THE DAILY EXAMINER

THE LEADING DAILY NEWSPAPER OF P. E. ISLAND,

is issued every afternoon, from the office of the EXAMINER PUBLISHING COMPANY, in the London House Building, Queen Street.

RATES OF SUBSCRIPTION.
(IN ADVANCE)

ONE YEAR.....$4.00
SIX MONTHS.....2.00
THREE MONTHS.....1.00
ONE MONTH.....0.50

Sent post paid to any part of Canada or the United States

ADVERTISING RATES

For small advertisements which are ordered for only one or two weeks the charge is 50 cents per inch for the first insertion, and 25 cents for each continuation. Rate cards are furnished on application at the office. Special contract prices at a reduced rate are quoted for advertisements four inches in size or larger, which are to run for three months or longer.

No special notices inserted unless paid for at the rate of 10 cents per line, and under no circumstances will such paid notices appear in the local column.

Special discounts made on all advertisements connected with Church Fairs, Bazaars, Picnics, etc. No notices will be inserted with the same unless the regular rate of 10 cents per line is paid.

That THE EXAMINER is considered by our Merchants and Manufacturers to be the leading newspaper in P. E. Island, and consequently the most valuable advertising medium through which to make their announcements public, is abundantly proved by the fact that in order to accommodate our advertisers we have been compelled to enlarge the paper to its present size.

THE DAILY EXAMINER is for sale by the following agents :—
R. H. Mason, Post Office, Charlottetown.
J. McIntyre, Malpeque Road, "
C. Paul, Lower Spring Park Road, "
W. M. Coffin, Grafton Street, "
S. Grey, cor. Water and Prince St. "
D. Chappell, Prince Street, "
Bazaar Store, Queen Street, "
Geo. Carter & Co., Queen Street. "
S. Gray, News Stall, P. E. I. Railway and on the trains.
M. & T. J. Walsh, Eclectic Bookstore, Summerside.
Harry McFarlane, Souris.
Hon. D. Gordon, Georgetown.
D. A. Egan, Mt. Stewart.
G. M. Clarke, Alberton.
A. J. McNeil Stanley Bridge.

The Weekly Examiner

is issued every Friday morning from the publishers' office. It is made up of matter which has appeared in the Daily editions, and is a first-class weekly newspaper—interesting and full of the latest news.

The subscription for THE WEEKLY EXAMINER, post paid to any part of Canada or the United States, is one dollar per year.

Advertising rates on the same scale as given bove for THE DAILY EXAMINER.

MORTGAGE SALE

of Valuable Freehold and Leasehold Properties on Lot 3, Prince County.

To be sold by Public Auction, at the Court House in Summerside, in Prince County, in Prince Edward Island, on THURSDAY, the Nineteenth day of July, A D 1894, at the hour of Twelve o'clock, noon:—

1. All that tract, piece or parcel of land situate on Lot Three, in Prince County, bounded as follows:—Commencing at a stake fixed or intended to be fixed on the south side of the Centre Line Road, running thence in a southeasterly course on the east side of an old pine stump to a yellow birch tree near the old barn, and extending in the same course till the line strikes the Brook; then following the course of the Brook to the eastern boundary of the said Dennis O'Brien's land; thence north along the said boundary to the Centre Line Road; thence along the said road a distance of five chains to the place of commencement, containing by estimation three acres, more or less, together with the rights, privileges and appurtenances thereto belonging, and also with the liberty and privilege of taking clay, earth, stone or gravel from the bank and land of the said Dennis O'Brien adjoining, and also full liberty to raise and build the dam intended to be erected on the land of James G. Wiggins near the said tract, so as to raise the water of the said Brook to any height he may require on and over the other land of the said Dennis O'Brien.

2. All that tract, piece or parcel of land situate, lying and being at Miminigash, Lot or Township Number Three, in Prince County, Prince Edward Island, bounded and described as follows, that is to say:—Commencing on the north side of the Miminigash Road, at the distance of one chain and eighty links east from the stream to Big Miminigash Pond or the division line between Paul T. Costain and Richard Costain, following thence along said road east four chains; thence north eleven chains, or to said stream; thence following the various courses of said stream southwestwardly to the said line between Richard Costain and Paul T. Costain; thence along said line south three chains, or to the said road at the place of commencement, containing by estimation three acres of land, a little more or less.

