

East or West—Eddy's Best—since 1851!

Why Eddy matches are so uniform—

EDDY-TORIAL

The great industries and public utilities of today are the servants employed by modern society to serve itself. Eddy's is an all-Canadian institution. It is owned by Canadians, operated by Canadians, employs only Canadian capital, and its profits are kept in Canada for the development of other Canadian industries. That it has attained national importance is proof that it has performed a needed service in an acceptable manner. Always, everywhere in Canada ask for Eddy's Matches.

Some matches are different. Eddy's are all the same. Each Eddy is a sure, safe, reliable light.

Eddy matches have to be uniform—they can't help themselves. Made from close-grained Canadian white pine, kiln dried and carefully inspected, the powerful machines turn them out more uniform than soldiers on parade.

The water power harnessed at the great Chaudiere Falls which generates the electricity from their own modern Power House also ensures an unvarying uniformity in the running of the complex and highly specialized machinery of the Eddy factory.

Each Eddy match matches its fellow. And each and every day Eddy's great army of 120,000,000 matches advances into the multitudinous duties of another Canadian working day, each performing its functions of thrift, convenience, reliability.

Eddy matches light your way to happiness and comfort. This service Eddy's have been performing for over 70 years—matchlessly. Every Eddy will serve you as faithfully.

EDDY'S MATCHES THE E.B. EDDY CO. LIMITED Canada

Millions For Militia Services

OTTAWA, May 3.—Comparative statements showing the total expenditures for militia services

since 1880 down until the year ending March 31, 1922 were tabled in the Commons this afternoon in answer to questions on the Order Paper by T. L. Church, Conservative, Toronto North, and J. E. Provost, Liberal, Terre Bonne.

1889-1890 militia cost \$1,334,426.09. In 1896-1897 the cost was \$2,478,179. In 1906-1906 this increased to \$5,664,192. In 1910-1911 it had climbed to \$7,967,723, and in 1912-1913, the last of the pre-war years, the cost was \$10,342,759. In 1918-1919, the first post-war year the cost was \$3,649,330, but in 1920-1921 this had risen to \$10,163,887. For the year ending March 31 last the cost was \$10,796,245. Civil Government expenditures of the Department of Militia are included in these amounts.

Annual drill expenditures in the different provinces for the year 1920-1921 were as follows: Ontario \$255,392.49; Quebec, \$85,582.72; Nova Scotia \$13,426.23; New Brunswick \$20,302.44; Prince Edward Island \$1,339.65; Manitoba \$21,645.10; Saskatchewan \$17,744.16; Alberta \$35,563.40; British Columbia, \$23,058.26; General \$26,982.68.

CLEVELAND, May 3.—A woman who County Prosecutor Edward G. Stanton said was suspected of committing a series of murders in order to collect \$11,000 in insurance, was being held in jail tonight. The woman is known to have been married five times, he said, and was declared to have acquired a sixth husband recently. She divorced her first two husbands, while three others died under mysterious circumstances, Stanton added. Two children by the woman's first husband died of poison some years ago, Stanton said. The explanation at that time was that they had accidentally eaten poison tablets.

She married her first four husbands in Pittsburgh, where the divorces were granted, Stanton said. The third and fourth husbands as well as the two children died there. The third husband was insured for \$1,000 and the fourth for \$5,000. Seven months after the death of the latter the woman married an ex-soldier in Pittsburgh and came to Cleveland. He is said to have been insured for \$5,000, three months before his sudden death. No physician was called, Stanton said, the woman claiming the man had been suffering as a result of being gassed overseas.

THE WESTERN GUARDIAN

SHOP from Holman's Catalog. —WANTED—Man to work on farm. Apply H. R. Moase, Kensington.

—THE COUNTRY MINISTER will be staged in Traveller's Rest Hall by North Bedoune talent. Friday evening, May 5th. Admission 20 and 35 cts.

To Discipline Peppery Admirals

LONDON, May 3.—A novel Order-in-Council issued today by the Admiralty may retire officers "judged unfit for service by reason of their peculiarity of temper not caused by intemperate or irregular habits." This means that peppery admirals may be fired if they curse officers and men from the quarterdeck.

GLASS EYE EXPLODES

LETHBRIDGE, Alta., May 2.—Something new in explosions is reported in a despatch from Warner, near here, which states that Ronald Polson, a school teacher and the wearer of a glass eye for many years as the result of an accident, was knocked down when the eye exploded. An air hole or flaw in the pupil of the eye is advanced as the cause of the explosion, and the theory given is that a piece of glass struck the optic or some other nerve, the shock causing Mr. Polson to fall.

BEDFORD, Que., May 3.—While fishing on the river, near Hunter's Mills, Mr. M. N. Loisele discovered the body of a new born child. Investigation proved that the child was alive when thrown into the water. The case has been placed in the hands of the provincial police for investigation.

Alaska's Tough Rog Has Heroic Scions

BERKELEY, May 2.—Baldy of Nome, once the "toughest dog in all the Northland," has died in an animal hospital here. He was buried under a rose bush, far from the long Alaska snow trails which he "hounded" his way to fame.

