

TO THE EDITOR OF THE EXAMINER.

Gold has been found in many parts of the Highlands by a gentleman who has had many years' experience at the gold diggings in Australia and New Zealand. The precious metal was found in fourteen or fifteen different parts of the country, and he believes there is gold more or less everywhere. He has discovered gold in Argyle and Perth shires, on the boundaries of Ontario and Quebec, and in the mountains of Ontario and Quebec. He has also found lead, copper, silver, and other ores.

THE POLYMER OF YOUTH.

When Ponce de Leon, the hero of the Conquest of Granada, set sail for the New World, at the beginning of the sixteenth century, he was buoyed up with the belief that he would find the fountain of youth, which was to restore the old to youth, and prevent the young from growing old. He landed upon the blooming shores of Florida, where he found a fountain surrounded by a grove of orange trees, and a stream of water which he believed to be the fountain of youth. He drank of it, and he felt that he was restored to youth, and he returned to Spain, where he died at the age of seventy.

THE POLYMER OF YOUTH.

It is with some reluctance we publish the foregoing letter, as we had refused to publish "Ixon's" letter, which all the other newspapers in the town had refused to entertain likewise, excepting the Herald, and as we think it would be setting a bad precedent to discuss in the newspapers Police cases such as the one referred to. But "Ixon" has left us no alternative but to publish Mr. Welsh's letter. In a letter to the Herald, prefatory to his main one, he has made a statement regarding our refusal of his communication, to "highly colored" as to deprive him of any claim to our consideration. We advised him not to publish his letter, as it would be certain to provoke unpleasant correspondence, and we did not wish to make our paper the medium of it; but from the haughty tone in which he speaks through the Herald he evidently considers himself an injured man because we would not heed our judgment in his will. "Ixon" makes a great mistake if he thinks he can pass off his haughty airs upon us.—[Ed. Ex.]

Mr. Editor:

In looking over the columns of the Patriot of Saturday last, I was not a little surprised to find in its leading article, that the Police Constables were called to account for not doing their duty in a proper, more or less, manner. The Editor of the Patriot of the City was honored Master David Ward as at the Council Board, there would not only be finding fault with men who, it is well known by persons who are acquainted with our case affairs, have always done their duty to the best of their ability, and it is also a fact that the men who compose our City Police have been working of our City machinery, and suggest no reason to carry forward such suggestions as may be best calculated to promote the safety of his fellow citizen. He will never do any good by finding fault. If any of our Police Force do not do their duty faithfully, it is his place (and he is placed by the people in his present position) to be treated to their interest and see that they are exact) to bring the same to the notice of his fellow Constables and have the evil remedied.

AN ELECTOR OF WARD 5.

For an Empire which it Peace it seems unfortunate to be always suspected of making war. Yet Napoleon cannot so much as dictate a diplomatic note on any subject without seeing the Bourne and Lombard street in a panic. The North Schleswig "note" to Prussia may be, for aught people yet know, as civil as an invitation to dine; but without the slightest knowledge of its contents, the financiers fell to packing and the artillery to examining their primings. The difficulty is that Europe has a primitive fear of that "rectification of frontiers," and believes that France will never be quiet till she gets what she wants. Hence, whether Napoleon buy any horses or sell them, the fury is all the same; in the one case it means war, in the other it is the mark of peace, under which war is prepared. Yet it is notorious that, however it may be with the Frenchman, the people of France have no stomach for war. There is not a man so much beligerent as Paris as at Berlin. The "geographical necessity" for France to push her boundary to the Rhine is a mere whimsical notion to German than to Frenchman. At the first rumour of the Prussian cry out in the Corps Legislatif that it is a device to draw popular attention from the Mexican failure, as indeed it probably is. The hope of peace lies in the fact that there would be no preparation to accomplish the object, without the dread reality of carnage. The change of view is that a new show of new hostilities may be insufficient to accomplish it.

Holloway's Pills—Stomach and Bowel Complaints.—The stomach is the commissariat of the physical system. It furnishes the material substance of every organ. If diseased, the whole body languishes; but however severely affected, its tone and vigour may always be restored by a course of these irrefragable Pills. Bilemness, indigestion, and liver complaints can easily be cured by the use of Holloway's Pills. Thousands testify to this assertion, and no supposer who has ever tried them will deny their superior efficacy. In every case of stomach disease, from the mildest case of dyspepsia to the most violent, all the symptoms of the liver to the vomiting accompanying ulcerated stomach, these Pills immediately relieve—generally cure.

AN EFFECUAL WORM MEDICINE.

Brown's Vermifuge Conoids.

ON WORMS. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The Vermifuge Conoids, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used in all cases of worms, and is equally so in eradicating worms, so harmful to children. Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

CHILDREN AND BIRDS.—Who does not love children? Are they not the delight and joy of every household? Yet how many are the diseases to which they are liable, and how many the injuries to which their allusions are VORACIOUS. What shall the disconsolate parents of these poor children do? We will condense reply—Give a few doses of

Judson's Worm Candy.

It cannot do any harm. It is safe to do good. No Mercury or any other mineral is in it. It is entirely vegetable.

THE LADIES' WORM TEA.

ST. DUNSTAN'S COLLEGE.

Under the patronage of His Lordship the Bishop of Charlottetown.

THIS INSTITUTION is situated on the Princeton Road, a mile and a quarter north of Charlottetown. The site is peculiarly beautiful, healthy, and free from the distractions and moral dangers of the city. The halls and parlours of the building are spacious, airy, and comfortable. The College grounds are large, affording ample room for games and athletic exercises. The course of studies embraces all the branches necessary to prepare young men for the study of the learned professions or fit them for mercantile pursuits, such as History, Geography, the English, French, Latin, and Greek Languages, Rhetoric, Mathematics, Philosophy, Chemistry, &c. Music, vocal and instrumental—is also taught. The College possesses a large and well selected Library, as well as an extensive Philosophy Apparatus. The Professors and Teachers reside in the Institution, forming but one family with the students, and exercising a constant supervision, favorable to discipline, decorum and good morals. Catholic students are carefully and frequently instructed in their holy religion, which they are required to practice. The most solicitous attention is paid to the moral, physical and mental education of the College students, they are constantly under the watchful eye of one of the Teachers or Prefects. Perfect discipline is strictly but kindly enforced. Students who enter with unsatisfactory testimonials of good character. The College is visited regularly once a week by a Physician.

PER QUARTER OF 11 WEEKS.

Board and Tuition, £5 0 0  
Use of Library, " 0 0 0  
Practical Fee, " 0 0 0  
Payments to be made half-yearly in advance.

The College furnishes bedsteads and mattresses; the students must provide their own beds and bedding, blankets, and what within the College endowment, and what within the College endowment, they are constantly under the watchful eye of one of the Teachers or Prefects. Perfect discipline is strictly but kindly enforced. Students who enter with unsatisfactory testimonials of good character. The College is visited regularly once a week by a Physician.
