LATEST FROM EUROPE.

The steamship *Java*, at New York on Thursday evening, brought Liverpool dates to 25th ult. In the House of Commons on the 23rd ult., Mr. Watkins asked if the government had made any representation to the Washington Government relative to the Fenian proceedings in America. Mr. Gladstone regretted that the subject had been brought up. The Government had no knowledge of any proceedings to justify them in making representations to the American Government. He believed public opinion in America condemned the movement. It would be undignified to remonstrate so long as no public act was committed amounting to a breach of the neutrality laws.....The Irish Police continue active in arresting suspected Fenians, and troops continue to be sent to Ireland.....The cattle plague is still increasing. The latest returns show 13,000 cases—the largest yet.....The Prussian Government suddenly closed the Chambers on the plea that the proceedings of the Deputies were in opposition to the Government, tending toward strife. The action was quite unexpected. President Grabow expressed the hope that the people would stand by the representatives and constitution. ....Breadstuffs quiet. Provisions firm. Consols 87 8-8 to 87¼. U. States 5-20's 69¾.

THE FENIAN MOVEMENT.

(*By Telegraph.*)

MONTREAL, March 8.

The morning papers say that last night orders were received by the Militia authorities to call out 10,000 volunteers within 24 hours, and that last night guards were stationed at the armories, and everything put in a state of defence for any emergency that might arise. ....Gold 131¾.

NEW YORK, March 9.

The Times' Montreal despatch says the Militia are under arms and on duty to-night. It is reported that Navy Island has been seized by 10,000 Fenians. The Orangemen are being armed. There is great excitement in the city.

NEW YORK, 9th, P. M.

Toronto, 9th. — The response yesterday for volunteers from all parts of the country was very enthusiastic, and a much larger number offered their services than was required..... The *Globe* to-day has a report of a Fenian plot, which is for a body to cross into Canada and take part in the public processions on St. Patrick's Day, who will disturb the peace and distract attention, while armed Fenian bands will make raids on the Border.....Gold 130⅝.

BOSTON, March 10.

Toronto, C. W., 10th.—Volunteers continue to respond to the call with great enthusiasm. ....Bishop Lynch has issued a circular denouncing the Fenians.....The Customs Department have issued a circular speedily instructing the officers to thoroughly search all baggage and passengers coming into the Provinces, and detain all arms and munitions of war.....All weapons will be taken from passengers whose names will be taken with a list of such as they may have in their possession. Express goods shall be closely compared with the manifests and suspected packages will be opened. Freight trains will be carefully examined, and no package not mentioned in the manifests will be allowed to pass. Cars will be sealed before passing the frontier.

NEW YORK, March 10.

A despatch from Ottawa, Canada, says:—"Parliament has been called to meet April 10th. Nova Scotia and New Brunswick will immediately accede to the Confederation with Canada.....A large reinforcement will be sent out from England as soon as navigation opens to meet the threatened Fenian raid.....English gunboats have been ordered to the Fishing grounds in view of the abrogation of the Reciprocity Treaty.....The Government buildings and banks in Ottawa have been placed under guard at night.....Arrangements have been made for Reciprocal Free Trade between Canada and the British West Indies, and a direct mail line from Montreal thither will be immediately established."....The *Herald's* Toronto despatch says the crisis has arrived, and confirms previous reports of the arrival of volunteers in large numbers. Two thousand troops arrived last night, and were billetted by the citizens. All the railways on the frontier are keeping engines fired up to run off trains. It is estimated that 30,000 troops are now armed and ready to march. The authorities are sanguine of their ability to drive back any Fenian invaders.

NEW YORK, March 12.

