Penslar Wild Strawberry Compound

Wherever there is a baby in the house there should be a bottle of Penslar Wild Strawberry Compound. It brings quick relief to the little one suffering from disorders of the stomach and bowels, cholera infantum, colic diarrhoea etc. and is equally good for adults.

It contains only vegetable remedies and is quite harmless.

Canadians In Fight.

LONDON, Aug. 31. — A message from Reuter's correspondent at British headquarters says that one of the features of Thursday's fighting was the clearing of Jigsaw Wood, eastward of Monchy, by the Canadians. The Germans strongly resisted, but the Canadians swept forward in grand style, and by three in the afternoon, after beginning operations in the morning, they had mopped up the wood. The Canadians claim to have captured sixty guns since Monday.

An officer of the 214th division was taken with his arms folded and an automatic in his hand. He said his men were hopeless poltroons and squealed that they were not going to face the Canadians.

as far west as Calgary, and possibly to the Pacific coast. He will then go south through the middle western states and east through Chicago. He will stop over a day or two at Cochrane to investigate the possibilities of the clay belt in Northern Ontario. If the Allies keep on as they have been doing in the last few months this war should be over before another year. Undoubtedly the war has made Canada much better known abroad than she was before hostilities began, and as a consequence it is expected that many people from overseas will be migrating in this direction. The Federal Government is making preparations to meet this contingency, and as stated elsewhere has already begun an advertising propaganda. If Prince Edward Island expects to participate in this advertising it should make its wishes known with as little delay as possible.

A woman named Grant, living in Gloucester street, was yesterday sentenced to pay a fine of $200 and costs or serve three months in jail for keeping liquor in a public place. The liquor, a small quantity, was found in her home, where she thought she had a perfect right to keep against the time of need. But a sign, "Furs Repaired," in front of her residence, the court sagely declared, made her house a public place under the law, hence the fine. Possibly if liquor were found in a house which bore a sign, "House to Let, apply within," some magistrate could be found with an imagination sufficiently elastic to declare the home a real estate office and therefore a public place within the meaning of the law, and punish the occupant accordingly.

Greater supervision by the Government of the coal output in Canada is under consideration by the cabinet. It is proposed to appoint a commissioner or possibly to confer upon the fuel controllers the necessary powers to speed up production in all the coal mines and probably to exercise over them an authority and control similar to the War trade Board in relation to the steel industry. The general purpose would be to secure the maximum production at a time when fuel famine is threatened.

"Woman Hath Her Reasons, Which Reason Cannot Know"

Ask a woman why she prefers Lipton's Tea, and the probability is she will answer "because" and let it go at that.

There are, however, cogent reasons for this preference.

The first is that Lipton's is the only Tea sold in Canada the quality and flavor of which is guaranteed.

We guarantee it because we grow it on our own plantations. We know the quality of our leaf, and we blend it, and pack it ourselves.

No other firm selling Tea in Canada can give this guarantee.

You cannot know the complete joys of Tea-drinking until you drink
