

KINSMEN VARIETIES GREATLY ENJOYED

Featuring three distinct types of entertainment ranging from highlights on the Bowery of New York, to Western ranch life and a minstrel show, the Kinsmen Varieties of '56 scored another success last night in the Auditorium of Prince of Wales College before a large and appreciative audience. The production was under distinguished patronage and was attended by His Honor Lieutenant Prowse and Mrs. Prowse, accompanied by the Governor's Army Aid Lieut. Col. A.W. Rogers, E.D. and Mrs. Rogers. The third and final performance will take place tonight.

Interest In Local Museum Sought By Historical Soc'y

Mr. W. Austin Squires, curator of the National Science Department of the New Brunswick Museum will address the Prince Edward Island Historical Society at a general meeting to be held in the Y.M.C.A. on April 24th. Mr. Squires' visit to the Island comes at a very opportune time, since the local society is embarking on an effort to create a popular demand for the establishment of a museum here.

The society already has a large collection of historical items with

plot destroyed would have it renewed by the City.

Mayor Stewart said the City would endeavour to give residents all the protection necessary but would not go so far as to say that the City would restore damaged plots.

Coun. Gaudet said the parking problem had become so acute that it could be expected that the practice of parking over the curb would continue to give the time of day to most of these areas would have to be paved between the curb and the sidewalk.

Coun. Foster said it would have to be paved or be a mud hole.

TOO COSTLY

His Worship said the City could not afford to go in for an extensive program of paving between curb and sidewalk. He asked that an advertisement be run in the local papers requesting the co-operation from car owners in respecting other people's property. The Chief of Police said the Force would be continually on the alert for offenders in this respect.

Coun. Gormley, chairman of the Police Committee said parking meters have been replaced by Gormley said many people have referred to the meters as "public enemy No. 1" but reminded the Council the meters were there to regulate traffic. He reported that they were paying for themselves but emphasized the fact that their primary purpose was not for making money.

Coun. Gaudet agreed with Coun. Gormley that the meters were doing a wonderful thing in regulating traffic. He said any merchant who would object to them would be pretty short sighted. If they were not there, he said, the same cars would be parked on the block all day and a customer could not get near the store.

PARKING FACILITIES

Coun. MacDonald brought up the matter of parking facilities around the Federal Building. He suggested that the Jail Square be paved on Pownall and Richmond Streets to be used for extra parking.

Reporting for the Fire Department, Coun. Gaudet said that the new resuscitator which he described as the finest in Canada, had been mounted on the Bickle engine and a number of the firemen had received instruction in its use from Dr. L.E. Prowse. He understood that Dr. Prowse intended to give further instruction at a future date.

Coun. Gaudet said it was anticipated that the Department would be receiving requests for the loan of this machine and wanted the opinion of the Council regarding this matter.

His Worship reminded the Council that the resuscitator had been purchased with City funds and if it were needed at a time when it was on loan, "it would be just too bad if it were not available," he said.

The Mayor felt that the loan basis should be the same as that in effect as far as the Fire engines were concerned, that is within five miles of the City limits.

Coun. Gaudet reported that 16 conventions have been booked for

Charlottetown will participate in discussions at the 12th annual convention and exhibition of the Canadian Restaurant Association here from April 16 to 19.

Billed as Canada's greatest "show window" for the food service industry, the entire program for this four-day meet is designed to show delegates ways and means of serving better and tastier food and giving more prompt, efficient and courteous service to the public.

Features include a culinary arts competition and food show, a menu contest and an idea centre.

RESTORED FROM SNAKE PIT

BRISBANE (AP)—An ambulance officer Wednesday leaped into a canvas pit containing 10 poisonous snakes to rescue a snake expert bitten by a Talpan, Australia's deadliest reptile. Ram Chandra, 35, who now is seriously ill, was bitten as he was preparing to remove the Talpan's poison. Ambulance officer L. Borsierini leaped into the snake pit to lift Chandra out.

Island Telephone Co. To Issue Preferred Shares

At a special meeting, held at the Charlottetown Hotel, on April 11, 1956, the Shareholders of the Island Telephone Company, Limited, approved of the issue of 40,000 4% per cent Preference Shares of the Company, of the par value of \$10.00 each.

Mr. A. M. MacKay, President, said in part that the purpose of the issue was to provide funds necessary to re-establish pole lines and circuits damaged by storm; to pay for a new Charlottetown-Summerside Microwave System; the rearrangement of the Prince Edward Island - New Brunswick radio

system and the completion of a system of underground conduits on Water Street, Summerside. It is proposed that the shares be underwritten by Royal Securities Corporation, Ltd., Charlottetown, for sale to the public at \$10.00 per share.

Application was made to the Public Utilities Commission for approval of the issue and approval was given subject to the taking out of a formal order. The shares will be offered to the public by Royal Securities Corporation, Limited and will rank for dividend from May 1, 1956.

RETURN BODIES

Israel turned over to Egypt Wednesday the bodies of 10 of the 13 Arabs it reports have been killed in the fedayeen raids. The raiders are blamed for the death of six Israelis and wounding of 30.

A pledge of support for Hammarskjöld came from the Arab League's political committee, currently meeting in Cairo. The committee recommended that the council of the nine-nation league urge Arab states to co-operate with the secretary-general so he could "learn the truth about the Palestine problem."

The committee made it clear, however, that co-operation would be extended to Hammarskjöld's efforts within the specific orders of his mission—a survey encompassing efforts to prevent further frontier troubles and to strengthen the truce supervision machinery.

Arab leaders have indicated they will not co-operate if Hammarskjöld tries to negotiate a political settlement. They oppose political peace talks unless Israel bows to UN resolutions on frontiers, repatriation of refugees and the internationalization of Jerusalem, now divided between Israel and Jordan.

POLICE COURT — A man summoned to appear before Magistrate Martin yesterday morning, failed to make an appearance. There were no other cases on the docket.

raising of the \$5. poll tax to the \$25 educational tax and a general over all assessment of real estate.

Coun. MacDonald said Mr. Abbott and Mr. Seller were handling \$1,000,000 business annually and asked, "where in Canada would you get two men to do this job for the money they are getting?"

Mayor Stewart: "Nowhere".

Coun. Johnstone said that it was Mr. Seller's job to assess each property in the City every year. This involved a great deal of house to house calls. He felt it would be better, perhaps, if a bright young man were employed to make these door to door calls and give Mr. Seller more time for office work.

OVER THE CURB PARKING

Coun. Johnstone reminded the Council that the perennial problem of parking on grassed in areas would have to be coped with in a few weeks and wondered what policy the Council was prepared to adopt in this respect.

He wanted to know of a resident were to seed out the area between the sidewalk and the curb and such seeding were destroyed by an indifferent motorist, what protection would the city give such a property owner.

Coun. Johnstone was of the opinion that a person who had his grass