The steamship *City of Boston*, with Liverpool dates to the 1st of March, has arrived.....The *Times*, after expatiating on the want of unanimity in Earl Russell's Cabinet, says it is not surprised at the rumor that Earl Russell has asked the Queen to releive him of his duties. It admits that the rumor wants authentication, but discusses it as a fact. It supposes that a new Liberal Cabinet will be formed, and suggests the Duke of Somerset as the possible head. No other journal says anything on the subject. ....The Irish question has been discussed in the House of Lords, and Earl Grey gave notice that he would, at an early day, move for a full consideration of the subject.....The *Times* bitterly denounces the bad taste of Mr. Bancroft's oration on Mr. Lincoln.....Situation of Fenian affairs remains unchanged, and arrests continue plentiful in all directions, and arms and ammunition frequently seized. The provisions of the Peace Act have been further extended.....Sir Chas. Phipps, Keeper of the Privy Purse, and Private Secretary to the Queen, is dead.....The Paris *Memorial Diplomatique* says the mission of Baron Sailard to Mexico is a mere starting point for negotiations for the withdrawal of the French troops. The report that 5,000 will return in May is at least very premature. The French expedition was to end in 1865. It has cost £27,000,000 sterling, and 10,000 men killed and disabled..... The London *Star* has reason to know that the relations of Austria and Prussia, relative to the Duchies, is very critical. It even hints at the possibility of war.

LATEST BY TELEGRAPH TO QUEENSTWON.

The Bank rate is unchanged.....The rumor of the resignation of Earl Russell is emphatically denied.....Fenian affairs remain unchanged.....The Military force in Ireland is to be further augmented.....The English Government has seized two vessels which were fitting out for the Chilian Government.....The English Government has received a telegram in 21 hours, from India, announcing the settlement of the Bhootan affair.

NEW YORK, 15th March.

Recent reports of plots to assassinate Gov. General, of arrests for treason, and of early meeting of Canadian Parliament, are all without foundation. Everything quiet.

BUFFALO, March 15th.

Two hundred United States soldiers arrived here yesterday, and are now at Fort Porter. More said to be expected. They are supposed to be here to see neutrality laws respected....Gold 131.

NEW YORK, March 15th.

Special Toronto despatch says, the authorities are said to be in possession of startling intelligence. Thousands of Fenians will cross the border as soon as the weather permits, and be joined by Fenians in Canada. Government detectives are alert on this side of the line, and keep the Canadian authorities informed of the movements of the enemy. The panic shows no abatement. A serious run for gold has commenced on the banks throughout the Provinces, and the Government is helping the banks with specie.—Gold 111.

MORE ABOUT THE FENIANS!

We clip the following items, additional to those already received, from the Toronto telegrams to the New York *Herald* of the 9th:—

A full supply of ammunition has been passed to the troops, and railway trains are made up and ready to move at a moment's notice to any point of attack.

Many reports are current, and one pretty generally credited is that Parliament will be called to assemble immediately, that the *Habeas Corpus* will be suspended and martial law proclaimed before the 17th inst. Government has taken possession of the Montreal telegraph line.

The Toronto *Globe* calls on the President to interfere.

Toronto papers of this morning are filled with despatches from points showing that the military preparations are extensive, and that every town is turning out in full force. As fast as troops arrive they are organized in battalions. They will be drilled five hours per day.

To-day there is a turn out *en masse* of citizens to make a demonstration of strength.

The Orange Watchman of to-day says the Fenians of this city will walk on St. Patrick's Day armed with pikes and revolvers, and calls upon the Mayor to stop them. It is believed that the influence of the peace-loving Catholics will restrain the more violent, and the processions will be abandoned. The watchman also asserts that Bishop Lynch has declared his intention of leaving Canada to avoid the danger and responsibility of a battle on the Irish national day.

Troops are still pouring in from the rural districts by hundreds. The moment they arrive they are organized into companies and squads for drill. So great is the drain upon some large business houses in the city, that they have been compelled to suspend business during drill hours.

The news from the frontier indicates no cause of extraordinary movement, but the military authorities and the whole people approve the action of the Government in preparing for an emergency.

THE FENIANS — THEIR DESTINATION.—The St. Croix *Courier*, in an article about the Fenians, gives it as his opinion that their destination will be some point on the Passamaquoddy Bay. He is strengthened in this opinion by the fact that a prominent gentleman in St. Andrew's the other day received an intimation from a friend in Pennsylvania who had obtained the information from private sources, to the effect that part of the Fenian programme was to capture Campobello, and use that Island as a base of operations. Our contemporary further remarks:—

"We believe it to be a fact that a Fenian Circle is in vigorous operation in Eastport, and others in places bordering on the St. Croix. After several ineffectual attempts, we are informed, a circle has at length been established in Calais, and it is boastfully stated that fifty stand of arms and men to handle them can be produced at half an hour's notice in a certain locality in that city. (We are proud to do our neighbours the justice of stating from personal knowledge that Fenian designs find no favor with the respectable portion of the Calais community.) We have it also on good authority that within the last few months attempts have been made to purchase arms and ammunition from private individuals, who were known to possess them, not five miles from where we write. All these facts lead to but one conclusion, which is, that should they by any possibility get out of the United States in any force, the New Brunswick, and not the Canadian, frontier is their proposed destination."

