

"Our own Reporter" has laid upon the table the following note:—"Sir:—I observe that you have notified the anxious public to expect from me some notes regarding the working of the Normal School under 'Professor' Webster, and also some account of the manner in which that institution was merged for four days into the Prince of Wales College. I herewith hand you the first instalment of my notes, which will be followed by others as I have concluded some important enquiries in which I am engaged. I am, Sir, YOUR OWN REPORTER."

On looking over the "Notes," which are rather voluminous, but deeply interesting, we fear that it would be impossible to condense them, doing justice to the laborious compiler, in time for this issue. Our readers may readily appreciate our fear when we assure them, that the "Notes" describe the system of Education taught in the Normal School, embracing all the arts and sciences known from the creation of the world to the present time, with a brief notice of "Professor" Webster's transcendent capabilities for the situation in which he is employed; and a detailed account of the gifts and presents he has received from his admiring students, viz: Editions of Shakespeare, Copies of the Bible, Silver-headed Canes, and a variety of other things. We must caution our readers not to expect that the notes of Our Own Reporter shall be published in detail. They are, we do not doubt, by themselves interesting, but we have not space for them; and we must be allowed to use our own judgment as regards the selection of facts which we shall make from the "Notes" before us.

We desire to direct the attention of our readers to the advertisement of Mr. John Cairns, Stone Cutter, which will be found in our columns. We believe that Mr. Cairns is the first person who adopted in this place, as a regular business, the art of stone cutting for grave yards, and from his small and unpretending beginnings, which we can well remember, we are confident that in this country he now stands unrivalled in his art. His work is executed in a neat and artistic manner, and is finished; and his stock of material, which is always abundant, is of the very best description to be found in America. Mr. Cairns is an admirable copyist, and can engrave characters in the dead language—as a good grave-stone-cutter should do—with facility and accuracy. We do not wish any of our friends to die, but when they feel inclined that way, we commend them to leave an injunction in their wills that Cairns shall be the engraver of their head-stones or monuments.

AGRICULTURAL WEALTH OF THE GREAT WEST.—An intelligent correspondent at Watertown, Wisconsin, formerly a highly respected resident of this Island, writes us respecting the vast shipments of Grain at the Great West as follows:—"120 car loads of wheat, of 300 bushels each, passed over the Railroad to Milwaukee this morning, and similar transits have occurred for the last two weeks, and will continue for several weeks to come. The grain was purchased here, at Columbus, San Prairie, Waterloo, and Hunchville—a distance of twenty-six miles on two branches of this road. Several thousand bushels are purchased here daily for Green Bay, by one man. We are 45 miles from Milwaukee, and how much more goes over the road between here and there, you may imagine. The wheat crop was unusually good this year in Wisconsin, and prices are ranging from 90 to 100 cents. The average yield will be about 25 bushels per acre; Oats and Barley fully as good."

Gas Light.—We were not sorry to witness the return of Gas light to our streets during the past week. The nights are getting long, and the weather will soon be getting very wet and dirty, when the gas light will befriend us greatly in our efforts to avoid the puddles and the dangerous side-walks. The street lamps have been put in good condition: and we hope, for the sake of the Gas Company and for the credit of the Town, they will be kept so, and that a good article of gas will be always supplied. A good light thus furnished at a cheap rate will restore the fair reputation of the Gas Company—will silence unreasonable clamour, and vastly enhance the value of stock in the institution.

Since writing the above paragraph, Mr. Murphy, the Superintendent, informs us that the Gas, which is not so good as the Company with it to be, will be of a very superior quality in the course of the winter, as a supply of superior Scotch Canal Gas has been ordered for the purpose, and may be expected here in a few days.

MELANCHOLY ACCIDENT.—We regret to learn that John C. Wright, Esquire, of Elliot River, accidentally shot himself through the heart on Wednesday morning last, and died instantly. We learn that he arose in the morning, and caused the intention of going shooting, and while in the act of taking down his gun—it being hung up loaded and cocked—which he took by the muzzle, and it is supposed that the cock came in contact with the muzzle on which it was hung, and caused it to discharge, lodging the contents in his heart. This is but another awful warning to persons who are in the habit of handling loaded guns in a careless manner.—R. G.

