.—No old gentleman in Rat Portage is better known or thought of than Mr. H. S. Barnes, father of ex-mayor Barnes, of this place.

"Some months ago," writes Mr. Barnes "my wife asked me to get her some of Dodd's Kidney Pills. She was suffering from kidney trouble and I got a box but she never lived to take them. I had long been suffering from symptoms similar to those of my wife and these now become severe, and having a box of Dodd's Kidney Pills in the house, I resolved to try them. The first box eased these symptoms, and continuing their use I was completely cured. Dodd's Kidney Pills possess genuine merit."

Weary of Experimenting

With salves, suppositories and ointments and dreading a surgical operation, scores and hundreds have turned to Dr. A. W. Chase's ointment and found it an absolute cure for the terrible itching, and it is very seldom that more than one box is required in effect a permanent cure