FURTHER NEWS BY THE MAILS.

ARRIVAL OF THE ENGLISH MAIL.

THE Mails are coming upon us in great force. The second Mail for the week came on Saturday, bringing intelligence from Europe *via* New York. Yesterday morning (Sunday) another Mail was received at the Post Office here, and this included a Mail from England by the more direct route to Halifax. The Steamship *Africa* arrived at the latter place on Thursday forenoon last, with dates to the 3rd instant. We make room below for some of the foreign news—other intelligence has been anticipated by the New York arrival. *Willmer & Smith's Times* states that Her Majesty the Queen has been ill, but not seriously so.—The English Cabinet are said to be in earnest about a Reform Bill, and it is said that Mr. Gladstone would introduce a measure on the subject, on the 12th instant.—Some alarm has been created by the discovery that Fenianism prevails in the British Army. To what extent, it is impossible to say: but the belief is, that it is confined to only a few of the Irish soldiers.

REPORTED RESIGNATION OF EARL RUSSELL.

The town was startled on Wednesday by a story that Lord Russell had asked her Majesty to relieve him from duties which had proved too irksome for him, and that the Duke of Somerset had been, upon his recommendation, entrusted with the task of forming a new Administration. To persons at all acquainted with the terms upon which Lord Russell and his colleagues have lived, or who had watched at all carefully the course which the Ministry has taken in Parliament, it could be no matter of surprise to hear that, hopeless of agreement, all the members of the Cabinet had tendered their resignation to her Majesty. The *Times* gave the following reasons why Lord Russell should have resigned: —"His Administration has not been called upon to do much, yet what it has done has exhibited a spirit of vacillation and uncertainty which augured ill for its future. Anything like unity of principle was absent from its deliberations; the Cabinet has been divided against itself; what one man has proposed another has rejected, and no one has been able to guess what would happen to-morrow, because it was impossible to say what spirit would then be predominant." But Earl Russell has not resigned. He has been at loggerheads with his colleagues for the last few weeks, and it is believed that the quarrel came to a head on Saturday. A rumour, very much better substantiated than that of his resignation, declares that at the Cabinet Council of Saturday, held at his lordship's private house, he proposed a Reform Bill to which his colleagues curtly refused their assent. If his lordship threatened resignation he has thought better of the matter. The *Times* thinks that the return of the Conservatives to power would be the best thing for the nation. The Whigs out of office "grow strong and achieve an audacity which they lose when debauched by the sweets of place." Moreover, there are certain "yellow admirals" "who have come to the fore by mere seniority, who inspire no confidence, and have neither knowledge nor genius to justify their position. Our contemporary thinks those persons "ought to be relegated to obscurity."

A change in the Cabinet will shortly be caused by the retirement of Sir George Grey from the Home Office.

REFORM CONFERENCE.—The conference of reformers from the various reform associations throughout the country, convened by the Reform League, assembled on Wednesday evening at St. Martin's Hall, Long-acre. About 200 delegates were present, and nearly all the principal towns in the kingdom were represented. Mr. Beales, the president of the Reform League, was called to the chair. Mr. Greening, of Manchester, moved, and the Rev. Mr. Little, of Nottingham, seconded, a resolution affirming the principles of the Reform League, in residential and registerial manhood suffrage, protected by the ballot. The resolution, after some discussion, was adopted unanimously. The draft of a reform bill, embodying the principles of the league, was then laid before the meeting, and referred to a committee of twelve for consideration.

