**INCREASE IN GRAIN ACREAGE**

(O.P. By Guardian's Special Wire) OTTAWA, May 8.—The Dominion Bureau of Statistics today reported an increase of almost 1,000,000 acres in the area farmers will sow to grain this year if they carry out their present intentions. The increase, about three per cent over last year's area, is confined almost entirely to Saskatchewan and Alberta.

The Bureau, issuing its first crop report of the season, said the intended area for spring wheat is 24,354,000 acres compared with 23,560,000 last year and 26,646,100 acres in the peak year, 1932. The total increase would be 793,400 acres.

It added the intended acreages of oats and spring rye show little change from the 1935 figures. Barley, however, indicates an increase of 188,000 acres or about four per cent while flaxseed will be up 22,400 acres, or 10 per cent.

The intended acreage of mixed grain, it said, is 1,145,500 acres this year, about one per cent less than last year.

The report said in part: Condition of hay and clover meadows at April 30, 1936, was placed at 99 compared with 92 a year ago. Every province in Canada, except New Brunswick, showed an improvement and the Dominion average is the highest since 1929.

Seeding of spring grains is even later than in 1935. Throughout the Dominion, cold and wet weather was experienced during most of April and as a result, the thawing and drying of the soil took much longer than usual. Winter-killing of meadows and pastures and of fall-sown crops was less than usual.

In the Maritime Provinces and Eastern Quebec, meadows and pastures came through the winter in satisfactory condition and should respond rapidly to warm weather. Increased acreages, particularly of potatoes, are planned in the Maritime Provinces. In the western counties of Quebec and over most of Ontario, there was little growth and no possibility of work on the land while cold, wet weather persisted during the first three weeks of April. In the last week of the month, however, under better weather conditions, pastures began to turn green and well-drained farms were soon ready to work. Germinating conditions for spring-sown crops are considered very favorable.

Almost generally throughout Canada, the weather during the first week of May has been much more favorable for work on the land, seeding and early growth. In the Maritime and Eastern provinces, temperatures have risen and there have been light rains.

For all Canada, the intended acreages for 1936 as reported at May 1 follow, with the 1935 acreages in brackets: spring wheat 24,354,000 (23,560,000); oats 14,150,200 (14,002,000); barley 4,855,300 (3,686,800); spring rye 144,300 (143,800); flaxseed 236,800 (214,400); mixed grains 1,145,500 (1,152,500); potatoes 514,810 (506,800).

By provinces, the intended acreages are as follows: Manitoba—wheat 2,535,000 (2,587,000); oats 1,491,000 (1,434,000); barley 1,278,000 (1,210,000); spring rye 10,000 (11,000); flaxseed 15,900 (17,500); mixed grains 21,900 (23,100); potatoes 33,800 (34,500). Saskatchewan—wheat 13,602,000 (13,206,000); oats 5,041,000 (4,942,000); barley 1,146,000 (1,145,000); spring rye 81,600 (81,600); flaxseed 287,600 (187,500); mixed grains 23,100 (23,300); potatoes 51,900 (49,500). Alberta—wheat 7,560,000 (7,500,000); oats 2,978,000 (3,102,000); barley 939,000 (920,000); spring rye 41,900 (42,300); flaxseed 20,400 (19,400); mixed grains 19,800 (20,000); potatoes 29,500 (29,900).

At the end of April, practically no seeding had been done in the Maritime Provinces or Quebec.

**Four Provinces Adopt Native Floral Emblems**

Nova Scotia, Manitoba, Alberta And Ontario Choose Mayflower, Anemone, Rose And Trillium

Mother Canada and four of her provinces—Nova Scotia, Manitoba, Alberta and Ontario—have adopted native floral emblems. Canada's emblem, the Maple Leaf, like the Trillium of Nova Scotia, was highly favored more than a century ago. The former, like the Rose of England, the Thistle of Scotland, the Shamrock of Ireland and many of the older national emblems became established without official enactment or public proclamation. The Trillium of Nova Scotia, the Anemone of Manitoba, the Wild Rose of Alberta have been made official by provincial legislation and a bill, already prepared to give official standing to the Trillium for Ontario, will it is expected be enacted by the Ontario Legislature during the present sitting.

National flowers have in certain countries a peculiar significance or are symbolical of the characteristics or feelings of the nations. In many cases, as in our provinces and in the United States, the chosen flower has been adopted by legislative action, as in several European countries, in Egypt, India and Japan it has by its association with poetry, religious ceremonies or popular sentiment of the people, gradually become universally recognized as the nation's symbol. In connection with each of these there is an interesting story, says the Montreal Star.

