IN MEMORIAM

MRS. M.P. DRISCOLL

Friends throughout the province learned with regret of the death on February 27th of Mrs. M.P. Driscoll at the age of 84 years at her home in Summerside.

Although in failing health for the past few years, she continued to take interest in her family, friends, church and community affairs.

She was Georgiana Winnifred Melver daughter of the late Mr. and Mrs. John Melver, Kinkora, and as a happy and charming bride came to live in Freetown, where her husband, the late M.P. Driscoll, was the popular station agent of the C. N. R. Here they remained until retirement in 1929 when the family moved to Summerside. Her husband died in 1934.

Quiet and unassuming by nature, she left an indelible impression upon those whose lives she touched. Her countless deeds of neighborliness and charity, will long be remembered by the people of Freetown and adjoining districts, and no more fitting tribute could be paid to her than to say "A friend in need was a friend indeed". In school and community the family were loved and respected by all and fond farewells were extended when they moved to Summerside.

Born in a Godly home two of her sisters, Sister Damien and Sister Mary Charles, also one of her own daughters, Sister Georgetown, became members of the Order of St. Joseph, St. Paul, Minn. They frequently visited her and the old home, living and displaying that peace of mind which the world cannot give, nor take away. They survive her, also one brother Peter D. Melver, Kinkora. She was a devout Catholic and a loving wife and mother, whose hospitality in her home was known far and wide.

Her largely attended funeral was held on Thursday, March 1, to St. Paul's Church for Requiem High Mass, Magr. G. J. MacLellan was the celebrant, with Rev. J.A. MacLeod as deacon and Rev. H. Croken as sub-deacon. Rev. Father Butler was present in the sanctuary. Servers of the Mass included her grandson Michael Driscoll, interment took place to St. Paul's Cemetery with Rev. J. H. LeClair officiating. Pall bearers were William Melver, Charles Melver, Hugh John Melver, Earl Duffy, Aloysius Greenan and John C. Gallant.

The many beautiful floral tributes, mass cards, spiritual offerings, Enrolments and Messages of Sympathy all bore silent tribute to the esteem in which the deceased was held and were received with thanks, by the members of the family.

New Method Used In Pollination Of Fruits

GUELPH, Ont. (CP)—A unique method of marking bees with fluorescent powder has demonstrated the value of a new procedure for cross-pollination of tree fruits.

The method was developed by the provincial agriculture department at the Ontario Agricultural College here.

The new orchard pollination techniques are adaptable to solid plantings of one variety which would not normally set fruit satisfactorily. The method consists of coating the bees at the hive exit with hand-collected pollen of the proper fruit varieties and then allowing the bees to disperse this pollen to the desired orchard in connection with their natural foraging activities.

The pollen used in these operations is collected in advance of the need and is stored at low temperatures until the orchard comes into bloom. The pollen is distributed by an insert for bee hives, which in its present form is a modification of one devised by E. A. Karmo, provincial apiarist for Nova Scotia, but which was not previously widely adopted because methods to prove its efficiency were lacking.

In order to demonstrate the value of this method the bees are marked at the hive exit with a fluorescent powder. The bees in going about their business of collecting and dispersing the pollen leave a trail of fluorescence on everything they touch. At night with the aid of an ultra-violet light the research workers are able to inspect the bloom for traces of fluorescence, thus giving positive evidence of the activity of the bees during the day.

This technique has aroused wide interest and will be used in many fruit growing areas, including California, where a special interest in the Ontario Agricultural College's development has been shown.

Last Founder Of C. L. U. Greets Regional V. P.

Mr. D. S. K. Skinner, C. L. U. the Regional Vice-President of the Life Underwriters Association of New Brunswick and Prince Edward Island paid an official visit to the local Association at the luncheon meeting held April 24, 1956 at the Charlottetown Hotel.

Mr. Skinner in his address gave an outline of what the Association does for each member, pointing out that the benefits the Life Underwriters now enjoy were earned for us by our predecessors and suggested that the progress made in the past fifty years of the Life Underwriters Association was achieved chiefly through the efforts of the fieldman.

Among those present at the luncheon meeting was J. O. Hyndman the only surviving member of the founders of the Life Underwriters Association of Canada.

NOTICE OF SCHOOL DISTRICT MEETINGS

MONDAY, APRIL 30th, 8:00 P.M.

It is important that all Farmers attend these meetings. The future of the Federation is at stake. It needs more members and better financing.

DON'T LEAVE IT TO "GEORGE"

Manitoba Flood Situation Eases

WINNIPEG (CP)—Provincial works department crews Tuesday dynamited a mammoth ice jam on the Assiniboine river which threatened destruction of the new Bate St. Paul bridge, about 30 miles west of Winnipeg.

Reeve Alex Hamelin of St. Francois Xavier said the ice was flowing freely after the dynamiting and there were no bad situations as the banks contained most of the water.

The ice was a renewal of an ice jam east of Portage la Prairie which burst at flood in Holler Bend Monday, flooding thousands of acres of farmland.

While the level of the Assiniboine river was receding all along the line as far west as Minnola, 18 miles from the Saskatchewan boundary, the ever-persistent Red river was inching upward. On Tuesday, the Red at Winnipeg stood at 20.3 feet above normal ice level.

DEPENDS ON WEATHER The river is expected to reach the 24-foot stage Friday—six inches below the tops of the city's secondary diking system. The peak, ranging from 27 to 30 feet, with a maximum of 33 feet, will reach Winnipeg May 7. The peak level in the 1950 flood was 30.3 feet.

PULPWOOD

Our Yards at Montague and Georgetown will be Open for Pulpwood when all weight restrictions are removed from the roads.

