Strange But True
By F. H. MacArthur

Strange as it may seem, some snakes give birth to their young while others lay eggs. After laying her eggs, the mother milk abandons them leaving them to be hatched out by old Sol. However, the youngsters are well able to fend for themselves.

This is supposed to be one of Mother Shipton's prophecies: Women will dress like men and trousers wear, And cut off all their locks of hair. They will ride astride with brazen brow And love shall die and marriage cease, And nations wane and babes decrease, And wives shall fondle cats and dogs, And men shall live much as hogs, Just for food and lust.

When Western man penetrated into the Islands Saporaco and Hanockoe, and delved into their ancient superstitions, they learned that as long as native memory had existed the people had known that light must be kept burning until the eighth day of a newborn babe's life in order that no wandering spirit should harm the new arrival.

Recently I received a letter from a lady living in Prince County. It read: "Do you know that if women carry an acorn on their person they will never grow old?"

No Madam, I did not know that one. But I'll pass the cue to my readers just in case some lady who fears old age would like to put the little acorn to the test.

Rural English folk used to believe that persons named Agnes always go mad; that a boy christened George would never be hanged; that to cure a snake bite one had but to repeat verses one and two of psalm LXVIII.

The fossil bones of the Saurians, found in Northern Yorkshire, are called "Fallen Angels" who were cast out of heaven for their part in Satan's rebellion against God.

Some English fruit growers still put dead animals under every new tree they plant to insure a good yield.

And the North American Indians planted a large fish under every potato set for the same reason.

Naturally the trees and the potato vines bear better crops as a result of the manure.

I distinctly recall some of the old time farmers of Cornwall driving rusty nails into the trunks of their fruit trees to insure better crops. Whether this was custom or superstition I am not prepared to say. Anyway, I could find no trace of this practice in other parts of the world so assume it was of local origin.

A cold April was regarded by our forefathers as good luck for farming operations. Another belief about April was that if it thundered on the first day (All Fool's Day) there was sure to be a fat harvest.

And, of course, we all know the rhyme that March winds and April showers bring forth May flowers.

During the battle of Britain, 1939-45, it was widely held that a diet of raw carrots enabled airmen to see in the dark.

The Bay tree has never known to have been struck by lightning. The Roman emperor Tiberius always put bay leaves over his head during an electrical storm.

If you get out of bed on the opposite side that you got in portends grouchiness, hence the common phrase, "You got out of the wrong side of the bed this morning."

In ancient days in Britain bees were known as "Birds of god," and were supposed to be in communion with the Holy Ghost.

For a bird to fly in and out of a room predicts the death of some member of the family. This is a widely held superstition in the Garden of the Gulf, as is also this one: To drop a dishtowel is the sign that a stranger will call that day.

Under tropical conditions ferns grow to an enormous size. Some of the tree ferns of Australia and New Zealand attain a height of 60 to 70 feet.

Millions of miles of the ocean floor are covered with a fine silty ooze. The decomposed shells of countless numbers of sea creatures. In the fulness of time, much of this silty matter will be compressed into chalk rock. The chalk cliffs of Dover and other well-known chalk deposits come about in this manner.

Did you know that insects have 8 legs, spiders 8, crabs and lobsters 10, and the centipedes, and millipedes anything from a few scores to hundreds of legs. And strange but true, their many pairs of legs always work in alternate pairs!

The hunting leopard holds the world's record for speed among

SORE PILES

For quick, positive relief from SORE PILES, get CHINAROID from your drugist. See how quickly it helps stop the pain and itching. See how it cools and soothes the burning, smarting. See how it helps heal and shrinks swollen tissues. After one CHINAROID treatment you'll regret the needless suffering and nervousness without it. Money back unless satisfied.

THE SOLEX COMPANY

Enmore And Vicinity

Sympathy is being extended to the family of the late F. O. Stewart Banks, of Poplar Grove.

Mr. and Mrs. Kenneth Nisbet of Portland, Me., were recent visitors to Victoria West and Harmony. Kenneth is the son of Mrs. Nisbet and the late Leslie Nisbet of Harmony and Portland, Me.

Mrs. John Madore, Somerville, Mass., and a friend, Mrs. Belle Graham of Natick, Mass., recently motored to the Island. They were the guests of Mrs. Madore's mother, Mrs. Thomas Ford, Mount Pleasant, and her sister, Mrs. Robert MacLaurin, Enmore. They also visited other relatives and friends.

Mr. Frank Noye, New Brunswick, visited old friends here recently. He was the house guest of Mr. and Mrs. Milford Noye and Mr. Wallace Noye.

Mr. William MacKenzie, Maine, was a recent guest of his sister, Mrs. Charles MacLennan, Victoria West.

Mrs. Minnie Ellis, Mt. Pleasant, left on Tuesday morning for Picton, Ont., where she will visit with her daughter, Mrs. Ensor Oatway.

