IN MEMORIAM In loving memory of a loving daughter and sister, Mrs. Gladys Willoughby, who passed away July 1945. The month of July again is here One of the saddest of all the year. With tears we watched you sinking. We watched you pass away. We tended you with loving care, But could not make you stay; We watched beside your bedside As the lonely hours passed And oh! how our hearts were aching When we saw you breathe your last. They say time is a healer And helps us to forget, But time so far has only proved How much we miss you yet. Sadly missed by Father, Mother and Sisters.

IN MEMORIAM In loving memory of our darling Mother, Mrs. Gladys Willoughby, who died 8 years ago. Your memory to us is a keeping sake With which we shall never part Though God has you in his keeping We still have you in our hearts. A memory of a loving Mother Cut short when life was dear And left four lonely aching hearts To mourn and miss you dear. Sadly missed and lovingly remembered by Hudson, Brian, Carole and Frankie. Mrs. Robert Crockett, York.

Modern Fold Doors run on a sturdy top track, they have a rigid frame and are covered in your choice of colors: Vinyl coated fabric that is easy to wash, flame resistant and truly beautiful. Just note the following points in favor of Modern Fold Doors: Quiet "Sure-Stop" slides carry doors along track; door does not creep away from fully open or closed position. Balanced hinge construction (both top and bottom) makes for long life, easy opening and closing. The Vinyl-coated fabric covering in 23 decorator colors is durable, fade-proof, easy to wash with soap and water. Vertical rods to each hinge are for strength and balance. Christie Hanged Yesterday Morning

LONDON (AP)—A hangman's noose Wednesday took the life of John R. Christie, the sex strangler of Notting Hill.

The skinny little trucking clerk who confessed he killed seven or more women dropped through the gallows trap of Pentonville prison at 9 a.m. (4 a.m. EDT) while fellow convicts waited in a traditional outcry and a crowd of 200 waited outside the gates.

It was the climax of the grimest case in Britain's modern criminal history.

Clashes Mark Gold Mines Strike

TIMMINS, Ont. (CP)—Scuffles broke out Wednesday between miners and police as more than 750 hard-rock workers continued their strike against three companies in the Porcupine area, Canada's greatest gold-mining camp. Pickets and police clashed when shift bosses from Broulain Reef Gold Mines, the first company to close down after a sudden walkout in a wage dispute last Saturday, tried to drive a car through the picket lines. Strikers jumped on the car, grabbed the ignition keys and tossed them into some brush.

Police were asked to help the foreman through the gate. Some officers pushed aside the strikers, members of the United Steelworkers of America (U.S.W.A.), but the foreman turned around and left the area. One policeman's coat was torn. There were no injuries and no arrests.

Slight Increase In Freight Exports

Exports from this Province showed a slight increase in June compared to a year ago according to figures released by the office of Superintendent C. T. Montgomery of the C.N.R. This June there were 498 carloads of freight carried on the Borden to Cape Tormentine route while during the same month last year there were only 474 carloads.

However, the imports from other sections of the country were far lower than in the previous year as they dropped from 1,640 to 1,332.

Though far below other months of the recognized shipping season potatoes again led all commodities with 242 carloads leaving here compared to only 135 of June of last year. The biggest decrease in shipping from here came in rough-wood with 108 carloads moving out last year and none at all this year. Other commodities involved were (with last June's figures in brackets) livestock 53 and (66); meats 16 and (10); turnips 25 and (1); lumber 19 and (12); scrap iron 29 and (17).

Imports On the import side the biggest increase came in miscellaneous cars with 66 being brought in last year and 129 this June. The greatest decrease came from shipments of coal with 142 arriving in June of last year and 93 in the similar month of 1953.

Of the carloads shipped from the Province there were 353 carloads from points between Charlottetown, Borden and Summerside; 75 from points east and south of Charlottetown, and 70 originated west of Summerside.

The carloads arriving at the Province mainly came from the area between Charlottetown, Summerside and Borden to which section 1,130 were destined. Another 139 went to places east and south of this city and the balance of 63 were consigned to points west of Summerside.

STOCKHOLM, (CP)—The A-32 Lansen lance, the Swedish Air Force's new 700 mph all-weather jet fighter, has flown "faster than any other aircraft in this country" officials disclosed when the plane was shown to the press.