The first piece of land above described being Freehold, and second piece above described being Leasehold.

Together with all rights, members and appurtenances thereto belonging or in anywise appertaining.

The above sale is made pursuant to a power of sale contained in a certain Indenture of Mortgage bearing date the 28th day of June, A D 1892, made between Samuel H. Wiggins and Sarah A. Wiggins (his wife) of the one part, and Alexander McKinnon and Thomas A. McLean of the other part.

For further particulars apply to Mr. William S. Stewart, Solicitor, Newson Block, Charlottetown.

Dated this 5th day of June, A D 1894.

ALEXANDER McKINNON,
THOMAS A. McLEAN,
Mortgagees.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

W. R. Watson, Druggist, Charlottetown P. E Island. iymwtf

TO CURE DEBILITY,
Loss of appetite, sleeplessness and all nervous troubles, physicians recommend
Campbell's Quinine Wine.
Do not let your druggist pursuade you that some other is just as good.

What's the time?

If you have a Cough it is time you were taking
GRAY'S SYRUP of RED SPRUCE GUM
THE OLD STANDARD CURE FOR COUGHS, COLDS, ASTHMA and all LUNG AFFECTIONS.

Gray's Syrup has been on trial for more than 50 years and the verdict of the people is that it is the best remedy known. 25c. and 50 c. per bottle. Sold everywhere.
KERRY WATSON & CO. PROPRIETORS MONTREAL.

HAVE A GUESS.

Oh, wheelmen, all take my advice,
And don't forget, be sure
To take a look at the famous "Bike"
In PROWSE'S well-known Store.

The handsome Brantford Bicycle
That in their window's shown
Is as good as any in Charlottetown,
And it may be your own.

A jar in which are cents galore
Is placed where all can see;
Guess how many cents the jar contains
And the "Bike" your own will be.

Be wise, make all your purchases
At PROWSE'S Clothing Store;
Each purchase, on that Bicycle,
Will give you one chance more.

Their Carpets, Hats and Furnishings,
And all, in fact, they keep,
Compared with others in the town
Are more than quite as cheap.
ap6—eod

"AN EAR FOR MUSIC."

WHAT WAS MEANT IN OLDEN TIMES BY THE PHRASE.

Now-a-Days It Is Declared That Anybody With a Normal Physical Ear Can Learn Music—Neglect in Childhood the Great Cause for Musical Inability.

In the good old times they used to speak of a person who did not readily distinguish tunes as having no ear for music; and the child of whom this was said was never given any opportunity of acquiring such a thing, his development as regards music being considered hopeless. But in these later and better times it is declared that no child with a normal physical ear—that is, with one meeting the usual requirements of hearing—is hopelessly deficient in the matter of music. The total absence of the power to discriminate between tones, or to give pitch correctly, will always argue either an ill-formed, a species of deafness, or a deficiency somewhere in the brain, and, at any rate, an abnormal condition in that one respect. When it is observed that a child does not try to hum to itself, does not make little attempts at song when about a year old, it may then be suspected that the sense of melody, the power to distinguish tunes, is absent or dull, since most children, almost as soon as they can walk, will make melodic sounds that can be recognized as the fragments of tunes that are sung to them.

Most generally, when one has reached maturity, and still has no ear for music, it is owing to neglect in childhood—neglect so far as there has been wanting any endeavor to stimulate the appreciation of tone and to exercise and develop that part of the brain to which the ear conveys its sensations. This can be done only by reiterated effort, by the repetition of a few tones till the ear has become able to discriminate between them and carry the sense of their differences to the brain, and the brain has in turn learned to order the voice to express them. Sometimes the brain never learns this last perfectly, even when it enjoys and recognizes tune itself. When the voice is able to express the tune it does not signify if it be weak and harsh or sweet and strong, since that belongs to another organ, the ear having to do only with discrimination of tonal difference. The effort should not be given up till practice has shown that there is positively no sense for melody, no observation of the succession of the various tones.

