ADVERTISING RATES

For small advertisements which are ordered for only one or two weeks the charge is 5 cents per inch for the first insertion, and 2 cents for each continuation. Rate cards are furnished on application at the office. Special contract prices at a reduced rate are quoted for advertisements four inches in size or larger, which are to run for three months or longer.

No special notices inserted unless paid for at the rate of 10 cents per line, and under no circumstances will such paid notices appear in the local column.

Special discounts made on all advertisements connected with Church Fairs, Bazaars, Picnics, etc. No notices will be inserted with the same unless the regular rate of 10 cents per line is paid.

That THE EXAMINER is considered by our Merchants and Manufacturers to be the leading newspaper in P. E. Island, and consequently the most valuable advertising medium through which to make their announcements public, is abundantly proved by the fact that in order to accommodate our advertisers we have been compelled to enlarge the paper to its present size.

THE DAILY EXAMINER is for sale by the following agents :—

R. H. Mason, Post Office, Charlottetown.
J. McIntyre, Malpeque Road, "

THE MARKETS.

The season for marketing opens at Charlottetown with oats at 32 cents per bushel and potatoes at 20 cents per bushel.

In Chicago at the present writing oats are quoted at 28⅝ to 29¼, and in St. John at 35 to 37. The demand for our potatoes has not yet set in, owing to the large quantities of the New York and Maine crop forced upon the market in view of the rot.

It is probable that prices of all kinds of farm produce will be tempered this year to some extent by the low prices of wheat and flour, as well as by the hard times, which continue to prevail in Great Britain and the States. The Mark Lane Express, in its weekly review of the British grain trade, says: "English wheats have fallen to an incredibly low price, 16s to to 18s 2d having been the average offered at Saturday's market, which is 13s 6d below the very lowest price comparable with profit. The farmers throughout the Thames valley are losing 54s per acre upon all the land they have put under wheat. Oats are dull, corn steady and barley, beans and peas quiet.

The demand for oats in this market comes chiefly from the neighboring provinces, and in view of the competition of Ontario, where prices rule lower than they do here, is not likely to improve to any great extent. But late in the fall or early next spring we look for a somewhat better price for potatoes.

Pork is now in light supply at 6 to 6½ cents per pound, and eggs are being taken by the dealers at 12 to 13 cents per dozen. In St. John P. E. Island prime mess is quoted at $17.50 to $18.00, and P. E. Island mess at $13.50 to $14.50. In Montreal the quotations are: Canadian short cut, heavy, $21 to $22 per barrel; Canadian short cut, light, $19 to $22 per barrel.

LECTURE AT NEW PERTH.

Father Matthew, the apostle of temperance, was the subject of a very interesting, instructive and well delivered lecture by Rev. W. Lawson, of Montague, on Monday evening, the 15th inst. Mr. J. A. Dewar presided. All were delighted with the sentiments expressed, as well as the humor and good common sense that pervaded every sentence. The various phases of Father Matthew's life, from his birth at Thomastown, in 1790, to his expulsion from Maynooth, his apostolic blows and knocks summarily inflicted upon a cruel landlord for turning upon the road a poor mother with three helpless children, and his large and Christlike sympathy with the down trodden of his native land, were depicted in a style at once masterly and eloquent. Besides his noble work for Ireland, it is computed that no less than 3,000,000 in America signed the pledge and received the benediction of the good priest during his only visit to that country. Like Paul of old he said at last, "I have fought a good fight," &c. Mr. Lawson concluded by remarking that the name of Theobald Matthew would go down to posterity as one of the greatest heroes of this or any other century.

Lives of great men oft remind us
We can make our lives sublime,
And departing leave behind us,
Foot prints on the sands of time.

W. C. W.

KINROSS NOTES.

The majority of the farmers here have completed digging their potatoes, which crop is far below the average of former years.

Our local tradesmen are doing a large business, in spite of taxes and "dull times."

Notwithstanding the unfavorable evening the entertainment and supper given by the progressive members of the Morning Star, No. 18, I O G T on the 9th inst, was a decided success. The supper which was given in honor of departing members was voluntarily provided by the sisters of the lodge whose excellent taste on such occasions deserves special credit. Mr. M. J. McPherson ably filled the chair, and an excellent programme was satisfactorily rendered. On completion of the programme, the members retired to the basement of the hall, where they were highly satisfied with the excellent things the sisters had waiting on their beautifully decorated tables.

Supper ended, the gay company wended their way to the hall, where the time was passed till the "wee sma'" hours in various games and amusements.

INCOLA.

THE LABRADOR COAST.

