

# Keenest Election Fight In Decade Is Shaping Up

**SUMMERSIDE BUREAU OF THE GUARDIAN**

The most keenly contested election in Summerside in the past decade was assured yesterday when Dr. Hillard E. Clark, Gordon Kelly, and Mercier Mullin announced that they will be candidates, along with Elmer Newson, Edmund F. Arsenault, Ernest J. Morrison, and Leo Wood who had previously announced that they will nominate. Senior member of the Summerside town council, Dr. Clark, who has been chairman of the electric light committee for the past three years, re-entered the civic political scene yesterday following the organization of a citizens committee which met the previous evening and formed a campaign organization which requested reconsideration of his announced intention of retiring from the council.

The group which will work on his behalf issued a statement expressing his views that Dr. Clark's "outstanding service to the town over the past six years and his knowledge of electric

light matters make it an issue of supreme importance that he be retained on the council for at least another term."

**CONDUCTING CHAMPION**

Members of this organization conducting the campaign in the interest of the re-election of Dr. Clark are R.A. Horne, R. T. Hench, W. Chester S. MacDonald, Eric Sheen, and J. Horne MacParlane, J. Frank Cameron, Jock Keith Lapp, Charles Linkletter, and James MacDougall.

In the Center Ward where Dr. Clark will re-nominate, two other candidates will be in opposition, Ernest J. Morrison, manager of P.E.I. Concrete Products Ltd., last Monday announced his intention to nominate; and Mercier Mullin, a livestock buyer with Canada Packers, confirmed that he will also nominate in the Center Ward.

In the West Ward Gordon Kelly, a partner in Victory Cleaners, consented to the requests of a number of citizens, and announced that he will be a candidate in this ward, where Leo Wood, em-

ployed at the Unemployment Insurance Commission office, and a member of the present council, has indicated he will re-nominate.

**NEWSON RENOMINATES**

In the East Ward, Councillor Elmer Newson, a C.N.R. employee at the Summerside station who has been a member of the council for the past two years, will seek re-election.

Mr. Newson will have at least one opponent, Edmund F. Arsenault, an employee of Robinson's Bakery, and while no definite announcement has been made it is reported that at least one other man is considering nominating in this ward.

The unusual interest in this civic election results primarily from a serious split which developed within the council during the past year, largely on the issue of the town manager system of civic government.

On at least two occasions during that time the matter was settled in council by the supporting vote of Mayor W.A. Currie who voted with Councillors Dr. H.E. Clark, W.E. MacAuland, and Elmer Newson, to retain Town Manager Joseph Brophy in the employment of the town of Summerside against the resolution supported by Councillors Robert Dewar, Leo Wood, and Fred L. Arsenault which favored termination of his employment.

Rosebank, daughter Erma, also Mrs. George Hardy, Dock Road, returned to their homes after spending two weeks visiting relatives in Toronto.

Friends of Henry Peters, Duvar, are sorry to learn of his continued illness. He is a patient in the community hospital, O'Leary.

Adrian Gallant returned to his home in Plussville after being a patient for a few days in Western Hospital, Alberton.

# Silver Dart Reported Ready To Fly Again Over C.B. Lake

**OTTAWA (CP)**—The Silver Dart is ready to fly again at Baddeck.

The rickety, hand-fashioned biplane, weighing 900 pounds including the pilot, made the British Empire's first powered flight over the Bras d'Or Lakes near Nova Scotia community on Feb. 23, 1909.

Pilot then was John McCurdy, later to become Nova Scotia's lieutenant-governor. This Feb. 23, weather and lake ice permitting, he will be watching from the ground as Wing Cmdr. Paul Hartman takes up an exact copy of the original craft in a memorial flight.

The RCAF said Wednesday the duplicate Silver Dart has been successfully flight-tested at Trenton, Ont.—successfully, that is, except for a few banano struts broken in a rough landing.