An Inquest has since been held on the body, by John McNeill, Esq., one of the Coroners for this County, and the verdict, we understand, was "accidental death from the discharge of a loaded gun." It was stated on the Inquest, that the unfortunate deceased had his gun in the kitchen, and was doing something with it when his wife and servant man passed through, but what caused the gun to discharge could not be satisfactorily accounted for—whether he struck the cock against the muzzle, or whether he was negligent in not appearing. The deceased was an industrious man, much respected by all his neighbors. He leaves a widow, but no children.—H.

In discharging the painful duty of recording the above accident, we have a melancholy satisfaction in giving our testimony to the sterling worth of the deceased. He had been long and favorably known to us by repute, but we had the pleasure of making his acquaintance personally a few weeks ago, when he was in the full vigor of health, and apparently not far beyond the bloom of manhood. We readily recognized those excellent traits of character—the generous, hospitable, open-hearted disposition, the candour, manliness, intelligence, combined with cultivated tastes, which made him a favorite wherever he was known. The life and soul of social parties, and the recollection of which adds to the pain which his friends feel at his sudden and premature demise. Most sincerely do we sympathize with the sorrowing survivors who knew him best, and knew how to appreciate him. We cannot measure the sorrow which they must feel over the loss of such a man.—EDITOR OF EXAMINER.

ANOTHER INQUEST.—An Inquest was held in the Court House, in this City, on the 1st inst., before Coroner McNeill, on view of the body of JAMES CAMPBELL, who was found lying in a gutter in this City, who was found lying with his face in a gutter the night previous, dead. It appears the deceased had been drinking very freely, and had called at the house of a man named McKeon, a licensed retailer, and he procured more liquor, and when he left, was warned by McDougal to take care of himself. He strayed but a few steps when he fell into a gutter immediately in the rear of the house of McKeon, and he was found in the gutter, and he was taken up, and he was found intoxicated to extricate himself, and smothered. When found he was quite dead, and his mouth full of mud.—H.

MR. RICHARD RAMSAY, of Princetown, who was injured by falling from the roof of Dr. Keir's house, (a short account of which appeared in a former number of our paper) we are sorry to say, has died. He was a man of a most interesting character. He was 26 years of age.—R. Weekly.

During the bombardment of Port Hudson, three Confederate soldiers were killed by a shell from a mortar boat. A few days afterwards another shell from the mortar boats penetrated their lines and exploded among their coffins. They literally found no rest, not even in the grave.

THE CIVIL WAR IN THE STATES. By Telegraph to the Examiner and Reading Room. BANGOR, Sept. 29. Reported that a portion of Burnside's force was on an expedition to the south Western Virginia, from which important results are expected. Burnside was at Knoxville on Thursday—no signs of Confederate movements. Reported that Hooker has been appointed to succeed Burnside, and accepted. Reported that 15,000 men reinforced Rosecrans up to Saturday. Herald's despatch says that rumors were afloat last evening that Union forces in Tennessee were about to be defeated with serious disaster, but nothing definite ascertained from that department. Another rumor's bread riot occurred at Mobile. Position of the army of the Potomac unchanged. Supposed Confederates concentrating a force at Mount Jackson for a raid through Shenandoah Valley. Flour 10 to 15 cents higher. Gold 143.

BANGOR, Sept. 30, p. m. All quiet in front of Army of Potomac. News from Richmond hopeful. Editorials in Richmond papers hopeful, but urge most strenuous exertions to redeem Chattanooga and repeal executive orders. Mr. May's views considered. U. S. Steamer Connecticut reported on the 23rd to have driven on shore and destroyed the Confederate Steamer "Phantom," loaded with arms, &c., including a large quantity of small arms, and a variety of other things. We must caution our readers not to expect that the notes of Our Own Reporter shall be published in detail. They are, we do not doubt, by themselves interesting, but we have not space for them; and we must be allowed to use our own judgment as regards the selection of facts which we shall make from the "Notes" before us.