HOW POOR RATES ARE SPENT.—What are at present called poor rates include expenditure of a very heterogeneous and miscellaneous character. The cost of parochial proceedings at law or in equity, payments for or towards the country, hundred, or borough rates; a police rate, constables' expenses, and cost of proceedings before justices, payments on account of the Registration Act, vaccination fees, expenses allowed in respect of parliamentary or municipal registrations, payments under the Parochial Assessment Act (for surveys and valuations,) and loans repaired under the same, all come out of the sum collected as poor rates. Thus, although in the year ended Lady-day, 1864, the total amount raised in the metropolis under this head was £1,489,732, only £876,-292 was expended in relieving the poor; and while a uniform rate of 1s 2 9-10 in the pound for the year would provide for all charges of administration and relief, the present average poor rate upon the whole of London is much higher, being 2s 1 2-10d in the pound on its rateable value. That nearly half our poor rates should be applied to other purposes than relieving the poor is in itself a glaring anomaly, and one causing needless confusion and irritability in the minds of the people taxed.

DEATH OF THE KING OF SIAM.—Letters from Singapore, dated Jan. 20, announce the death of P. S. Phar Pawarendr Ramesr, the second King of Siam. His Majesty had been in ill health for the last five years, and last June the disease had increased to such a degree that he could obtain no rest or alleviation of his sufferings, although the most scientific doctors were attending upon him. He died on Sunday, Dec. 7, at a quarter past nine a.m. The remains of his body were deposited in a golden urn, enriched with diamonds, and placed upon a particular throne, and after the usual period of lying in State, according to the Siamese custom, it will be buried with great ceremony.

DEATH OF MR. HERBERT, M. P.—The Right Hon. Mr. Herbert, M. P., for Kerry, died suddenly on Monday night at Adare, the seat of Earl Dunraven.

THE FRENCH EXTRADITION TREATY WITH ENGLAND.

In the debate upon paragraph 1 of the address in the Corps Legislatif on Wednesday, M. Jules Favre censured the withdrawal of France from the extradition treaty with England, and said he suspected the existence of some political motive for the step.—M. Rouher, Minister of State, replied that the measure in question had no political significance. Notice was given to terminate the treaty because it had no satisfactory result, but the French Government had not relinquished the hope of concluding a more effectual treaty.

THE BREACH BETWEEN AUSTRIA AND PRUSSIA.

The breach between Austria and Prussia will not be lessened by an order which General Gablenz, the Austrian commander in Holstein, has addressed to the provincial governments of the Duchy. He says:—"I do not hesitate to express myself in favour of the Constitution of 1854, as the proper basis for the future political organisation of Holstein, and I recognize in their full extent the obligations thereby imposed upon the Government of the Emperor of Austria." What will Prussia say to this.

BERLIN, MARCH 1.—It is stated that in the Ministerial Council held yesterday the definitive settlement of the question of the Duchies formed the subject of the discussion, and that a resolution was arrived at.

THE REVOLUTION IN ROUMANIA.

Intelligence from Constantinople states that the Diplomatic Representatives of the Powers who signed the Treaty of Paris have communicated to their respective Governments the wish of the Sublime Porte that a commissioner should be sent to Bucharest on behalf of each of the above Powers in order to inquire into the recent events in Roumania. It is asserted that Austria has come to an understanding with the Western Powers in reference to the question of the Danubian Principalities.

The Marquis de Mousiser, French ambassador at Constantinople, has declared that France coincides with the protest made by the Sublime Porte against the proceedings of the revolutionary party at Bucharest, and that all the necessary steps to expedite the assembly of a conference upon the affair had already been adopted.

MOVEMENTS OF RUSSIAN TROOPS OF THE PRUTH.

BRODY, FEB. 23—Active movements are taking place in the camp of the Russian army of observation on the banks of the Pruth. The troops are ready to march, and General Kotzebue, the commander-in chief, is hourly expected from Odessa.

VIENNA, FEB. 25.—The Vienna papers of today publish advices from Bessarabia confirming the warlike attitude displayed by the Russian troops along the whole line of the Pruth. The officers of the staff were occupied in seeking the most favourable spot for crossing the river, for which purpose pontoons had already been prepared. No orders, however, had arrived for the troops to march.

Telegraphic advices from the Moldavian frontier state that the Russian troops had received orders to withdraw from the banks of the Pruth. A strong military cordon was to be established to guard the Russian frontier.

TURKEY.

