

Important Provincial News of the week for Saturday Subscribers.

FRIDAY.

The marriage took place Wednesday evening at the home of the bride's parents, of Miss Elizabeth Ramsey, daughter of James Ramsey, Tyne Valley, to Dr. J. A. Stewart, Tyne Valley. The Rev. R. G. Sinclair was the officiating clergyman.

At the annual meeting of the Central Royalty District School, the supplement was increased to \$35. Hector McRae retired and T. P. Cullen was elected trustee in his place. This increase in supplement was bonus for a teacher who would teach agriculture, household science and vocal music to the older pupils on Saturday.

The annual school meeting of Pleasant Valley district No. 50, Queen's Co., was better attended this time than of late years. R. A. McBeth was the new trustee appointed. Of the forty-five dollars voted, twenty is for supplement to teacher salary. A resolution was passed that pupils from other districts are admitted to this school on paying a tuition fee of one dollar each but if more than two comes from one family then the remaining ones will pay fifty cents each and the fees are to be paid in advance.

Yesterday morning the Police Court was occupied with the Prohibition case against Daniel Murray. The liquor in this case, a cask of beer belonging to Murray, was seized from the premises of John Dalziel where it had been kept for safe keeping. It was seized on a separate warrant. A number of witnesses testified that they had beer to drink at Murray's but didn't give any strong endorsements as to its quality. The case was adjourned till Saturday. The case against Patrick McAleer was dismissed.

A very pleasant gathering took place at the home of John and Mrs. Wey, Hunter River, on Tuesday evening, when about thirty guests assembled to bid farewell to their daughter Blanche, who left Wednesday morning for Regina. The evening was spent in games, music and social conversation. An excellent supper was provided to which all did ample justice, after which Donald Andrews was appointed chairman for the opening and Miss Wey was presented with an address accompanied by a purse from the Methodist Church in which she was organist for a number of years. After a few well chosen remarks by Messrs. Carey, Stewart, Wood and the chairman the happy meeting was brought to a close by singing "God be with you till we meet again."

The Annual Meeting of the Margate School District, was held on June 15. The meeting was called to order by the Chairman D. Profit, with J. A. Mayhew Secretary. The financial report of the Sec'y. A. Johnston was very satisfactory and stood accepted. J. A. Fyfe was appointed trustee in place of Mr. Johnston, retiring. On motion carried Frank Glyden was chosen auditor. After a lengthy discussion the district felt the strong need of keeping the school graded and was very unanimous in voting an increase of supplement to both departments, also a raise for current expenses. Other matters of interest were taken up and satisfactorily disposed of. One item being for the trustee to make it compulsory for all parents in the district to send their children to school in conformity with the act.

The Port Elgin Trading Company has decided to continue the steamship service which it started as an experiment some weeks ago between Summerside, Cape Tormentine and Purgash. The steamer Acadia, which is on this service, is expected to leave Purgash every Saturday afternoon calling at Cape Tormentine and arriving in Summerside about 4 p. m. and leaving Summerside again on Monday morning. This service, several attempts of which have been made to establish during the past few years, will be of vast benefit to the residents of Purgash, Cape Tormentine and places on the N. B. and P. E. I. Railway, giving the latter a chance to take a nice trip and at the same time do their business in Summerside. It is expected that a good business will be worked up in this service and when the traffic increases enough to warrant it, the company have promised to give a tri-weekly service.

How to Cure Fretting of Infants

Mrs Emma E. Percival Gives Advice that is very Valuable

When young children and babies continually fret and cry you can be sure in nine cases out of ten there is pain either by wind or acidity of the stomach. Writing on this subject from her home in Bedford, Mrs. Percival says: "As a nurse of many years experience I can say that nothing I know will give such splendid results as Nervine in four drop doses in hot sweetened water. I once had a case with a baby that cried continually, suffered as if in convulsions, Nervine relieved at once. I have also used Nervine with grand effect for cramps, stomach gas, indigestion and all stomach disorders. For general household use, to cure the many internal ills that constantly arise, I can recommend no preparation as honest, reliable and economical as Nervine."

MONDAY. THE FARMERS GET THE SALARIES HE PAYS.

The farmers get lots of good advice from the newspapers as to how they should pay their school teachers. As salaries go in general, and especially in federal affairs, teachers are poorly paid. But the farmer has his own way of looking at these things. The majority of the teachers are farmers' sons and daughters, whom the parents have educated at a good deal of cost, and in some cases at the cost of actual privation. Compared with the rewards that come from equal time and labor spent in farm work, our teachers are not so badly paid. The great army of workers who toil early and late and have in the end to pay all the salaries big and little, ought also to be considered. They must contribute the price of a farm yearly to pay one representative at Ottawa, and a host of Cabinet Ministers, Judges, Railway Commissioners and others, each drawing from \$6,000 to \$10,000 a year. Farmers and workers have to practice economies that are quite unknown to these people rolling in luxury, who live at the cost of the toiling masses. It is no doubt a false economy to scrimp the school-teacher's salary, but the reason why it is done is not far to seek.

