MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat. In fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c, and \$1 at Charlottetown drug stores.

SPECIAL DESPATCHES TO THE EXAMINER.

THE ENGLISH ELECTIONS.

Government, 311; Opposition, 347.

Conservatives Will Meet Parliament on August 4th.

LONDON, July 19. At three o'clock this afternoon the total returns received show the election of 311 supporters of the Government and 347 members of the Opposition. QUEBEC, July 17.—J. X. Perrault of Montreal, delegate to the London congress, arrived here by the Vancouver, and is delighted because of the high position taken by the Dominion. He says Sir Charles Tupper was the ablest man present, and that the policy of preferential duties is gradually making headway amongst the thoughtful men of Great Britain.

News Notes.

New York papers report many deaths from heat in that city.

The writ for Chicoutimi has been issued. Nomination is on August 9th and polling a week later.

The Allan line steamer Nova Scotian ran into a heavy gale the day before reaching St. John's, N. F., and had two of her boats smashed.

A private despatch from Victoria says that the report of a small epidemic is greatly exaggerated through the medium of the Vancouver press. There are seven deaths so far and fifty-six cases under strictest quarantine.

The London World says: "The death of Captain Stairs adds another to the list of graduates of the Canadian Military College, at Kingston, whose lives have been sacrificed in the discharge of duty in Africa. The officers sent to the imperial army from the Canadian college are caring for themselves the highest characters, a state of things not, perhaps, to be wondered at, considering the thoroughness of the training they undergo in the Dominion military institution. It seems rather an inopportune moment for Canadian economists to agitate for a closing of the college."

He Caved.

We were going through Canada, and as soon as we entered the Queen's dominions a St. Louis man who was in the smoking car with us began to talk.

"No petticoat government for me," he was saying. "I want to get out of this country as quick as I can. I tell you, gentlemen, I never did believe in petticoat government; women are all right in their proper spheres; but when it comes to government—"

At this moment the car door opened, and through the volume of smoke a stern-visaged, spectacled woman presented herself.

"Is that you, Hiram? I guess you've smoked about enough. Come back into the sleeper. It makes me sick and dizzy to stay here. Come, hurry up," and she held the door open while she waited.

And Hiram meekly followed her, without a single protest against the home article of petticoat government.—Detroit Free Press.