The many friends of Mrs. George W. Robinson, Mt. Pleasant, are sorry to hear that she is suffering from an attack of pneumonia and all hope that she may soon be restored to her usual good health.

mammals. It has been estimated to cover short distances at the amazing rate of 70 M.P.H.

The bear differs from most quadrupeds in walking with the whole of its foot flat on the ground. Most animals walk on their toes only.

The human eye can see more than any other, except a bird's. An eagle can see its prey on the ground from a distance of a

quarter of a mile in the air.

Mr. and Mrs. Major Noye and sons Ernest and Cecil, recently motored to N. B., where they were the guests of Mr. and Mrs. Noye's granddaughter, Mrs. Ross Schofield. Their daughter, Mrs. Joseph Stockwell, accompanied them on their return home.

Mr. George Ford and his sister, Nellie, Maine, have been recent visitors to this vicinity while here they visited many old friends. They have been the house guests of Mr. and Mrs. C. W. Robinson.

Mrs. Ellsworth Campbell and son, Charles, from Halifax, are visiting with her parents, Mr. and Mrs. Charles Frost, Springhill. Her husband Able Seaman Ellsworth Campbell is stationed on the Destroyer Micmac.

The marriage of Miss Jean Miller, Bideford and Mr. Albert MacArthur, Mt. Pleasant, took place in the Bideford United Church on Saturday evening September 19. Heartiest congratulations are extended to them.

Miss Betty Frost, and Master Alfred Frost Springhill, are taking grade X in the Summerside High School.

Congratulations are extended to Mr. and Mrs. Herman Yeo, on their recent marriage. Mrs. Yeo, is the former Lorna Grigg a daughter of Mr. and Mrs. Lorne Grigg, Springhill. Mr. Yeo is the son of Mr. and Mrs. Russel Yeo, Harmony.

The many friends of Mr. Henry Mooney, are sorry to hear that he was in a car accident and suffered a broken nose and other bruises. He is a patient in the Western Hospital, Alberton.

Several people from this vicinity attended the Egmont Bay Exhibition on September 23.

Mr. Victor Enman, MacAdam,

FRIGIDAIRE Filtra-matic Electric DRYER
ends weather worries and heavy lifting!

Here's the way to bring sunshine indoors every day of the year. Wash any time you like and toss your clothes into a Frigidaire Electric Clothes Dryer — take them out minutes later — all soft and fluffy and sweet-smelling. You just select your drying time — done dry for immediate storage, or damp dry for ironing. All-porcelain finish as protection against rust. Models available for either 220 or 120 volts.

Here's Frigidaire's Exclusive Filtrator

You need no flues, vents or pipes with a Frigidaire Filtra-matic Electric Dryer, so you can place it anywhere. Filtrator traps lint, reduces moisture.

The United Ladies Aid Society held their September meeting at the home of Mrs. Wesley Smith, a large number of members and visitors were present. Mrs. C. Frost will be hostess for the October meeting. Meeting closed with a prayer by the Reverend Mr. Osborn.

Mr. Bruce Coulson, Ottawa, Ont., is spending his vacation in Victoria West and Sea view — W.

Let your Frigidaire Dealer show you how Live-Water Action of the FRIGIDAIRE Automatic Washer gets out dirt ordinary washers leave behind!

See why the Frigidaire Washer cleans cleaner, dries drier, than any other automatic washer!

No tumbler or agitator method can match Live-Water Action for really removing deep-down dirt. Lightning-fast up-and-down movement of the Pulsator sends hot, penetrating suds surging through clothes to flush out even the most deeply embedded grime. Clothes are never rubbed, yanked or abused — they're always under water, never half-in, half-out. New, continuous Float-Over Rinse takes over before the washing cycle is finished. Floats dirt and suds up, out, and away so they can't drain back through clothes. Rapidry Spin (fastest spinner in any washer) gets clothes drier, pounds lighter — many ready for immediate ironing. Then this wonderful washer cleans itself and shuts off!

UNDERWATER SUDS DISTRIBUTOR!

Soap or detergent goes in the top, comes out at the bottom — under water — as active, cleansing wash. No undissolved soap. Cap serves as measuring device.

NEW FLOAT-OVER RINSE!

When washing time is over, fresh warm water flows in until it overflows. Clothes stay down under a white soap, suds and dirty water float off the top and away throughout entire rinsing cycle.

EXCLUSIVE RAPIDRY SPIN!

Takes out far more water than any other method! Clothes are lighter to lift, easier to handle, faster to dry. Some are ready for immediate ironing.

SET DIAL ONLY ONCE!

Frigidaire's amazing Select-O-Dial controls entire washing, rinsing and spinning cycle — completely automatically. You can stop and start the washer — repeat or omit any operation — at any time.

LIFETIME PORCELAIN FINISH!

Here's the only automatic washer with cabinet and top finished in Lifetime Porcelain! It's stain-resistant, rust-proof, easy to keep clean and stays white, new-looking for life!