BANGOR, Oct. 1. Richmond Examiner says, Howard & Stoen's corps from the army of the Potomac, have gone to Rosecrans, also that sixteen thousand from Grant's army also there. Government has received most satisfactory despatches from Rosecrans. New Orleans Era says, Federals met with reverses in Louisiana. Rumored Gen. Wetzler has been defeated and killed by Gen. Dick Taylor. Atlanta despatch reports Gen. Wheeler with his cavalry across the Tennessee. Richmond Examiner says, Federals evidently maintain their position on the 23rd. Gen. Sherman's army, consisting of Cavalry, Frankland and Air Light Squads, Dining and other Tables, Chairs, Lounges, Settees, Carpets, Oil Cloth, Knives and Forks, Glass and China Ware, Iron Stoves, Hair and Excelsior Mattresses, Blankets, Sheets, Pictures, Dressing Gases, Wardrobes, Curtains and Blinds, Washstands and Ware, &c.—ALSO.—A Single WAGON nearly new, Jamming SLEIGH, With sundry other articles. WM. DODD, Auctioneer. Charlottesville, October 3, 1863.

ASSIGNEE'S SALE! TO be sold by AUCTION, on MONDAY NEXT, 12th INSTANT, at the Store of the late ALFRED PHILLIPS, Esq., Great George street, at 11 o'clock, at the residence of JAMES M. McCORMACK, Esq., consisting of Cooking, Frankland and Air Light Squads, Dining and other Tables, Chairs, Lounges, Settees, Carpets, Oil Cloth, Knives and Forks, Glass and China Ware, Iron Stoves, Hair and Excelsior Mattresses, Blankets, Sheets, Pictures, Dressing Gases, Wardrobes, Curtains and Blinds, Washstands and Ware, &c.—ALSO.—A Single WAGON nearly new, Jamming SLEIGH, With sundry other articles. WM. DODD, Auctioneer. Charlottesville, October 3, 1863.

The balance of our Stock to arrive by "Uranus" from London, and by "Liverpool" from Liverpool, is now on hand. DELANY & WILSON, Refreshment House, Thomas's Old Stand, Great George street, Oct. 3, 1863.

ARRIVAL OF DR. L. LA MERT, IN CHARLOTTETOWN, P. E. I. TO THE NERVOUS AND DEBILITATED.—DR. L. LA MERT, of 37 Bedford Square London, Member of the Royal College of Surgeons in England, and of the Royal College of Physicians of Edinburgh; M. D. of the University of Erlangen, &c., begs to inform his Patients, and other seeking confidential Medical Advice, that he has arrived in CHARLOTTETOWN, P. E. I., on the 22nd inst. He is a highly qualified Practitioner, and has been consulted on all cases of Nervous and Physical Debility, and on the various Disorders resulting from Sedentary Habits, Excess, Accident, or Climate. Daily from 10 to 12 o'clock, or on Sundays, at the 22nd of this inst., at Mrs. DODGANS', Water Street, near the "Islander" Office, when his visits will positively terminate. Where a secret infirmity exists, involving the happiness of a life, and that of others, reason and morals of the necessity of its removal, for it is a fact that premature decline of the vigour of manhood, matrimonial unhappiness, compulsory single life, and physical debility, &c., have their source in cause, the germ of which is laid in early life, and the bitter fruit tasted long afterwards. The numerous cases effected by Dr. LaMert, during his previous sojourn in the Lower Province, some in cases which had been pronounced hopeless, and in many instances, to the probability of which the Professional Visit to Prince Edward Island, and it is in consequence of those inquiries that the above announcement is made. The great experience derived by DR. L. LA MERT, both in his private and professional life, and in the various Hospitals of Continental Europe, affords an ample guarantee, to those seeking advice, of being under the care of a highly qualified Practitioner. For further particulars apply to the "MEDICAL REGISTER," published under the Authority of the MEDICAL COUNCIL OF GREAT BRITAIN, and is, consequently, not to be classed with the numerous many cases assumed—of a kind of advertisement, who, through the public press seek to impose upon the credulous and unwary, by the publication of pretended qualifications and the advocacy of specific remedies, which are never beneficial, and in most cases positively injurious. DR. LA MERT'S Work on "Self Preservation," with Engravings and Cases, written by Dr. L. LaMert, Member of the Royal College of Surgeons of England, &c., describes how all the ailments of the human system may be cured, if they can be re-invigorated and restored to an advanced period of life, and is intended to enlighten thousands on important subjects, in regard to which they are entirely ignorant. The Work may be had of Messrs. LOCKE & KINGDOM, in Free by post for 50 cents, of Mr. J. M. "Islander Office," or from Dr. LaMert, at Mrs. Douglas', Water St., near the above office, until the 22nd of October, 1863. CHARLOTTETOWN, October 5, 1863.

