- Wheat: Unloading car high grade bulk wheat at our mill, Water Street West, Summerside, Thursday and Friday of this week. F. L. Morris Feed Service.

cents in the Montague area on all retail sales. There are provisions for corresponding increases in both areas for milk sold in smaller containers. There will be no change in wholesale prices in the Montague area but the wholesale price of milk in the Charlottetown area can advance one cent per quart. The 17 cents a quart retail price in Charlottetown after September 1 will apply to pasteurized milk. Raw milk in Charlottetown can advance from 15 to 16 cents a quart.

Table cream in Charlottetown could go up four cents a quart to retail at 68 cents and from 60 to 64 cents wholesale. Whipping cream in the same area will be allowed to go up eight cents from \$1.00 a quart to \$1.08 a quart retail. The wholesale price for whipping cream will advance four cents.

Blend in the Charlottetown area will be one cent a quarter dealer and skim milk will retail at one cent a quart more. The Milk Control Board fixed the price of table cream in the Borden area at 64 cents retail and 60 cents wholesale on and after September 1. These changes have been approved by the Executive Council for the Province. The new order issued by the Milk Control Board provides that the price of butterfat to the producers of fluid milk in the area of Charlottetown will be \$1.10 a pound on September 1 and after. And to the producers of fluid cream the price of butterfat will be 90 cents a pound. The price of butterfat to the producers of fluid milk in the Montague area will be \$1.04 per pound of butterfat.

Canada's Hog Population Shows 12 P.C. Boost

OTTAWA, Aug. 27 — (CP) — Canada's hog population increased 12 per cent in the year ended June 1, the Bureau of Statistics reported today. The spring pig crop was 13 per cent larger than 1950. Number of hogs on farms at June 1 was 5,875,000, compared with 5,247,000 a year earlier. The increase in the west was 30 per cent, and in the east four per cent, with all provinces up except Ontario. During the June-November period, number of sows expected to farrow was 623,700, up 23 per cent from the same time last year. Hog totals at June 1 by Provinces, with the figures for a year earlier in brackets: Ontario, 76,000 (67,800); Nova Scotia, 62,000 (55,600); New Brunswick, 92,000 (83,900); Quebec, 1,439,000 (1,249,000); Ontario, 2,150,000 (2,213,100); Manitoba, 346,000 (269,400); Saskatchewan, 607,000 (433,700); Alberta, 1,038,000 (809,700); British Columbia, 65,000 (64,000).

RETIREE C.N.R. WORKER DIES

NEW GLASGOW, N.S., Aug. 27 — (CP) — William George Kline, who retired from his position with the Canadian National Railway at Moncton, N.B., in 1933, died at his home here today. He was 75.

U.K. Labour Party Sticks To Rearmament Plans

LONDON, Aug. 27 — (Tuesday) — (AP) — The Labour Party is sticking to its policy of arming Britain fully, in defiance of left-wing critics led by Aneurin Bevan, former Labor Minister. It published a policy statement today which declared the country's three-year, \$4,700,000,000 arms program is "the minimum required to deter aggression and so prevent a third world war." "No other aim can take priority over that," it said. The statement, prepared by the party's 27-member executive committee, which includes Foreign Secretary Herbert Morrison among its leaders, will be submitted for debate at the party's annual convention at Scarborough in early October. It will become the basis of a platform for many politicians expected, a general election is called this fall. At a press conference Morgan

Were Trapped In Flooded Welsh Cave

ABERCRAVE, Wales, Aug. 27 — (AP) — A chain of 85 men pulled two explorers to safety tonight from a flooded underground Welsh cave where they had been trapped for three days. The explorers were unhurt. The two men had been prisoners since Saturday morning deep inside the cavern of Ogof Fydydd near here. A sudden rainstorm sent tons of water down the underground Byre River and blocked all exits from the cave, situated in Glamorganshire about 25 miles northeast of Swansea. A team of deep-sea divers plunged through the stream to reach the explorers. There was no sign of life inside the cave until one hour before the rescue. Then faint shouts appeared to indicate the men were alive.

When the explorers — Lewis Railton, 40, and William Little, 30 — were located, the human chain was formed through the swift underground waters. The rescuers grasped the pair and yanked them to safety. Railton and Little are speleologists, or cave researchers. The men had found safety in a high chamber deep inside the cavern. They said they had found food in a tin box and had four days' worth of their one acetone lamp while waiting for the flood waters to subside.

The swirling river normally flows quietly through the cavern. This morning, the rescue teams began to dam it high in the mountains in an attempt to divert its flow from inside the cave, but were unsuccessful. In addition to Railton and Little, four other men were reported earlier to have entered the cavern Saturday. Today they told police they had changed their minds and had been safe above ground all week-end.

