Dorothy Dix's Column

Continued from page 2. ion, that normally would have died, has been sky-rocketed to pyrotechnic intensity through the focusing of too much attention. So, no matter how you look at it, your gossip-spreading relative will lose more through her loose tongue than through a loose woman. DEAR MISS DIX: My husband is angry with me because I don't want to live with his parents. We are so happy here in our own apartment. Both of us have good jobs. His parents don't really need us, they just want company. Am I unreasonable? PRISCILLA ANSWER: Since you have established your own home, and are maintaining it without difficulty, it would be foolish to pack up and move in with someone else. Marriage is primarily the establishment of a new home and family; effecting a compromise by sharing the home when there's no real necessity to do so would be very unwise. Miss Nissen cannot reply personally to readers but will answer problems of interest through this column.

This new home replaces one of King's County's old landmarks which was destroyed by fire on Oct. 6. The McLeod family expect to occupy it shortly. Mr. Llewellyn has spent the past number of years in Toronto, where he played his trade. We like to see our boys coming back to remain in our midst.
