

GLEANSINGS FROM LATE PAPERS.

The Czar Board of Sanatories.—Every one has heard of Sebastopol, but every one has not heard of Colonel Upon, for many years the chief engineer of that redoubtable fortification.

WHAT THE CZAR HAS TO ANSWER FOR.—The late Nicholas I. has been regarded as a time of peace, and yet, in the course of twenty-eight years, he has sacrificed the lives of 600,000 Russians in attacks upon the Turks, 300,000 in the Crimea, and 200,000 in disease or in battle, in the campaigns against Turkey in 1828 and 1829; and in the present war he has probably lost 50,000 Turkish lives.

SETTING UP OF PUBLIC HOUSES ON THE SAVANNA, AND THE DIMINUTION OF CRIME.—A letter appears in the London Times from the Lord Provost of Edinburgh, in which he states that the result of closing public houses on Sundays in diminishing crime within the limits of the city of Edinburgh.

INTERESTING DISCOVERY.—We learn from a friend, that a few days since the late Professor Storer, while engaged in work discovered protruding from the inclined side of a marshy locality, a few miles from the city of Poughkeepsie.

ALLEGED DISCOVERY OF THE CAUSE OF CHOLERA.—A London miller avers, that the cause of cholera is the consumption of stale flour, and bread-cakes, which are forced into market, and are eaten by the poor.

It became aware that a quantity of stale wheat was about to be shipped from London to Leeds, and he foretold, that if that corn was allowed to reach its destination, the cholera would follow it.

THE ELECTRIC TELEGRAPH BETWEEN ENGLAND AND AMERICA.—The telegraph is a daily, Great Britain with America, is at the present moment actively engaging the attention of the public.

AMERICAN MACHINERY ASSOCIATION.—The Messrs. Allen & Co. have been invited to send their improved six roller printing press for Scotland, which is now on its way to Glasgow.

YANKEES IN CANADA.—The Provincial Parliament of the Province of Ontario, has passed an act granting to the Queen's Province to the extent of 4000 acres.

There are six hundred and fifty beds in St. George's Hospital, and the number of patients is stated that it affords relief to nearly thousand patients annually.

There are now twenty brick houses going up in Omaha City, Nebraska, opposite Council Bluffs. The company that own the houses are building a State house for the use of the Territorial Government.

Since the discovery of gold in California, the yield has averaged about \$60,000,000 a year, or \$5,000,000 a month.

INTERESTING DISCOVERY.—We learn from a friend, that a few days since the late Professor Storer, while engaged in work discovered protruding from the inclined side of a marshy locality, a few miles from the city of Poughkeepsie.

DIVIDEND OF SCENT.—The bank where the wild thyme grows has declared a dividend of ten cents on the share.

EUROPEAN NEWS.

Telegraph to Merchant's Reading Room. HALLS, NEWCASTLE, 1854.—The American Steamer, Pacific arrived at N. York on Monday evening.

Second Special Despatch. Absolutely there is no news from the Seat of War. The despatches (as they are received), are altogether conflicting.

They have all the siege apparatus ready. Menachoff continues to hold the field North of Sebastopol, with his men, expiring a reinforcement of 20,000 more.

The total number of Russian prisoners now at Milhary is 800. It is proposed that those of Sebastopol, who are allowed to emigrate to Australia.

BERLIN, Oct. 11.—Intelligence received by Vienna states, that the bombardment of Sebastopol was terminated on the 10th.

A telegraphic despatch from Vienna states that on the 3d inst. the allied army was doing good service in the Crimea, and the progress of the troops had been such that they were within 12 miles of Sebastopol.

CONSTANTINOPLE, October 5.—Fifty heavy guns, 600 barrels, and 2000 mortars have been sent to the Crimea, and the English army is close to Sebastopol, which is being shelled from the north; and batteries of heavy guns have been constructed.

A Russian general was captured at Alma. He had been the first to surrender to the English, and he had been the first to be congratulated, as he believed, Prince Minkoff's army by his victory.

Another general officer was captured in the retreat. He was stretched on the ground by his fallen horse, apparently dead.

One of the Russian generals (an old man) who was prisoner long ago, and was described as being more distressed about the loss of his uniform coat and epaulettes than any other.

A corporal of the 23d found himself alone in the enemy's battery, and actually bayoneted three men before assistance came to him.

Let me now allude to the expedition which I arrived at the 28th of October, and which I found in excellent health, but I am sorry to say without his eyes.

I reached my old quarters at Repulse Bay on the 11th August, and preparations were immediately made for my departure.

Of the larger animals enumerated, 40 were shot, and 10 were taken alive. The rest were shot, and the number of the latter was 114.

days journey to the westward. The substance of the information, obtained at various times and from various sources was as follows:

In the spring four whalers, (Spring, 1850) a party of 160 men, amounting to about forty were seen travelling southward over the ice, and dragging a boat with them, by some equipment.

At a later date the same season, but previous to the disruption of the ice, the bodies of about thirty white persons were discovered on the continent, and five on an island near it, about a long day's journey (say thirty-five or forty miles) from the west coast of a large strait, which can be no other than Bax's Great Fish River.

There appears to have been an abundant supply of seals, and the natives, out of the kags or cases containing it, and a quantity of seal blubber, and a few high boots, having been left on the ice close to the shore.

SIR JOHN FRANKLIN, AND HIS COMPANIONS IN MISFORTUNE.

Dr. Roe's Letter to Sir George Simpson.

My dear Sir George; Your several letters, public and private, of date 15th June and 15th Dec. have been duly received.

Let me now allude to the expedition which I arrived at the 28th of October, and which I found in excellent health, but I am sorry to say without his eyes.

I reached my old quarters at Repulse Bay on the 11th August, and preparations were immediately made for my departure.

Of the larger animals enumerated, 40 were shot, and 10 were taken alive. The rest were shot, and the number of the latter was 114.