Strike Halts Production Of Vital Metals

DENVER, Aug. 27 — (AP) — Production of strategically important copper, lead and zinc virtually halted today with a strike called by the International Union of Mine, Mill and Smelter Workers. The independent union—expelled from the C. I. O. a year ago for following the Communist Party line — estimated 58,000 workers went off their jobs. They included a number of members of the craft unions and Railroad Brotherhoods (A.F.L.) who refused to cross picket lines. There was no immediate White House reaction to a union request that the government take over the industry. But government officials said they expect some action soon. Current wages range from \$1.31 an hour to \$1.62 for workmen covered by the mine-mill union. The Metal Trades Council (A.F.L.) in the copper industry, \$1.31 to \$1.25 an hour. The union's original demand was for 30 cents an hour more pay and \$150 a month pension at age 65. Union officials said there had been modification of those demands.

TICKLISH BUSINESS

The toe of a healthy person's foot bends inward when the sole is tickled, but upward if the spinal cord is diseased.

Britons Oppose Yank As Abadan Manager

LONDON, Aug. 27 — (AP) — British officials today brushed off an idea to settle the Iranian oil dispute by appointing an American to manage the great Abadan refinery. The suggestion, contained in British news dispatches from Washington, received some prominence here as presidential envoy W. Averell Harriman went into a round of talks with British leaders on the prospects of an Anglo-Iranian settlement. Harriman is en route to Washington. There was no evidence to suggest, however, that the idea of having an American take charge at Abadan came up during Harriman's conversations with Prime Minister Attlee and his cabinet colleagues.

British officials said they had no official word from Washington that the U.S. is thinking of offering such a suggestion as a way out of the deadlock Britain and Iran have developed. About 350 picked British oilmen are staying on in Abadan — an island off the Iranian mainland where the world's biggest refinery is located — and they will be ready to resume operations as soon as the Tehran Government gives the go-ahead. With nearby naval and air forces, Britain clearly feels she can outwait the Iranians. Nevertheless, this attitude has given some grounds for uneasiness on the part of some British newspapers.

The independent Sunday Observer noted yesterday that "emotions keep Britain and Persia (Iran) apart; reason forces them together." The paper called on the British Government to bear in mind "our vital interest is to strengthen Persia." Harriman, informants here said, expressed some criticisms of certain aspects of the way Britain has been dealing with the Iranians. These were not disclosed although it is generally known that Britain has been given no American blessing for her plan to hold onto Abadan, come what may.

Wool Prices Slide At Sales In Australia

SYDNEY, Australia, Aug. 27 — (Reuters) — Wool prices fell from five to 15 per cent as the annual Sydney auctions opened today. It was the slump at the New Zealand sales for the last two weeks that had led to the belief that Australian prices would nose-dive. However, buyers from Japan, France, Belgium, Italy and West Germany bid vigorously and kept prices up. Buyers from Britain were less eager and appeared satisfied that prices will not remain at their present level.

News In Brief

SHEPHERDS GROVE, England, Aug. 27 — (AP) — Twenty-five American Sabre jet fighter planes — the type that whipped Red Mig 15s in Korea — landed today to give European defence another shot in its air arm. They are first Sabre jets to set down in Europe in shape for combat. KARACHI, Pakistan, Aug. 27 — (Reuters) — Trade Minister John McEwen of Australia said tonight he is taking to London a proposal for a 15-year most agreement with the United Kingdom. SAINT JOHN, N.B., Aug. 27 — (CP) — The Saint John Common Council decided tonight to set up a rental control authority for the city under enabling provincial legislation. SYDNEY, N.S., Aug. 27 — (CP) — The 127-foot Newfoundland coastal vessel Lucille M. Calp went aground on Cape Breton's Point Aconi today in dense fog. It is feared the ship is a total loss but her six-man crew escaped in dories without injury. CHICAGO, Aug. 27 — (CP) — Barbara Ann Scott will replace Sonja Henie as star of the 1952 Hollywood Ice Revue, Arthur M. Wirtz of Chicago, producer of the show, said today. OXFORD, England, Aug. 27 — (Reuters) — Nearly 1,000 Italian miners are coming to work in Britain's under-staffed coal mines this year, a national coal board official disclosed today.

Airwoman Graduate

Included in the first course of airwomen to graduate from the eight week basic course at RCAF Manning Depot, St. Johns, P.Q. were AW2 Gertrude Peters, Souris, P.E.I. The graduates will continue their advanced training at various R.C. - A.F. schools, according to the trade they have chosen, and will later be posted to air stations across Canada. — National Defence Photo.

