THE DAILY EXAMINER.

OCTOBER 8, 1879.

The Cattle Show.

The Cattle Show, held in Hon. John Longworth's field, on St. Peter's Road, was very attractive. It was attended by the great majority of farmers of this Province, as well as prominent stock-raisers from Nova Scotia and New Brunswick. At noon His Honor the Lieut. Governor and Suite visited the field. His Honor inspected the horses, cattle, etc., and, we learn, expressed himself well pleased with the exhibit. The Show was visited by Chief Justice Palmer, Judge Hensley, Hon. F. Brecken, M. P., Hon. Col. Grey, members of the Government, and both branches of the Legislature, the Mayor and Stipendiary Magistrate of Charlottetown, and other prominent officials and citizens. Stock-raisers and farmers who were present from other Provinces, expressed their surprise to find so many superior classes of cattle on exhibition. The Show at Halifax was not to be compared with it; and judging from the expressions of those who have visited all, we can safely say that yesterday's was the leading exhibition of cattle held this year in the Maritime Provinces.

HOUSES.

The exhibit of horses was large, and the competition in every class keen. Carriage stallions, fillies and colts made a fine display. The entries for competition consisted of four draft stallions, nine carriage stallions, ten carriage colts, seventeen carriage fillies, two draft colts, three draft fillies, nine carriage mares (with foal), five draft mares (with foal), and three spans of geldings or mares. The first prize carriage stallion was a handsome and nimble dappled grey, which was sired by Dr. Jenkins' "Royal Harry" and damed by a "Morgan" mare, owned by Mr. Thomas Rodd, Brackley Point Road. This fine stallion was deservedly admired by all judges of horse-flesh. The 2nd prize for carriage stallions was carried off by a young stallion owned by C. A. Mitchell, Village Green, which was sired by "Blutcher" from a "Sultan" mare; and the third prize was awarded to a handsome stallion owned by Mr. B. Dockendorff, N. River, by Don Juan from the Dockendorff mare. Mr. Boieser's Brown Stout was awarded first prize as best draft stallion, and a dapple grey by Stockman, owned by Mr. B. Bunting, took second prize; and a Clydesdale, owned by Mr. W. A. Jardine, got third prize. A King Bird colt, owned by Wm. McPhail, Argyle Shore, was awarded first prize as best carriage colt under three years old; and a colt sired by Young Frank, owned by James Marshall, Village Green, took second in that class; and a Dean Swift colt, owned by Wm. Ross, New London, the third. The best carriage filly was by Crown Prince. It was owned by Mr. Jas. Currie, West River. Mayor Dawson's Abraham colt came second; and Mr. W. R. McLeod's colt, sired by Messenger Boy, third. The first prize draft colt was by Brown Stout; the second by Monarch. The draft fillies were excellent animals. We were unable to obtain their pedigree. The first prize for mare with foal was awarded to a mare owned by Mr. Lane, of Lot 49, with foal by Royal Harry; the second prize was awarded to a mare owned by Mr. James Mutch, Lot 48, with a colt by Royal Harry. Mr. R. E. Bagnall's mare, with a foal by Warrior, took first prize as draft mare, etc., and Mr. L. B. Disney's mare with foal by Brown Stout took second. A splendid clean-limbed span of bays, owned by Mr. Mackieson Dixon, of Bannockburn, and both sired by Don Juan, easily took first prize as best span, etc.

We might here remark that on the Cattle Show grounds, yesterday, an American gentleman offered Mr. W. S. McKie \$180 for his three-year old steel-gray gelding, sired by Mr. A. N. Large's Messenger Boy and damed by Lady Cærelton.

CATTLE.

The entries for the competition in cattle consisted of eight short horn bulls, six Ayrshire bulls, two bulls of any breed, eleven milch cows, three short horn and three Ayrshire cows, seven heifers, five short horn bull calves, one Ayrshire heifer calf and two grade heifer calves. This show of cattle was particularly fine and, in the opinion of some farmers, was ahead of the last Provincial Exhibition. The different classes of bulls, cows and calves exhibited would repay inspection by even the most disinterested in cattle raising. An Ayrshire bull calf owned by Hon. D. Davies attracted much attention. It was but six months old and weighed over six hundred and forty pounds. A yearling heifer, the produce of 1878, exhibited by ex Speaker Beer was very fine. On the whole the show of cattle was excellent and very creditable to Queen's County.

SHEEP.
We do not profess to be judges of sheep, but we have heard the opinion of many who are competent judges, and they affirm that yesterday's exhibit of sheep would credit to any country. A Shropshire ram lamb owned by Mr. Wm. Rattray, which took first prize, was purchased by Messrs. Blake Bros. for \$20. The sheep exhibited by Mr. H. Longworth, Mr. Boswell, Mr. Wright, and others, were, we learn, superior to any formerly exhibited.

PIGS.

The show of pigs was not large, although some fine specimen porkers were to be seen. The competition in pigs under three months was very sharp; and Mr. Abram Brown, of Little York, who exhibited three beauties, carried off the prize.

Queen's County Exhibition.

SECOND DAY.

