

The Launch of England's Crack Cruiser.

A large gathering of spectators assembled yesterday afternoon in the dockyard at Chatham, to witness the launch of Her Majesty's Ship, Severn. This vessel, when completed, will be one of the most important additions which have been made to the Royal Navy.

The Severn has been about two years in the course of construction, and is estimated to cost about £160,000. If the anticipations of her designers are realized, it is believed she will turn out to be one of the fastest cruisers in the service.

Three o'clock was the hour fixed for the proceedings to begin. As the hour approached, a large staff of workmen made all preparations for the christening ceremony, which was performed by Miss Daisy Watson, daughter of Admiral Watson, C. B., Admiral Superintendent of the dockyard.

Not the promissory, but facts about WELCOME SOAP, an article that does not contain one particle of the adulterations used to reduce the cost of "ure Goods," but does possess the value of legitimate Washing Qualities, the demand for which proves the advantage gained by the use of the genuine over Soaps of doubtful character.

NOTICE

To Our Numerous Customers.

On account of the tobacco crop of 1883 being so poor, we did not buy much, and selected only the best of it, as we always wish to keep our "T. & B. Myrtle" brand up to the standard; and therefore there may be a scarcity of "T. & B. Myrtle" Plug for a short time. If such is the case there will be a full supply on the market by the end of October.

The tobacco we are now about to manufacture is the finest we have ever had, and we know it will please our numerous customers.

Yours respectfully, GEO. E. TUCKETT & SON.

I am adding several new and handsome Patterns this season, which, with my former large variety of One Hundred Different Patterns and Sizes of Cooking, Parlor, Office and Hall Stoves, also Farmers Boilers, Hollowware, Ploughs, Stove Pipes and Tinware, comprise the most complete assortment offered by any manufacturer in the Lower Provinces.
