Freshfold Farm for Sale.

TO BE SOLD, by private contract, a valuable
FRESHFOLD FARM, of 6 miles from Town, con-
sisting of 60 acres of LAND, or thereabouts, 64 of
which are cleared, and in an excellent state of cul-
tivation. Nearly the whole has been cleared within
the last 12 years. It is situated on the north side of,
and adjoins the West River, and contiguous to Mr.
Jelly's Farm, which is placed on a commanding
situation, well sheltered from the north and north-
west winds, and has a splendid view of the river.
The farm buildings have been all erected by the
present proprietor, and consists of a Barn 63 x
26 feet, including Stable and Cow-house, also a
Cuchol-house and Granary, Out-houses, Green-house
and Pigsty. Mangel Meal to any extent can be
obtained from the river. For particulars apply to
NICHOLAS BROWN,
Kent Street.

above (such as is used in the United States for
Sky Lights in the Roofs of Houses), each sheet is
36 x 18 inches, and 1/4 inch thick.

Gleanings from late Papers.

TRUE POLITICAL ECONOMY.

The Albany Evening Journal, in an article on
the growth of States, has the following para-
graph:
"Manufacture—whether of iron, cloth,
paper, wool, cotton, or anything else—so what
are needed to keep the inland towns and coun-
ties of New York increasing, instead of dimi-
nishing. Bringing the market close to the farmer's
door, supplying him with the manufactured
products, without the cost of the double trans-
portation to and from the sea-coast—bringing
mouths to be fed, bodies to be clothed, heads
to be taught, and pockets to help pay taxes—
these are the means of preventing him from
leaving his farm and running off after prairie
land and gold mines."
There is a whole treatise on Political Econo-
my, compressed into a paragraph. Countries
which are merely agricultural must be poor.
Countries depending chiefly on manufactures
are subject to violent revolutions of fortune, pa-
riods of morbid prosperity alternating with
times of complete depression. But the two
united in the same district are to be the guaran-
tee of steady and permanent prosperity.

EFFECTS OF FROST.—The Springfield
(Massachusetts) Republican says the action
of the frost upon the earth on Tuesday
night occasioned a constant succession of
explosions, similar to those which occur in
the Arctic regions, varying in character
and intensity from a light pistol shot to a
light earthquake. Fissures in the earth
were seen in various places, and by one of
those operations, the file shop of the United
States Army was cracked from the roof to
the ground.

INDUSTRY AND SUCCESS.—Richard Burke
found in a reverse shurly after an extraordi-
nary display of powers in Parliament by his
brother Edmund Burke, was questioned by a
friend as to the cause, and replied—"I have
been wondering how Ned has contrived to mono-
polize the estates of the family; but then I
again, I remember, when we were at play, he
was always at work." The force of this anec-
dote is increased by the fact, that Richard Burke
was considered out inferior in natural talents to
his brother. Yet the one rose to greatness,
while the other died comparatively obscure.
Don't trust to your genius, young man, if you
would rise; but work! work!

THE ADVANTAGES OF SINGING.—If you
would keep spring in your hearts, learn
to sing. There is more merit in melody
than most people are aware of. A col-
league will soothe his wax-candles with a
song, will do as much work in a day as
one given to ill-nature and fretting would
effort in a week. Songs are like sun-
shine; they run to cheerfulness—to fill
the bosom with such buoyancy, that, for
the time being, you feel filled with June
sun, or like a meadow of clover in blossom.—
The Reflector.

DEUTERUS NOMECLATURE.—The new
Russian Minister to the United States is called
Samsonoff (saw my nose off). An attaché of the
same legation at Washington, Samsonoff's
nose off. Besides the nose off, we have Colonel
Kutunoff (cut my nose off), of the Imperial
Guard; Marshal Palmonoff (pull my nose off),
General Nounoff (be gone), and many
others.—Boston Journal.

WINKLES.—It is said to have been very
satisfactorily demonstrated, that every time a wife
sells her husband, she adds a wrinkle to her
face! It is thought the announcement of this fact
will have a most satisfactory effect, especially as
it is understood that every time a wife sells her
husband, it will remove one of the old wrinkles.

THE TELEGRAPH.—"Wife, I don't see, for
my part, how they send letters on them' as
wires, without tearin' 'em all to bits." "Oh,
my! they don't send the paper, they just send
the writin' in a fluid state."

A CALCULATING YANKEE.—"My son,"
said MacNish on a "how could you marry an Irish
girl?" "Why father, I'd have married a
Yankee girl, if I'd had to have hired an Irish girl
to take care of her.—American paper.

THE WRONG TRAIN.—Some young men,
going from Columbus to Cincinnati, Ohio, in the cars,
were getting rather slow and profane, when a
gentleman in a white cravat tapped one of them
on the shoulder, with the remark, "Young man,
do you know you are on the road to perdition?"
"That's just my luck; I took for Cincinnati, and
I've got on the wrong train."

"Well, Sambo, what's yer up to now
a day?" "Oh, I've a carp'n'r and jiner." "He,
I guess yer in." "What department do you per-
form, Sambo?" "I does the circular work."
"What's that?" "Why, I turns de grindston."

Now that the civic chair is filled by a Hebrew,
the Masonic house may be regarded for the time
being as Solomon's temple!

Hollow's Pills, undoubtedly the best Medi-
cine on sale in Canada.—The extraordinary power
possessed by these Pills has rendered them justly
an universal favorite with the Canadians. Hav-
ing it presumed that their efficacy in all dis-
eases of the liver, and stomach. For the cure
of sick headache, and indigestion they are also
unequaled; and for all female complaints,
whether of the daughter entering into woman-
hood, or the mother at the turn of life, their effect
is infallible, as they specify remove all such
complaints from the system.

The Great American Hair Tonic.

Bogle's celebrated Hypertion Fluid, for the growth
and preservation of the Hair is well known to be with-
out a rival in this continent. Hundreds of millions
have started into an ephemeral existence, since the
introduction of this unrivalled Hair restorative, and
their doom has been sealed, whilst Bogle's Hypertion
Fluid, with a popularity never attained by any
other article, goes on "conquering and to conquer."
There is no medicine, which can affect the hair, but
can be cured by an incomparable fluid. To ladies
it is invaluable; and on children's heads it lays
the foundation of a good head of Hair. It is now patron-
ized by Her Majesty the Queen of Great Britain,
and commands an extensive sale throughout Europe.
Bogle's Electric Hair Dye converts red or grey
hair into its natural black colour, and is acknowl-
edged to be the very best article for beautifying the
complexion.

For sale by wholesale or retail, of W. Bogle, 227,
Washington street, Boston, U. S.
And by all Druggists and perfumers throughout the
United States and the Great Britain. W. R.
WATSON, Agent for P. E. I.
June 19th. 1 yw