The original silver dart was the fourth plane made by a group of aviation pioneers—Mr. McCurdy, telephone inventor Dr. Alexander Graham Bell, Glenn Curtiss and F. W. (Casey) Baldwin. Their first three planes crashed in test flights.

**SPARE TIME PROJECT**

Credit for the replica goes to Lae Lionel McCaffrey, who built the new Dart in his spare time at Trenton, following plans for the original aircraft, which crashed at Petawawa, Ont., on its fifth flight.

The model was displayed last year at the Canadian National Exhibition in Toronto, and by that time the air force had become interested in attempts to fly it.

The original Dart reached a height of 60 feet and a speed of 40 miles an hour. Mr. McCurdy took the plane three-quarters of a mile, then brought it back for a perfect landing.

Wing Cmdr. Hartman apparently has a chance to do even better, since the new Dart has slightly more power.

A modern and efficient engine is being used, instead of the copper-jacketed and water-cooled motorcycle engine Curtiss built for the original.

## PROVIDE SHELTER

These two nylon survival tents, along with an igloo, provided shelter from 45-below-zero weather for 14 persons who spent a night on Back River near the Arctic Circle when their ski-equipped RCAF Otter was forced down by an oil leak.

An RCAF Dakota rescued the group, which included three RCAF personnel, an RCMP corporal and 10 Eskimos—five of whom were children. The esk-

imos were being moved to better hunting grounds at the time. Here, they pack their survival gear. (CP Photo)

## Fisheries Minister Speaks On Conservation In Boston

**By GAVIN SCOTT BOSTON (CP)**—Canadian Fisheries Minister J. Angus MacLean told a group of American fishermen Wednesday night that

the good angler is the man who takes less than his legal limit. "You can catch your limit under the regulations," MacLean said in an address at mid-winter dinner of the Miramichi Salmon Association, "but to get the thrill of catching the salmon it is not necessary to take the full quota which is allowed."

"The one who does not, to me, is the true conservationist," MacLean also warned fishermen against playing a fish "for a thrill" until it is exhausted and then letting it swim away. Often such fish die.

"There is some evidence," he said, "that a fish which has been using its full fighting energy for some time may not be able to rid its body of the chemical which has been set loose in its bloodstream, and may die a few hours later. Release it as soon as you can," he advised.

**300 MEMBERS**

The Miramichi Salmon Association, with a membership of more than 300 American and Canadian fishing enthusiasts, is one of 75 clubs located on the Miramichi River system which drains one-sixth of central New Brunswick. The association maintains headquarters at Boistown, N.B.

MacLean observed that "the Atlantic salmon has many enemies, including man." Growing urban areas have not been kind to the salmon because they lead to warm, muddy, polluted or unnatural waters where the salmon cannot live.

"We in Canada now may be entering the phase that you people in United States went through some time ago," MacLean said. "Without a good deal of care by all of us the centre of the salmon runs may move another step north to the relatively unsettled areas of Newfoundland, Northern Quebec and Labrador."

**SPRAYS NOT NEEDED**

MacLean reported that forest sprays harmful to salmon will not be necessary this year in New Brunswick.

Despite the largest catch in 10 years last season, anglers should guard against "over-optimism." "The scientists point out, with reason, that this large catch does not necessarily show that the stocks of fish are increasing," he said. "Favorable conditions for fishing, such as right kind of weather at the right times and the right levels of water at the right times, were in part responsible for the improved catches."

**REGULAR THURSDAY NIGHT DANCE**, Canadian Legion, Summerside, music by Mellows. Admission 50 cents.

**BEDEQUE RINK**—Tonight Thursday Intermediate C Hockey Sherbrook Meteors vs. Elm-dale Rockets, game time 8:30. Skate after. Free school skate this afternoon 3 to 5. School sports Friday Evening 8 p.m.

**KENSINGTON RINK**—Tonight Thursday Intermediate C Hockey Bedeque vs. Cavendish. Game time 8:30 p.m.

**PERSONALS**

Friends of Mrs. Gus McKinnon of Miscouche will be sorry to learn that she recently entered Prince County Hospital, Summerside, where she will receive treatment.

