NINE CARS IN BUILDING

Automobile Body Shop Guttled By Evening Fire

An early evening fire which gutted a 2 1/2-story frame building that housed a body shop and several automobiles, in central Charlottetown Friday, caused unestimated damage before being brought under control.

Two cars, was Floyd Drake, of 191 Graton Street. Mr. Drake was unable to estimate the value of the building, a former ice house, or the extent of the possible loss.

City Child Fatally Injured

Eight-year-old Pauline Karen MacLeod, daughter of Mr. and Mrs. Raymond MacLeod, of 241 Dorchester Street, died last night after she was struck by a delivery truck on Prince Street.

Owner of the building, which was reported to have been rented to MacLeod's for the past five years, was Floyd Drake, of 191 Graton Street.

POPE GIVES CROWN TO POOR OF WORLD

Pope Paul VI, assisted by Msgr. Ezario Hank, Prefect of the Vatican Ceremonial Congregation, places his three-tiered, gold and silver crown on the altar during a special mass in St. Peter's Basilica in Rome Friday.

The Pontiff donated the crown, which was worn at his coronation in 1963, to the poor of the world. The crown is symbolic.

AGRICULTURE MINISTER ELATED

World Record Believed By MacAulays In Spuds

TORONTO (Special) — The Syl MacAulay family of Campbell's Cove — East Baltic RR is the address — must have established an all-time world's record for successful participation in world potato exhibitions.

When Syl MacAulay won the reserve grand seed potato championship at Toronto this year, she was the third member of her family to win world championship honors over a nine-year period.

The previous victories were even more outstanding as her father won the Grand Championship in the competition on Nov. 10, 1955 with a sample of Katahdins, and her sister Anne won the Grand Championship again in 1961 and again with a sample of Katahdins. And now Sylvia wins the reserve world title and what kind of potatoes do you suppose she entered? Katahdins, of course like her sister, Sylvia won the championship honors over a nine-year period.

Margie Howson Enters Hospital With Pneumonia

HAMILTON, Ont. (CP) — Margie is in hospital.

The eight-year-old victim of leukemia was rushed to St. Joseph's hospital Thursday night with an attack of pneumonia.

Her doctor ordered her immediate admission to hospital after Margie had her weekly check-up Thursday. She has a fever and bad cough.

Her condition is listed as "good," however, and she is expected to make her Disneyland trip next week.

If all goes well, Margie and her mother will leave for Disneyland on Wednesday when an Air Canada flight from Toronto International Airport will take them to Chicago. They transfer to a Continental Airlines jet which lands in Los Angeles at 5:40 p.m. local time.

Transportation will be provided by the two airlines, in co-operation with the Hamilton Spectator.

They stay at Disneyland Hotel, and any other expenses, will be provided by Margie's Special Wish Fund which was launched by the Mountain Lions Club and has collected more than \$700.

Money not needed for the trip will be used to help Hamilton's other leukemia victims.

Letters pencilled by children's fingers and letters scribbled by aging hands poured in for Margie Howson.

CHRISTMAS COUNTDOWN ONLY 34 SHOPPING DAYS LEFT

Thompson Has Information Three Belgians Executed

NAIROBI, Kenya (AP) — Robert Thompson, leader of Canada's Social Credit party, reported Friday night he has information three Belgians held hostage by Congolese rebels in Stanleyville have been executed and three more are under sentence of death.

He said that according to his information, from diplomatic sources, the executions followed a meeting in Ntali by a rebel military, the Congo Reconciliation Commission.

Thompson said captives "in Stanleyville" came from 15 nations, 28 Canadians and about 30 Belgians.

Among the captives were a Canadian, a Kenyan, a Belgian and a Frenchman.

Thompson flew back here Friday after talks in Addis Ababa with Ethiopia's Emperor Haile Selassie.

He is returning to Addis Ababa today for another round of talks.

The emperor promised to do what he could from a humanitarian point of view and to send a personal message to Kenya's Prime Minister Jomo Kenyatta on the subject, said Thompson.

Thompson said he had a meeting with Kenyatta who is head of the Congo Reconciliation Commission.

Lone Bandit Robs Bank At Stewiacke

STEWIACKE, N.S. (CP) — A lone bandit, brandishing a \$200 escapee was a toy pistol, may have been more than \$2,500 from a Royal Bank of Canada branch here early Friday night.

Teller Cindy Smith, 17, of Stewiacke said the bandit, tall and wearing a plastic falloween mask and felt hat, entered the bank after it had opened at 1:30 for Friday evening business in this community, about 30 miles north of Halifax.

He was carrying a blue satchel and was holding a long-barreled pistol that "didn't look real."

The teller said she thought it was a joke and several people in the bank laughed. But the bandit waved the weapon and guided one woman customer by her shoulder to a corner of the room.

Miss Smith said the man ordered her to empty the money from her till into the bag. She did so, but pushed an alarm button with her foot.

France Demands Aircraft Reply

LONDON (AP) — France called on the British government to reply to a demand that it go to an aid with the Concorde airliner or not.

A note from Premier Georges Pompidou delivered to Prime Minister Harold Wilson said stiffly, since Britain had called for a review of the joint supersonic jet airliner project, it is up to Britain to define her position.