OATS. OATS. OATS. ALL persons indebted to the Subscriber by note of hand or book account, are requested to pay the same before the 15th of November, as legal proceedings will be taken without further notice to recover any amount remaining unpaid after that date. MORIN LUDWEN. Peake's Buildings, Charlottesville, Oct. 5, 1863.

The street lamps have been put in good condition: and we hope, for the sake of the Gas Company and for the credit of the Town, they will be kept so, and that a good article of gas will be always supplied. A good light thus furnished at a cheap rate will restore the fair reputation of the Gas Company—will silence unreasonable clamour, and vastly enhance the value of stock in the institution.

Since writing the above paragraph, Mr. Murphy, the Superintendent, informs us that the Gas, which is not so good as the Company with it to be, will be of a very superior quality in the course of the winter, as a supply of superior Scotch Canal Gas has been ordered for the purpose, and may be expected here in a few days.

MELANCHOLY ACCIDENT.—We regret to learn that John C. Wright, Esquire, of Elliot River, accidentally shot himself through the heart on Wednesday morning last, and died instantly. We learn that he arose in the morning, and caused the intention of going shooting, and while in the act of taking down his gun—it being hung up loaded and cocked—which he took by the muzzle, and it is supposed that the cock came in contact with the muzzle on which it was hung, and caused it to discharge, lodging the contents in his heart. This is but another awful warning to persons who are in the habit of handling loaded guns in a careless manner.—R. G.

An Inquest has since been held on the body, by John McNeill, Esq., one of the Coroners for this County, and the verdict, we understand, was "accidental death from the discharge of a loaded gun." It was stated on the Inquest, that the unfortunate deceased had his gun in the kitchen, and was doing something with it when his wife and servant man passed through, but what caused the gun to discharge could not be satisfactorily accounted for—whether he struck the cock against the muzzle, or whether he was negligent in not appearing. The deceased was an industrious man, much respected by all his neighbors. He leaves a widow, but no children.—H.

In discharging the painful duty of recording the above accident, we have a melancholy satisfaction in giving our testimony to the sterling worth of the deceased. He had been long and favorably known to us by repute, but we had the pleasure of making his acquaintance personally a few weeks ago, when he was in the full vigor of health, and apparently not far beyond the bloom of manhood. We readily recognized those excellent traits of character—the generous, hospitable, open-hearted disposition, the candour, manliness, intelligence, combined with cultivated tastes, which made him a favorite wherever he was known. The life and soul of social parties, and the recollection of which adds to the pain which his friends feel at his sudden and premature demise. Most sincerely do we sympathize with the sorrowing survivors who knew him best, and knew how to appreciate him. We cannot measure the sorrow which they must feel over the loss of such a man.—EDITOR OF EXAMINER.

ANOTHER INQUEST.—An Inquest was held in the Court House, in this City, on the 1st inst., before Coroner McNeill, on view of the body of JAMES CAMPBELL, who was found lying in a gutter in this City, who was found lying with his face in a gutter the night previous, dead. It appears the deceased had been drinking very freely, and had called at the house of a man named McKeon, a licensed retailer, and he procured more liquor, and when he left, was warned by McDougal to take care of himself. He strayed but a few steps when he fell into a gutter immediately in the rear of the house of McKeon, and he was found in the gutter, and he was taken up, and he was found intoxicated to extricate himself, and smothered. When found he was quite dead, and his mouth full of mud.—H.

MR. RICHARD RAMSAY, of Princetown, who was injured by falling from the roof of Dr. Keir's house, (a short account of which appeared in a former number of our paper) we are sorry to say, has died. He was a man of a most interesting character. He was 26 years of age.—R. Weekly.

