New High School Community College Making Strong Appeal In Summerside

The social era of the quilting party, streamlined to suit the modern taste, is being brought back to Prince Edward Island by Summerside High School's Community College. You can learn to speak in public with greater force and facility of expression, you can become proficient in leatherworking, glove making and woodworking, you can solve the mysteries of accounting, typing and shorthand, you can foster a secret ambition to become the Barrymore of the amateur stage, and, most important of all, perhaps, you can meet new people and make new friends. Even if you are one of those people who find learning of any kind distasteful, the friendly linger of Summerside High School's Community College still beckons to you. You can go there, play badminton in the large auditorium, and bask in the friendly atmosphere which the College encourages.

Classes are conducted with the same spirit of camaraderie as existed at the quilting parties and hooking frolics of the yesteryear. In one of the recent glove-making classes one of the students passed around a box of home-made candy so the embryonic makers of gloves might munch while they mastered the "tricks of the trade." (Perhaps education in the day school would be digested more readily if taken with a piece of home-made candy.) Unfortunately the spirit of sociability must be carefully rationed in a class of modern boys and girls. A let-down of authority can result quickly in revelry eclipsing anything ever promoted by the god Bacchus. After all, no beverage has ever been concocted that can claim to be anything but a poor substitute for "the red sweet wine of youth."

If a member of the woodworking class wishes for tools to repair a piece of furniture, instead of making a bungling job with the tools at hand, he can take it to the woodworking shop in Summerside High where there are at his command the table saw, the jig, the lathe, an array of other sharp tools, and expert advice. By doing it himself instead of hiring a skilled tradesman he saves only a paltry sum, perhaps, but there is a pride of accomplishment, a joy in creating that is worth much more than the money saved. This is the incentive that attracts people to hobbycrafts. Extensive use of wire recordings is made in the public course. These are played back for criticism, self criticism, so that "we may hear ourselves as others hear us." Each public speaking course, six weeks long, carries a debate with it. The present one features the resolution: "That Canada should increase her population, by more desirable immigrants."

In dramatics a "Little Theatre" has been formed. Play selection and casting are under way for the first

United Church paper for the Maritime Conference in its last issue mentioned "the exceptional service" of Mr. Matheson who has guided the destinies of the O'Leary Sunday School for over half a century. Members of the teaching staff besides Mr. and Mrs. Matheson include: Mrs. Lewis Bernard, Mrs. Therin Ellis Miss Olive Jelly and Miss Eva J. MacLehann. Also as teachers for the primary department and as substitute teachers are: Mrs. John Matthews and Mrs. Herbert Vatcher.

Mrs. Milton Smallman had the misfortune to fall in her home in O'Leary and is now confined to her bed. Her legion of friends wish her a speedy improvement in health. Mrs. Dan MacNevin, O'Leary is confined to her bed for some time and her many friends wish her a speedy convalescence.

The O'Leary Legion last Friday in a public meeting backed the Dominion Command of the Legion which is endeavoring to get the following three point program instituted in Canada: (1) National Registration (2) Industrial mobilization of resources (3) Compulsory service in the Reserve Army. A telegram was sent to Mr. Watson MacNaught M.P. and the following reply has been received by the O'Leary Legion: "This will acknowledge receipt of your day letter of 27th inst. in which you state at a recent meeting of your branch of the Canadian Legion, certain resolutions were passed concerning the present interim situation and state of preparedness in Canada. I was most pleased to get this resolution and you may rest assured that the representations therein contained will be given proper consideration."

Friends of Mrs. William Newcombe are pleased to hear that she is most improved in health. Mrs. Newcombe has been a patient in the Prince County Hospital for the past several weeks.

The many friends of Mrs. Horace McArthur will regret to learn that she is a patient in the Prince County Hospital. All join in wishing her a speedy recovery.

presentation, Community College has become such a centre of interest in Summerside that it has now been invaded by the army. Courses are held there for officer training groups under their responsible officers. There is a demand for instruction in shop mathematics, especially for those in the building and mechanical trades. Currently a class is being formed and its first meeting was held last Monday evening. Should a large enough attendance warrant the continuance of this class, then it will go, and some people interested in the building or mechanical trades and having the necessary qualifications will find themselves deans of education in the field of mathematics.

It is interesting to note that even the town's Civil Defence Department has become interested in Community College. There will be a class in First Aid sponsored by the Summerside branch of the Canadian Legion because of the urgency of people's having this skill in defence planning. Mr. Ralph Emery is to be the instructor.

An advisory committee has been formed from each of the sponsoring groups headed by Mr. James Murphy, the registrar of Community College.

If you are a president or a secretary of some organization watch out. It may be your turn to head up a new College department. Even if you are just a man on the street, you are not too safe. If you have marked ability along a certain line, you may be whisked off to become a professor at Community College.

Walter Shaw Addresses Kensington Men's Assoc'n

The regular monthly supper meeting of the Men's Association of Kensington United Church met in the Assembly Hall of the church on Monday evening, Jan. 29 at 7:00 p.m.

Meeting came to order with several introductory remarks by the president, Mr. Robert Carruthers, after which members and visitors sat down to a very enjoyable supper, which was catered to by the ladies of the Young Adult Group of the church.

At the conclusion of the supper, the above mentioned ladies were ushered in and in a few brief remarks were thanked for their gesture.

Mrs. Robert Carruthers replied on behalf of the ladies in her usual capable manner. This was followed by a very hearty sing-song led by Mr. W. Taylor after which Mr. Harold Laird was called upon to introduce the guest speaker, Mr. Walter Shaw.

Mr. Shaw's topic consisted of his recent trip overseas including Europe and the Old Country, relating in a very interesting style the progress these countries have made in recent years, especially, with regard to agricultural methods.

when he knows he shouldn't do it isn't the type who will make a good wife. She will be unreasonable and selfish and you should thank your lucky stars if she does go off and marry somebody else.

DEAR MISS DIX: How can we cultivate a feeling of love, appreciation and respect for our parents who have never taught us these things? They are good to us. We have almost everything we want and do as we please, but we seem to have no feeling for them. Is it our fault that we are this way?

ANSWER: No. Your parents are to blame. You are as they have made you. All children have to be taught the amenities of life. The love of a child for its parents must begin in the cradle, but surely you can cultivate an affection for your father and mother by remembering their kindness to you, and you can show some appreciation of the generosity that has followed you all of your life.

DOROTHY DIX cannot personally reply to readers, but will answer letters of general interest through her column.