Driven by "Scotty" Allan, Baldy was lead dog in the noted racing team owned by Mrs. C. E. Darling, which won six of the All-Alaska Sweepstake races across the Seward Peninsula from Nome to Canada and back, 418 miles in all. His last sweepstake was run in 1917. Then Allan brought him to Berkeley, where he settled. "He was a crossbreed dog," said Allan. "His mother was a malamute; the rest of him was 'outside dog,' shepherd and hound."

During the war several Alaska dogs sired by Baldy were shipped to Europe by the French Government to serve in the Alps, and some won the Croix de Guerre.

Acids In Stomach Make Food Sour

CAUSE INDIGESTION

"Experience has taught me that most people who complain of stomach trouble and indigestion possess stomachs that are perfectly healthy and normal," says a well-known authority. The real trouble, which causes all the sourness, gas and pain, is excessive acid in the stomach. This acid irritates the delicate stomach lining, sours and ferments the food before the point of digestion is reached. Artificial digestants are not needed in such cases. They give only temporary relief, do not correct the cause and often do great harm. A better plan, if you suffer after eating, is to drink a glass of hot Magnein water made from a teaspoonful or four tablets of pure Bisurated Magnesia which can be obtained from any reliable druggist. This instantly neutralizes the acid, sweetens the stomach and your meal digests naturally without pain. Try this for a few weeks and see if your stomach does not feel one hundred per cent. better.

Blue Bird Tea advertisement featuring a bird logo and text: '2,000 Flavors The Blue Bird Tea taster knows 2,000 separate tea flavors. But he drinks Blue Bird Tea—because he knows it's best. Blue Bird Tea Brings Happiness.'

—THE STANDARD BRED STALION, Badgely will be offered for sale at the public auction of Harry Dunning, Clifton on Thursday, May 4th next.

Prince of Wales' Residence

LONDON, May 2.—The news that the Prince of Wales will probably take up his residence at Marlborough House when he returns from his present tour, will hardly come with surprise to the British public. It has long been recognized that when the heir to the throne settled down to the performance of those many state duties which fall to him as the King's oldest son, he would require his own separate home. Since he came of age he has resided in that wing of St. James' Palace where his father and mother lived for many years and where he himself spent much of his childhood. But it was recognized that this was only a temporary abode, suitable for the occasion, since the war and his tours to Canada and Australia have kept him away from London practically the whole of the time since he attained his twenty-first birthday. Now that he is to "settle down" it is recognized that something more in the nature of a permanent establishment must be provided.

Despite its comparatively unpretentious exterior Marlborough House is one of the most perfect mansions in the kingdom. The edifice is more than two hundred years old. It was built for the great Duke of Marlborough and did not become the property of the Crown until 1817, when it was given to Princess Charlotte, the only child of George IV. The Princess, who died in childbirth at Calremont that year, never lived there. It was occupied for several years by her widower, Prince Leopold, before he became the first king of the Belgians. (1) the death of William IV, the Dowager Queen Adelaide used Marlborough House as her residence. In 1850 the mansion was settled on the Prince of Wales (later Edward VII), and he made it his residence for thirty-eight years. Since his death Queen Alexandra has resided at Marlborough House, but under the new order of things, it is understood the Queen Mother will take up her residence at Sandringham, the Norfolk estate where as Princess of Wales she passed many of her happiest days. Marlborough House was largely remodelled in 1870 and other additions to the mansion were made in 1875. The finest apartment is the salon—formerly the old entrance hall, which is some forty feet long by thirty wide and two stories in height. On the upper part of the walls, on three sides are Laguerre's great pictures of the famous Duke of Marlborough. Rich tapestry drapes the lower part of the hall, scenes from Don Quixote being depicted, while the

ATTRACTIVE SPRING SUITS

A Wonderful Selection Including Tweeds and Homespun in New Sport Styles

Tricotine—Fine imported quality in short box coats with narrow belts, trimmed with hand embroidery or Military Braid. Extra length. Jacket in long line tailored effect. Navy Blue, Sand and Black.

DRESS HATS AND STREET HATS THAT SHOW THE LATEST TURNS IN MILLINERY STYLES

Plenty of large graceful hats with flowers, hats with glycerined effects, tailored hats with smart ribbons, some brim laden with flowers and others with graceful streamers. See our display.

PROWSE BROS LTD.

132 Years Old; Still Earns His Living RUBEN ROSAS, a negro who is reputed to have been born 132 years ago in the African Congo, is still earning a living in Buenos Aires as a medicine man and ticket seller. He was not too old to put up a fight when three men held him up and robbed him a few days ago, but told a reporter he would have made a better showing if he had not "taken a drop too much." Antonio does not yet believe in prohibition. Antonio claims to have been captured in the Congo when a child by French slave traders. The French ship on which he and other negroes were placed was pursued and captured by an English vessel and taken to Madeira. He was brought to Argentina at the age of eight. He saw the birth of the Argentine nation in 1810 and slavery abolished in 1813. In later years he adopted the surname of Rosas after the famous Argentine, tyrant Rosas, of whom he was an admirer. He is one of the few negroes living in Buenos Aires.