If the people had all along been getting their school books, at reasonable cost, such as are paid in Ontario or New Brunswick they could have added a handsome yearly supplement to the pay of the teachers and been none the poorer.

The Saint John Tourist Association reports a deluge of inquiries and fears a lack of hotel accommodation for the thousands of summer tourists who are expected. Many of the tourists will visit the sister Provinces of Eastern Canada also cross to this island and prospects seem good for a large influx here during July and August.

The month of June is proving to be a dry season throughout Canada from the Rocky Mountains to the sea. New Brunswick is suffering seriously from forest fires which have got beyond control and there is great anxiety for an early fall of rain. An unusual number of fires in town and country of late have been caused by smoker's pipes or burning cigar or cigarette ends. The smokers have much to answer for in this way.

While the party organs are disputing about whether Liberal or Tory Governments have done most for this Province the fact remains that after an equal term under each party the Province has not had money enough for decent housekeeping and the added deficits of thirty-five years amount to more than a million dollars. Neither party has much to boast of where such conditions exist. Parties and party men spend the strength in fighting each other which should be devoted to the service of the country.

The average salaries of Governors in the United States \$5,000 a year and the average term of office three years. The Governors over there have to run costly elections to secure their official position. In Canada we have a five year term of office and we pay our Governors seven to ten thousand dollars a year, the average being \$9,000. These offices are bestowed, like most other high-salaried positions, as the reward of party service. In Canada the office is twice as well paid as in the United States. Can we afford to do this? Three fifths of the Canadian people live by farming and the average production per farm in Canada according to the Government Year Book is only \$750 and in Prince Edward Island \$564.

Out of that the farmer and his family must live and pay taxes. There are too many big salaries in Canada.

The purchase of the liquor for home use, when made in an outside State is beyond the power of any State to prohibit, but each town is a resident of Kansas may thus receive per week, and if a man has more than this limit shipped to him it is taken as evidence that he is liable to arrest. The drinking of liquor publicly on passenger boats, the railway trains is strictly prohibited no matter where it may have been purchased. Conductors and train men are empowered to arrest or sight any one seen drinking liquor on a train, nor is liquor allowed to be sold in the buffets of through trains while passing through Kansas.

It is as well that temperance people and drinking men alike should know what is doing elsewhere in these matters. Evasions of the law lead inevitably to greater restrictions and severer penalties. This has been the case elsewhere and it will be the case here. Public drinking, especially on trains and boats, must be dealt with when new amendments to the law are made. The Kansas law in that regard is commendable. And if druggists continue to evade the law, public sentiment will be aroused here as it was in Kansas with a like result.

In this country it is a little difficult to realize why the fear of a German invasion has taken such hold upon the minds of the British people. We naturally think of the British navy as an impassible barrier against an invading force. And on the other hand we cannot believe that the statesmen who lead both

There's a real reason why Ferrozone cures. It's a true nerve tonic - not a stimulant - it feeds the nerves with nourishment - gives them vital actual activity. No other tonic in the world like Ferrozone, nothing else is so quick and lasting in its effects on a run-down nervous system. I used enough medicine to appreciate an honest one," writes J. B. Beattie, from his home in New Castle. "From babyhood I was not overly strong and was always nervous. I smoked a good deal, but on the whole my habits were good. My first trouble began with a shortening of the hours of sleep. I would awaken too early, my appetite was poor, and to whip it up I used highly spiced and sweet foods. First thing I knew I had palpitation on doing a little extra work, and then an awful tiredness came upon me, and a strange feeling of dread - almost of fear made me think I was losing grip of myself. My power of memory weakened and I lost my position. Then I read about Ferrozone. Say, it's awful good to get a medicine that helps you right off. I don't mind telling you I was badly scared, and every dose was almost like sunshine. At once I began to feel better, and permanently better. I really was, for less than a dozen boxes made me a well man. Now I can do my work with any man and I am grateful to Ferrozone." Ferrozone corrects all entangled conditions of the system, builds up and gives the body great restorative power against disease. To use Ferrozone assures lasting robust health. 50¢ per box or six boxes for \$2.50, at all dealers. Try Ferrozone, do it today." Includes company name and address.