The Maple Leaf  
The Canadian emblem more than a century ago was regarded as highly symbolical of the Canadian people. This was indicated at a banquet of the Saint-Jean-Baptiste Society held in this city on June 24, 1836. The banquet hall was profusely decorated with branches and leaves of the Sugar Maple and the main speaker Denis-Benjamin Viger spoke eloquently of the virtues of the Maple tree which was highly prized for its sturdiness in the forest, the substantial character of its wood for fuel and lumber and its great service to the pioneer in its annual harvest of syrup and sugar. The sentiments expressed by the speaker were undoubtedly popular in those early days of Canadian life.

The Trillium of Nova Scotia  
The Trillium of Nova Scotia in 1901, was highly regarded as early as 1825 when the flower was represented in a decoration that appeared on the front page of "The Nova Scotian." Thirty years later it was associated with the rose, the thistle and the shamrock on postage stamps. This flower is also the State Flower of Massachusetts where it is better known as the Mayflower. There its name was associated with the Pilgrim Fathers who, at the end of their first winter of great privation, on seeing the first flowers of the spring appearing from the soil called the plant the Mayflower after the historic ship that brought them to Plymouth Rock.

The Manitoba emblem, the Anemone petals, chosen by the provincial horticultural society was made official in 1902. The choice of the Windflower and Pasque flower it is the State flower of South Dakota.

France Faces Financial Crisis

(A. P. By Guardian's Special Wire) PARIS, May 8.—Warring French political leaders joined forces tonight to calm fears of possible financial disaster.

Heavy gold shipments abroad and a wildly fluctuating stock market reflected public fears that political struggles might destroy confidence and bring devaluation of the franc.

Future changes in foreign exchange are tending to become practically impossible, financial circles declared, after the premiums were boosted to 1.25 francs for three months on dollar operations and 6.75 francs on sterling operations.

Leon Blum, Socialist leader, moved to the support of Premier Sarraut, asserting the cabinet's premature resignation "would have whipped up a money and stock market panic."

Sarraut, cautioning against apprehension over Socialist measures which he described as "still only theoretical," was quoted as saying Frenchmen "hold their fate in their own hands."

Sea View & Vicinity

Mrs. William Adams entertained the Sea View Junior W.A. Mission Band on Tuesday evening, April 7th. The President, Miss Marjorie Blakney, presided. Meeting opened with an attendance of sixteen members and two visitors by a hymn followed by reading in union and prayer. Roll call was responded by scripture verse pertaining to Easter. Plans were made for a social evening to be held in the Hall at an early date and it was decided to make a quilt for a Canadian Mission School. Program consisted of a chorus "When I survey the Wondrous Cross." Reading, "The Graven Image," by Doris Blakney; solo, Hilda Adams; contest, planning an Easter lily to a basket proved very interesting, first prize won by Mrs. Lorne Campbell. Program committee appointed for next meeting Terry Adams, Vera Brander and Winnifred Blakney. Refreshments were served by Mrs. Gerie Adams, Mrs. Roy Adams and the hostess.

Mrs. Roy Adams, Mr. Percy Tanton of Summerside, Miss Vera Tanton, Toronto, and Mr. Ezra MacArthur of California were the guests of Mr. and Mrs. H. E. Donald, Sea View, on Sunday.

Mr. Lloyd Holmes, Baltic, was a visitor to Sea View recently.

It is pleasing to note that Mr. Elton MacKay, Darnley, is improving after a serious attack of pleurisy.

Mrs. Atwood Blakney, Sea View, was a visitor to Summerside on Saturday.

Mr. Preston Green, Malpeque, was a visitor to Sea View Tuesday evening.

Mr. William J. and Hiram Harrington, Spring Valley, were to Sea View on business Tuesday.

The friends of Miss Cordelia Harrington, Spring Valley, regret she is confined to her home with measles.

Miss Katherine Blakney is spending a pleasant vacation at her home in Sea View.

WOOD ISLANDS WEST

Report of Wood Islands West School for the month of April, 1936:

Grade X: 1 Mary MacQueen, 2 Ruby Macmillan, 3 Lester Macdonald.

Grade X Jr: 1 Wilma Macmillan.

Grade IX: 1 Sinclair Crawford.

Grade VIII: 1 Sydney Stewart, 2 Walter Taylor, 3 Katherine MacQueen.

Grade VII: 1 Grace Macmillan, 2 Mary MacNeill.

Grade VI: 1 Mary Bell and Marion MacPhee (equal), 2 Elizabeth Macdonald, 3 Kathleen Macmillan.

Grade V: 1 Irene MacMillan, 2 Sarah Macmillan.

Grade III: 1 Beaver MacDonald.

Grade II: 1 Annie Emery, 2 Margaret MacDonald, 3 Christine Macmillan.

Grade I Sr: 1 Samuel MacLeod, 2 George MacLeod.

Grade I Jr: 1 Alexander MacQueen.

Teacher, J. S. MacBeth. (Patriot Please Copy)

**TO THE FEATHERED SONGSTERS**

Who has not listened to the birds singing in the spring? And caught the happy spirit of the songs they sing? They seem to tell of buds, bursting into life. Of stern, cold winter o'er, of vanished strife.

