AMONG THE FARMERS

Federation Of Agriculture Newsletter

NUFFIELD AGAIN

For the third time since 1953 a young Island farmer has been chosen for the Nuffield Foundation Scholarship in eastern Canada. The present winner is to be complimented on his success which brings honour not only to himself but also to the province as well. When it is realized that only two such scholarships are available for Canada and that the eastern competition covers six provinces it will be better understood how keen the competition really is.

Curiously the careers of the present winners— Larry Yeo of Central Lot 16 and Larry Edwards of Alberta — bear striking resemblance. However their strongest asset appeared to rest in the appeal of their qualifications to the selection committee which chose them.

Prince Edward Island now has three members in that very select group which has been recognized by the Nuffield Foundation. The scholarship in question is a valuable one in terms of money but even more so in the opportunity and experience provided by six months travel and study in the United Kingdom and on the continent.

FARM FORUM RALLY

At Vernon River Hall on next Monday evening December 21, the Alberry Plains Farm Forum will be host at a rally for rural people in the farm forums in the area and in addition an invitation is extended to all who may be interested in the rural development. An interesting program is being arranged and there will be a good balance of entertainment and education with farm forum people carrying most of the responsibility in both instances.

The meeting will commence at 8 p.m. and after listening to comments by Rev. Father Roache of St. Dunstan's University on the radio program Rural Magazine, the audience will hear a panel discussion on the topic, "What do our rural communities need?"

Panel members will be: Norbert Fraser, Summerville; Charles Murphy, Vernon River; Mrs. Arnold MacLeod, Uigg and Mrs. David Mutch, Mt. Herbert. An added attraction will be entertaining numbers provided by the Summerville and Alberry Plains 4-H Clubs.

UNEMPLOYMENT

On December 7 the farm forum discussed unemployment insurance in agriculture. Surprisingly a majority of the forums accepted and endorsed the idea of unemployment insurance for farm workers on a compulsory basis.

Possibly it should be mentioned that a number while so doing pointed out that application on a voluntary basis eventually would have the same force and effect because any farmers not offering stamps would be in a poor position to get help.

Slowly and steadily farm thinking seems to be moving for better or for worse to acceptance of the idea that unemployment insurance will soon be necessary in agriculture if the farmer is going to compete for his share of the labour force.

GOOD FREIGHT NEWS

Potato and turnip people will be presented with an attractive New Year's present when on January 10 lower freight rates on potatoes and turnips going into the eastern United States will come into effect. As an example of the saving, the present rate from Charlottetown to Boston on potatoes is $1.10 per hundred pounds. After January 10 the new rate on minimum cars of 50 thousand pounds will be 64 cents per hundred and on minimum cars of 36 thousand pounds, 72 cents per hundred.

In the case of turnips the new rates will be identical with those for potatoes although the previous rate was 98 cents per hundredweight. This is of course all very encouraging but the producer should not take it for granted that all these savings will be reflected in his returns. For one thing the volume of potatoes going to the eastern United States is not relatively large.

With turnips the picture is different and we should be in a much better position to compete with Ontario. Quite likely the freight saving will be divided up between producer, consumer and handler but in what proportion time alone will tell.

HOG CHANGES

In less than a month the Government of Canada will be withdrawing its offer to purchase hog products. Three points which hog men should keep in mind are: (1) If they have not applied for registration they should immediately do so.

Farmers who have not received forms may do so by applying to the live stock division of the Canadian Department of Agriculture in Charlottetown or to the Federation of Agriculture. (2) Every effort should be made to get hogs to market so that they will be slaughtered by Saturday January 9.

Farmers should arrange for hogs within proper shipping weight should go to market as early as possible in the week of January 3. (3) Light hogs should not be shipped as the price will likely bear an extra discount and further if large numbers of them come to the packing plants they might be held over to the following week.

CHARITABLE PORK

The Dominion Government has decided to offer in car lots canned pork free of charge to Canadian charitable institutions and to Provincial Governments for distribution through local welfare organizations. Also sharing in the manna will be boarding schools for Indians and Eskimos. Outside of Canada the canned pork will be offered to approved international welfare organizations for distribution abroad.

Steps will be taken to see that such distribution does not upset established trade or the hog economy of other countries. In addition England is making money available to purchase quantities of pork products. All this seems to point to the movement of Government held storage stocks—a necessity if the pork market in Canada is to stabilize at profitable levels.

GREETINGS

While our contact with readers of this column is not a very concrete one yet we do think of each and every one as being a friend in the sense that they are interested in this column whether or not they agree or disagree with what it contains. With these thoughts in mind we take very considerable pleasure in wishing our readers and all the members of the Federation of Agriculture a very joyous Christmas.
