SHOOTING UNDER WATER.

The result of a Naval Experiment recently made in England.

The most curious experiment ever made with a piece of ordnance was at Portsmouth, England, in August 1895.

The target itself was placed only 25 feet from the muzzle of the gun, and was composed of oak beams and planks and 2 inches thick.

The water target was expected to take if not deflected by the water. On all of these—the water target, the water target, the water target, the water target.

breaches in the wall.

the Wound Spot, the Kidneys—They must be Guarded as Life Advances—Defence Strengthened by Dodd's Kidney Pills.

Four Hours, Oct. 26 (Special)—Citizens called on the 20th of October for the following statement without an exception, Chief of Police and government Fishery overseer of his own case said: "For ten years my distress increased until the doctor called it Diabetes. At times my suffering was intense, and medicine taken did no good. At last a friend assured me that Dodd's Kidney Pills would cure me. A few boxes have kept that promise, and I thank these pills for a permanent cure."

Canadian horses continue to bring good prices in England. 130 Canadian draught and harness horses, hunters, etc., recently sold in London, realized good prices all round, the highest bringing \$315, and several \$200 each.

English Manures

SUPERPHOSPHATES AND CHEMICALS.

Sole Agents for P. E. Island for THE BRADLEY FERTILIZER CO., the largest concern of the kind in the world.

We can also supply the same goods (Ground Slag) as offered by our would-be competitors as "English Fertilizers" at least 20 per cent less price than they now ask for it, but at the same time we would not advise its use, believing that THE GENUINE ENGLISH MANURES AS SOLD ONLY BY US are much the best value. Prices, Pamphlets, etc., on application.