Fine Weather, and a Fine Display at the Drill Shed.

ADDRESS TO THE LIEUTENANT GOVERNOR, WITH REPLY AND SPEECHES.

The strains of the Band of the 82nd Battalion were heard on the streets about eleven o'clock to-day; and, following the music, a large number of persons were soon assembled at the Drill Shed. The Lieutenant Governor and suite, with Judge Hensley, Chairman of the Board of Exhibition Commissioners, arrived at 12 o'clock. Three cheers were given for His Honor and three for Judge Hensley—the Band playing "God Save the Queen" and "He's a Jolly Good Fellow." Judge Hensley acknowledged the compliment paid him, congratulated the assemblage on the fine weather and the creditable display, said he believed it to be the duty of every public man to patronize Industrial Exhibitions, and read the following

ADDRESS:

To His Honor the Honorable Thomas Heath Macleod, Lieutenant Governor, &c., &c., &c.

The Commissioners appointed by the Government to superintend the Exhibition of Agriculture & Local Industry in Queen's Co., have much pleasure in welcoming your Honor on this occasion, and requesting you to declare it opened.

We observe that your Honor has also lately attended like Exhibitions in the other Counties of this Province, which we are glad to learn proved satisfactory and successful. We have endeavored to make this one a success also, so far as the very limited sum placed in our hands for the purpose has enabled us to do.

We believe it to be very desirable that such Exhibitions as the present should annually take place. Their frequent occurrence is, in our opinion, more likely to stimulate improvement and maintain the public interest, than if they were held at more distant intervals. In this Province, we cannot, of course, expect to receive from the public Treasury so large a grant for these purposes as are given in the larger and wealthier Provinces of our Dominion; yet we think that in view of the paramount importance and magnitude of the agricultural interests of Prince Edward Island, the Government would not do wrong if it increased, in the future, the amount of the annual appropriation of public money for the encouragement of such exhibitions as the present. The facilities for attending them have, by means of railway and steamboats, been much increased of late years. That the people, generally, take an interest in them, is evidenced by the large numbers who invariably gather together whenever they are held.

THE LIEUTENANT GOVERNOR'S REPLY.

His Honor returned his cordial thanks. On previous occasions it had been the practice for Governors to read a written reply; but it had not been his habit to confine his remarks to the four corners of a sheet of paper and he would not do so now. He fully endorsed the sentiments of Judge Hensley that it is the duty of public men to patronize agricultural and industrial exhibitions. In this Island especially—where we have no mines and no factories, where our only resources are agriculture and fish—it is the duty of public men to aid, as much as they can, everything calculated to improve, and stimulate the development of, our farms and fisheries. He had the pleasure of visiting the Exhibitions held in Prince and King's Counties. There, as well as here, fine weather had prevailed, and the display in each case was excellent. He thought we failed to appreciate, as we should, the blessings of fine weather. Because of bad weather in England, it was computed that this year the wheat crop of that country is £15,000,000 stg. short. Owing to the same cause, the crops of corn and other grains is £25,000,000 stg. short. On potatoes, the loss is estimated to be £15,000,000. In all, England would have to go into the markets of the world for necessities of life to the value of £60,000,000 stg. He was glad to know that we should be able to supply our quota. Never were we blessed with a more abundant crop. He had been informed that never within the memory of living man has there been on this Island such a crop of wheat, while oats, potatoes and other crops are also exceedingly good. He trusted that our farmers would receive remunerative prices. He was proud of the show of horses, cattle and sheep held yesterday; and he thought great credit was due to the people for the evident improvements made. And, for the Exhibition to-day, he would say that the display of cloth would do no discredit to any country. The cloths compare favorably with those produced in the larger factories of Canada; and he hoped that the factories at Mill Vale and Tryon would be well patronized. The Exhibition is the more creditable when we consider the small amount granted by Government for prize money. The annual exhibitions are no longer experiments—they are fixed facts; and he believed the Legislature would do well if it largely increased the grants in their behalf. He regretted that the Island was not represented at the Dominion Exhibition. He should have been ashamed to have visited Ottawa and to have seen the department at-

lotted to this Island vacant. Where the blame lay he knew not; but he felt that more interest should be taken, especially at this time, when delegations are in Canada to judge of the country as a home for emigrants—to lay bare to the world the products of this Province. He felt convinced that if more interest were taken in the improvement of her agricultural resources this Island would be in reality "the garden of North America"—"the pearl of the Northern Seas." (Cheers.) Agriculture should now be the first consideration of our public men. In England there is now a lucrative market for Canadian Meat. He would like to know why we are not, as a Province, participating in its benefits. Sheep can be raised in perfection here; and yet it is a positive fact that while we were selling sheep to middlemen in St. John for foreign export, our steamer (the "Prince Edward") has been engaged—not in taking them direct from here—but in carrying them direct from the Province of Quebec. He believed we should have a direct trade, and not be distributing the profits of our trade among others. We want a little more "vim," so to speak, in searching out markets. But we have reason to be proud of the productions of our Province. (Cheers.) His Honor then declared the Exhibition open.
