THE LIBERAL RECORD.

SOME of our Liberal exchanges—notably The Patriot—have lately been congratulating the Liberal party and the public upon the prosperity of the country, now that the Liberals are in power. They would like to have it inferred that this prosperity is due, in some way, to the superior tactics and policy of the Liberal party.

What is the true state of the case? As a result of the Manitoba School intrigue, the Liberals succeeded a careful administration under which the affairs of the country were moving smoothly.

Notes and Comments. Eight Liberal members of Parliament have lately been appointed to high official positions by the men who denounced such appointments as interfering with the independence of Parliament.

"Bystander" in the Sun, characterizes the prohibition plebiscite as "a weak device for the evasion of Parliamentary responsibility," and adds that "it is not unlikely to end in a fiasco."

The London Times commenting on the Santiago engagements says that nothing seems to have been done on either side except to consume gunpowder.

Montreal Gazette: Mr. Russell's letter to Cardinal Rampolla was up in Parliament again on Tuesday, with the result that Mr. Mills said about it, almost everything but that it was not written on the authority of his colleagues in the Government.

Mr. Russell's letter, as published, was a pledge to the Vatican that the concessions to the Catholics of Manitoba in regard to their schools, whereby the severity of the Greenway law was relaxed, were but the beginning; and that, practically, the old order would soon be restored.

Mr. Mills might well feel uncomfortable when confronted with such a question. The cause of it is a thing to be ashamed of.

DOMESTIC ECONOMY PUZZLE

She Could Get the Answer, but Still She Wondered.

A dear little woman up on Capitol Hill married and to housekeeping in the most determined manner. She set to work to keep an exact account of her expenditures, balancing her books regularly once a month.

A month later, in making up her accounts, it occurred to her that \$10 should be divided proportionately among the several months mentioned on the ticket in order to give to each day's account only the amount of money actually expended on that day.

What in the world is the matter? he asked. The wife explained. "Well, can't you get any answer without that figuring?" he asked. The wife's eyes began to blink rapidly and she sniffed suspiciously.

A DITCHING PLOUGH.

SIR.—I have numerous inquiries from your Province about a ditching plow that I have used on my farm for a number of years. Permit me to state for your readers that with this plow, a team and an extra man a farmer has again and again finished up 800 feet of a drain 3 feet deep in a day. My plow cost me less than \$20 laid down at my door and any farmer can have it at the same price.

ANOTHER TRIBUTE.

SIR.—I notice with pleasure, a letter in Wednesday's issue, signed "A Lover of Music." This Lover of Music seems to have struck the right key. The public are generally the best judges, in matters of this kind; and not certain parties who usually appear in the columns of the newspapers as musical critics, after almost an entertainment, and regardless as to how their friends play or sing, give forth the most fulsome flattery, and the performers, who actually sustain, and are most deserving of prominent notice, are simply passed over and barely mentioned.