On Saturday, January 31, the official opening of the new High School at Miscouche took place. D. H. Gallant was chairman.

Friends of Ivan LeClair of Miscouche are glad to know he is much improved after receiving treatment in the Prince County Hospital, Summerside.

Sympathy is extended to Mrs. Louis McMillan of Miscouche on the death of her sister in St. John, New Brunswick. She passed away on Sunday, February 1st.

## Bombers Romp Over Hampshire To Win Series

**KENSINGTON**—Kensington Bombers romped over Hampshire 10-3 last night at Kensington rink to win their intermediate C playoff round in two straight games. The Bombers took the opening tilt 7-6.

Keith Sudbury and Jim Kennedy paced the Bombers against each firing two goals. Single markers went to Alan Champion, George Reeves, Ellsworth Mann, Bruce Champion, Mark Andrews and Ewen Sinclair.

S. Josey sniped a brace for Hampshire and Godfrey got the other.

George Watson handled the whistle.

## Cavendish Six Takes Lead In "C" Playoff

**BEDEQUE**—Cavendish went one up in the best of three intermediate C series by edging Bedeque Beavers, 5-3 in a fast well played game at Bedeque rink last night.

The second and what could be the deciding game will be played tonight at Kensington rink. P. Johnston led all Cavendish pointgetters with three. Houston had two and single points went to L. Cole, Dunning, MacKay, Douglas, Riley and Simmons.

Earning points for Bedeque were Bobby Bell, Fred DesRoches, C. Arsenault, Robert Arsenault and J. Rogers.

E. Phillips and Des Roberts handled the whistles.

## Alberton Town Councillors Are Feded By Mayor

**ALBERTON**—On Tuesday evening Mayor and Mrs. Herbert Mathews entertained at dinner in their home in Alberton for members of the retiring town council which will take office next week.

Guests were Mayor Elect Winston Currie, retiring Councillors John C. Profit and Perley Hardy, Councillors Richard Leary, Jr., Councillors-elect Roy Leary, Albert Clarke and Gerald Rooney.

Other guests were town clerk, Miss Thelma Ahearn and ex-fire chief Stephen M. Burke.

In serving Mrs. Mathews was assisted by Mrs. J.C. Profit and Mrs. Don Campbell.

Mayor—Elect Currie and Councillor Campbell expressed the thanks and genuine appreciation of the guests for this gracious gesture of Mr. and Mrs. Mathews.

## HOWLAN

A. D. Arsenault returned to his home after spending a few days in the Prince County Hospital.

Mrs. Bruce Carruthers spent Wednesday afternoon as guest of her sister, Mrs. Margaret Dunville at O'Leary.

The meeting of the Howlan Study Club was held on Wednesday night, January 28th, at the home of Mrs. A. T. Arsenault with about 17 in attendance.

Miss Olive Doiron is out of school having injured her knee in a recent fall. All hope for a speedy recovery.

Miss Jean Arsenault and her friend, Miss DesRoches of Charlottetown, spent Wednesday night at Jean's home in Howlan.

## Encouraging Report Given On Proposed Food Plant

**ALBERTON**—The Alberton and West Prince Board of Trade held its regular meeting in the Alberton public library last evening with an excellent attendance.

The president, Earle Atkinson, presided.

The chairman of the cold storage committee, Phillip Carroll, presented an encouraging report on the feasibility of a proposed frozen food plant in Alberton.

Following a discussion on hospital insurance a motion favoring a sales cost to pay the cost of the plan, was carried by a small majority.

The board also went on record as favoring some type of compulsory public liability in connection with the licensing of motor vehicles.

On motion it was approved that the Department of Industry and natural resources continue their efforts to increase trade with Gulf of St. Lawrence and River ports.

As a means of promoting the tourist industry in Western Prince County, it was decided to sponsor a meeting of those engaged in discussing an advertising procedure for distribution from the various tourist information booths.