The statement presented to the Sultan by Mustapha Pacha upon the financial condition of the country, having given great offence to the Ministry, his Excellency has resigned the Presidency of the Treasury Council, and proposes retiring to Egypt. He is succeeded in his post by Kiprisli Pacha.

LATEST NEWS FROM THE STATES.

BOSTON, March 13.

New York, 13.—A Montreal despatch says, in reference to Fenian movements, that there was a secret meeting of the leaders of the movement in that city last Friday night, in a building not a hundred yards from the Bousecours market, in which it was resolved to give every aid possible to the invaders.....Out of the 85,000 members of that order in Canada, it is stated that 25,000 members will take up arms as soon as Sweeney's advance reaches Canadian soil.....Many of the Southern officers who have been residing in Canada for the last two years, have gone to New York for the purpose of offering their services and assistance to General Sweeney.....The New York *World* says it is calculated that 25,000 men who have seen service would respond to a Fenian call in this city alone.....It is known that 16,000 cartridge boxes and knapsacks were bought at auction last week from a house in Park Place, and quantities of arms and ammunition are being negotiated for from day to day by officers detailed for that purpose.....Telegraph operators will no doubt be needed.....It is probable that Col. Taessham will command the first Fenian regiment from this city, and a well known Southern cavalry officer the second. ....An artillery regiment is also being organized, and an independent battalion for special service under command of Col. Murphy..... A despatch from Albany to the *World* says that information has been received that uniforms for 15,000 men, and 2000 rifles, are stored in Burlington, Vt., waiting the arrival of the Fenians.....Gold 132.

TORONTO, C. W., March 12.

The number of volunteers answering to the call of the Government largely exceeds the demand.....A military circular has been issued by the Commander-in-Chief, in which he says the precautions thus taken are to prevent threatened piratical attacks of lawless men. He has full reliance in the loyal spirit of the Canadians, and is convinced that the Canadian volunteers will repel all attacks.....In the Catholic Churches Bishop Lynch's letter was read, and some of the priests called on the Catholics, for the sake of the peace of the city, not to walk on St. Patrick's Day.

ST. CECILIA CHORAL SOCIETY CONCERT.—A Concert was given at the St. Andrew's Hall, on Saturday evening last, by the above named Society, under the patronage of the Benevolent Irish Society, which was a very brilliant affair. The Hall was crowded almost to suffocation; and it is the intention to have the Concert repeated this evening. In our next No. we hope to be able to give a fuller account of those interesting entertainments.

MEDICAL EXAMINATION AT HARVARD UNIVERSITY.—We learn from private letters recently received here that Mr. J. A. McDonald, a native of this Island, and born at Tracadie, recently underwent a medical examination before the Faculty at the above named University, and received most promptly his degree of M. D. The Faculty, we understand, were warm in their praises of Mr. McDonald's proficiency, and they manifested their approbation of him by allowing him to read his *Dissertation* before the Faculty, and the Governor of the State, which is an honor rarely conferred on Medical Students. The youthful and successful Doctor —now entering upon an honourable, and we hope, prosperous career, was a student of Dr. Sutherland of this City; and the result of the examination shows that the teaching was by no means inefficient or that the studies were in the least neglected.

WE have to acknowledge the receipt of an interesting Report of discussions and proceedings in the City Hall, called by the Medical Faculty, respecting the precautions necessary to be taken for the preservation of the health of the City, in anticipation of a visitation from the Cholera. We shall publish the Report in our next No., not having received it in time for our present No.

WESTERN BANK.

Pursuant to notice, a meeting of stockholders in the above Bank was held in the Hall at Alberton, on the 6th instant,—Thomas McNeill, Esqr, in the Chair. On a reconsideration of resolutions passed at a former meeting, it was decided to raise a capital of £7,500, in shares of £2 10s., and that the qualification of Directors be raised to 15 shares.

The reason given for the change in the value of shares was the fact that three pounds cannot be divided into any number of dollars, of 6s. 3d. each, without fractional parts.

The Committee formerly appointed reported that nearly £4,500 had been already subscribed.

The Hon. Jas. Warburton, Messrs. B. Rogers, G. W. Howlan, James Forsyth, H. Bell, N. Woodside and P. Doyle, were appointed a provisional Committee for the management of the affairs, and were authorizes to prepare a draft of an act of incorporation, taking the act of incorporation of the Summerside Bank, and the resolution of this meeting as their guide.

