

Winners In Lucky 77 Contest

Over fifteen hundred entries were received in the "Lucky 77" contest promoted by the management of the Prince Edward Theatre in connection with the showing of the Cinemascope picture "Seven Brides For Seven Brothers." Contestants were required to find the correct total of the number of times the word "seven" or the number "77" appeared on a certain page in either of the Charlottetown papers. The correct number was: Guardian 61, Patriot 63.

Entertainment At Rotary Meeting

Gerry Hartien and Gordon Kerr were joint chairmen at the weekly luncheon meeting of Rotary yesterday at the Charlottetown Hotel where a group of students from Prince of Wales College provided unusual entertainment in the presentation of a humorous sketch.

Doug Clark as Cecil B. DeMille presented Neils Hansen, David MacDonald, Foster Burke, Eugene Wynne and Angus MacLean as various characters which they faithfully portrayed amid applause and laughter. The quartette and banjo-vocal numbers were well rendered and the work of David MacDonald in several impersonations was most effective.

Guests present were: Gordon Tweedy, Dr. Burton Howatt, L. M. Robinson, City, Eldon Hickey, Summerside and Les Dowbiggan, Montreal, Hon. E. P. Foley, Summerside was a visiting Rotarian.

AUCKLAND (CP) — Wilfrid B. Owen, leader of New Zealand's Social Credit Political League will leave here next Monday for a visit to Canada and a study of Social Credit government in British Columbia and Alberta. The Social Credit League failed to win a seat in the New Zealand election last November but sprang a major political surprise by capturing 11 per cent of the total vote.

Parkdale

very clear that this decision does not, in any way, reflect on the School Unit as such, and we have no desire but to maintain, and improve if possible, the standards of education for our children.

"We wish to state too, that it was not, and is not now, our desire or intention that the School Unit be broken up, but that we be relieved of the excessive tax burden, by allowing us to again be a separate school district, and we submit that we are both willing and able to maintain our school, as we have done in the past.

"Since the forming of the School Unit No. 1 there has been extensive building in the Village of Parkdale, and on many occasions the water supply from private wells, has been found to be unsafe for human consumption, this being due, in part, to the present system of sewage disposal, namely septic tanks and blind wells.

"The people of this community were encouraged to incorporate as a Village so that they would then be in a position to deal with such a problem affecting the area, and it is safe to assume that this was the purpose of incorporation, the providing of a safe water supply, sidewalks, street lights, and other necessary services for the area.

WATER SUPPLY PROBLEM
"There are two solutions to the providing of a safe water supply, which is our most urgent problem. First, the drilling of private wells which would be deep enough to get water below the strata of contaminated supply, or second, the building of water and sewer mains which would supply pure water, and adequate sewage disposal.

"The cost of deep wells would, in most cases, be prohibitive to the home owners in the area, so that the only acceptable solution is that this area embark on a community project of supplying these services, or by financial arrangement with Charlottetown to supply the services if such can be arranged.

"Following this line of reasoning the ratepayers of the Village of Parkdale, at the annual meeting, held on February 2, 1954, authorized the Commissioners to seek advice of a consulting engineer who was then engaged in doing extension work to the existing sewer system in the Village of Summerside, Mr. W. H. Crandell.

"The Commissioners, on this authority, and subsequent to this engineer's survey, were furnished with an estimate of the cost of building such a system, which would be adequate to care for foreseeable need of the area, and the estimate, after adding a percentage to any margin or error, was slightly under two hundred thousand (\$200,000.00) Dollars.

"After this survey was made this engineer, accompanied by the Commissioners reported to the ratepayers of the Village, and reported the findings in regard to this matter, and after much discussion it was the undivided opinion of all present, that this Village was not financially able to bear this proposed expenditure, so long as they were to be forced to assume the assessed share of the debt of the School Unit assigned to the area by the powers that then existed.

