## NEWS BY TELEGRAPH

### 15,000 MEN IDLE

An Attempt to Assassinate the Sultan.

Toronto Merchant Arrested for Fraud.

[SPECIAL TO THE GUARDIAN.]

LONDON, March 14.—Fifteen thousand men are idle in North Staffordshire. Unless work in the mines resumes in a few days the potteries will close throwing fifty thousand men out of work.

Mercier Can't Resign.

MONTEAL, March 14.—Mercier says he was the most respected man in the province at the result of the elections. Up to the last moment he felt confident of taking the province. Matin, government organ, contends that according to the law, Mercier has no right to resign until expiration of thirty days from the official publication of official returns, during which the election may be contested.

Arrested for Fraud.

MONTEAL, March 14.—McKeown, one of the heaviest Toronto dry goods merchants, was arrested today for defrauding his creditors. He pleads not guilty. He was arrested in Toronto at the instance of Gault Bros. He recently failed, with \$60,000 liabilities.

What Would Become of His Widows.

LONDON, March 14.—It is reported that a plot to assassinate the Sultan has been discovered. Two men have been arrested in Yedigözü armed with revolver and dagger.

Depression in Trade.

PITTSBURGH, March 14.—Hundreds of men in the iron and steel mills are to be suspended owing to depression in trade.

Monck Goes Tory.

TORONTO, March 14.—Boyle, conservative, was elected for Monck, Saturday, by a majority of 200.

Chicago Markets (Special Telegram to GUARDIAN.)  
CHICAGO, March 14.—Mch. corn 38 1/2; oats 39 1/2; May corn 39 1/2; May wheat 86 1/2; pork closing \$10.42; oars closing 29 1/2; June corn 39 1/2; and wheat 85 1/2; June pork \$10.5a.

The Weather

PROBABILITIES FOR THE NEXT 24 HOURS.  
WASHINGTON, March 14.—1 p. m. Continued fair weather; slightly colder Wednesday, followed by nearly stationary temperature; brisk westerly winds.

Wales Wedding Anniversary.

LONDON, March 10.—Twenty-nine years ago today the Prince of Wales married Princess Alexandra, eldest daughter of the King of Denmark. At Windsor castle, where the Prince is at present sojourning, the bells were ringing and a salute was fired in honor of the anniversary. No festivities were held at the castle.

**SYRUP OF FIGS**  
ONE ENJOYS  
Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.  
Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the CALIFORNIA FIG SYRUP CO., SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y. L. W. WATSON, Agent at Charlottetown.

**Sir Charles Tupper.**  
LONDON, March 10.—The dinner of the association of the chambers of commerce was held last night. Sir Chas. Tupper, Canada's high commissioner in London, made the speech of the occasion, concerning "Canada and her commercial resources." The Canadian manufacturers and exporters, he said, were smarting under the hardships of the McKinley tariff, and would not be long before the people would show their loyalty to the integrity of the British empire by striking the United States a vital blow in return. Canada was in favor of uniting her interests as closely as possible with those of the mother country. She knew she had a granary with a capacity sufficient to supply England's needs. She could, in fact, send to England all the wheat and flour, which the latter needed, for her great army of factory laborers. In exchange Canada would take the manufactured articles of the mother country. Above all things Canada wanted Englishmen from England to emigrate to her shores, and with their energy and capital, work her vast undeveloped resources. By her present policy Canada prevented Boston and New York from beginning commercial capitals, and with the aid of the home government she could still further encroach upon the prestige of these cities and make one of her seaports the greatest outlet in the world for grain. Canada had soil and willingness to accomplish these results, and the time was ripe when she could receive the opportunities to show the capabilities of her territory and people. Sir Charles was interrupted frequently by applause during his address.

## Murder by Proxy.

FARMER COLLINS CONVICTED OF HIRING A NEGRO TO KILL HIS WIFE.

CARTERSVILLE, Ga., March 10.—Rufus Collins, who paid a negro \$50 to kill his wife, was convicted of murder to-day. Collins was a well-to-do farmer of North Carolina. He fell in love with a neighbor's daughter, but his wife was in the way. He then moved into Georgia, buying a farm twenty miles from here. One day a negro farm hand shot and killed Mrs. Collins. The widower took her body to the old home in Carolina. There suspicion was aroused, and investigation developed that Collins had hired the negro to kill her.

Can't Browbeat Johnny Bull.

LONDON, March 11.—The Standard, commenting on the Behring sea question, says:—"We cannot help thinking that President Harrison is trading over much on our past amiability. The Wharton message completely misrepresents the attitude and argument of Lord Salisbury, besides begging the whole question in dispute. The suggestion that England would only be too glad if arbitration was abandoned is too ridiculous to be discussed. Lord Salisbury is bound to protect English rights as far as it is equitable and just to do so, and we must assure our friends in America in all good humor that no amount of browbeating is likely to force him into abandoning that responsibility."

Disorder in Russia.

GOVERNMENT OF THE EMPIRE MADE IMPOSSIBLE BY FAMINE AND DISEASE.

