Presbyterian Decries Stunt Performances

MONTREAL, June 11 — (CP) — Dr. Thomas F. Torrance of Aberdeen, Scotland, in a sermon today decry the "stunt performances" and "stunt campaigns" of the Christian Church. Dr. Torrance preached at the dedication service in MacVicar Memorial Church marking the 75th anniversary of the Presbyterian Church in Canada. He is attending the Church's current General Assembly. Dr. Torrance, who spent some time in China, likened some methods of the modern church to "the futile attempt of the Chinese people to bring rain by firing cannon into the air. "Our own day faith is so demure and tame it is as though we have taken Jesus Christ and domesticated Him, taken the power of the Christian Church and harnessed and enslaved it so that here and there only a few people are healed and blessed," he said. "Again and again we ministers have been guilty of dastardly treachery. How easy it is to use the words of the Scripture such as 'salve and healing comfort and peace' rather than fill the deepest need of mankind, which is to make peace with God. "That is the tragedy of the Christian Church. Too often we touch merely the surface." Dr. Torrance said prayer meetings are so few and so lacking in spirit, "a woefully significant fact." An evangelical movement to be shared by every member, group and organization within the Church" was adopted Saturday by the 76th General Assembly. The movement was reported to Assembly by the committee on evangelism and social action which recently made a survey of similar programs in United States and the United Kingdom. In the course of the survey, the Presbyterian Church in the U. S. the Church of Scotland and a report by the Archbishops Commission of the Church of England were studied. "There are many indications that our Church is ready for a new movement," the report said. "It is only looking for the means and leadership." "The first purpose of the program will be evangelism, the message of God's grace to a sinful world." "The second is the revival of Church life, and the third, the marshalling of all the forces of the Church to combat the evils of the hour."

THE LAW SOCIETY OF PRINCE EDWARD ISLAND held a dinner Saturday evening at the Charlottetown Hotel in honour of Mr. A. N. B. Carter, K.C., Saint John, N. B., President of the Canadian Bar Association and the Hon. C. P. McTague, K. C., Toronto, director of the survey of the legal profession in Canada being conducted by the Association. Mr. Arthur H. Peake, President of the Prince Edward Island Law Society presided. Other guests were Mr. H. R. L. Henry, K.C., Registrar of the Exchequer Court of Canada, Mr. Keith Eaton, Crown Attorney in the Exchequer Court, and Mr. Graham Batt, lecturer at the Dalhousie Law School. The President of the Exchequer Court, the Hon. Joseph T. Thorson arrived too late to be present at the function. Mr. John P. Nicholson, Vice-President of the Canadian Bar Association, introduced Mr. Carter who spoke on the present state of the Bar Association and on the prejudice against lawyers. The latter part of his address was both enlightening and amusing, contrasting the dislike and suspicion with which lawyers have long been regarded with the friendship and trust which people usually have for their own particular legal adviser. He concluded that all the hard sayings against the profession only expense and delay seemed to have any substance. Mr. W. E. Bentley, K. C. introduced Mr. McTague and spoke eloquently of the challenge facing lawyers today, pointing out that the great answer to the problems of the world lies in achieving justice. Mr. McTague, he said, had been a teacher, a soldier and for nine years a judge in the Province of Ontario. He resigned his seat on the bench because he saw an opportunity to serve. Mr. McTague said that the time had come for lawyers to take stock, to find out the facts about their place in society with particular reference to their duty to their clients, to the court and to the public. In a time of big government, big business and big labour the interests of the individual were more in need of protection than ever before. Prince Edward Island, said Mr. McTague, has the youngest bar in the country, and Saskatchewan the oldest. There are some 8,000 lawyers in the country, some 8,700 practicing or a proportion of one to 1,700 population, the lowest in Canadian history and less than half that of the United States where the proportion is one to 862 people. D. L. Mathieson, K. C. moved a vote of thanks to Mr. Carter and Mr. M. Alban Farmer one to Mr. McTague.

PRIME MINISTER Continued from page 1. ging of the Opposition. "If the Government is really trying to gag the Opposition we should get a new gag because our present gag is certainly not working, as anyone who cares to consult Hansard will see. I think it will be found that at least as much time is taken up in Parliament by the 70 Opposition members as there is on the Government benches." He said he was opposed to "the latest Tory strategy" to attempt to have everything turned over to parliamentary committees. Such committees had a useful place in legislation, particularly in checking upon the way in which the affairs of the country had been administered. "But the moment a government goes over the formulation of policy to parliamentary committees, responsible government disappears. It is no longer possible to say which political party is entitled to the praise or the blame. "When an election comes there are no clear cut alternatives. The people have no means of knowing who was really responsible, and who is therefore deserving of censure or support."

United Church Rally Held At Toronto TORONTO, June 11 — (CP) — Those who profess the faith of the United Church of Canada today celebrated the 25th anniversary of the union that brought their Church into existence. The day was remembered with a rally in Toronto's Maple Leaf Gardens and simple services in the Church's 6,484 preaching places. Afters a sometimes-bitter controversy that split many Presbyterian congregations, the Methodist, Congregational and most Presbyterian Churches were united June 10, 1925, to become by act of Parliament the United Church of Canada. In that year of a total Canadian population of 9,364,000, the Church's membership was 652,000. Today, with the population at more than 13,500,000, the Church counts 791,677 members. In the census of 1941, however, 2,204,875 Canadians gave their religion as United Church although they were not all members. Present at today's rally in Toronto was Very Rev. George C. Pidgeon, who 25 years ago, as first Moderator of the Church, presided over a similar service in the old Mutual Street Arena here, marking the Church's birth. Music for the rally was provided by a massed choir of 1,500 and the Toronto Symphony Orchestra.

Georgetown and Vicinity Charles MacConnell has returned to resume his duties as a member of the Royal Canadian Navy at Halifax, following a visit to his wife and son in Georgetown. Mr. Malcolm N. MacKinnon and Mr. George MacPherson of Killmuir were business visitors to Georgetown on Thursday. While here they visited Mr. MacPherson's sister, Mrs. Cecil LeLachur of Georgetown Royalty. King's County Sheriff, J. B. Edwin Reid of Rollo Bay, was a visitor to Georgetown on Thursday. Sheriff Reid also visited other points in Central and Southern King's County the same day. Her many friends were sorry to hear that illness necessitated confinement to her home of Mrs. Florence Jenkins, during last week and all hope to see her about in usual good health in the immediate future. Catches of lobsters have dropped sharply in comparison to those of last month, and many fishermen are now hauling their lines every second day to cut down on expenses. The exceptionally good fishing in May has put fishermen, in the majority of cases, over their 1949 total catch and with the good prices which prevailed for both cannery and markets, a successful year can be recorded for the lobster fishing industry in the eastern section of the Province. At about 11:45 a.m. on Friday morning a slight roof fire was quickly extinguished on the north side of the roof of the Georgetown High School. No damage resulted, other than the charring of a very few wooden shingles. The Canadian National Railway sectionmen who were working nearby at once procured a hand extinguisher, which did valuable work while the town fire fighting equipment was being rushed to the scene. The pupils of the various rooms, who are well practised in fire drill, evacuated the building in an orderly and speedy manner.

Special church services celebrating the 25th anniversary of the formation of the United Church in Canada provided a proper setting for the unveiling ceremony which was very largely attended. The satin draped tablet was beautifully illuminated by special lighting designs.