SCHOOL INDEBTEDNESS
"This decision was based on the existence of the present school debt, together with the potential increase in school debt which could be incurred by the Trustees of the Unit with the approval of the Minister of Education, expenditures which would be beyond

Nurses Hear Discussion On Mental Health

The Charlottetown District Association of Nurses of P. E. Island began a series of sessions yesterday at Red Cross which will be conducted at Falconwood Hospital.

In his introductory remarks at the opening session, Dr. A. J. Murchison said: "Mental health is a major problem today. Keep an open enquiring mind, increase your knowledge by reading."

"Touching on Hospital-patient relations he said "the public are no longer willing to be dismissed with childish stories. They want to know what is being done, and why it is being done, and not to be treated as a child. Patients are no longer gazing at doctors and nurses with awe, but with curiosity and intelligent respect."

"Fear is one of the biggest factors in producing emotional illness and is associated with the stress and strain of modern living," the speaker said. "This frequently results in anxiety, which in turn creates bodily tension, which is not relieved, produces illness mental and physical."

"The stress theory holds that many diseases have no single cause, no specific pathogens, but are largely due to non-specific stress, largely to the patient's depression which results from inappropriate responses to such non-specific stress."

"The afternoon session, Dr. A. A. MacVicar spoke on "How to know what is being done, and why it is being done, and not to be treated as a child. Patients are no longer gazing at doctors and nurses with awe, but with curiosity and intelligent respect."

Prompt Action Saves Small Boy
PETERBOROUGH, Ont. (CP)—Fate acted by a young mother Monday saved the one-year-old son from possible asphyxiation after he crawled down a 14-inch cold air pipe leading to the furnace in their home.

Mrs. Jack Daly, who said she was so excited she "could have ripped the furnace apart," raced to the basement and kicked the pipe apart to free her son Bill.

Mrs. Daly said the boy crawled down the pipe during the submission of the reports of the president, and secretary-treasurer both of which were received and adopted.

Production Of Steel Ingots Higher
OTTAWA (CP)—Steel ingot production during January was 310,853 tons from 290, 487 in the corresponding month last year, the bureau of statistics reported Monday.

Pig iron output dropped to 199, 454 tons from 224,900 and steel castings output to 3,961 tons from 8,413.

The administration or control of the Village.
"Following this discussion a motion was made, and unanimously carried, that this Village proceed with the building of sewers and water mains providing that the Provincial Government would permit Parkdale to withdraw from the School Unit. Parkdale would maintain its own school, and provide for these added services.

"From the figures of the school year 1954-55 it is apparent that Parkdale School District as it was constituted at the time of incorporation into the Unit, would have cost Three Thousand Three Hundred and Thirty-five (\$3,335.00) Dollars per year. In other words, Parkdale School District is paying this amount over and above the amount which is payable in respect of the annual maintenance of its school. If we consider the area comprised by the Village of Parkdale, then it will be apparent from the figures for the same year that this area is subsidizing School Unit No. 1 to the amount of approximately Four Thousand Nine Hundred and Thirty-five (\$4,935.00) Dollars per year. This area can not afford to do this when it is in such a difficult position with relation to water and sewerage. The people of Parkdale wish to withdraw from the School Unit this money will be made available for the urgently needed sewerage and water facilities.

PROPOSED PLEBISCITE
"We note that the proposal of the Government, in dealing with this matter, is to hold a plebiscite within the Unit, to determine if the people wish to split up the Unit, and if they so decide, to appoint a Commission to decide what shall then be done in regard to reallocating and running the resulting school districts.

