

A low, massive, divided grille and Chrysler Corporation's New Horizon full wrap-around windshield are two highlights of the new Forward Look styling for Dodge Crusader, Regent, and Mayfair models in 1955. All three series offer new power through improved PowerFlow and Power Flow Special six cylinder engines and the Dodge Mayfair series (a four door sedan is shown) also offers the completely new 157 horsepower Hy-Fire V-8 engine.

Miss Laura Jay Wea in Double Ring Ceremony

On Tuesday, Nov. 9 the Church of the Most Holy Redeemer was the scene of a pretty autumn wedding when Laura Priscilla Jay, daughter of Mr. and Mrs. John H. Jay of Fort Augustus, became the bride of J. Edward Arseneault of Charlestown, in a double-ring ceremony which was performed by the Rev. E. Doyle.

The bride was attired in a suit of azure blue. She wore a small feathered hat of shell pink and navy accessories. Her corsage was of pink delight roses. The bride was attended by her sister, Mrs. Thomas Dunn, who wore a suit fashioned along similar lines and also wore accessories of navy. Her corsage was of red roses.

Mr. John Arseneault of Halifax was groomsmen for his brother. Mrs. Jay chose for her daughter's wedding a dress of navy sheer with matching accessories and wore a corsage of Bettertime roses, while Mrs. Arseneault wore a dress of grey satin and a corsage of American Beauty roses.

Following the ceremony a breakfast was served at the home of the bride's parents to a few near friends and relatives, followed in the evening by a reception at Sandy's where approximately 100 guests were served a delicious turkey supper. The three-tier wedding cake which centered the bride's table was cut in the traditional manner by the bride and groom. The remainder of the evening was spent in dancing.

bride and groom left on a short honeymoon trip to Halifax and to other Maritime points.

ARREST MAINE MAN
PRESQUE ISLE, Me. (AP)—State police Tuesday took into custody Floyd Landeen, 26 of Caribou, Me., for whom a murder warrant had been issued in the strangling death of his wife, Albertine, 21, Mrs. Landeen, mother of two children, was found dead here Monday night in an apartment house where she lived and worked.

Strange But True

By F. B. MacArthur

A North River farmer bought a new cow. His small children were gathered about the animal admiring her, even his baby girl who is only 1 year old. A neighbor commented to the father, you have a cute baby. Then he turned to his own little boy and asked: "Would you like Mom to go to the hospital and get us a little girl?" "Oh no," said the small fry. "I'd rather have a cow."

No doubt the enthusiasm our Island youngsters have in Cal. Clubs was responsible for the above bit of humor.

The 36-year-old Glasband twins of Los Angeles, California, partners in a building maintenance firm, both started to turn gray the same year, their eyeglasses are identical and each twin has had the same number of teeth extracted and filled. Recently Eugene underwent an appendectomy. Later that same day Victor had

pains and his appendix also was removed.

Is heredity stronger than environment? One would not think so considering the recent case of the wolf boy found in New Delhi, India. A British physician, Sir Philip Manson-Barr, is reported as saying, "I saw the so called wolf boy three days after he was found. He certainly looked like a wild animal. He behaved like a wild animal and there was to my mind absolutely no doubt he had been reared by animals."

Not many years ago a "monkey boy" was captured in the jungles of Africa. Obviously a human being (perhaps stolen when an infant by a female gorilla who had lost her own baby). That little boy had all the physical characteristics and agility of the monkeys with whom he had been reared.

So, you see, environment can make a deep imprint on the human mind and body — the part of the human brain that controls the functions, sensations and conditions of the body is (as the late Thomson Joy Hudson pointed out over half a century ago) constantly amenable to suggestion. Sec-

ond, because the theory of continuity is now a scientifically accepted fact.

One way to avoid ulcers is to quit worrying about the world any more than it worries about you. Propaganda is baloney so artfully disguised that it passes as food for thought.

We all know some persons who manage to live without working, but probably a larger number work without living.

Sees Present Air Defences Weak

WASHINGTON, (AP)—Air Secretary Harold Talbott said Wednesday the United States cannot yet yet on anti-aircraft guided missiles to knock down enemy bombers and expressed dissatisfaction with the efficiency of interceptor planes.

Moreover, Talbott indicated he believes it virtually impossible with present weapons to intercept long range guided missiles. He said it is

SHORTHORNS

The annual meeting of the P. E. I. Short-horn Breeders Association will be held in City Hall, Saturday, November 27, 8:00 p.m.

LYLE BOSWELL,
President.

A. H. MUTCH,
Secretary.

SOONER!

THIS WINTER

or LATER!

NEXT SUMMER

You'll wish you had insisted on **PRESTONE BRAND ANTI-FREEZE**

Without the complete protection of "Prestone" Brand Anti-Freeze, you may suffer the expense of serious cooling system damage this winter or even next summer after the anti-freeze has been drained and replaced with water and rust inhibitor.

Remember—a 'substitute' anti-freeze just might get you through the winter without cooling system freeze-up. But freeze-up is less than half the hazard of winter engine operation. Many cases of

'summer engine over-heating problems are caused by inferior anti-freeze protection during the previous winter.

"Prestone" Anti-freeze protects the cooling system against freeze-up, rust, corrosion, acid contamination, clogging, seepage, deterioration of metal and rubber parts. That's complete protection!

It always pays to insist on "Prestone" Anti-Freeze. Don't accept 'substitutes'—not if you're looking for guaranteed, complete protection, the kind that only "Prestone" Anti-Freeze can give.

WARNING!

You may be told that other brands are 'just the same as' "Prestone" Anti-Freeze. It isn't so! Insist on "Prestone" Brand and you can get it—anywhere!

"Prestone", "Eveready" and "Prime" are trademarks of Union Carbide Canada Limited

NATIONAL CARBON COMPANY