NEIL WOODSIDE, Sec'y.

Alberton, March 10th, 1866.

YOUNG MEN'S CHRISTIAN ASSOCIATION AND LITERARY INSTITUTE.—The Rev. H. Sprague lectured before the Association, on Thursday evening, on "England's Illustrious Dead." He introduced his subject by dwelling upon the responsibility resting upon every man, to benefit the age in which he lives; and he who does this lives not merely for the times in which he figures upon the stage, but also for succeeding ages. In passing to his subject proper, Mr. Sprague, on account of its comprehensiveness, treated it under a certain classification. He first referred to the eminent *Poets* of England. Under this class we find such men as Shakspeare, Milton, Cowper, &c. England's *Statesmen* were next spoken of. Here the lecturer, while mentioning the names of several worthy of an extended notice, dwelt particularly upon the life and career of Chatham, the elder, one of the greatest of English orators and statesmen of the 18th century. From this class Mr. Sprague passed to glance at *Military Characters*. Nelson in the navy, and Wolfe and Wellington in the army, were particularly specified, from a host that might be named. Time prevented the lecturer from even mentioning the many eminent *Philosophers* and *Divines* of England. The lecture was composed in an elegant style and delivered (reading is the usual practice with lecturers before the Association) in a very eloquent manner. The whole was most creditable to Mr. Sprague, and promises well for his future eminence. He was requested by the meeting to furnish a copy of his lecture for publication.—The Rev. George Sutherland will lecture next Thursday evening on "The Geology of the Shores of the Southern Basin of the Gulf of St. Lawrence in reference to the Geology of P. E. Island.—*Patriot.*

BURGLARY.—On Friday night some unhanged villain broke into Nicoll's Boot & Shoe Factory, a few doors from this office. He cut away the shutter of a window with a hatchet, thrust in his hand and removed the inside fastening, opened the shutter, broke the sash, and then entered into the shop, and took away a few Boots, some of which were not even pairs. The rascal's *booty* was not very great, but we hope he may be discovered and brought to merited punishment.—*Ib.*

CITY COUNCIL.—Presiding Councillor for the present week—John Morris, Esquire, Councillor for Ward No. 1. [19th March.

TERRIBLE BOILER EXPLOSION.

HARRISBURG, PENN., Feb. 27.—A terrific explosion occurred last evening at the furnace of J. & H. J. Neilly in Middletown, resulting in the complete destruction of the furnace, the death of five men and the wounding of six others. There were eight boilers in the furnace. One was raised through the building and carried 500 yards, lodging in the Pennsylvania canal. The other boilers were carried in various directions, some of them passing through houses and others buildings. A portion of one boiler was hurled through a room in which two women were lying sick, but, fortunately, did not strike them. The bridge over the Union canal was erried away, and many of the dwellings in the vicinity more or less shattered by the fragments. The whole town was shaken by the force of the explosion.—The loss exceeds $50,000. The owners will rebuild immediately.

THE PLATE WAR.

The allied army, under President Mitre, was expected to enter Paraguay. The Brazilians were daily sending recruits to the River Plate. The army in Corrientes numbers 40,000. The Paraguayan army is concentrated at Pasolepeirea, awaiting the approach of the enemy. A battle was considered imminent.

The state of the Argentine provinces was satisfactory.

The markets are crowded with wool, and prices have considerably declined in consequence of the stringency of the money market.

Smallpox, fever, &c., have been very destructive among the Paraguayas troops and the allied army.

It is understood the allies will listen to no proposals for peace, the fundamental basis of which is not the expulsion of Lopez from Paraguay.

A rupture had occurred between the Montevideo government and the Chilian Envoy. The latter's exequatur was concelled.

