Brain Food

"Grape Nuts" is a new food for the Brain and Nerve centres. It is made by special treatment from Wheat and Barley and is fully cooked and pre-digested. The system will absorb a greater amount of nourishment from one pound of Grape Nuts than from ten pound of meat, oatmeal or bread. For sale at

A TEACHERS VALUE TO THE PUBLIC

Her Opportunities to do Good are Even Greater Than a Clergyman's.

"What the teacher counts for much more than what she knows. A love of children, unlimited tact and infinite patience are the necessary natural endowments," writes Caroline B. Le Row in the September Ladies Home Journal. "Of course, the ability to teach implies the possession of an education, though no amount of education alone can make a good teacher. While all teachers must know more than they teach, the power to impart to others is the important matter, and the one in which tact or ingenuity is absolutely the prime requisite. Moreover, she should be personally a social, intellectual and moral force in the community. The physician and the clergyman have immense opportunities for this uplifting of humanity, yet their advantages are small when compared with those of a teacher, which are practically unlimited. Encouragement and satisfaction in this field of labor never can be dependent upon results, for it is seldom that the teacher is permitted to know what the years of maturity owe to faithful care of the youthful days. The teacher's time is always one of seed-sowing, never of harvest."

AMUSEMENTS AT ST. JOHN EXHIBITION.

A special feature of this year's exhibition will be the amusement features on the grounds in a ring before the grand stand but yet in plain view of any one on the grounds. Every afternoon and evening this outdoor programme will be put on and there will also be four nights of brilliant fireworks containing many entirely new features.

OUTSIDE PROGRAMME

The king of all comique grotesques, Vermette and Dionne, in a startling riple horizontal bar performance introducing the most difficult feats known to the gymnastic world. And for the first time in the Maritime Provinces N R Sutherland and his school of marvellous equines in a series of startlingly sensational and thrilling hippodrome races, etc. etc.

IN AMUSEMENT HALL

There will be programmes hitherto unequalled at any indoor performances including—

1. The famous twin brothers gloss in a new novel up-to-date act "The Gladiatorial King," also introducing the most difficult feats on the parallel bars.
2. Europe's foremost aquatic artiste Bernice Nata's, first Canadian appearance. This lady eats, sleeps, drinks and does all manner of astounding feats while under the water in a huge crystal tank.
3. The English comique, Frank La Morde, in a funny oddity, "Fun on a clothes-line," one of the most ludicrous specialties at present in America.
4. The elastic marvel, a feature that stands alone, Luciano Tatali, direct from the Folies Bergeres, Paris, on the flying rings.
5. Another foreign importation and first Canadian debut, Humberto, in an entirely original act of equilibrium par excellence.
6. The great original and only La Petite Rita, Queen of the air, in a novel aerial act.
7. Middle Alice, Queen of the revolving globe, introducing cornet solos, club swinging, juggling, etc., while on the globe.

60,000 Men Called Out.

MADRID, September 2.—The Queen Regent today signed a decree calling out 60,000 men of the 1899 class for military service.

When you are nervous and sleepless take Hood's Sarsaparilla. It makes the nerves strong and gives refreshing sleep.

Muttart's Steam Merry-go-round will be operating on the grounds of the Ch'town Driving Park during the horse races on the 13th and 14th Sept. 1 wk. Latest novelties in ladies felt hats at Stanley Bros. 21.

HOW PICTURES SHOULD BE HUNG.

Some Good and Practical Suggestions Offered by Miss Parloa.

"To hang and group pictures is not an easy matter," writes Maria Parloa in the September Ladies' Home Journal. "To succeed, one must have a good eye for distances, for straight lines, and for harmony in grouping, as well as a fund of patience—putting up and taking down each picture, or set of pictures, until the position, height and grouping are perfectly satisfactory.

"There are two kinds of picture wire—one is gilt, the other is silvered. The gilt is more flexible, and remains untarnished and flexible longer than the silvered, but it is also more expensive. Extremely heavy pictures should be hung with copper wire.

"The picture books should be broad and well curved, that they may hold firmly to the moulding and be a secure support for the wire. A yard stick or tape measure is indispensable, as careful measuring will lessen the labor and assure accuracy of position.

"A picture should be so hung that the bottom shall be flat and the top be thrown forward slightly. The manner in which the screw-eyes are put in produces this effect. For a small picture they should be fastened two or three inches from the top of the frame: the larger the picture the greater should be the distance of the screw eyes from the top.

"If the room be high it is easy to make it appear lower by fastening the picture mouldings two or more feet below the ceiling. This can be done only when the wall finish is the same all the way up or when the frieze is deep. When there is the space of several feet above the moulding small pictures and bass reliefs in plaster are effective.

WONDERFUL ASTHMA RECOVERIES.

Clarke's Kola Compound Officially Tested by the British Columbia Government, at the Home for Incurables, Kamloops, B. C., the Medical Superintendent Pronounced Long-standing Cases Cured.

Many temporary relief asthma remedies have during the past few years been placed before the public, but until the introduction to the medical profession of Clarke's Kola Compound, nothing has been found to have any effect on preventing future attacks. The Medical Superintendent for the Home for Incurables in Kamloops, B. C., has had probably the best chance in Canada to thoroughly test this wonderful remedy for asthma. He reports that on the three cases of asthma where Clarke's Kola Compound has been tried, in not a single instance did it fail to cure, and on one particular case a lady had been confined to her bed most of the time for nearly a year previous to taking this remedy, and less than three bottles have completely cured her. Over one year has now passed, and there has not been the slightest indication of asthma returning. Three bottles of Clarke's Kola Compound are guaranteed to cure any case of asthma. Over 500 cases have already been cured in Canada alone by this remedy. Sold by all druggists. Free sample bottle sent to any person. Mention this paper. Address The Griffiths & Macpherson Co., 121 Church street, Toronto, or Vancouver, B. C., sole Canadian agents.