LONDON, March 9.—The Chronicle's St Petersburg correspondent says:—"Hunger typhus is causing terrible mortality in all the famine districts. A serious lack of doctors, nurses and medicines is complained of. The daughter of Gen. Radelsky, the defender of Shipka Pass, has died of typhus fever, contracted while nursing sick peasants. Rev. Mr. Francis of the American church here, is just recovering from an attack of typhus fever in the Alexander hospital. The czar is incensed at the incompetency of the ministers to deal with the famine. The greatest disorder prevails throughout the empire, and it is daily increasing. This fact is regarded as evidence of the impossibility of governing from St. Petersburg."

Jumped a Fearful Height and Lived.

NEW YORK, March 10.—At 12.30 p. m. today fire broke out on the fourth floor of the five-story tenement house, 236 East Twenty-ninth street. A family named Knobloch live on the top floor. Katie Knobloch, 18 years old, was in charge of two children when the fire broke out. Smoke rendered escape by the stairway impossible. Katie was panic stricken. She held one child out of the window until weakness compelled her to let it fall. The child fell five storeys to the sidewalk and died soon afterwards. Katie held the other child out of the window and let it fall into the arms of Peter Clancy. This child was only slightly injured.

Katie climbed out of the window herself and after hanging suspended from the sill for two minutes let go and dropped. Clancy got several other men around him and as the girl fell they caught her in their arms, thus saving her life. The fire was soon extinguished.

Councillor Crabbe gave notice that at next meeting of council we would introduce a bye-law for specifying and levying the Assessment upon real estate and personal property for the purpose of collecting city taxes, water rates, etc. And also a bye-law in reference to the rate of discount on same. Moved by Councillor Crabbe, seconded by C. Hogan that Charles Barry, Keeper of the smallpox hospital be dismissed.

Carried.

Also that Charles Cameron be appointed Sanitary Officer to be paid at the rate of \$100 per year.

Resolved, That the services of Mr. Samuel McKrae, acting Sanitary Officer, be dispensed with. Councillor McKay gave notice, including a Resolution, seconded by C. Robertson, that he would ask for a special meeting to take into consideration the amalgamation of the Water Commissioners' work with that of the City Council—in short doing away with Water Commissioners altogether. He claimed a saving of \$2,000 might be effected by this.

A diversity of opinion prevailed on this question, but on the Resolution being put, it was carried, Councillors Crabbe and Beer dissenting.

A special committee of Councillors, McKay, Hogan and Robertson were appointed to report on this at a Special Meeting called by His Worship for the 21st inst.

It was resolved that tenders be called for 50,000 feet hemlock plank.

Councillor Crabbe gave notice that at next meeting he would introduce a Bye-law to license, regulate and in some cases prevent billiard tables and bowling alleys and other places of amusement.

In reference to the monies demanded by the W. C. T. U., Councillor Crabbe gave notice that at the next meeting he would ask that they be paid. A resolution in regard to reducing the number of the Board of Fire Engineers from 15 to 3 who shall be styled Chief Engineer, first and second assistants, called forth an animated discussion. On being put it resulted in a tie. His Worship considered it needless to have so large a board under present efficient equipments. He therefore decided the number should be reduced.

Moved by C. Crabbe, seconded by C. Hogan, That A. N. Large, F. H. Beer and Charles Hermans constitute this board.

Moved by C. Taylor, seconded by C. Robertson, That the name of F. H. Beer be struck out and John McPhail substituted. A tie again resulted. Decision in favor of Councillor Beer was given by His Worship and he considered the Council had a right to say how monies should be spent in connection with the fire department.

Moved by Councillor Beer, seconded by Councillor Hogan, That Councillors Crabbe, Hogan and Hooper be the Fire Committee to represent the Council.

Moved in amendment by Councillor Hogan, seconded by Councillor McKay, That Councillors Taylor, Robertson and McKay be that committee.

The main motion was declared carried.

Councillor Hogan submitted the Report of Market Committee, stating that they had employed an architect to make a chart of the basement and showing needed improvements and an estimate of the same (\$2,500). The proposed changes are to remove two of the six flues, clear out the basement, lay a solid concrete floor, provide drainage, etc. After a short discussion, Councillor Crabbe moved that tenders be called for the same. Motion was carried.

The City Clerk was requested to write to the Minister of Public Works for permission to connect drain from market house with main drains. An application of a Mr. Flynn wishing to lease King St. engine house was disposed of by referring it to property committee and meeting adjourned. Sine die.

Temperance Education.  
The following petition is now being circulated by the W. C. T. U. of P. E. Island. The movement has our warmest sympathies, and we hope it will be largely signed.  
TO THE BOARD OF EDUCATION OF P. E. ISLAND.—We, the undersigned, desiring to give expression to our sincere conviction that the best hope of saving the coming generation from the misery and evils resulting from habits of intemperance lies in the thorough dissemination of scientific truth as to the physiological effects of alcohol and all narcotics, do hereby earnestly beseech you to frame such a law as shall place this subject upon the same footing as leading ones already included in the school curriculum.  
And while we gratefully recognize the short appendage of temperance instruction, from the third grade up, in the series of reading books now used in our schools, we cannot but deplore the fact that the study of physiological or scientific temperance finds no place in the prescribed Normal School course.  
Until this is altered, by teachers and pupils being duly accredited for the study of this branch in their examinations, and until direct graded textual instruction is made compulsory, the desired end cannot be attained.  
As the successful prosecution of any subject in the school course depends largely upon the text used, and at the Pathfinder Series has been prescribed for use in many schools of the States and Territories of the American Republic, as well as in New Brunswick, and is very highly approved of by some of our teachers—it having found its way into their hands—we earnestly recommend it, or a Canadian edition of the same, for adoption in our schools."