Snatch Russian Plane From Water Off Korea

LONDON, Aug. 27 — (AP) — The story of how a team of Britons, Americans and South Koreans snatched a Russian jet plane from its watery grave 100 miles inside the Communist lines in Korea was told here today. The plane, a Mig-15, now is under study at the Wright-Patterson air experimental base in Dayton, O. There, United States forces will dig out the secrets of construction and design which have made the Russian fighter in some respects superior to any Western plane now flying. The account of its recovery was made public by the admiralty. The Mig-15, shot down in a dog-fight, was ditched by its pilot in shallow water off the west coast of Korea. Planes from the Royal Navy carrier Glory fixed its exact position. Then a U.S. helicopter dropped a buoy to mark the spot. The task of grabbing the plane was assigned to Capt. W.L. Brown and the Royal Navy frigate Cardigan Bay. He enlisted a U.S. Navy landing craft equipped with a lifting crane and a South Korean motor launch. The Cardigan Bay then led the two smaller vessels to within a few miles of the enemy coast — as close as the frigate could go in the shallow water. Aircraft from the Glory set up a covering screen against enemy air attack. The British cruiser Kenya screened the skies. A motor boat from the Cardigan Bay guided the U.S. landing craft and the South Korean launch to the ditched fighter. The men of three countries set to work fixing a sling under the plane so that it could be lifted. On the following day the Russian jet was lifted from the water and the fleet steamed away with its prize.

Higher Rates On Telegrams Being Sought

OTTAWA, Aug. 27 — (CP) — Higher rates on telegrams were sought by the two railway telegraph companies today in an application filed with the Board of Transport Commissioners. In the types of messages commonly used by the public, they asked increases of 10 and 15 cents on standard-wordage telegrams, plus varying increases on the charges for extra words. The familiar 10-word telegram carrying full rate — both day and night — would go up by 10 cents for the first 10 words, and there would be an additional one cent a word on the extra wordage. At present, the minimum on this type is 30 cents day and 20 cents night on the first 10 words, with extra wordage charged for at two cents a word day and one cent a word night. The proposed new charges, which the railways want made effective Oct. 1, would apply on telegrams within Canada, not including Newfoundland. Newfoundland telegraph rates now are higher than those of the rest of Canada. The increases would not apply on messages to the United States. However, U.S. telegraph companies now are seeking an increase of their own and, if it is granted, there likely will be a corresponding one on international messages.

Blames Cracked Girder For Collapse Of Bridge

THREE RIVERS, Que., Aug. 27 — (CP) — A Provincial Government official said today a cracked girder caused the collapse of the Duplessis Bridge here last January. Yvan Vallee, Deputy Minister of the Provincial Public Works Department, was the first witness to testify before a two-man inquiry board in the bridge collapse. The mass of steel girders and concrete pavement plunged into the St. Maurice River with the loss of five lives. Mr. Vallee said there was no indication the concrete pillars had moved before they crashed into the river. He denied an assertion by Quebec Government counsel Leon Methot that his department was aware at the time of a possible collapse of the structure. He said fissures discovered in the steel girders the previous winter had been thoroughly repaired to the satisfaction of his department. The joints of the eastern section of the bridge which had been welded in the repairs had not been affected by the collapse of the four western spans. Mr. Vallee testified the steel structure had been erected by the Dominion Bridge Company of Montreal which also had provided girders on a contract awarded by the main contractor and government agent, the Dufresne Engineering Company. Commission members Judge Rene Lippe and Lucien Dansereau, Montreal engineer, inquired the meeting to allow the injured and two Bailey Bridges which have been erected as temporary links across the river. The Deputy Minister was the only witness heard this morning. His evidence included production of plans and specifications relating to the \$3,500,000 bridge, opened in 1949. The hearing will be resumed tomorrow when Mr. Vallee will be cross-examined by Lucien Gendron, counsel for the Dominion Bridge Company, and Louise Philippe Pigeon, counsel for George Marler, Liberal Opposition leader in the Provincial Legislature.

Motor Vehicles Shipments Down

OTTAWA, Aug. 27 — (CP) — Factory shipments of Canadian-made motor vehicles went down in June for the first major decline in 18 months, the Bureau of Statistics said today. Shipments of British-made cars also were lower. Bureau spokesmen said they did not know the cause of the decline—whether it resulted from lower factory production or from credit restrictions on retail sales. Shipments of Canadian-made vehicles dipped to 36,299 units in June from 41,383 a year earlier. In the six months ended June, they were 247,775 against 191,765. June shipments of British-made cars totalled 2,096 against 9,328 in the six months 22,466 against 36,006. INDIAN NAVY The Indian navy traces its beginnings from the marine of the East India Company, formed in 1812.