"In closing we wish to make very clear to you these three points:
"First, it is not our wish to break up the School Unit, and as this seems to be the decision we will be called on to make when we vote on the proposed plebiscite, this vote will not, in any way, serve to solve our problem, but will only confuse those voting.
"Second, we have obligations to the citizens of the Village. The present set-up of an urban area joined up with a rural area as a school unit is financially impractical. Such arrangement is a deterrent to our going ahead with progressive activities within the Village.
"Third, we, the citizens of Parkdale, wish to express this desire, and this only, that this Village be released from the Unit, without interfering in any way with the business and affairs of other areas. We suggest that the boundaries of the School District and Village should be identical for the obvious financial reasons, which we have here set forth. We offer you these signatures of citizens of the Village of Parkdale, who support us in our contention, that

Becker Ensemble Heard In Fine Concert Last Evening

Charlottetown music lovers turned out in large numbers last night to hear a group of distinguished artists in a delightful concert under Community Concert Association auspices in the Prince of Wales College hall.

The Becker Ensemble, headed by Miss Mary Becker, violinist, has embarked on a national reputation in concert appearances across the continent, and their performance last evening left nothing to be desired in virtuosity and sensitivity. The other members of the ensemble, all solo artists in their own right, are Miss Marcia Barbour, cellist, Miss Lily Miki, pianist, and Miss Ramona Dahlborg, flutist. Individually and as a group, they were warmly applauded and responded to a number of encores.

The programme opened and closed with performances by the full ensemble. The first number being "La Folia" a set of variations on an old Spanish theme by the 17th century violinist-composer, Arcangelo Corelli. For its final number the ensemble played a stirring Rumanian Rhapsody (No. 1 in A Major) by Georges Enesco.

Among modern composers few enjoy the reputation of that of Maurice Ravel, from whose works Miss Becker, Miss Barbour and Miss Miki chose two movements from "Trio in A Minor." The first, "Menuet," is regarded as one of Ravel's most important contributions to Impressionism; the programme notes refer particularly to "the interlocking of phrases and superimposition of meters" by which the second movement

Continues Series On Marriage

Dr. Lloyd W. Shaw, Deputy Minister of Education, last night at the Y.M.C.A. addressed a group of approximately 25 young people in the third of the current series on Marriage for Moderns. He spoke on the topic "The key to a successful marriage," pointing out how a married couple can adjust themselves to each other's personalities.

Dr. Shaw painted a very realistic picture of the problems facing young couples in marriage today and gave some sound advice and good ideas to the group.

The fifth in the series continues next week with the film "Choosing for Happiness." Mr. Kenyon, supervisor of City schools will be the guest speaker.

Parkdale W. I. March Meeting

"The man who moved a mountain began by carrying a way small stones" was the quotation chosen for the March meeting of the Parkdale W.I. Mrs. Cook, the president, announced the topic, "Education," and opened the meeting with the singing of "School Days" followed by repeating the Creed.

Twenty-six members answered roll call with "My Favorite Magazine," and six new members joined.

Following the minutes, reports were heard from the delegates to the annual Red Cross meeting, and from the hall, school and sick committees. Excellent reports show increased activity in the Scouts, C. U. B., Guides and Brownies. Mrs. Pickard, Guide Captain, asked for instructors for sewing and homecraft classes.

Mrs. Frank Ross and Mrs. Pickard were appointed to conduct the sewing classes.

Mrs. Compton spoke on the disaster organization of the Red Cross and made further arrangements to use the Institute hall as a relief centre if need arise. Mrs. Pickard, Mrs. McAskill, Mrs. Cook, Mrs. Douglas and Mrs. Rodd form the rest of this committee for food relief services.

A letter from Mrs. Lawson was read and discussed, it was decided to join the Canadian Association of Consumers and support this worthwhile organization. The turkey dinner on March 10 has been well arranged, so no further planning was necessary. March 24 was set as the date for packing woollens.

In honor of all past presidents of the Institute branch, a table cloth, exquisitely embroidered by Mrs. Fred Gallant, and bearing all their names, graced the president's table. Behind it was the new felt crest in blue and gold, the work of Mrs. Frank Ross. A special feature was the photographing of the group of past presidents by Mrs. Dollar. A photograph of Mrs. Russell Beer, a past president who has left her daily duties, was on the table. Mrs. S. A. Cantwell, a former president now in Toronto, had telegraphed her greetings and sincere best wishes on this occasion.