MR. SEWARD'S WEST INDIA PURCHASE.—One of the N. Y. journals has announced, that the object of Mr. Seward's late visit to the Island of St. Thomas was the purchase thereof, from the Danish Government, as a naval station for U. S. men of-war. There may be some foundation for the report—that is to say, some such negotiation may be pending at Washington. As, however, Governors of Colonies are not generally authorized to sell them to foreign powers, and Mr. Seward knows from more competent judges than himself all the focal advantages of the settlement in question, it may be presumed that our contemporary's story is but another addition to his long list of *canards*.—*Albion.*

The *Banking and Insurance Chronicle* says a humorous writer proposes that there be a company formed for the purpose of providing ladies with husbands at or before a certain specified time, in default whereof the lady shall be entitled to an annuity from the company for the remainder of her life.

The Buffalo *Commercial Advertiser* says there no less than two thousand cases of small pox in Buffalo at the present time. If this be true there is danger of the disease spread ing to Upper Canada. Indeed it already prevails at Wellard and along the Niagara frontier.

HOLLOWAY'S OINTMENT AND PILLS —Judicious Management.—Though it is impossible, in this climate of changing temperature, to prevent ill health altogether, yet its form and frequency may be much mitigated by the early adoption of remedial measures. When hoarseness, cough, thick breathing, and the attending slight fever indicate irritation of the throat or chest, Holloway's Ointment should be rubbed upon these parts without delay, and his Pills taken in appropriate doses, to promote its curative action. No catarrhs or sore throats can resist these remedies Printed directions envelope every package of Holloway's medicament, which are suited to all ages and conditions and to every ordinary disease to which humanity is liable.

BROWN'S BRONCHIAL TROCHES, for Coughs, Colds, Pulmonary and Asthmatic Disorders, have *proved* their efficacy by a test of many years, and have received testimonials from eminent men who have used them.

PUBLIC NOTICE.

AT a meeting of the City Council, held on WEDNESDAY, the 14th March, 1866:

Upon motion, ordered that 200 copies of the Ninth, Tenth and Twelfth Sections of the Law for sanatory purposes, be forthwith printed and distributed for public information.

PETER MACGOWAN, City Clerk.

March 19, 1866.

Sec. 9.—All dirt, sawdust, soot, ashes, cinders, shavings, hair, manure, oyster, clam or lobster shells, waste water, animal or vegetable substances, rubbish or filth of any kind, in any house, warehouse, cellar, yard or other place within the City which the Mayor and Board of Health deems injurious to the health of the City, shall be removed by the owner or occupant of such house or other place as aforesaid, within twenty-four hours, or such other time as the Mayor and Board of Health shall deem reasonable, and after notice in writing to that effect served personally upon the owner or occupant, or posted on the premises, if he or they shall neglect or refuse to remove the same, then such removal shall be made under the direction of the Mayor and Board of Health, and the expense thereof shall be borne by such owner or occupant, and, in addition thereto, shall be subject to a penalty not exceeding Sixty shillings for every such neglect or refusal.

Sec 10.—If the manure or soil of any stable or other collection of refuse matter be allowed to accumulate till it becomes offensive, the owner thereof, or the person on whose premises the same may be, shall, within twenty-four hours after being notified, remove the same, or cause it to be removed, and on neglecting or refusing so to do, the owner of such manure, soil or refuse matter, or the person on whose premises the same may be, shall be subject to a fine not exceeding Forty Shillings for each and every day such manure, soil or refuse matter shall remain unremoved.

Sec. 12 —There shall be no accumulation of manure or filth of any description in or about any slaughter-house or yards connected therewith within the City, and all such slaughter houses and yards shall be kept clean at all times by the respective owners or occupiers thereof: and any person guilty of accumulating any such manure or filth, or neglecting or refusing to keep such slaughter-houses and yards connected therewith clean, shall forfeit a sum not exceeding Five Pounds, and in addition shall be subject to a penalty not exceeding Twenty Shillings for each and every day such manure or filth shall remain, or such slaughter-house or yard connected therewith continues uncleansed, after notice being given to remove such manure or filth, or clean such slaughter house or yard

A Law to continue the Law entituled "A Law for the better regulation of the sale of Meat and other articles, and the weighing of the same in the public market."

[*Approved 6th February, 1866.*]

BE it enacted by the City Council of the City of Charlottetown as follows:

The By-Law entituled "A Law for the better regulation of the sale of Meat and other articles, and the weighing of the same in the public market," and every matter and thing therein contained, is hereby continued until the First day of February, in the year of our Lord one thousand eight hundred and sixty-seven, and no longer.