Very possibly a child who never heard music might never sing—a child whose mother never hushed it with lullabies or amused it with gay songs. Music, then, may some time come to the grown person as a revelation of delight, and the development of the ear would take place at a later period. We often find a child who cannot "turn a tune" in the beginning gradually acquire the power to do so as well as any. But where it is a possible thing to avoid, no child should be left in such forlorn beggary as never to hear music. If a mother cannot sing herself, she should see to it that the nurse she employs can sing, and if she is unable to hire a nurse she might find it possible, through exchange of work or kindness, to procure singing of some sort enough to give her child the opportunity of comparing tones and of acquiring an understanding of them, since it would seem as palpable a duty to develop that as any other of the child's powers. It is fortunate that almost everywhere the Sunday school, with its singing of simple elementary tunes, is ready to supplement this deficiency, among others of the home life.—Harper's Bazar.

Tests of Purity of Water.

The popular standards of the purity of water are clearness, tastelessness and colorlessness, and yet they are in reality less desirable qualities than are softness, freedom from putrescible organic matter, and stability in storage. For instance, a colorless and perfectly clear ground water, especially when high in nitrates, will, if confined in open reservoir, promote and support a more vigorous growth of organisms and may become fouled and polluted to a much greater extent than will many surface waters similarly confined and either deeply colored by dissolved vegetable matter, or loaded with clay and sand in suspension. Likewise, a water meeting the requirements of the popular standard, but containing much lime and magnesia, particularly in the form of sulphates, is unfit for use in boilers and houses, while a ground-water containing peroxide of iron will cause much trouble and annoyance by the deposits of iron rust in the distribution pipes, and will prove very unsatisfactory in washing and in cooking.—Literary Digest.

Survival of an Old Superstition.

The old theory that lighted fires in the streets had power to drive away a pestilence has long been exploded, but the mayor of Bordeaux evidently believes there are occasions when public fires of this kind may be used with advantage. It appears that there is much poverty just now in Bordeaux, as, alas, elsewhere, and the mayor, being seized with pity for the condition of the unemployed, has had huge coal fires placed in certain parts of the city during the recent severe weather. The fires, which were placed, of course, only in the poorer quarters, gave much satisfaction, and thousands availed themselves of them to warm themselves, while some people even did their cooking by them.—London News.

It Makes the Hair Grow.

Thirteen miles southeast of San Diego, Cal., is the location of a spring whose waters have the wonderful power of restoring the hair to bald scalps. We quote a statement made concerning it by the California board of health: "We must acknowledge that this water, from the evidence that has been brought before us, has made hair grow on scalps that were entirely bald. Of this we have had several examples on persons whom we have known for a number of years, and who, until after they had used the waters of this spring, had given up all hope of ever having a full head of hair.—St. Louis Republic.

Hints for Housewives.

Boiled starch is much improved by the addition of a little sperm or a little salt, or both, or a little gum arabic dissolved.

Corks warmed in oil make excellent substitutes for glass stoppers.

Mend the torn pages of books with white tissue paper.

REAL MERIT is the characteristic of Hood's Sarsaparilla. It cures even after other preparations fail. Get Hood's and ONLY HOOD'S.

THE LADIES.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

USE SKODA'S DISCOVERY, the great Blood and Nerve Remedy.

CONTROL OF THE TONGUE.

Physical Conditions to Be Observed With That Unruly Little Member.

Twenty centuries ago St. James denounced the human tongue as a mischievous engine and world of iniquity. A modern observer declares that chronic sore throat is not infrequently produced by the misuse of the vocal organs—very often that unruly little member, the tongue, is accountable for this difficulty, as it is for a great many other troubles in this transitory life. Many people have a habit when talking of pushing the tongue so far back against the delicate membranes that line the throat, that irritation more or less painful is caused, and if it continues any length of time ulcers will form—and so will a doctor's bill. Control of the tongue is excellent in all senses of the word. Physically this organ may be arranged by depressing it into a hollow at a point three-quarters of an inch back of where the tip of it comes when in a natural position in the mouth, and at the same time singing very light head tones. The exercise requires some patience at first, but the habit of keeping the tongue down is soon acquired. In speaking or singing it should not be allowed to hoop up and fill the mouth, thus interfering with the free passage of the tones of the voice from the throat to the front of the mouth, where they should strike and then escape clear as a bell. This hooping up of the tongue in the mouth is the cause of much of the indistinct and slovenly utterance to which we are too often obliged to listen. In many people we notice the line from the point of the chin to the neck is in the form of a right angle. In a shapely throat this line forms a curve, just as a canary's does when the small, yellow artist is warbling his carols. To develop the throat and make this angle a curve stand before a mirror so that you may watch the throat swell out; now thrust your tongue out as far as it will go, then draw it back quickly and forcibly, at the same time bringing it downward in the mouth as far as you can. Place your thumb and forefinger against the larnyx (commonly called the Adam's apple), and if you are making the right movement you will feel the larnyx pass downward. For a week or two make the movement lightly, after that time put as much force into it as you can. The exercise should be practiced for a few minutes several times a day, to insure rapid and good results. To fill up the hollows of the neck, stand correctly, and then slowly fill the lungs with air, without elevating the shoulders. As the air is forced upward into the throat hold it there a few seconds and then expel slowly. This exercise is best performed soon after rising in the morning and before retiring at night.—New York Times.