Mrs. Leo McIsaac convened the program committee. She had as her topic, "What Do Your Children Read?" An attractive display of children's books and magazines, reading tests and books on reading contrasted with some lurid crime comics. An excellent poster, artistically arranged, provided the background.

A thoroughly interesting and educational playlet, "Do We Need Libraries?" was presented.

Following this Mrs. McIsaac gave a timely and interesting talk on her chosen topic. She stressed the formation of good reading tastes and habits, and explained some points of the present reading program in our schools.

She announced details of the better reading campaign being sponsored in the school by the Women's Institutes. The list of chosen books for the book quiz in October was presented and will be posted in the school. The members brought magazines they had read and exchanged them for others from the magazine pool.

The hostesses, Mrs. Burns, Mrs. Burke, Mrs. Bertram and Mrs. Brown, served refreshments.

The date for the next knitting party was set for March 14 at the home of Miss Anna Love.

Mrs. Cook reported on the success of the square dancing class for the members and their husbands, and spoke of all the fun and enjoyment they had at these weekly classes.

With Mrs. Bertram at the piano, the meeting closed with "The Queen."

Diamonds Recovered From Plane Wreckage

LONDON (AP)—About 90 per cent of the diamonds carried by a British Overseas Airways Corporation Stratocruiser that crashed Christmas day have been recovered, a London insurance firm said Sunday night. The plane crashed and burned out on landing at Prestwick, Scotland, with the loss of 28 lives. It carried 40 packets of diamonds believed worth £1,000,000 assigned to United States buyers.

Swiss Vote To Continue Controls

BERN, Switzerland (Reuters)—The Swiss people in a referendum Sunday voted to continue existing controls over food prices and rents until the end of 1955.

Parkdale W. I. March Meeting

"The man who moved a mountain began by carrying a way small stones" was the quotation chosen for the March meeting of the Parkdale W.I. Mrs. Cook, the president, announced the topic, "Education," and opened the meeting with the singing of "School Days" followed by repeating the Creed.

Twenty-six members answered roll call with "My Favorite Magazine," and six new members joined.

Following the minutes, reports were heard from the delegates to the annual Red Cross meeting, and from the hall, school and sick committees. Excellent reports show increased activity in the Scouts, C. U. B., Guides and Brownies. Mrs. Pickard, Guide Captain, asked for instructors for sewing and homecraft classes.

Local Women's Club Takes "World Tour"

Miss Kay Jackson, M.B.E., M.C.S.P., took the members of the Charlottetown Business and Professional Women's Club on a very realistic and complete world tour in the short space of one year last evening when she showed exquisite coloured slides she had taken on her way to and from India when she returned to that country two years ago and then came back to Prince Edward Island again. Miss Jackson was introduced by Miss Bessie Prowse, chairman of the March committee, and thanked on behalf of the Club by Miss Isabelle Macdonald. Attractive St. Patrick's Day favours decorated the tables and delightful Irish airs were played by Miss Florence Simmons before the dinner began.

The meeting was chaired by club president, Miss Dorothy Cullen, and a report on plans for a Maritime conference of Business and Professional Women's Clubs was presented. Undertaking were outlined by the chairman of this committee, Mrs. Helen Dunbar.

Mrs. O. C. Craswell was welcomed as a new member and guests present included the Misses Chalk and Williams, both of Annapolis, who are physiotherapists at the Polio Centre, and the Misses Winnifred Gillan and Helen Warren of the Worcester, Mass., Business and Professional Women's Club.

(Continued from page 1)

Churchill

strength. The sooner we get our united ratification (of the Paris treaties) settled, the sooner a top-level, four-power conference may come. It may be a five-power conference.