LORNE GREENE IS DISARMED

SYDNEY, Australia (Reuters) — Australian customs officials "disarmed" Lorne Greene, star of the U.S. television western Bonanza, when he arrived at Sydney Airport Friday.

Greene, here for a series of guest appearances, was wearing a Colt .44 revolver in an elaborate holster when he arrived from the U.S. but regulations forbid the import of firearms into Australia, and he had to hand it in his gun.

Greene is a native of Ontario, Ont., and for many years was a CBC news announcer.

BORDER CLASH

Local Commission To Make Decision

By FARMER TISSINGTON Capital Bureau, The Guardian

OTTAWA — The dual members for Quebec's County in Prince Edward Island Friday led a successful fight in the Commission to have the matter of dual support seats left up to the discretion of the individual redistribution commission in each province.

The matter came up just prior to passing of second reading of the governments redistribution bill and Hon. J. Angus MacLean and Heath MacQuarrie argued that the decision should

rest with the commissions in the individual provinces and not be subject of a legislative act. The amendment, proposed by Mr. MacLean, carried in committee of the whole by a vote of 28 to 17.

B.C. OBJECTION Objection was raised by Tom Barnett, NDP member, from British Columbia, who expressed the fear that the question of dual ridings might not be confined solely to Quebec and to Halifax ridings, as it presently is, but might spread to

Redistribution Bill Passes In Committee

OTTAWA (CP) — The bill that would result in a redistribution of Canada's electoral boundaries, a measure that has been before the Commons off and on since April, was cleared through committee stage Friday and only third reading — usually a formality — remains.

The last major hurdle was nailed down by a vote of 69 to 11 when the Commons approved an amendment proposed by E. J. Williams, P.C., Bow River, that the tolerance figure in "redefining boundaries" be raised to 25 per cent from 10.

The government had originally proposed that the size of a constituency could not vary more than 20 per cent above or below a standard population size.

Six New Democrats and five Liberals voted against the higher tolerance figure, which was supported by most Liberals, the Progressive Conservatives, Social Credit and Creditiste MPs.

Later the committee approved, without a vote, an amendment by Maurice Morin (L.-Yves Scarborough) that would instruct the 10 redistribution committees to complete the work by June 1, 1965, — to take account of the rates of population growth when considering new boundaries.

Mr. Morin said the commissions should take account of rates of growth in applying the tolerance figure to ensure a riding would not grow out of its tolerance limit in subsequent years.

Mr. Morin said the commissions should take account of rates of growth in applying the tolerance figure to ensure a riding would not grow out of its tolerance limit in subsequent years.

Wrens Will Aid Easter Is. Study

OTTAWA (CP) — Two Canadian women naval officers will be with an international scientific expedition when it sets out Monday from Halifax for the south-eastern Pacific.

Annex 1 of the expedition will be the WRENS in 1964. The project, bringing together scientists from Canada, Chile, Britain, the United States and several Scandinavian countries, is part of the human adaptability study of the international biological program. It is sponsored by the World Health Organization.

Both the Canadian women have qualifications which fit them for their special assignment.

Leut. King has a specific background. She was a communications officer in the Second World War, and was a statistician with the Army of Canada during the Limited of Chalk River, Ont., before re-entering the WRENS in 1961.

In her spare time she runs the planetarium of the Nova Scotia Museum in Halifax and lectures on astronomy. She normally based at defence headquarters in Ottawa.

The two WRENS will not be the only women aboard the Cape Scott during its five-month cruise in the Pacific. A number of the participating scientists are taking their wives on the expedition.

Gov.-General Gives Canadian Unity Talk

By BRENDA LARGE

OTTAWA (CP) — White House Gov.-General Vanier gave a group of Canadian teenagers a grandfatherly talk Friday about Canadian unity.

The 76-year-old governor-general told 140 members from 4-H clubs across the country.

"We're going through a confused period now in Canada. We have a certain number of growing pains that I hope will soon cease to grow."

"I want you to understand that you have a great role to play in the future of Canada."

Looking out over the crowd of junior farmers, he said: "It's my responsibility to tell you about your responsibility to the future."

ADVCE GIVEN "Get to know the young people who are here from other provinces."

"That's all we need to do in Canada — to get to know each other better and go forward together to the great destiny that is before us."

He had a special word, in French, for the 4-H club members from Quebec.

"You are the minority here — but by mixing with the others

you will get to know that the young people of other provinces are really just like you.

"I don't know of a better way to strengthen the bonds of friendship and trust between the two founding races of Canada than as I'm doing this."

HERE FOR MEETING The club members were in Ottawa for part of their annual national conference which continues today in Toronto.

Gen. Vanier singled out a 16-year-old girl from Prince Edward Island for special mention.

"I want to recall a wonderful memory from Prince Edward Island," he said. "Miss Mica Lida Matheson please come forward."

As the North Milton, P.E.I., girl stepped out of the large crowd, the governor-general said:

"I just wanted to congratulate you for that beautiful address you read to the Queen on behalf of the youth of P.E.I. when she visited here."

Miss Matheson delivered the address to the Queen at a huge crowd, the governor-general said.

She was in Charlottetown during the Royal Visit to October.

LINDA MATHESON, 16, North Milton, Prince Edward Island receives congratulations from Governor-General Vanier and Miss Vanier.