Following discussion Don Campbell was appointed chairman of the tourist committee.

## WELLINGTON

Friends of Mrs. Albert Ward, Richmond are pleased to see her out after being confined to her home by illness.

Miss Eleanor Barlow, spent the weekend with her sister Mrs. Roland Millar, Mr. Miller and son of Freehold.

Mr. and Mrs. Abdon Gaudet of Egmont Bay, recently visited Mrs. Alpha Arsenault and family of Miscouche.

Congratulations go out to Mrs. Edmund C. Arsenault of this place in being the lucky winner of a lovely set of cookware.

Congratulations are extended to Mr. and Mrs. Frank R. Arsenault, St. Gilbert, who celebrated their Golden Wedding Anniversary on Sunday, January 25th.

Little David Cassie, 18-month-old son of Mr. and Mrs. Joseph J. Cassie, St. Gilbert, had the misfortune of being scalded while his mother was preparing the washing on Monday.

He was taken to P. C. Hospital where he will receive treatment for a few days.

Friends will be pleased to learn the condition of Miss Julie-Anne Bernard is improving.

Mr. Arthur Bernard, Summerside recently visited his sister Julienne who is confined through illness at the home of Mr. and Mrs. C. F. Gallant.

A happy occasion was celebrated at St. Gilbert recently, honoring 50th wedding anniversary of Mr. and Mrs. Frank R. Arsenault. Members of the family gathered at the home to tender a surprise party and a number of lovely gifts, including a beautifully finished china cabinet presented by their children, grandchildren, and great-grandchildren.

Mr. and Mrs. Arsenault were married in 1909 and have lived all their married life in the St. Gilbert vicinity in the present house for 30 years. Mr. Arsenault is 79 and his wife 72. Both are well and active and perform daily tasks around farm and home. The couple had 10 children, six of whom are living. They are: Mrs. Ernest LeClair, Summerside; Mrs. Peter DesRoches of Summerside; Ralph, Mrs. Jas. Maddix, St. Gilbert; and Mrs. Jerry Arsenault, Egmont Bay, and Able-Arsenault who lives on the mainland. There are 44 grandchildren and 11 great-grandchildren.

**PIUSVILLE**

The weekly bingo in aid of the P.W. Institute, was held on January 21st at the home of Mr. and Mrs. Henry Gallant. Eight tables were in play. Ladies first prize went to Mrs. John P. Gallant; second Mrs. Aubin M. Gallant; Mrs. first Kenneth Gallant; second Dale Corcoran. Freeze-out went to Fern Blanchard and Shirley Gallant. Door prize to Mrs. J.J. Corcoran. A delicious lunch was served by the hostess, assisted by some of the members.

Following discussion Don Campbell was appointed chairman of the tourist committee.

## WELLINGTON

Mr. Claude Baglote, left recently for St. John, N.B., where is employed.

Friends of Ernest Campbell will regret to learn he had his leg severely injured while playing hockey recently.

Congratulations are extended to Mr. and Mrs. Sidney Goodwin on their recent marriage in St. Paul's Church, Summerside.

Mrs. Wilson McPhee who has been employed in Summerside for some time has returned to her home in South West.

Mr. and Mrs. Henry Arsenault recently spent a few days at Moncton while Henry an employee of McLellan Motors, Summerside, attended a mechanics course, while Mrs. Arsenault visited friends and relatives.

Mrs. Edmund F. Arsenault is a patient in P. C. Hospital where she underwent surgery.

A great number of pupils have been home from school classes at the French school due to chickenpox.

Mrs. Cecily Arsenault has entered the Charlottetown Hospital to undergo surgery.

Mr. Arthur Bernard, Summerside recently visited his sister Julienne who is confined through illness at the home of Mr. and Mrs. C. F. Gallant.

A happy occasion was celebrated at St. Gilbert recently, honoring 50th wedding anniversary of Mr. and Mrs. Frank R. Arsenault. **BACKACHE**

Backache is often caused by lazy kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now.