Some important changes have occurred in Russia, he said. "The Malenkov regime has gone. The 'new look' which I wished to explore in May, 1953, has been succeeded by another 'new look'."

"So far the new 'look' has not raised any extravagant hopes of improvement."

The prime minister said it was "pure guesswork" to say all would have been well had Malenkov remained in power.

PRaises EISENHOWER
He could not pretend to measure what the recent Kremlin changes imply but "I do not feel in any way that they should discourage us from further endeavors."

The prime minister also praised President Eisenhower's reaffirmation last week that the United States would keep U.S. troops in Europe if the Paris treaties are ratified.

"I hope nothing will be said on this side of the Atlantic, and particularly in this House, which will raise new inhibitions in the American mind against the freedom of his personal movements."

Earlier in his speech, Churchill said he proposed a meeting with Malenkov with Eisenhower's knowledge on his way home from a conference with the president in Washington last week.

He said he received "a very friendly and encouraging reply" from Foreign Minister Molotov on July 5, and on July 26 he sent Molotov another message proposing a meeting in late August or early September in Bern, Stockholm or Vienna.

Churchill said Russia's plan for the security conference came in between his two messages. Churchill said he had in mind an informal meeting to include himself, Foreign Secretary Eden, Molotov and Malenkov.

New Treatment For Asthma In Children

VANCOUVER (CP) — Doctors may soon use gamma globulin in treating some asthmatic children here.

An official of Vancouver's health centre for children says the blood component may be tried with children whose asthma has developed from an infection, such as a cold.

Gamma globulin contains antibodies giving protection against various germs and viruses. It would probably give only about 10 per cent of children with asthma here, the Vancouver spokesman says.

Air Technician

Jack Sherron, son of Mr. and Mrs. Louis Sherron, Charlottetown has completed part of his training as an aircraft technician at Camp Borden, Ontario. He has been posted to Bagotville, Que., effective April 1 where he will practice his trade. Between postings he is enjoying leave at his home and will visit relatives at Crapaud.

Local Red Cross Drive Launched Last Evening

Brigadier G. G. K. Peake, chairman of the Charlottetown Red Cross campaign organization presided at a well attended campaign chairman's meeting of Red Cross headquarters last evening when the Charlottetown general canvass was officially launched. Brigadier Peake urged the division commanders, captains and team members to follow-up every card given them as well as to cate new subscribers, and in this way give every person an opportunity to contribute to Red Cross and thereby share in providing its many services.

Mr. Walter R. Shaw, provincial campaign chairman, pointed out the importance of Red Cross services and the manner in which they affect each one personally. He stated again that the free Red Cross blood transfusion service alone — provided by the generosity of those who donate the blood under the most thorough medium of Red Cross — over \$85,000, last year. He went on to explain that this is the amount the 3,095 bottles of blood given in transfusions in 1954 would have cost those who received them at the rate charged in hospitals which do not have this free transfusion service. He also pointed out the fact that Prince Edward Island has not reached its objective in Red Cross campaigns for some years now, and that although only \$25,000 was raised here last year it cost \$43,000 to maintain Red Cross services in P. E. I. The additional \$18,000 had to be supplied to Prince Edward Island Red Cross by the national headquarters. He said that Prince Edward Islanders should make it a matter of pride to keep up their end by reaching or oversubscribing the \$27,400 objective this year.

The campaign workers were then shown the latest Red Cross film entitled "Without Warning." This coloured film vividly portrays the different Red Cross services as they are experienced in a very personal manner by the Martin family when they meet with an accident while on their holiday.

Brigadier Peake requested the canvassers to make their return by the end of this week if at all possible, and told them that the ladies' committee, composed of about 75 representatives of different women's organizations in the city, would do house-to-house canvass at the end of the month, to be sure that everyone is given an opportunity to contribute to this important campaign.

Mr. George A. Purvis, Commander of the Royal Canadian Mounted Police, pointed out the distinction of being the first member of the general Charlottetown organization to make complete returns which represented subscriptions from almost 100% of the employees of the Royal Bank Charlottetown.

