ATTENTION

POTATOGROWERS

The attention of all farmers is directed to an amendment of the Prince Edward Island Potato Production Act passed in 1962 whereby all persons planting one-quarter acre or more of potatoes must plant those that are "Certified" class or better unless written authority is received from the Minister of Agriculture. The present supply of seed potatoes does not warrant the planting of any table stock potatoes.

Also be advised that any grower whose field or land has borne a crop of potatoes infected with any plant disease or pest shall not permit the same area to be planted to potatoes the following year except on the authority of an Inspector, and shall destroy any volunteer plants on such land.

Areas so infected in 1962 will be policed to see that these regulations are strictly enforced.

It is the intention to inspect all fields of potatoes grown this year and growers are advised to retain and have available for the Inspector their seed tags or the written authority from the Minister to plant seed of table stock origin.