## Wings, Promotions Given Cadets At Annual Parade

**SUMMERSIDE**—Presentation of Wings and insignia of rank was made to 14 cadets of the No. 53 Air Cadet Squadron by Group Captain J. E. Creeper, DFC, commanding officer RCAF Station, at the annual promotion parade of the squadron held Tuesday night.

A large number of parents and friends of the cadets saw the parade, which was under the command of Lieutenant John Leuty, F-Sgt. Don Sturdy and Sgt. Everett Brooks, received their flying wings at Moncton last year.

Two cadets were promoted to the rank of WO2, Sgt. John Roy and Sgt. Tom Oiler and two to the rank of flight sergeant, Sgt. Kent Clark and Eldon Storey. Those promoted to sergeant

were, Corporals Frank Ellis, Donald Arsenault and Everett Brooks. Promoted to corporal were LACs Thane Bell, Garther Champion, George Arsenault, John Perry, Bill Woodside, Irving Campbell, Raymond MacKinnon.

Group Captain Creeper said the promotions were an indication that the cadets had worked hard and were devoted to duty. He hoped their efforts would be in inspiration for the younger cadets.

The commanding officer commended the sponsoring group, Summerside Wing of the RCAF Association for their efforts with the cadets over the years. He also praised the Borden branch of the Canadian Legion for providing transportation for cadets in that area.

## Heart Disease Responsible For 49 Per Cent Of Deaths

The heart that beats inside your chest is a fist-sized, four-chambered pump, which, in the course of a Biblical lifespan, beats almost three billion times.

Save for a brief between-beat rest, it keeps right on working day after day, year after year.

Contrary to popular belief, the heart is not a "delicate" organ. It is tough, and amazingly durable. From the standpoint of mechanical perfection, no pump created by the genius of atomic age science can surpass it.

Equally miraculous is the circulatory network through which it pumps up 11 pints of blood at the rate of 166 gallons per hour, delivering food and oxygen to the billions of cells which make up your body.

It is a beautifully organized refining and waste-disposal system. Yet, either wholly or in part, it is not immune to sickness and disaster.

**GRIM STATISTICS**

The extent to which this is true is mirrored by some grim statistics: Diseases of the heart and circulation, now responsible for more than 49 per cent of all deaths, affect nearly one and a quarter million Canadians, among them an estimated 40,000 children of school age.

They constitute Canada's foremost health problem and the leading medical challenge of our time.

Until only two or three decades ago the view was widely held that "nothing" can be done about heart disease, which was seen as an inevitable forerunner of death—something quite beyond the reach of medical science.

In years past, this same fatalistic viewpoint prevailed regarding such "epidemic" diseases as smallpox, typhoid and yellow fever, diphtheria and bubonic plague. As the infectious diseases succumbed to medical science, so have many other disorders of the body been remedied or cured by new advances in drug therapy and surgery.

**PESSIMISM REPLACED**

Pessimism and despair are now being replaced by hope and assurance that medical research, in the not-too-distant future, will provide the knowledge needed to control most diseases of the heart and circulation.

Brilliant victories already have been scored in the diagnosis and treatment of heart and circulatory diseases. There is today a general awareness that some forms of heart disease can now be prevented, a few can be cured, and that almost all cases can be helped by proper treatment—especially after early diagnosis.

As a result, people now realize that no medical problem and this specifically includes the heart disease—is necessarily beyond solution.

**ALL OUT ASSAULT**

Futurism, public confidence is increased because now there exists the machinery for a concerted and planned all-out assault upon the heart diseases—a nationwide program of research, and community and professional education, spearheaded by the National Heart Foundation and the Provincial Heart Foundations from Newfoundland to British Columbia.

In this fight, the stakes are large. The right answers can mean the difference between adversity and prosperity, sickness and health, life and death for millions of Canadians—including generations not yet born.

The door is wide open for every man, woman and child to have a part in the fight against heart disease. This opportunity is opened to you through your generous support of the 1959 Canadian Heart Fund.