Two Killed In 'Copter Crash

THE PAS, Man. (CP) — The bodies of two men, killed Friday in the crash of a helicopter in the wilderness of northeastern Manitoba, have been flown here in a ski-equipped Norseman plane.

Victims of the helicopter crash were James O. Burton, 31, of Oshawa, Ont., pilot, and Elmer James Davis, 39, of Woodlands, Man., a tractor swing foreman.

The helicopter crashed while guiding a construction tractor train through rugged country near the Fort Severn trading post on Hudson bay.

Witnesses said the rear rotor of the helicopter fell off. The machine flipped over on its back then plummeted to the ground.

Ottawa

An opportunity to do so. This belief is based on the fact that Canada exports much greater quantities of potatoes than we import. For example, from 1949 to November, 1954, Canada exported 28 million bushels of potatoes to the United States. This is more than twice the number of bushels of potatoes we imported during the same period from the United States.

"As a rule, imports exceed exports only during relatively rare periods of abnormal disturbance. In 1954, for example, Canada imported larger quantities of potatoes than usual. The reason for this was that Maine had a large crop of unusually low quality potatoes. Since these potatoes had to be moved quickly to avoid spoilage there were large shipments from Maine to a number of markets, including Canada. This development was an abnormal one and it is thought that the trade will return to a more normal pattern in the near future.

"In closing I would like to assure you that this department has carefully noted the contents of the resolution passed by the Legislative Assembly of Prince Edward Island and that we shall press for a reduction in the United States tariff at every opportunity."

Senator Barbour said in part: "My thought is that instead of increasing the tariff on American potatoes coming to Canada we should be working towards the elimination of the 37 1/2 cents per hundredweight on our table stock potatoes going to the United States. It would be very much better, in my opinion, if we had no tariff against potatoes in either the United States or Canada."

Mr. MacNaught said: "This problem has been receiving our attention for some time. It is a problem that presents many difficulties, more particularly as the tariff is being under G.A.T.T. until the end of June."

controls was rejected 447,650 to 317,274. At the end of next year, the Swiss government must put forward a new plan for controls to replace the existing legislation, which came in force during the Second World War.

School Plebiscite Meeting Of Central Royalty Voters

Approximately 100 ratepayers of school Unit No. 1 of the Central Royalty section met last night at the hall and unanimously approved of the retention of the present set-up of School Unit No. 1.

The meeting was under the chairmanship of Mr. Geo. Ayers and Mr. Ernest MacMillan, members of the present school board, was the main speaker.

Mr. MacMillan traced the formation of the Unit from its origin in 1949. He showed that with the present assessment of the Unit of \$3,400,000 a tax rate of \$1.35 per \$100 was necessary. However, he also pointed out that the present school population of 1014 would be increased by 200 during the next two years which means six extra class rooms and possibly by

1960 a total additional of 12 class rooms.

Some thought he said had been given to the construction of a Junior High School to take care of this additional requirement out any action for meeting the school accommodation needs was held up pending decision of the voters at the forthcoming plebiscite on April 2nd next.

The meeting appointed a committee consisting of E. D. Reid, Jerome O'Brien and Ernest MacMillan to continue the effort to bring the facts to the people and up pending decision of the voters at the meeting of the whole Unit at an early date, at which time representatives of the Department of Education and the Board of Trustees of School Unit No. 1 would be invited to attend.

Local Red Cross Drive Launched Last Evening

Brigadier G. G. K. Peake, chairman of the Charlottetown Red Cross campaign organization presided at a well attended campaign chairman's meeting of Red Cross headquarters last evening when the Charlottetown general canvass was officially launched. Brigadier Peake urged the division commanders, captains and team members to follow-up every card given them as well as to cate new subscribers, and in this way give every person an opportunity to contribute to Red Cross and thereby share in providing its many services.