Financing Of Gas Pipeline For Canada Is Completed

OTTAWA (CP)—Canada's first major gas pipeline has completed its financing and though most of the money is being raised in the United States, permanent control over voting stock is to be kept in Canadian hands.

Westcoast Transmission Company Limited Tuesday announced it has successfully arranged to raise the \$153,430,000 capital through mortgages, debentures, bank notes and stock and Alberta

gas will start moving through the 680-mile line by 1957. Biggest single chunk, \$40,000,000, is coming from the Metropolitan Life Insurance Company which has agreed to take almost one-half the \$83,000,000 in first mortgage bonds. All told, Canadians will put up \$34,000,000 of the total \$153,000,000 with the biggest single investment, \$10,500,000 in debentures, made by the Royal Bank of Canada. Control will remain with Cana-

dians under a six-man voting trust covering 64 per cent of the common shares. Four of the six are Canadians. Westcoast will pipe its gas from Alberta's Peace river district to the B.C. border and then to the U.S. border where it will hook up to Pacific Northwest Pipeline Corporation. Initial shipment of 400,000,000 cubic feet a day may ultimately be stepped up to 660,000,000 daily.

Secretary's Report Of Holy Redeemer C.W.L. Annual Meet.

It is my privilege to give a condensed account of the activities of Holy Redeemer sub-division of the Catholic Women's League for the year ending March, 1956. During the past year, there were held ten meetings as well as two special regular meetings, eight executive meetings. Mrs. Allan MacDonald, the vice-president, presided over four of the meetings in the absence of our president, Mrs. F. J. Steele. Our Spiritual Director, the Very Reverend Gregory Murphy, C.S.R., opened and closed the meetings with prayer. Mrs. Stephen Connolly, the corresponding secretary states that twenty "Get Well" cards and fifteen cards of congratulations and five thank-you notes were mailed to members during the year and that sixty-four letters and thank-you notes were received.

The treasurer Miss Mary Duffy reports our income for the most part was derived from weekly card parties and twelve other activities. Among other outlays a substantial amount of this income was voted to purchasing and laying a carpet for the Sanctuary. Besides this major disbursement, donations were made to our Lady's Missionary Catholic Girl Scholarship Fund and Catechism prizes. Offerings for Masses for living and deceased members also flowers for the Altar at Christmas and Easter.

Mrs. Allan MacDonald, spiritual convener, states on each first Friday of the month high mass was offered for living members. On April 28th eighty of our members assisted at a mass offered in honor of our Lady of Good Council. On November 11th, mass was offered for our deceased servicemen. Twenty masses were offered for deceased members and relatives of members. The Rosary led by our spiritual Director was said on twelve occasions at the late residence. Several members spent one half hour adoration on first Fridays and during Forty Hours devotion. The Corpus Christi Procession was well attended by our subdivision.

Radio and television films convener, Mrs. Joseph Costello, has an up to date list of current pictures as found under the Legion of Decency posted in the vestibule of the church. Institution and sick visit-

YORK

Much sympathy is being expressed to Mr. and Mrs. Alfred Clow and family on the death of Mrs. Clow at the P. E. I. Hospital, Charlottetown.

Mr. Norman Brown of the Maritime Electric Company was a weekend guest at his home in York.

Mrs. Malcolm Ross and son Boyd were guests of her sister, Mrs. Howard Watts, York, recently.

Mr. Paul Sproule who was spending his holidays at the home of his parents Rev. and Mrs. J. M. Sproule, left recently. He is stationed with the R.C.A.F. at Uplands, Ottawa.

Fishing season is now open. Nice catches were reported in York. Mr. Lorne Vessey is improving but is still a patient in the P.E.I. Hospital.

Mr. Wylie Gibson, Marshfield, has returned to his home much improved in health. He was a patient in the P.E.I. Hospital, Charlottetown.

Mrs. Harold Watts was hostess to the Evening Auxiliary on Tuesday evening.

T.B. League and Cancer Fund. Teams from the sub-division have made collections for the following: Red Cross; cancer; Polio; Social Service Dispensary and St. Vincent's Orphanage. Two representatives attend ceremonies held in the Law Court where new Canadians receive their citizenship certificates also representatives attend the annual meetings of the Red Cross Society and T.B. League.

Education convener, Mrs. James Mullen attended at Health Centre for pre-school and primary school children also a meeting of retarded children. During the winter months sewing circle groups studied our Sunday bulletin. Our sincere thanks to Fr. Murphy whose inspiration was a large factor in all our undertakings.

Respectfully submitted Alice M. MacDonald Recording Secretary

Soviets Protest Yank Plan To Test H-Bomb At Eniwetok Is.

LONDON (AP)—The Soviet government Friday night protested the American plan to hold a hydrogen weapons test around Eniwetok Island May 8.

Moscow radio said the Kremlin delivered a note to Washington claiming that the tests "threaten the life and well being of the population of the trusteeship territory as well as the population of a number of states in the Pacific ocean area."

The note was delivered to the U.S. state department two days ago.

Russia has carried out large nuclear explosions of her own, presumably somewhere deep in Siberia.

Russia charged the use of the islands for tests "is a violation of international law."

Moscow noted that its position had been stated by the Soviet representative in the UN trusteeship council in February of this year.

This, Russia maintained, "is incompatible with the aims and principles of the international trusteeship system" as set forth in the United Nations charter.

The United States occupied the Marshall Islands in the Second World War and now administers them as trustee for the UN.

In connection with the forthcoming tests, U.S. authorities have staked off an area of the Pacific around the islands as a danger zone.
