Good Response To S'side Athletic Association Drive

Summerside citizens supported magnificently the drive on Monday evening put on by the mem-bers of the Summerside Amateur Athletic Association by donating the sum of \$2,715.56 and with a few special names yet to be heard from it is anticipated that when the drive is complete the proceeds will exceed \$2,800.00.

Over one hundred workers took part in the one-night canvass for funds which will be used to provide equipment for the new playground. The drive was under the chairmanship of Mr. James Hogan, of the Prince County Physical Fitness Department. Mr. Hogan said last night that the result was most gratifying and the sincere thanks of the Summerside Athletic Association is due to those workers who performed their task so efficiently, to the public who donated so generously and to the press for the support given previous to the drive.

Mr. Hogan said also that work on the playground is proceeding according to schedule and that it is hoped that the senior baseball diamond will be in readiness by the first of next week. He hoped that all other portions of the playground would be in readiness the summer of next year.

It is expected that the president of the Association, Mr. D. O. Stewart, will hold a general meeting shortly of the playground chair-men and funds will be apportioned to the respective committees to carry on their work.—S.

Retail Merchants Committee Meets

A meeting of the Retail Mer-chants Committee of the Sum-mer-side Board of Trade was held last evening in the Town Hall. On motion it was unanimously agreed to that the King's birthday, June 4th, be observed as a store holi-day and at the request of R.C.A.F. Station, Summerside, the merchants will be requested to close from 1.00 to 5.00 P.M. in ob-servance of Air Force Day on June 9th.

The meeting decided to request the Mayor to proclaim the holi-days as above and it was addition-ally decided that Wednesday af-ternoon, June 6th, would be ob-served as a regular half-holiday.

A motion was passed that the chairman write the R.C.A.F. Sta-tion informing them of the ex-istence of this committee and asking that in future all requests for holidays be forwarded to this committee in plenty of time for consideration to be given.

A motion was also passed that the secretary of the Board of Trade be asked to circulate all merchants in the Town asking the different trades to pick their representatives to act on the Re-tail Merchants' Committee, sub-ject to the approval of the board. The trades are to include barbers, druggists, jewellers, garages and service stations as well as neigh-borhood grocers.—S.

GOV'T URGED

Continued from page 1

Mr. Drew suggested there were other ways to obtain revenue. He believed it would be a good thing if comics, sex magazines and love magazines were taxed heavily to furnish the money needed to "distribute real news-papers."

Parliament should not try to tell the Canadian people what they should read, but post office rates should be in inverse ratio to the usefulness of a publica-tion.

Recognized For Centuries

The distribution of news, said Mr. Drew, has been recognized for centuries as one of the vital factors of the process of demo-cracy.

"Freedom of the press is rela-tively ineffective unless there is freedom of distribution," he said. Mr. Drew gave some examples of the effect the new rates will have on newspapers with a circulation of 10,000 or more, averaging 45 pages each publishing day, now pays a postal rate of \$3 a year on each copy. Under the new rate it will pay \$7.54. A paper with a 24-page average now pays \$1.56 and will pay \$4.19.

A newspaper with a circula-tion of under 10,000, averaging 12 pages each publishing day, now pays 93 cents and will pay \$1.54.

Mr. Drew said that under ex-isting regulations a surcharge was levied on newspapers carry-ing more than 50 per cent ad-vertising in an edition. This surcharge is being removed. That action, he said, removed the in-centive to retain at least 50 per cent of space for news columns.

Mr. Drew said Mr. Rinfret had referred to the postal rates on newspapers as subsidy rates. He did not think they ever had been regarded as subsidy rates. He believed a concession had been made to see that the rural population received news on in-ternational, national and local events.

He believed the newspapers had co-operated. Their mail sub-scription rates were lower than any other subscription rates. The new rates will discrimi-nate against newspapers at a time when they were more important to the people than ever before.

Kinsmen Prepare For Carnival

The regular meeting of the Kinsmen Club of Summerside was held last evening at Coyle's Restaurant following which all the members went to the Curling Rink to make last minute ar-rangements for the annual car-nival being held there for the balance of this week. It will be opened this evening by His Wor-ship Mayor Henry Wedge.

Jack Oliver was chairman and Howard Sweet was finesmaster. Guests were Howard Lettau, a member of the Montreal Kins-men Club, Mr. Dick Hurst and Mr. Clifford Ramsay of Sum-mer-side.

Harold Arsenault reported that he hopes that construction on the wading pool which the club is giving to the new recreation centre will commence in about two weeks. The matter of club participation in baseball activi-ties was left over for another meeting.

Herb Stright gave a last-mi-nute report on the carnival preparations.—S.

ANNUAL MEETING

state of the fur market. Mr. Cal-beck said that the mink market was strong last year and very strong this year. Fox improved at the end of 1950 and the first auc-tions held in 1951 showed quite an increase in prices with some very gratifying returns for certain types of pelts. Lately there has been a slackening of demand due prin-cipally to the change in the system of marketing in Europe where barter was largely employed by Norway and Sweden to dispose of their fox pelts. There were hope-ful factors, however, and the situ-ation might greatly improve with-in the next few months.

Preferred Pelts

Mr. Callbeck said that the pelts which were bringing the highest prices in London were the heavy furred, heavily veiled types. Re-cently there had been considerable demand for platiums.

Colonel D. A. MacKinnon was also called on and he corroborated what Mr. Callbeck had said and stated that there was considerable talk of a revaluation of European currency with the view of check-ing inflation. At present the low price of currencies such as the British with the pound at \$2.80 American money, and the Italian and French currencies, made it difficult for us to sell in those countries. If the currency is re-valued say even 25 per cent higher it would mean quite a difference to us in prices we would realize for silver fox and mutations.

D. O. Stewart, chairman of the Farm Fur Advertising committee, stated that there was consider-able money in the fox advertising account and also in the mink ac-count, but that the cost of having furs made up and displayed in various centres and also the book-let, Canadian Furs, which has been widely distributed, cut into the receipts very materially. No contribution has been made by the mutation mink breeders but the standard mink breeders and fox breeders have contributed to this fund.

He passed around a booklet en-titled Canadian Furs, with repro-duction photographs of models wearing standard ranch mink, standard silver fox, pearl plat-inum fox, standard and platinum fox made up into very beautiful garments. These are in colors and by a new photographic process which brought out all the beauty of the furs. Three thousand of these had been distributed to lead-ing fur magazines and fur import-ers. It is perhaps, one of the finest brochures ever put out by any country and would be, he felt, ex-tremely helpful in creating fur-ther demand for Canadian fox and furs.

Reappointed Representative

Gordon MacMillan, past pres-ident of the Association, who was absent due to illness, was again appointed as representative to the Federation of Agriculture Board.

Mr. Drew said he recognized the value of the radio but he was convinced that to understand the issue of the day "nothing will ever take the place of the printed word."