The Mal-Odorous Onion.

"Talk about tobacco-scented breath of men," said a pretty girl, "I have suffered more at matinees from sitting next a woman who had eaten potato salad or Spanish omelet, or some dish of which onions or garlic formed a part, than I ever did from the fumes of tobacco in the presence of men. The odor of wine which women drink at table as often as men do is no more pleasant because it is wafted between the pretty lips of a woman, who, perchance, would tip-tilt her nose at detecting it on a "horrid man."

There is more truth than poetry in this criticism, but a little care will prevent any one from being offensive on account of the food or liquids they have taken. A cup of black coffee will destroy the fumes of the mal-odorous onion. The "fad" of having peppermints and wintergreen cream candies on the table has method in its madness, as one of these will destroy the odor left by wine. It would be quite safe to use as a mouth wash and gargle after each meal a glass of water, in which had been put a few drops each of camphor and myrrh. A bit of orris root might be carried in the masculine pocket for use when necessary, for it, as well as stick cinnamon, or ginger, will disguise unpleasant odors. In some cases, however, the "ounce of prevention" would render resort to these disguises unnecessrry. Henry Ward Beecher once characteristically said: "There is no smell so universally pleasing as no smell."—New York Recorder.

A Locomotive Put Together in 10 Hours.

"To look at a railway locomotive one would scarcely think that by any possibility it could be put together in less than one day," remarked Thomas G. Bick, of Montreal, "yet that astonishing feat was accomplished not long ago in England, the work occupying less than ten hours from the driving of the first rivet to the application of the final coat of varnish. The start was made at 9 o'clock in the morning, and eleven minutes afterward the first rivet was put into the frames. The cylinders were set and fixed in one hour and seventeen minutes. Four hours and seventeen minutes from the start the boiler was in place, and an hour and twenty minutes later the engine was wheeled. The wheels were supplied just as they left the shops, and the eccentric sheaves had to be fixed, and the axle boxes, connecting rod and coupling rod brasses fitted by the erectors. Eight hours and twenty-two minutes from the start the valve setting was completed, and the painting of the engine was begun fifteen minutes later. In nine hours and forty-seven minutes from the start the engine and tender were completed in every detail. One hundred and thirty seven men were engaged in the work. The locomotive was put into regular service on the day it was completed, and has been running continuously ever since."—St. Louis Globe-Democrat.

Jean Bart, the Corsair.

The last descendant of the famous French corsair, Jean Bart—Mme. Taverne de Tersud, nee Melanie Jean Bart—has died at Dunkirk. Jean Bart's effigy is frequently to be seen as a signboard in Paris and provincial towns, and the presentment of the old freebooter in his gayly plumed hat, cloak and jackboots, striding up and down the quarterdeck of his cruiser, often appeals to the imagination of the youthful Frenchmen who happen to have a hankering after salt water. The corsair is also venerated on patriotic grounds, for, although not originally belonging to the national navy, he was commissioned under letters patent to fight the Dutch. Afterwards, being captured by the English, he escaped from Plymouth, and in 1679 he was admitted by Louis XIV. to the Royal Navy on the recommendation of Vauban. He was also ennobled and empowered to wear the Fleur de Lis in his coat-of-arms. Mme. de Tersud, his descendant, was seventy-two years old.—Paris Cor. London Telegraph.

For Over Fifty Years.

AN OLD AND WELL TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays the pain, cures the colic, and is the best remedy for Diarrhœa. Is pleasnt to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.—m. w. f. wkly—1 y