Coincides With New Crisis In Cease-Fire Talks

By STAN CARTER U.S. EIGHTH ARMY HEADQUARTERS, Korea, Aug. 27 — (Tuesday) — (AP) — Heavy fighting erupted Monday on the East-Central Korean warfront. It coincided with a new crisis in the suspended cease-fire talks. Reds in battalion strength shoved Allied forces back nearly two miles northwest of Yanggu, at the eastern end of strategic Hwachon reservoir. Yanggu is seven miles north of parallel 38. The battle raged throughout the day. By nightfall, United Nations troops counter-attacked to restore positions. Northwest of that area, sharp patrol clashes were reported in the Pyongyang region of the erstwhile "Iron Curtain" of Central Korea. Eighth Army headquarters reported the Communists attacked in regimental strength (2,000 to 3,000 men) on the eastern front, but were hurled back by Allied artillery and fighter bombers. This was in the area west of Kansong. Offshore, Allied warships blasted Red positions and highways. Steady rains and low cloud ceilings hampered Allied air attacks.

Red Buildup Ready?

TOKYO, Aug. 28 — (Reuters) — (AP) — The top Communist commanders offered today to resume the Korean truce talks if the United Nations command would reinvestigate and proclaim to the world its responsibility for an alleged bombing incident at Kaesong. Continued on page 6 col. 6.

Acreege Restrictions Placed On Woodlot Cutting In PEI

Effective September 10 next, no person will be permitted to cut more than two acres of forest land or more than 20 cords of pulpwood or pit props in any calendar year, without first having obtained a permit from the Minister of Industry and Natural Resources, according to the latest Forestry Act regulations announced yesterday. Hon. Eugene Cullen, Minister of Industry and Natural Resources, said this does not mean that woodlot owners will be restricted to cutting only two acres of forest land in a year. It means, he said, that those who will cut more than two acres may be asked to comply with certain provisions aimed at preserving and protecting the Province's woodlots. Those who plan to cut more than two acres in any one year must file an application with the Department stating the area proposed to be cut and the total area of the woodlot. The Minister may require that person or persons to whom a permit is issued cut only trees of classes and types which the forester may define. Permits granted must be in a form approved by the Minister. The new regulations also provide that "any person buying or shipping pulpwood or pit props in the Province must obtain a license from the Department and pay therefore a fee of five dollars."

New Dysentery Cases Reported From Sask.

SASKATOON, Aug. 27 — (CP) — Health authorities today sealed off dysentery-stricken Menonite communities in Saskatchewan. The affected area is in the vicinity of Hague, 40 miles northeast of Saskatoon. Officials said no travel would be allowed in or out of an area comprising 30 square miles. The disease, which is spread through poor personal hygiene and sanitation, is believed to have been brought from Mexico by a party of 52 Mennonites who had sought to migrate to Honduras. Dr. B. T. Dale, director of preventive services for the Saskatchewan Health Department, flew from Regina to Hague when the new cases—exact number not disclosed—were reported today. He said no force is contemplated in isolating the area. Volunteers from Hague district and the rural municipalities of Resthaven will patrol roads and bring in food and supplies. Dr. Dale indicated quarantine was not necessary. "You could sleep with a dysentery victim and not catch it," he said.

95 Polio Cases Reported In N. S.

HALIFAX, Aug. 27 — (CP) — Several navy nurses were conscripted today to aid in Nova Scotia's battle against the dread disease of polio. Ninety-five cases now have been reported in the province — the most for several years. An emergency ward was put in order to take care of the patients. N.C.A. India Following Moscow Line

WASHINGTON, Aug. 27 — (AP) — India's boycott of the Japanese peace treaty conference opening at San Francisco Sept. 4 may bring about a tougher United States policy toward her, and backfire on the U.S. foreign aid programs. Key State Department officials said India's denunciation of the proposed treaty seemed to follow the Soviet line and gave support to a Moscow propaganda drive apparently aimed at wrecking the treaty negotiations. A 31-member Russian delegation arrived today in New York en route to the conference. In Moscow, the Soviet Government newspaper denounced the proposed treaty as an American attempt to make Japan into a U.S. colony and set the Japanese against other Asiatic peoples.

HALIFAX, Aug. 27 — (CP) — Official forecasts issued tonight by the Dominion Public Weather Office here and valid until midnight Tuesday. Synopsis: The weather of the Maritimes and Eastern Quebec is cloudy and occasional rain is being reported, mainly in Nova Scotia. A low pressure area lying almost stationary to the south of the district is causing warm, moist air to flow over the Maritimes. There are no indications of change, so cloudy, humid weather can be expected to continue tomorrow, and there will also be widely scattered showers. Forecasts: Prince Edward Island — Cloudy with widely scattered showers. Fog in coastal areas. Warm. Light winds. Low and high Tuesday at Charlottetown 64 and 75. High tide today at 5:50 A.M. and 8:58 P.M. Sun rises today at 5:29 A.M. and sets at 6:59 P.M. Summerside tide eighteen minutes later than Charlottetown.