## CITY COUNCIL MEETING.

### The City Fathers Transact a Lot of Business.

The first regular meeting of the new City Council was held on Monday evening.

There were present His Worship Mayor Haviland, His Honor Recorder Fitzgerald and Councillors Crabbe, Hogan, McKay, Beer, Hughes, Robertson, Taylor, and Hooper.

The minutes of the last Council meeting were read and adopted. The Bank asked for the usual Minute of Council for their overdraft. The estimates of the School Board were submitted—in total \$10,313.00. The sum of \$1,000 was voted the School Board on estimates. Michael Egan was voted \$1,000 as a third payment on his account of contract for rebuilding Queen's Wharf. An application from Mr. Egan for an additional sum of \$500 for removing warehouse, refitting and other repairs was referred to the Property Committee.

The committee appointed in re the extension of Dorchester Street through the Connolly Estate reported that those in charge of the estate are willing to effect an exchange for an engine house situated on Sydney street. The Mayor and several councillors stated they considered the move would be a great advantage, but the meeting did not seem in favor of moving too hastily; therefore, on motion of Councillor Beer, it was referred to the Property Committee to report at next meeting.

A petition was received from a number of the policemen, married men, with large families, complaining that their present salary is not sufficient to make ends meet. The petition was referred to the Finance Committee. A memorial was also read from the Clerk of City Police, Mr. H. V. Palmer, who has been performing the onerous duties of that office since June, 1889, for the sum of \$600 per year, asking that a salary commensurate with the work done be granted him. This was also referred to the Finance Committee to report on at next meeting.

A letter was read from J. H. Mellish threatening legal proceedings unless Mr. D. Weatherby's claim against the city on account of defective sidewalk be immediately paid.

It was referred to a special committee composed of Councillors Crabbe, McKay and Hogan.

A letter was read from Mr. W. S. Stewart relative to damage sustained by a horse owned by Mr. Harris to the extent of \$65, for which he holds the city liable and was referred to the same special committee.

His Honor the Recorder suggested that the committee proceed to work at once to investigate these claims, find out if they are real grievances, and all the pro and con before allowing action to be taken upon them.

An application from Mr. James P. Pollard soliciting the office of Sanitary Officer was laid on the table.

Mr. Hughes, chairman of the Street Committee, presented a letter he had received from Mr. F. W. L. Moore on behalf of Mr. Kelly, Edward Street, who complains of damage being done to his property on account of improper drainage, a gutter being broken down and allowed to fill up and overflow so as to fill his cellar.

This claim was acknowledged by Councillors Taylor, Beer and Hogan to be a just one. The City Surveyor spoke of running a drain to the river as the best way of securing the requisite drainage. The claim was referred to the Street Committee for further consideration.

Councillor Crabbe gave notice that at next meeting of council we would introduce a bye-law for specifying and levying the Assessment upon real estate and personal property for the purpose of collecting city taxes, water rates, etc. And also a bye-law in reference to the rate of discount on same. Moved by Councillor Crabbe, seconded by C. Hogan that Charles Barry, Keeper of the smallpox hospital be dismissed.

Carried.

Also that Charles Cameron be appointed Sanitary Officer to be paid at the rate of \$100 per year.

Resolved, That the services of Mr. Samuel McKrae, acting Sanitary Officer, be dispensed with. Councillor McKay gave notice, including a Resolution, seconded by C. Robertson, that he would ask for a special meeting to take into consideration the amalgamation of the Water Commissioners' work with that of the City Council—in short doing away with Water Commissioners altogether. He claimed a saving of \$2,000 might be effected by this.

A diversity of opinion prevailed on this question, but on the Resolution being put, it was carried, Councillors Crabbe and Beer dissenting.

A special committee of Councillors, McKay, Hogan and Robertson were appointed to report on this at a Special Meeting called by His Worship for the 21st inst.

It was resolved that tenders be called for 50,000 feet hemlock plank.

Councillor Crabbe gave notice that at next meeting he would introduce a Bye-law to license, regulate and in some cases prevent billiard tables and bowling alleys and other places of amusement.

In reference to the monies demanded by the W. C. T. U., Councillor Crabbe gave notice that at the next meeting he would ask that they be paid. A resolution in regard to reducing the number of the Board of Fire Engineers from 15 to 3 who shall be styled Chief Engineer, first and second assistants, called forth an animated discussion. On being put it resulted in a tie. His Worship considered it needless to have so large a board under present efficient equipments. He therefore decided the number should be reduced.