For now the air is joyous and from scores of throats is ringing forth the sweetness of their ever thrilling notes. The very trees look up and smile and laugh in glee; As well they may, for with them is such merry company.

Oh! Help me see the good and the beautiful always, And let nothing that is sordid mar the day, And may He who marks each sparrow's fall, Guard from evil around me, His child after all.

Katherine E. Murdochison, York Point.

**NEURITIS**

"Sharp, stabbing pains of neuritis made my arms and legs feel as though they were on fire. I tried T.B.C. and saw how quickly it relieved me. I am now well and happy. T.B.C. drives the pain-causing toxins out of your system—quickly, safely, 50c and 10c bottles. Get it at your drug store. (Trillium's Rheumatic Capsules)"

Eden Consults Dominion's League Attitude

(C. P. By Guardian's Special Wire) LONDON, May 8.—Anthony Eden, Foreign Secretary, today met representatives of the Dominion in a conference, understood to have dealt with the attitude to be adopted towards sanctions against Italy.

Vincent Massey, Canadian High Commissioner to London, represented Canada. Also present were representatives of Australia, South Africa and New Zealand.

The Foreign Secretary told the House of Commons this week that the Dominion would have to be consulted before the British government announced its future attitude towards the League of Nations. It was expected such consultations would be carried out through the high commissioners in London.

Newfoundlander Awarded Medal For Heroism

(C. P. By Guardian's Special Wire) ST. JOHN'S, Nfld., May 8.—(C. P. Cable)—For his heroism in saving the lives of two shipmates in December, 1934, George Piercy, Newfoundland war veteran, was presented with the Royal Humane Society medal by Governor Sir Thomas Walwyn today.

Piercy's ship stranded in a blizzard and began to break up. Captain Alford, Mate Woodland and Piercy, jumped to a rock some distance from the mainland but they were still in a perilous position and waist deep in water.

Again boarding the vessel, Piercy swam to the mainmast and began to haul in. Captain Alford, Mate Woodland and Piercy, jumped to a rock some distance from the mainland but they were still in a perilous position and waist deep in water.

Woodland died of exposure before the nearest settlement was reached and Piercy required long hospital treatment.

"It was a magnificent feat of bravery," the Governor said in presenting the medal.

MR. DONALD C. CAMPBELL

Claims Farmers Better Equipped Than 20 Years Ago

(C. P. By Guardian's Special Wire) OTTAWA, May 8.—Farmers have better implements to work with now than 20 years ago, according to figures submitted by Dr. J. M. Armstrong of the Central Experimental Farm who today laid before the House committee of agriculture charts to indicate how the farm implements had improved in efficiency and durability.

Some of the farmer members of the committee were inclined to question Dr. Armstrong's statements, saying there was a general belief among the rural communities that present-day equipment did not stand up as well as 10 years ago. Experience of the experimental farms had been that present equipment was more durable.

The oft-repeated argument whether tractors or horses were the more economical burst out today with champions for each method entering the debate. There are some 61,000 tractors in use in the West.

The committee is conducting an inquiry to find out if prices of farm machinery are too high.

YORK

Mr. Herbert A. Vesey and sons have purchased a valuable property at York formerly owned by the late Mr. M. West, City.

Mr. J. Edgar Power, Flint, Michigan, is spending a week at his old home at Pleasant Grove, the occasion being the death of his late respected father, Mr. Simon Power.

Mr. Edgar Power, Flint, Mich., visited in Montague the guest of Mr. R. W. and Mrs. Stewart.

Mr. West has returned to York after a very pleasant visit with friends in Kings County.

Mr. Wm. Kaneen, a native of New Perth, was a recent visitor to the City on business.

Mr. Mont. R. Hardy, York Mills, has entered the P.E.I. Hospital for treatment.

Mr. Albert Lavers, the popular section foreman at York, has been transferred to the Georgetown section.

Mr. Power, recently of Flint, Mich., reports that many are out of work in that city as a result of work, and that Mr. Roosevelt's chance of being returned are excellent. If conditions prove worse there Mr. Power will return to the old home at Pleasant Grove.

**BRITISH BETTING ON KAY STAMMERS**

(Canadian Press) LONDON, May 8.—With a marked improvement in her backhand game, comely Kay Stammers, 21-year-old British tennis sensation who blasted Helen Wills Moody to defeat in two sets last year, 6-0, 6-4, aims to become queen of the world's courts within the next few months.

The fleet, blue-eyed brunette started her 1936 campaign with a slashing triumph over the veteran Betty Nuthall, 6-2, 6-2, in an exhibition that prompted critics to compare her drives to Tilden's.

Mr. Power, recently of Flint, Mich., reports that many are out of work in that city as a result of work, and that Mr. Roosevelt's chance of being returned are excellent. If conditions prove worse there Mr. Power will return to the old home at Pleasant Grove.