During the bombardment of Port Hudson, three Confederate soldiers were killed by a shell from a mortar boat. A few days afterwards another shell from the mortar boats penetrated their lines and exploded among their coffins. They literally found no rest, not even in the grave.

THE CIVIL WAR IN THE STATES. By Telegraph to the Examiner and Reading Room. BANGOR, Sept. 29. Reported that a portion of Burnside's force was on an expedition to the south Western Virginia, from which important results are expected. Burnside was at Knoxville on Thursday—no signs of Confederate movements. Reported that Hooker has been appointed to succeed Burnside, and accepted. Reported that 15,000 men reinforced Rosecrans up to Saturday. Herald's despatch says that rumors were afloat last evening that Union forces in Tennessee were about to be defeated with serious disaster, but nothing definite ascertained from that department. Another rumor's bread riot occurred at Mobile. Position of the army of the Potomac unchanged. Supposed Confederates concentrating a force at Mount Jackson for a raid through Shenandoah Valley. Flour 10 to 15 cents higher. Gold 143.

BANGOR, Sept. 30, p. m. All quiet in front of Army of Potomac. News from Richmond hopeful. Editorials in Richmond papers hopeful, but urge most strenuous exertions to redeem Chattanooga and repeal executive orders. Mr. May's views considered. U. S. Steamer Connecticut reported on the 23rd to have driven on shore and destroyed the Confederate Steamer "Phantom," loaded with arms, &c., including a large quantity of small arms, and a variety of other things. We must caution our readers not to expect that the notes of Our Own Reporter shall be published in detail. They are, we do not doubt, by themselves interesting, but we have not space for them; and we must be allowed to use our own judgment as regards the selection of facts which we shall make from the "Notes" before us.

BANGOR, Oct. 1. Richmond Examiner says, Howard & Stoen's corps from the army of the Potomac, have gone to Rosecrans, also that sixteen thousand from Grant's army also there. Government has received most satisfactory despatches from Rosecrans. New Orleans Era says, Federals met with reverses in Louisiana. Rumored Gen. Wetzler has been defeated and killed by Gen. Dick Taylor. Atlanta despatch reports Gen. Wheeler with his cavalry across the Tennessee. Richmond Examiner says, Federals evidently maintain their position on the 23rd. Gen. Sherman's army, consisting of Cavalry, Frankland and Air Light Squads, Dining and other Tables, Chairs, Lounges, Settees, Carpets, Oil Cloth, Knives and Forks, Glass and China Ware, Iron Stoves, Hair and Excelsior Mattresses, Blankets, Sheets, Pictures, Dressing Gases, Wardrobes, Curtains and Blinds, Washstands and Ware, &c.—ALSO.—A Single WAGON nearly new, Jamming SLEIGH, With sundry other articles. WM. DODD, Auctioneer. Charlottesville, October 3, 1863.

ARRIVAL OF DR. L. LA MERT, IN CHARLOTTETOWN, P. E. I. TO THE NERVOUS AND DEBILITATED.—DR. L. LA MERT, of 37 Bedford Square London, Member of the Royal College of Surgeons in England, and of the Royal College of Physicians of Edinburgh; M. D. of the University of Erlangen, &c., begs to inform his Patients, and other seeking confidential Medical Advice, that he has arrived in CHARLOTTETOWN, P. E. I., on the 22nd inst. He is a highly qualified Practitioner, and has been consulted on all cases of Nervous and Physical Debility, and on the various Disorders resulting from Sedentary Habits, Excess, Accident, or Climate. Daily from 10 to 12 o'clock, or on Sundays, at the 22nd of this inst., at Mrs. DODGANS', Water Street, near the "Islander" Office, when his visits will positively terminate. Where a secret infirmity exists, involving the happiness of a life, and that of others, reason and morals of the necessity of its removal, for it is a fact that premature decline of the vigour of manhood, matrimonial unhappiness, compulsory single life, and physical debility, &c., have their source in cause, the germ of which is laid in early life, and the bitter fruit tasted long afterwards. The numerous cases effected by Dr. LaMert, during his previous sojourn in the Lower Province, some in cases which had been pronounced hopeless, and in many instances, to the probability of which the Professional Visit to Prince Edward Island, and