A special from Montreal to the New York Evening Post says Judge Valle, the Stipendiary Magistrate for the north district of the St. Lawrence, has returned to Quebec after a five months' visit to the Canadian Labrador, the Island of Anticosti and other places.

He reports that the fishing along the Labrador has been very bad and unless Government assistance is promptly sent many deaths from starvation must occur. The price of cod fell during the summer from 80 to 50c. per quintal, and the outlook is rendered more discouraging by the probability that none of the timber limits there will be worked this year. As for the coast Indians, their condition is even worse than that of the fishing colonies, the yield of their hunt this year having been very poor, and the Hudson's Bay Company's agents having refused in many places to make them further advances. The reasons assigned by the company for making no more advances are that the Indians do not adhere to their agreements to bring their furs to the people who advance them provisions, and because they exchange their furs for strong liquor. The Indians themselves complain that their animal hunts have yielded less than for some years past, owing to the great forest fires which have ravaged the interior of the peninsula. During the past summer more than one hundred and fifty miles of their hunting grounds were completely swept by fire.

THE STRONG POINT about the cures by Hood's Sarsaparilla is that they are permanent. They start from the solid foundation—Pure Blood.

The only fault we hear 'gainst PRUSSIAN OIL is,
That it's hot. Why therein lies true value
For the cure of pain. My friend!
You can't relieve great pain with milk and water.

And you'll say: "The half has not been told."

Another large shipment of furs expected every day at Paton & Co's, consisting of fur capes in Greenland seal and Astrachan jackets. We have a full range of fur sets in Persian lamb, Astrachan, Greenland seal, opossum, etc., etc.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Grateful—Comforting.

Epps's Cocoa.

BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the properties of well-selected Cocoa, Mr. Epps has provided for breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified by pure blood and a properly nourished frame."—Civil Service Gazette.

NOTES AND COMMENTS.

—Moncton Times: All the signs point to an early improvement of business in Canada. The weekly commercial reports tell of a fair and increasing volume of transactions at the great importing centres, although the aggregate is below that of last year; manufacturers are generally busy and altogether the outlook is brighter than it could be expected to be in view of the universal depression abroad.

—The Liberal Halifax Chronicle remarks that when the Mackenzie government was in power falling revenue was regarded by Tory organs as evidence of inefficient government and "blue ruin," and then it asks in what light do Tory organs regard such a thing now. To which the Montreal Gazette replies: "In an entirely different light. The Liberal Government in Mackenzie's time had not reduced, and were contemplating an increase in taxation. Falling revenue was a danger to them. Now, the Tory Government has reduced taxation and calculates on a falling revenue. The Tory organs regard the falling revenue as evidence that the tariff reductions of last session are having the anticipated effect, and that the Government knew what it was about when it made them."

—Evening Mail: The Gloucester mackerel fishing industry, once of enormous proportions, is reported to have dwindled down this season to a few thousand barrels, all of an inferior quality. This great industry, which at one time employed over a thousand sail and twenty thousand men is almost extinct. Other fishing also has greatly suffered. The catch of halibut a few years ago was a very large item, fifty tons having been taken in a week by a single vessel; now, scarcely a fish can be found. While the United States industry has thus greatly declined, the Canadian fisheries have also declined, but not to an equal extent. The Canadian catch of mackerel in 1892 was $1,340,000 worth; in 1893 it was $1,100,000. The advantage of the Canadian fisherman is that he has the undisturbed run within the three mile limit, but nevertheless our fishermen are injured by the operations of our neighbors outside of that limit. This is a very important point.

NEWS NOTES.

The fact that the usual instructions have been issued to heads of departments to prepare their estimates for Parliament has given rise to a report that the session will open very early next year. There is nothing in the order to prepare estimates to indicate an unusually early session, as the instruction to prepare estimates is given about the middle of October every year. Sir John Thompson told Mayor Cox a few days ago, when the fixing of a date for the Ottawa carnival was under consideration, that Parliament would not meet before the 22nd January, and there is no reason to suppose that any earlier date has been fixed upon.

The celebrated well of St. Winnifred, which gives the Welsh town of Holywell its name, has revived its ancient fame after the lapse of centuries, and several wonderful cures are reported through the virtue of its waters. These "miracles" are only thought strange in the nineteenth century because modern science has taught us to look at disease from an altogether different point of view. Those who do not accept this point of view are perfectly consistent in continuing to believe in miraculous intervention. Believers and disbelievers agree that faith is the one necessary condition of the miracle, and so long as there is faith the miracles will continue. They are a striking proof of the fact that materialism and rationalism are by no means so universally supreme in our day as they are supposed to be.
